

1

00:00:00,000 --> 00:00:03,720

You have a report in center?

2

00:00:03,720 --> 00:00:05,800

I'm calling from Plymouth, North Carolina.

3

00:00:05,800 --> 00:00:06,800

Yes.

4

00:00:06,800 --> 00:00:09,000

I don't know what I do.

5

00:00:09,000 --> 00:00:15,320

Somebody gave me this number, but I saw something spectacular in the sky last night that I have

6

00:00:15,320 --> 00:00:16,320

no explanation for.

7

00:00:16,320 --> 00:00:21,720

In fact, I'm sure as many as 50 to 100 people saw it in different areas last night.

8

00:00:21,720 --> 00:00:24,480

Okay, would you describe what you saw?

9

00:00:24,480 --> 00:00:25,480

Okay.

10

00:00:25,480 --> 00:00:29,240

What I saw appeared not to have much of a shape.

11

00:00:29,240 --> 00:00:31,240

On one side it looked round.

12

00:00:31,240 --> 00:00:32,240

Yes.

13

00:00:32,240 --> 00:00:36,080

All right, on the other side, I couldn't tell you what shape it was.

14

00:00:36,080 --> 00:00:37,080

I just couldn't see it.

15

00:00:37,080 --> 00:00:39,640

It was such a dark night, even though there were a lot of stars.

16

00:00:39,640 --> 00:00:45,120

I'm sure it had as many as 20 pulsating red lights.

17

00:00:45,120 --> 00:00:48,320

One white light at the front of it.

18

00:00:48,320 --> 00:00:52,720

Okay, when I stopped on the highway, it also stopped.

19

00:00:52,720 --> 00:00:56,600

All right, I cut my car off to get out to see if I could hear it.

20

00:00:56,600 --> 00:00:57,960

I could not hear it.

21

00:00:57,960 --> 00:00:58,960

Okay.

22

00:00:58,960 --> 00:01:02,480

I waited a minute, hoping somebody else would come by and stop.

23

00:01:02,480 --> 00:01:03,480

Nobody did.

24

00:01:03,480 --> 00:01:05,360

The object stayed right there.

25

00:01:05,360 --> 00:01:10,960

I turned around and went back about a mile, which is on a fairly straight stretch of road

26

00:01:10,960 --> 00:01:12,680

into my mother-in-law's.

27

00:01:12,680 --> 00:01:15,720

When I pulled into her driveway, I could still see it.

28

00:01:15,720 --> 00:01:18,320

I went in and got her to come out and look at it.

29

00:01:18,320 --> 00:01:22,640

She came out, but she's an elderly lady, and she just could not see it that far away.

30

00:01:22,640 --> 00:01:24,960

I could still see the pulsating red lights.

31

00:01:24,960 --> 00:01:25,960

Okay.

32

00:01:25,960 --> 00:01:30,680

I got her in the car, but by the time I got back on highway, the object was gone.

33

00:01:30,680 --> 00:01:35,840

All right, we've had people that reported seeing it in a triangular shape.

34

00:01:35,840 --> 00:01:41,800

We've had two ladies that have told us it appeared to change shapes from oval to triangular.

35

00:01:41,800 --> 00:01:47,960

They all described it with pulsating red lights and one big white light.

36

00:01:47,960 --> 00:01:53,600

We've had people that said it hovered over their houses.

37

00:01:53,600 --> 00:01:56,880

We've had one man that said it appeared to follow him down the highway.

38

00:01:56,880 --> 00:02:01,440

I work at a radio station, and we've had lots of calls this morning about it.

39

00:02:01,440 --> 00:02:02,440

You don't have any explanation.

40

00:02:02,440 --> 00:02:03,640

You can't give me any explanation.

41

00:02:03,640 --> 00:02:08,440

We call Cherry Point, which is our nearest Air Force station, and they could give us no

42

00:02:08,440 --> 00:02:09,440

explanation whatsoever.

43

00:02:09,440 --> 00:02:14,160

They said that they had only normal maneuvers going on last night in our area.

44

00:02:14,160 --> 00:02:15,800

Okay, now what time did that occur?

45

00:02:15,800 --> 00:02:18,960

I saw it at five minutes to seven.

46

00:02:18,960 --> 00:02:20,960

My husband saw it at quarter to seven.

47

00:02:20,960 --> 00:02:24,640

He left the house about ten minutes ahead of me.

48

00:02:24,640 --> 00:02:27,520

All right, he went six miles down the road.

49

00:02:27,520 --> 00:02:31,280

It circled over where he was and came back.

50

00:02:31,280 --> 00:02:32,280

Okay.

51

00:02:32,280 --> 00:02:39,640

He also saw one of the flashing red lights leave it and go slam out of sight.

52

00:02:39,640 --> 00:02:45,080

Now, when you stopped and got out of the car, can you estimate the distance between you

53

00:02:45,080 --> 00:02:47,440

and the object at that point?

54

00:02:47,440 --> 00:02:48,440

Okay.

55

00:02:49,440 --> 00:02:55,440

All right, the radio station tower here is, how tall did you tell me?

56

00:02:55,440 --> 00:02:59,640

About 285 feet.

57

00:02:59,640 --> 00:03:04,200

I would say not much higher up than that.

58

00:03:04,200 --> 00:03:07,600

And maybe it was, I'm not a very good distance person.

59

00:03:07,600 --> 00:03:08,600

You know.

60

00:03:08,600 --> 00:03:09,600

Especially at night.

61

00:03:09,600 --> 00:03:12,680

Right, it was just, and I'm not good in the daytime either.

62

00:03:12,680 --> 00:03:15,800

It was just, I could tell whatever it was was huge.

63

00:03:16,480 --> 00:03:18,800

Okay, do you feel it was within a city block?

64

00:03:18,800 --> 00:03:20,800

No, it was taller than that.

65

00:03:20,800 --> 00:03:21,800

Higher than that.

66

00:03:21,800 --> 00:03:22,800

I mean, away from you.

67

00:03:22,800 --> 00:03:25,800

No, it was farther than that.

68

00:03:25,800 --> 00:03:26,800

Okay.

69

00:03:26,800 --> 00:03:27,800

Okay.

70

00:03:27,800 --> 00:03:30,800

Now, how long did you watch it all together?

71

00:03:30,800 --> 00:03:31,800

All about three minutes.

72

00:03:31,800 --> 00:03:32,800

Okay.

73

00:03:32,800 --> 00:03:34,800

But we've had other people that watched it longer than that.
