

1

00:00:00,000 --> 00:00:03,000

Do you have a reporting center?

2

00:00:03,000 --> 00:00:06,000

Yeah, hi. My name is Bill Luton, Elk, Washington.

3

00:00:06,000 --> 00:00:07,000

Yes, sir.

4

00:00:07,000 --> 00:00:10,000

And I guess a friend of mine just called and insisted I call you guys.

5

00:00:10,000 --> 00:00:13,000

Yes, we'd like to hear about what happened.

6

00:00:13,000 --> 00:00:15,000

Really? That's pretty weird.

7

00:00:15,000 --> 00:00:21,000

Okay, well, I'll tell you. About six o'clock last night, we sat in here and watched a TV.

8

00:00:21,000 --> 00:00:22,000

I lived out on the lake.

9

00:00:22,000 --> 00:00:23,000

Yes.

10

00:00:23,000 --> 00:00:29,000

Okay. And the power went out and a bright light lit up the sky outside.

11

00:00:29,000 --> 00:00:34,000

I mean, real dark green light, but it's like daytime almost.

12

00:00:34,000 --> 00:00:36,000

And the first thing we do is start shutting down.

13

00:00:36,000 --> 00:00:39,000

I don't think there's a power transformer or something going on.

14

00:00:39,000 --> 00:00:42,000

And then it stayed for probably about 10 seconds.

15

00:00:42,000 --> 00:00:44,000

And then there was a weird hum too.

16

00:00:44,000 --> 00:00:47,000

And then the light shut off and our power came back on.

17

00:00:47,000 --> 00:00:49,000

We thought it was pretty weird, so I went out and checked the lines.

18

00:00:49,000 --> 00:00:51,000

There was nothing wrong with them.

19

00:00:51,000 --> 00:00:53,000

And then it came back in and did the same thing.

20

00:00:53,000 --> 00:00:56,000

Well, listen, I was saying, me and my son, we ran outside and looked up.

21

00:00:56,000 --> 00:01:00,000

And it was straight above us like a huge spotlight, but it's snowing.

22

00:01:00,000 --> 00:01:03,000

So you can't really see anything except this light.

23

00:01:03,000 --> 00:01:06,000

It's white and green light.

24

00:01:06,000 --> 00:01:08,000

And then this weird humming was going on too.

25

00:01:08,000 --> 00:01:11,000

My daughter fell but upstairs.

26

00:01:11,000 --> 00:01:14,000

And then it went off again and our power came back on.

27

00:01:14,000 --> 00:01:21,000

So we kind of waited it out and it did it a couple more times.

28

00:01:21,000 --> 00:01:23,000

And then we lost power completely.

29

00:01:23,000 --> 00:01:27,000

And then about two hours later the same thing happened.

30

00:01:27,000 --> 00:01:29,000

That light came on and we went back outside.

31

00:01:29,000 --> 00:01:35,000

It was right above us again except this time it started off a big dark red wall of light.

32

00:01:35,000 --> 00:01:39,000

Dark red and then it changed to green and that weird hum again.

33

00:01:39,000 --> 00:01:42,000

And then it stayed for probably about 10 seconds.

34

00:01:42,000 --> 00:01:48,000

Yeah, then it got purple and then it left again and we still didn't have any power.

35

00:01:48,000 --> 00:01:50,000

So that was just pretty odd.

36

00:01:50,000 --> 00:01:57,000

And we were thinking there's not going to be any aircraft out here or helicopters in there.

37

00:01:57,000 --> 00:02:01,000

So we probably got a bit of a foot of snow out here.

38

00:02:01,000 --> 00:02:04,000

And there's no power lines above our house.

39

00:02:04,000 --> 00:02:06,000

It's just not something to sky.

40

00:02:06,000 --> 00:02:07,000

So it's pretty weird.

41

00:02:07,000 --> 00:02:10,000

Now that humming sound, was it steady?

42

00:02:10,000 --> 00:02:12,000

Only when the light was on.

43

00:02:12,000 --> 00:02:19,000

Okay, now this light, did this just appear as a light phone or was there a beam or a cone of light?

44

00:02:19,000 --> 00:02:26,000

Well, it appeared as a light form at first when it was the dark green.

45

00:02:26,000 --> 00:02:29,000

So darn bright you really couldn't make out anything.

46

00:02:29,000 --> 00:02:34,000

But the second time though when it started off red that was more like a round beam.

47

00:02:34,000 --> 00:02:38,000

But then it split to the dark green again and then it lit up everything.

48

00:02:38,000 --> 00:02:40,000

Like the first incident.

49

00:02:40,000 --> 00:02:42,000

Illuminated the ground.

50

00:02:42,000 --> 00:02:46,000

Yeah, and in the lake and the whole dog on sky.

51

00:02:46,000 --> 00:02:49,000

That was out over quite a wide area.

52

00:02:49,000 --> 00:02:51,000

Yeah, it was.

53

00:02:51,000 --> 00:02:53,000

As far as we could see.

54

00:02:53,000 --> 00:02:58,000

And then it did it, when it did it once, the third time after the red ball,

55

00:02:58,000 --> 00:03:03,000

then we were able to locate it and it was off to the little south of us.

56

00:03:03,000 --> 00:03:07,000

Like it was directly above us but it was to the right and then it lit up green again.

57

00:03:07,000 --> 00:03:11,000

But the sheet with that sucker and light of red you couldn't tell really where that thing was coming from.

58

00:03:11,000 --> 00:03:14,000

I mean green you can tell where it was coming from.

59

00:03:14,000 --> 00:03:15,000

Anyway.

60

00:03:15,000 --> 00:03:17,000

Did you check with the power company?

61

00:03:17,000 --> 00:03:26,000

Yeah we called Inland Power who are power's through and they got about five reports from where we live at the same area.

62

00:03:26,000 --> 00:03:29,000

One lady was on our street here that we live on.

63

00:03:29,000 --> 00:03:32,000

One lady was kind of hysterical too.

64

00:03:32,000 --> 00:03:35,000

So they had about five reports of the same problem.

65

00:03:35,000 --> 00:03:37,000

Okay, that's called Inland Power?

66

00:03:37,000 --> 00:03:39,000

Inland Power Company, right.

67

00:03:39,000 --> 00:03:42,000

Okay, located in Spokane.

68

00:03:42,000 --> 00:03:43,000

Newport.

69

00:03:43,000 --> 00:03:46,000

Newport, okay.

70

00:03:46,000 --> 00:03:50,000

Now how long did all of this take place?

71

00:03:50,000 --> 00:03:51,000

Over what period of time?

72

00:03:51,000 --> 00:03:57,000

Between probably about six o'clock to about...

73

00:03:57,000 --> 00:03:58,000

Okay.

74

00:03:58,000 --> 00:04:00,000

Between about six and eight twenty-five.

75

00:04:00,000 --> 00:04:03,000

Okay.

76

00:04:03,000 --> 00:04:05,000

How many witnesses to all this?

77

00:04:05,000 --> 00:04:09,000

Uh, well it's me, my wife, my son and my daughter.

78

00:04:09,000 --> 00:04:12,000

Okay.

79

00:04:12,000 --> 00:04:17,000

Now when you looked at that light did it bother your eyes at all?

80

00:04:17,000 --> 00:04:19,000

Yeah it did.

81

00:04:19,000 --> 00:04:21,000

You can look directly at it.

82

00:04:21,000 --> 00:04:24,000

You try to but yeah.

83

00:04:24,000 --> 00:04:28,000

Was there any pits or livestock in the area?

84

00:04:28,000 --> 00:04:30,000

Uh, just our cats there and how...

85

00:04:30,000 --> 00:04:32,000

Could it seem to bother them?

86

00:04:32,000 --> 00:04:33,000

They don't really flip right through.

87

00:04:33,000 --> 00:04:36,000

Okay.

88

00:04:36,000 --> 00:04:40,000

You say your daughter could hear or feel the vibrations from that humming?

89

00:04:40,000 --> 00:04:41,000

Right.

90

00:04:41,000 --> 00:04:45,000

Okay.

91

00:04:45,000 --> 00:04:53,000

Okay, well we sure appreciate the information on that and if we come up with any more information during our investigation we'll let you know about it.

92

00:04:53,000 --> 00:04:54,000

Okay.

93

00:04:54,000 --> 00:04:55,000

Thanks a lot.
