

1

00:00:00,000 --> 00:00:08,000

Hi Rob. Yes sir. Sorry to bother you. I don't know. I just saw a call that I thought you might want to log in.

2

00:00:08,000 --> 00:00:14,000

Up in Vancouver, off Vancouver. I just saw a call from a guy in Vancouver Island, on Vancouver Island.

3

00:00:14,000 --> 00:00:21,000

Okay. And they saw the same thing. Beautiful. And saw the same thing off just off Vancouver Island.

4

00:00:21,000 --> 00:00:27,000

They thought it looked like a plane on fire. It was just very fiery and quite streaky.

5

00:00:27,000 --> 00:00:33,000

Uh huh. And so we called in a reporter's show. I figured since I'd seen the call and said the money, I'm calling you instead.

6

00:00:33,000 --> 00:00:36,000

Beautiful. What's the man's name?

7

00:00:36,000 --> 00:00:44,000

Okay, beautiful. I call this the Associated Press. They haven't had a thing on it.

8

00:00:44,000 --> 00:00:55,000

The TI hasn't had a thing on it. But they get a call from a senior queen in high school who lives on the right overlooking the water on the Queen Island.

9

00:00:55,000 --> 00:01:02,000

You know, and he saw the thing over the sound. Well you're right. And it was maneuvering at the time.

10

00:01:02,000 --> 00:01:08,000

And then by the time you got to the one other thing, it turned east and just shot away like a bullet.

11

00:01:08,000 --> 00:01:13,000

Well I'll be damned. Well, it looks like there's more than one then.

12

00:01:13,000 --> 00:01:16,000

I think so. It appears that way. Well I'll be damned.

13

00:01:16,000 --> 00:01:28,000

And usually this sort of thing over the past, we've experienced that other areas that have had similar wide spread sightings, which appear to be fireball of my back,

14

00:01:28,000 --> 00:01:32,000

you're usually followed up with extensive activity in the future.

15

00:01:32,000 --> 00:01:36,000

I'll be damned. Okay, well listen, I'll talk to you later then.

16

00:01:36,000 --> 00:01:37,000

Thanks a lot, Chad. Bye bye.
