

1

00:00:00,000 --> 00:00:07,000

This is Bob Grebel of Phenomenore Research in Seattle, Washington.

2

00:00:07,000 --> 00:00:16,000

What kind of information or recent information do you have on the so-called meteor in that

3

00:00:16,000 --> 00:00:17,000

period near McKinnon?

4

00:00:17,000 --> 00:00:20,000

It was in Lewis County down by Chihilis.

5

00:00:20,000 --> 00:00:21,000

Lewis County?

6

00:00:21,000 --> 00:00:26,000

Yeah, you want me to give you this phone number?

7

00:00:26,000 --> 00:00:27,000

Yes, please.

8

00:00:27,000 --> 00:00:28,000

Okay.

9

00:00:28,000 --> 00:00:32,000

Do you have the approximate location of that?

10

00:00:32,000 --> 00:00:40,000

Well, evidently it was somewhere near the county line and all I had was we did have

11

00:00:40,000 --> 00:00:50,000

a complaint at about 8 o'clock last night and it said in a tonal area which is in our

12

00:00:50,000 --> 00:00:52,000

county but it turned out to be south of that.

13

00:00:52,000 --> 00:00:54,000

So I don't really know.

14

00:00:54,000 --> 00:00:58,000

So you know there was steam plantus down there in Lewis County?

15

00:00:58,000 --> 00:00:59,000

Yes.

16

00:00:59,000 --> 00:01:05,000

So evidently it was 10 to 15 miles west of that but us just you know, here's the information.

17

00:01:05,000 --> 00:01:08,000

I really don't have anything definite.

18

00:01:08,000 --> 00:01:10,000

Okay, thanks very much.

19

00:01:10,000 --> 00:01:11,000

Bye-bye.
