

1

00:00:00,000 --> 00:00:07,000

I was laying on my Gevin Ploch's photo half the life of TV, it must have been around 8.30,

2

00:00:07,000 --> 00:00:09,000

somewhere like that.

3

00:00:09,000 --> 00:00:16,000

I didn't read too much text the other time, I just noticed that there was a shooting star,

4

00:00:16,000 --> 00:00:21,000

and I never seen him, my husband always sees all these, and I was just, I just had to glance up,

5

00:00:21,000 --> 00:00:25,000

but it was awful bright, but not real big.

6

00:00:25,000 --> 00:00:39,000

I did see it fall, and it was over in, I believe, kind of a new cinema, or, well from the angle I was looking at,

7

00:00:39,000 --> 00:00:52,000

it was southeast of where I'm, see I'm 5 miles north of Enlaska, and it was, it wasn't really a heck of a big one,

8

00:00:52,000 --> 00:00:54,000

but it was brighter than anything.

9

00:00:54,000 --> 00:00:57,000

Okay, what direction was it traveling?

10

00:00:57,000 --> 00:01:06,000

It came from the south, and kind of an angle, you know, kind of came northeast, you know.

11

00:01:06,000 --> 00:01:08,000

South to northeast?

12

00:01:08,000 --> 00:01:15,000

I believe, okay, it seemed like it was, kind of at an angle, it's coming.

13

00:01:15,000 --> 00:01:18,000

Uh huh.

14

00:01:18,000 --> 00:01:25,000

It seemed to be extremely, it seemed like it was almost straight up, you really can tell,

15

00:01:25,000 --> 00:01:29,000

but it was at an angle of northeast.

16

00:01:29,000 --> 00:01:31,000

I see, okay.

17

00:01:31,000 --> 00:01:34,000

Okay, well we sure appreciate your calling.

18

00:01:34,000 --> 00:01:38,000

Yeah, I never realized until a guy from the county called me this morning,

19

00:01:38,000 --> 00:01:41,000

he was going to come out and check my granny, and he said they're looking for a meteorite,

20

00:01:41,000 --> 00:01:45,000

and I said, oh I said I can't eat fall, you know, and he said you did!

21

00:01:45,000 --> 00:01:50,000

I was listening to the news and it said to call, you know, and let you know,

22

00:01:50,000 --> 00:01:56,000

so I really, it just was kind of a surprise, I mean I never seen anything fall like that before.

23

00:01:56,000 --> 00:02:01,000

Yes, okay, and if you ever see anything again in the future, be sure to give us a call.

24

00:02:01,000 --> 00:02:02,000

Yeah, I will do that.

25

00:02:02,000 --> 00:02:03,000

Thank you very much.

26

00:02:03,000 --> 00:02:04,000

Bye.
