

1

00:00:00,000 --> 00:00:07,000

We were hunting last night, yesterday, and we were displaced down at Gunn with Katrina

2

00:00:07,000 --> 00:00:10,000

in New Year, whatever it was.

3

00:00:10,000 --> 00:00:12,000

And it's on top.

4

00:00:12,000 --> 00:00:14,000

It's a mountain, really.

5

00:00:14,000 --> 00:00:16,000

It's not right near it.

6

00:00:16,000 --> 00:00:20,000

And it was about whatever time it went over.

7

00:00:20,000 --> 00:00:24,000

Yeah, the front top looked out the end of the station.

8

00:00:24,000 --> 00:00:29,000

It's 5,000 feet up, and we were running through the fire, and we tried coming from the mouth.

9

00:00:29,000 --> 00:00:34,000

We were up there, but we were up and out while it was front.

10

00:00:34,000 --> 00:00:40,000

And we were watching all the way down until it broke up, and we were watching through the knock at it.

11

00:00:40,000 --> 00:00:43,000

And we watched it fall on the whole team.

12

00:00:43,000 --> 00:00:48,000

So I was wondering, you know, and we didn't take anything about it, so we came home and got this, you know,

13

00:00:48,000 --> 00:00:52,000

literally across the room, and we were talking about it all over the place.

14

00:00:52,000 --> 00:00:56,000

So we thought we could call from the weapon and see if we had anything in these in here.

15

00:00:56,000 --> 00:01:00,000

You know, this is by the Sun top, without station?

16

00:01:00,000 --> 00:01:05,000

Yeah, right down by Nautry and the Eros on 410, going up to the finish path.

17

00:01:05,000 --> 00:01:06,000

It's under here.

18

00:01:06,000 --> 00:01:09,000

Huckleberry Creek, you take the Huckleberry Creek out here.

19

00:01:09,000 --> 00:01:10,000

Okay.

20

00:01:10,000 --> 00:01:15,000

Now, approximately what time? Do you have any idea of what?

21

00:01:15,000 --> 00:01:19,000

Well, let's see, we're up to 5,000 feet. It just got dark out.

22

00:01:19,000 --> 00:01:24,000

I mean, you know, before you could see the sun still kind of, you know,

23

00:01:24,000 --> 00:01:26,000

just that dark out.

24

00:01:26,000 --> 00:01:30,000

Probably still, probably about 8.40, whatever time of the day,

25

00:01:30,000 --> 00:01:31,000

just a little bit later.

26

00:01:31,000 --> 00:01:32,000

Yeah, 8.30.

27

00:01:32,000 --> 00:01:33,000

Yeah, about 9.00.

28

00:01:33,000 --> 00:01:37,000

The reason I asked this is because there's several objects involved.

29

00:01:37,000 --> 00:01:41,000

Yeah, we've got two of them. We've just got a glimpse of the second one.

30

00:01:41,000 --> 00:01:46,000

The one we tried, it was paralleling the coming kind of northeast from the mountain.

31

00:01:46,000 --> 00:01:51,000

We tried first to visit the northeast and it's kind of parallel to the mountain.

32

00:01:51,000 --> 00:01:55,000

And it looked like right over to the pass in the Acomar area,

33

00:01:55,000 --> 00:01:57,000

some places, these kind of crumpled up and like that.

34

00:01:57,000 --> 00:02:00,000

Now, you say this was coming from the northeast?

35

00:02:00,000 --> 00:02:04,000

Yes, from the northeast a little bit.

36

00:02:04,000 --> 00:02:05,000

It was one of the...

37

00:02:05,000 --> 00:02:07,000

And kind of running parallel with the mountain range?

38

00:02:07,000 --> 00:02:08,000

Yeah.

39

00:02:08,000 --> 00:02:09,000

Uh-huh.

40

00:02:09,000 --> 00:02:12,000

And it was really strange because we were caught.

41

00:02:12,000 --> 00:02:15,000

I mean, we were right away, we were looking after the gnarculee.

42

00:02:15,000 --> 00:02:19,000

I don't even know how far away from what we were, but from what we saw,

43

00:02:19,000 --> 00:02:24,000

it was flaming, whatever it was, and it had a tail on it.

44

00:02:24,000 --> 00:02:25,000

Uh-huh.

45

00:02:25,000 --> 00:02:29,000

And I thought it was just a king-size sky rock if the thing that could be that.

46

00:02:29,000 --> 00:02:31,000

So that's what it looked like.

47

00:02:31,000 --> 00:02:34,000

It's telling us about the one we were about 100 yards long.

48

00:02:34,000 --> 00:02:36,000

It's pretty gigantic.

49

00:02:36,000 --> 00:02:41,000

And it looked like a plane shaking and it probably was, or something like that.

50

00:02:41,000 --> 00:02:44,000

You say it looked like there was a plane shaking?

51

00:02:44,000 --> 00:02:45,000

Yeah.

52

00:02:45,000 --> 00:02:51,000

You know, it was behind it about 15 minutes or so, but it's that whatever it was we saw

53

00:02:51,000 --> 00:02:54,000

was really, really moving right along.

54

00:02:54,000 --> 00:02:55,000

Yeah.

55

00:02:55,000 --> 00:02:56,000

And that was just the one or two?

56

00:02:56,000 --> 00:02:57,000

That was the one.

57

00:02:57,000 --> 00:02:58,000

The one, okay.

58

00:02:58,000 --> 00:03:02,000

And then we thought, that's about parallel where it was just about,

59

00:03:02,000 --> 00:03:08,000

I'd say down a little more, about 10 miles more south first mountain range.

60

00:03:08,000 --> 00:03:10,000

We thought it would break up.

61

00:03:10,000 --> 00:03:13,000

But it went down and we weren't playing anymore.

62

00:03:13,000 --> 00:03:16,000

So I think it was whatever it was, we were all out of plane.

63

00:03:16,000 --> 00:03:17,000

You know what I mean?

64

00:03:17,000 --> 00:03:18,000

Right.

65

00:03:18,000 --> 00:03:22,000

You know, it broke up and we were about, you know, we don't know how many feet in it,

66

00:03:22,000 --> 00:03:23,000

but it really sprained.

67

00:03:23,000 --> 00:03:25,000

But then we got into the rest of another one.

68

00:03:25,000 --> 00:03:30,000

I think it was one that everybody's talking about, and it's going to fly on in the air.

69

00:03:33,000 --> 00:03:35,000

But this first one was followed by aircraft?

70

00:03:35,000 --> 00:03:36,000

It might have been.

71

00:03:36,000 --> 00:03:40,000

And we thought, you know, airplane lights would definitely follow me.

72

00:03:40,000 --> 00:03:41,000

Yeah.

73

00:03:41,000 --> 00:03:46,000

And within, you know, a certain specific area, they were following me.

74

00:03:46,000 --> 00:03:50,000

You know, following me in, I don't know, 15 minutes or so.

75

00:03:50,000 --> 00:03:55,000

They were tracking pretty close and we thought, you know, like, you know,

76

00:03:55,000 --> 00:03:57,000

it's all kind of airplanes all over this place.

77

00:03:57,000 --> 00:03:58,000

Okay.

78

00:03:58,000 --> 00:04:01,000

And so, you know, that's what we saw.

79

00:04:01,000 --> 00:04:05,000

And then this was followed by another object that you saw?

80

00:04:05,000 --> 00:04:10,000

The other object that we saw was coming at me from pretty different directions.

81

00:04:10,000 --> 00:04:11,000

Okay.

82

00:04:11,000 --> 00:04:14,000

And it was over by a little thing.

83

00:04:14,000 --> 00:04:18,000

We were between kind of like Enum Claw and not right near.

84

00:04:18,000 --> 00:04:19,000

Up on the same path.

85

00:04:19,000 --> 00:04:22,000

We were kind of northeast from not right near.

86

00:04:22,000 --> 00:04:25,000

And obviously northeast from not.

87

00:04:25,000 --> 00:04:29,000

And we saw one kind of pass between us and not right near.

88

00:04:29,000 --> 00:04:32,000

We just saw a glimpse of the other big thing.

89

00:04:32,000 --> 00:04:36,000

And we just looked at another one and went down.

90

00:04:36,000 --> 00:04:38,000

And that was about...

91

00:04:38,000 --> 00:04:41,000

Within 10 minutes after the other one.

92

00:04:41,000 --> 00:04:44,000

About, okay, we'll say about 8.40 then.

93

00:04:44,000 --> 00:04:45,000

Yeah.

94

00:04:45,000 --> 00:04:46,000

I don't know if it was the right time.

95

00:04:46,000 --> 00:04:47,000

Yeah.

96

00:04:47,000 --> 00:04:50,000

But, you know, right together, they were real close.

97

00:04:50,000 --> 00:04:51,000

Yeah.

98

00:04:51,000 --> 00:04:52,000

Yeah.

99

00:04:52,000 --> 00:04:57,000

And, you know, that first one, customately, how long were you watching it?

100

00:04:57,000 --> 00:04:59,000

Oh, how long were you watching?

101

00:04:59,000 --> 00:05:00,000

Three minutes about, I guess.

102

00:05:00,000 --> 00:05:02,000

You watched a long time.

103

00:05:02,000 --> 00:05:03,000

That long?

104

00:05:03,000 --> 00:05:04,000

Yeah.

105

00:05:04,000 --> 00:05:05,000

Okay.

106

00:05:05,000 --> 00:05:07,000

Now, how about that second one?

107

00:05:07,000 --> 00:05:08,000

No, I don't know.

108

00:05:08,000 --> 00:05:09,000

About 10 seconds.

109

00:05:09,000 --> 00:05:10,000

They did the flash drive.

110

00:05:10,000 --> 00:05:13,000

They did the flash drive, you know.

111

00:05:13,000 --> 00:05:17,000

But that, I mean, the one that we saw was just, you know, it wasn't going down.

112

00:05:17,000 --> 00:05:18,000

It wasn't going up.

113

00:05:18,000 --> 00:05:20,000

It was just paralleling the top of the mountain.

114

00:05:20,000 --> 00:05:21,000

You could see an elevation all the time.

115

00:05:21,000 --> 00:05:23,000

You were going right through the crowd.

116

00:05:23,000 --> 00:05:27,000

And then it, I was watching two of them and I was just laughing.

117

00:05:27,000 --> 00:05:31,000

And we thought, I just thought, you know, it just kind of got brighter a second.

118

00:05:31,000 --> 00:05:33,000

And it just kind of broke up and went down.

119

00:05:33,000 --> 00:05:35,000

And that's all we saw.

120

00:05:35,000 --> 00:05:40,000

After that, I mean, we saw, you know, it just passed, you know, that's all we saw.

121

00:05:40,000 --> 00:05:41,000

You didn't see anything again.

122

00:05:41,000 --> 00:05:42,000

Right.

123

00:05:42,000 --> 00:05:43,000

You were silent?

124

00:05:43,000 --> 00:05:45,000

No, we didn't hear anything.

125

00:05:45,000 --> 00:05:50,000

Could you hear that aircraft that was falling?

126

00:05:50,000 --> 00:05:52,000

No, we couldn't.

127

00:05:52,000 --> 00:05:56,000

We, that was being drowned out by an airplane that was going right over the top of the spot

128

00:05:56,000 --> 00:05:57,000

that time.

129

00:05:57,000 --> 00:06:00,000

I think that the ranger, he was checking it out.

130

00:06:00,000 --> 00:06:02,000

I think you tell you the truth.

131

00:06:02,000 --> 00:06:07,000

The ranger, whoever was in the top of the plane, he was in a prop plane and he was pretty loud.

132

00:06:07,000 --> 00:06:09,000

Yeah, they could get pretty noisy.

133

00:06:09,000 --> 00:06:12,000

So he was drawing up the rest of whatever he was holding.

134

00:06:12,000 --> 00:06:15,000

And whoever was up there in that plane, definitely tried.

135

00:06:15,000 --> 00:06:18,000

He couldn't admit it.

136

00:06:18,000 --> 00:06:22,000

Like, it was like something holding a mask up in the sky.

137

00:06:22,000 --> 00:06:25,000

It was really impressive.

138

00:06:25,000 --> 00:06:28,000

Okay, is there any other commissioning that you can add to that?

139

00:06:28,000 --> 00:06:29,000

No.

140

00:06:29,000 --> 00:06:31,000

To anyone else that saw it?

141

00:06:31,000 --> 00:06:35,000

Well, you and my friend were there, but he has the same thing as you know, we kind of worked

142

00:06:35,000 --> 00:06:38,000

this out before he talked to us.

143

00:06:38,000 --> 00:06:41,000

Well, I wish you appreciated your calling.

144

00:06:41,000 --> 00:06:45,000

Yeah, you know, anything that's anything else that you know, you haven't pressed on

145

00:06:45,000 --> 00:06:46,000

there, you'll be glad to answer.

146

00:06:46,000 --> 00:06:50,000

Okay, well, if anything comes up, we should be on the phone calling.

147

00:06:50,000 --> 00:06:51,000

Okay, thanks very much.

148

00:06:51,000 --> 00:06:52,000

Thank you for calling.

149

00:06:52,000 --> 00:06:53,000

Bye.
