

1

00:00:00,000 --> 00:00:07,000

They know you're spread out and they're in flying and humans in the right.

2

00:00:07,000 --> 00:00:10,000

All three, three on one side and three on the other.

3

00:00:10,000 --> 00:00:14,000

And they were firing at you just like you were on fire.

4

00:00:14,000 --> 00:00:18,000

And all you could see was just like the wings spread out, the whole thing was just rolled it up.

5

00:00:18,000 --> 00:00:21,000

Then they went up further back, they were going towards the side,

6

00:00:21,000 --> 00:00:24,000

but it turned into smoke and disappeared completely.

7

00:00:24,000 --> 00:00:29,000

They took a statue on a black smoke and just, you know, that was the end of it.

8

00:00:29,000 --> 00:00:32,000

Let's see, this was moving away from you.

9

00:00:32,000 --> 00:00:34,000

Away from me, yes.

10

00:00:34,000 --> 00:00:39,000

Let's see, which side am I on, which side is this?

11

00:00:39,000 --> 00:00:41,000

This is West over there.

12

00:00:41,000 --> 00:00:44,000

East. Yeah, I was East from there.

13

00:00:44,000 --> 00:00:46,000

How did you happen to see this?

14

00:00:46,000 --> 00:00:48,000

Well, my friend did first.

15

00:00:48,000 --> 00:00:50,000

She happened to glance out the window,

16

00:00:50,000 --> 00:00:52,000

and we had moved right away, we could look out the window,

17

00:00:52,000 --> 00:00:54,000

my daughter wants to be in the stronghold,

18

00:00:54,000 --> 00:00:56,000

and she's always wanting to die in the stronghold.

19

00:00:56,000 --> 00:00:59,000

But my friend happened to be glanced out the window and he says,

20

00:00:59,000 --> 00:01:04,000

Look, Bob, I looked out there and I saw the fire when he saw this.

21

00:01:04,000 --> 00:01:08,000

And I just said, they were firing at a lot, you know, I can't roll.

22

00:01:08,000 --> 00:01:13,000

And the wings were just like wings of a great big jet in a great big airplane.

23

00:01:13,000 --> 00:01:16,000

And their whole thing was all lit up red, bright red.

24

00:01:16,000 --> 00:01:19,000

And then turned right into black smoke,

25

00:01:19,000 --> 00:01:23,000

further away went to right into black smoke, disappeared completely.

26

00:01:23,000 --> 00:01:25,000

And they were firing pretty low.

27

00:01:25,000 --> 00:01:28,000

And that would be flying to the West.

28

00:01:28,000 --> 00:01:31,000

To the West, from East to West, well, from our place, yeah.

29

00:01:31,000 --> 00:01:34,000

And that was at 530, well, about 533.

30

00:01:34,000 --> 00:01:35,000

I see.

31

00:01:35,000 --> 00:01:38,000

It was really weird, and we've seen a lot of things,

32

00:01:38,000 --> 00:01:40,000

but that one was weird.

33

00:01:40,000 --> 00:01:45,000

Well, now, these lights, and I want to verify this,

34

00:01:45,000 --> 00:01:47,000

these were seen as bright lights to begin with?

35

00:01:47,000 --> 00:01:51,000

No, they looked exactly like the wings were strictly on fire, you know.

36

00:01:51,000 --> 00:01:54,000

Like they were burning like a red flame.

37

00:01:54,000 --> 00:01:59,000

And they looked exactly like the wings of an airplane, you know, well, they were.

38

00:01:59,000 --> 00:02:01,000

The whole thing was one.

39

00:02:01,000 --> 00:02:03,000

The whole thing was one.

40

00:02:03,000 --> 00:02:06,000

Oh, no, there's six of them all together.

41

00:02:06,000 --> 00:02:08,000

Oh, I see, well, these were separate then.

42

00:02:08,000 --> 00:02:10,000

All separate, but they're flying in a line.

43

00:02:10,000 --> 00:02:12,000

In a straight line formation.

44

00:02:12,000 --> 00:02:15,000

Three on one side, and two on the other.

45

00:02:15,000 --> 00:02:18,000

Just a little space in between the three of them.

46

00:02:18,000 --> 00:02:21,000

And, no, did they ever break up this line formation?

47

00:02:21,000 --> 00:02:22,000

No, they didn't break up.

48

00:02:22,000 --> 00:02:23,000

They stayed together.

49

00:02:23,000 --> 00:02:24,000

They stayed together.

50

00:02:24,000 --> 00:02:29,000

But it went so weird when we went right into black smoke.

51

00:02:29,000 --> 00:02:30,000

And that was the end of them.

52

00:02:30,000 --> 00:02:31,000

We kept watching for more of it.

53

00:02:31,000 --> 00:02:32,000

That was all we seen.

54

00:02:32,000 --> 00:02:35,000

Did that black smoke just fade away?

55

00:02:35,000 --> 00:02:37,000

Yeah, you can know how it kind of jettied us off that.

56

00:02:37,000 --> 00:02:38,000

Yes.

57

00:02:38,000 --> 00:02:39,000

And then something similar started.

58

00:02:39,000 --> 00:02:42,000

There was a darker smoke, a black smoke.

59

00:02:42,000 --> 00:02:48,000

And then that smoke just went, you know, just went away just like that.

60

00:02:49,000 --> 00:02:51,000

Okay, now this was moving east-west.

61

00:02:51,000 --> 00:02:55,000

Would this be to the north or south of the Anacortes?

62

00:02:55,000 --> 00:02:57,000

To the north or south of the Anacortes?

63

00:02:57,000 --> 00:02:59,000

Which sky were you looking north or...

64

00:02:59,000 --> 00:03:01,000

Oh, yeah, I was looking over west.

65

00:03:01,000 --> 00:03:03,000

Did you see that right?

66

00:03:03,000 --> 00:03:04,000

Did you?

67

00:03:04,000 --> 00:03:06,000

Now I live over here in 39.

68

00:03:06,000 --> 00:03:08,000

I didn't know how to even describe it.

69

00:03:08,000 --> 00:03:10,000

I was tempted for the last time on here.

70

00:03:10,000 --> 00:03:11,000

Why?

71

00:03:11,000 --> 00:03:13,000

The main street, Nenner.

72

00:03:13,000 --> 00:03:14,000

Yes.

73

00:03:14,000 --> 00:03:16,000

Oh, you know our site, the silent news?

74

00:03:16,000 --> 00:03:17,000

Yes.

75

00:03:17,000 --> 00:03:18,000

We were there.

76

00:03:18,000 --> 00:03:20,000

And that's where we usually see them.

77

00:03:20,000 --> 00:03:21,000

They're heading towards that direction.

78

00:03:21,000 --> 00:03:23,000

They're coming from there and they're usually green-gold.

79

00:03:23,000 --> 00:03:25,000

We would have seen these before.

80

00:03:25,000 --> 00:03:27,000

No, we haven't seen this site before.

81

00:03:27,000 --> 00:03:34,000

But you know when they had that meteorite or what they thought was a meteorite ball or whatever it was.

82

00:03:34,000 --> 00:03:37,000

The night before that we had seen the white light in the sky.

83

00:03:37,000 --> 00:03:39,000

And we turned it in.

84

00:03:39,000 --> 00:03:41,000

Is this where we turned it into?

85

00:03:41,000 --> 00:03:42,000

Yes.

86

00:03:42,000 --> 00:03:43,000

Uh-huh.

87

00:03:43,000 --> 00:03:48,000

I called the radius and she went right away and tried to get them to get outside and look so they could see it.

88

00:03:48,000 --> 00:03:50,000

I see.

89

00:03:50,000 --> 00:03:52,000

But they didn't, I kind of got out there.

90

00:03:52,000 --> 00:03:53,000

It was gone through.

91

00:03:53,000 --> 00:03:58,000

Evidently we just called it before they just put, you know, most of it was on the start-up.

92

00:03:58,000 --> 00:04:01,000

Approximately how long would you say this was in sight?

93

00:04:01,000 --> 00:04:04,000

Well, we saw it for about, let's see.

94

00:04:04,000 --> 00:04:10,000

Well, just a, oh maybe about two minutes or three minutes or like that.

95

00:04:10,000 --> 00:04:16,000

Because my daughter, she wanted to get up in the sand and she was laying on the floor and she jumped up and they were gone.

96

00:04:16,000 --> 00:04:19,000

She ran into the room actually.

97

00:04:19,000 --> 00:04:23,000

Do you have any idea of their elevation?

98

00:04:23,000 --> 00:04:26,000

Uh, not really.

99

00:04:26,000 --> 00:04:29,000

I mean, if you're here I could show you, don't you?

100

00:04:29,000 --> 00:04:30,000

It's so much easier.

101

00:04:30,000 --> 00:04:32,000

I mean, it's hard to explain.

102

00:04:32,000 --> 00:04:35,000

But they weren't, they're not really that high up.

103

00:04:35,000 --> 00:04:39,000

And they weren't really, uh-huh.

104

00:04:39,000 --> 00:04:42,000

See, Cyprus, as you can see.

105

00:04:42,000 --> 00:04:45,000

Look at from here over to there, the D.

106

00:04:45,000 --> 00:04:49,000

Not too high up from Cyprus.

107

00:04:49,000 --> 00:04:55,000

It doesn't write on Cyprus as to the, as you look at from here towards the left of it.

108

00:04:55,000 --> 00:04:57,000

And it was just you and your son that saw it.

109

00:04:57,000 --> 00:05:01,000

Well, he saw it first, it was 12.

110

00:05:01,000 --> 00:05:08,000

And I called Rady Station right away and then afterwards I called them again to get the, to give

you a family.

111

00:05:08,000 --> 00:05:12,000

And was it your son or daughter who's involved in astronomy?

112

00:05:12,000 --> 00:05:17,000

My daughter wants to be, but with her grades in school, like I said, there's no way she could.

113

00:05:17,000 --> 00:05:22,000

And she's out there with the Malkler, you know, pretty, well they're not strong enough,

114

00:05:22,000 --> 00:05:28,000

but she wound up on the cell phone so she could study them.

115

00:05:28,000 --> 00:05:31,000

Because she watches out to continue.

116

00:05:31,000 --> 00:05:33,000

And which radio station was it that you called?

117

00:05:33,000 --> 00:05:36,000

I called K-A-T-T.

118

00:05:36,000 --> 00:05:39,000

Uh-huh, 3141. Their number is 3141.

119

00:05:39,000 --> 00:05:41,000

And I call them the evening.
