

1

00:00:00,000 --> 00:00:04,000

This is Bob Gerber of Phenomenal Research.

2

00:00:04,000 --> 00:00:07,000

My wife told me you had a little experience last night.

3

00:00:07,000 --> 00:00:12,000

Yes, we did. And some of our neighbors and people up on the hill, we know that

4

00:00:12,000 --> 00:00:16,000

we went out a little ways and they got a approach to looking at all.

5

00:00:16,000 --> 00:00:19,000

Starting right from the beginning, I like to hear about it.

6

00:00:19,000 --> 00:00:25,000

Well, we were, I do sometimes I look up at these guys anyway and watch, you know.

7

00:00:25,000 --> 00:00:30,000

But we were watching the moon come over the mountain.

8

00:00:30,000 --> 00:00:39,000

And we saw these bright, this bright light come up like a star or something real bright.

9

00:00:39,000 --> 00:00:40,000

Yes.

10

00:00:40,000 --> 00:00:45,000

Come up over to the top of the mountain that came up in the air and then it would go down.

11

00:00:45,000 --> 00:00:47,000

Behind the mountain again.

12

00:00:47,000 --> 00:00:50,000

And it did that about three times.

13

00:00:50,000 --> 00:00:55,000

My husband was cleaning and I said, we thought, well, maybe it was an airplane.

14

00:00:55,000 --> 00:00:58,000

I said, an airplane, don't go up and come down any further.

15

00:00:58,000 --> 00:01:02,000

So, but we didn't see it anymore right then.

16

00:01:02,000 --> 00:01:04,000

So we just dismissed it.

17

00:01:04,000 --> 00:01:09,000

And he looked for about a half hour but he didn't see anything.

18

00:01:09,000 --> 00:01:18,000

And all it must have been about 8.30, I just put my daughter to bed or no before.

19

00:01:18,000 --> 00:01:22,000

I looked out the window and saw them again.

20

00:01:22,000 --> 00:01:26,000

And this time there was two falling up and down.

21

00:01:26,000 --> 00:01:31,000

They would come up in the air, up in the sky, and then down again on the mountain.

22

00:01:31,000 --> 00:01:33,000

On the back side of the mountain.

23

00:01:33,000 --> 00:01:35,000

They disappeared completely each time.

24

00:01:35,000 --> 00:01:36,000

Yes.

25

00:01:36,000 --> 00:01:39,000

To the back side, you know, where I, out of sight.

26

00:01:39,000 --> 00:01:46,000

And then they started moving around on the top part of the mountain.

27

00:01:46,000 --> 00:01:50,000

And then my husband went to bed.

28

00:01:50,000 --> 00:01:56,000

And then I saw several of them come out from those there, come down the mountain.

29

00:01:56,000 --> 00:01:59,000

And then ones come out from among the trees.

30

00:01:59,000 --> 00:02:03,000

Now you're saying several came out, several smaller ones came out of the other.

31

00:02:03,000 --> 00:02:06,000

Well, I don't know if they came right out from the bigger ones.

32

00:02:06,000 --> 00:02:08,000

But the bigger ones stayed at the top.

33

00:02:08,000 --> 00:02:13,000

The smaller ones came down around the trees.

34

00:02:13,000 --> 00:02:14,000

Yes.

35

00:02:14,000 --> 00:02:23,000

And there's two, what we call it, two stands of trees up in the snow line.

36

00:02:23,000 --> 00:02:24,000

Yes.

37

00:02:24,000 --> 00:02:25,000

In the middle.

38

00:02:25,000 --> 00:02:29,000

And they came down, one, and it turned.

39

00:02:29,000 --> 00:02:31,000

I saw three of the warlights coming off.

40

00:02:31,000 --> 00:02:33,000

They looked like the same one.

41

00:02:33,000 --> 00:02:38,000

But these friends of ours that I told about, they went out and we called them.

42

00:02:38,000 --> 00:02:42,000

And they said, they saw there was several of them together.

43

00:02:42,000 --> 00:02:44,000

They came down.

44

00:02:44,000 --> 00:02:51,000

So they counted, oh, I don't know about 16, but I think it only came out four from here.

45

00:02:51,000 --> 00:02:52,000

I saw they were four.

46

00:02:52,000 --> 00:02:53,000

But it was pretty scale.

47

00:02:53,000 --> 00:02:54,000

Yes.

48

00:02:54,000 --> 00:02:55,000

We didn't count any field grass.

49

00:02:55,000 --> 00:03:00,000

And then there was ones that were coming in and out from among the timbers.

50

00:03:00,000 --> 00:03:02,000

And meeting those other ones out on the snow.

51

00:03:02,000 --> 00:03:06,000

And then they would go back in the timbers and then the other ones would go back up to the big ones.

52

00:03:06,000 --> 00:03:11,000

Like they were getting something out of the hill or something.

53

00:03:11,000 --> 00:03:16,000

And this went on for several hours.

54

00:03:16,000 --> 00:03:19,000

You say they moved around in between the timber.

55

00:03:19,000 --> 00:03:24,000

Were they actually moving down below the top of the tree levels in between the trees?

56

00:03:24,000 --> 00:03:25,000

Yes.

57

00:03:25,000 --> 00:03:26,000

Yes.

58

00:03:26,000 --> 00:03:32,000

The one, I mean, I think there was one in each timber line.

59

00:03:32,000 --> 00:03:35,000

And each timber, bunch of timbers.

60

00:03:35,000 --> 00:03:40,000

And they were not going, the ones that were in amongst the timber, were not going above

61

00:03:40,000 --> 00:03:43,000

the timbers because there's no above it, you know, and you could see.

62

00:03:43,000 --> 00:03:44,000

Yes.

63

00:03:44,000 --> 00:03:47,000

But they would come out of the timber and meet the other one.

64

00:03:47,000 --> 00:03:50,000

And then the other one would take it and go back up.

65

00:03:50,000 --> 00:03:53,000

Of course, like I said, they could see them out clearer than I could.

66

00:03:53,000 --> 00:03:54,000

Yes.

67

00:03:54,000 --> 00:03:57,000

When they went out because it's clearer up there on the hill.

68

00:03:57,000 --> 00:03:59,000

We'd about flat.

69

00:03:59,000 --> 00:04:00,000

I see.

70

00:04:00,000 --> 00:04:07,000

And for several hours, and they would go up and down the mountain top.

71

00:04:07,000 --> 00:04:10,000

The large one stayed at the top.

72

00:04:10,000 --> 00:04:12,000

They would just move up and down the mountain.

73

00:04:12,000 --> 00:04:14,000

And then they would move into the back of the mountain.

74

00:04:14,000 --> 00:04:16,000

And then they'd bob up here.

75

00:04:16,000 --> 00:04:19,000

So they were evidently being something back in the mountain too.

76

00:04:19,000 --> 00:04:20,000

I see.

77

00:04:20,000 --> 00:04:23,000

Now what color were these for the...

78

00:04:23,000 --> 00:04:29,000

At times when they would turn the little ones that would come down and turn to meet

79

00:04:29,000 --> 00:04:36,000

the other one that came out of the timber, it would turn different colors by flickering

80

00:04:36,000 --> 00:04:40,000

lights, sort of reddish color when it would turn.

81

00:04:40,000 --> 00:04:45,000

And it almost looked like to me, of course, I didn't have any nostrils or anything.

82

00:04:45,000 --> 00:04:47,000

So I could not see very clearly.

83

00:04:47,000 --> 00:04:51,000

It looked almost like there might have been windows in the side of it.

84

00:04:51,000 --> 00:04:54,000

And that's what several lights were reflecting out.

85

00:04:54,000 --> 00:04:55,000

Yes.

86

00:04:55,000 --> 00:05:02,000

And I think that there were some other people that thought they thought those were all separate

87

00:05:02,000 --> 00:05:03,000

lights.

88

00:05:03,000 --> 00:05:06,000

So whether they came down in a group together or not, I don't know.

89

00:05:06,000 --> 00:05:09,000

And all this time you saw how many?

90

00:05:09,000 --> 00:05:11,000

I believe there were four.

91

00:05:11,000 --> 00:05:12,000

I see.

92

00:05:12,000 --> 00:05:13,000

But now I don't...

93

00:05:13,000 --> 00:05:17,000

They think there was around 16, but they had a better look than me did.

94

00:05:17,000 --> 00:05:18,000

Yes.

95

00:05:18,000 --> 00:05:20,000

So I don't know.

96

00:05:20,000 --> 00:05:25,000

And our other neighbors, some other neighbors thought too.

97

00:05:25,000 --> 00:05:31,000

And this expense went out a ways on the mountain there on the hill where they live.

98

00:05:31,000 --> 00:05:35,000

And where they could see, get a real good look at it.

99

00:05:35,000 --> 00:05:39,000

Now this mountain approximately, how far away is this from you?

100

00:05:39,000 --> 00:05:43,000

I'm not very good at this thing.

101

00:05:43,000 --> 00:05:46,000

Is this in the Cascade foothills?

102

00:05:46,000 --> 00:05:51,000

Well, right along the bay, we live right in the bay.

103

00:05:51,000 --> 00:05:56,000

And then that mountain, there's a little hill, which is Gold Hill.

104

00:05:56,000 --> 00:06:01,000

And then after that there's another little hill on the other side of the freeway.

105

00:06:01,000 --> 00:06:05,000

And then the mountain stands up there in this large mountain.

106

00:06:05,000 --> 00:06:07,000

I'm not sure what the name of it is.

107

00:06:07,000 --> 00:06:09,000

Someone told me Anderson's mountain.

108

00:06:09,000 --> 00:06:10,000

I see.

109

00:06:10,000 --> 00:06:15,000

But I had this boy who was just going to look up in the forest and that's what it was.

110

00:06:15,000 --> 00:06:17,000

This is east of you?

111

00:06:17,000 --> 00:06:19,000

Yes, northeast.

112

00:06:19,000 --> 00:06:20,000

Northeast, okay.

113

00:06:20,000 --> 00:06:25,000

So it's sort of a little bit north, but it's almost right straight across from us at the end of it.

114

00:06:25,000 --> 00:06:30,000

Is there anything particular on that mountain that would be of interest to anyone?

115

00:06:30,000 --> 00:06:32,000

Are there mines, old mines?

116

00:06:32,000 --> 00:06:35,000

There are old mines around, all over, in this wood hill.

117

00:06:35,000 --> 00:06:38,000

What were they mining at the time? Do you have any idea?

118

00:06:38,000 --> 00:06:41,000

This boy was, what, I don't know what kind of mine he was on.

119

00:06:41,000 --> 00:06:46,000

Could you think, I don't know because I've heard of all these different types of things around here.

120

00:06:46,000 --> 00:06:47,000

Yes.

121

00:06:47,000 --> 00:06:54,000

In fact, there's, in some places there are a mixture of different minerals together in the rock.

122

00:06:54,000 --> 00:06:59,000

But these here lights were going up in the air.

123

00:06:59,000 --> 00:07:01,000

I mean, they were going high.

124

00:07:01,000 --> 00:07:07,000

And in just a few seconds, they could cover the distance from the middle of that mountain to the end.

125

00:07:07,000 --> 00:07:13,000

So, that would be quite a few miles in just a few seconds.

126

00:07:13,000 --> 00:07:15,000

Yes, they were moving right along.

127

00:07:15,000 --> 00:07:18,000

Yeah, and they were large, the ones that were on top.

128

00:07:18,000 --> 00:07:20,000

And the other ones smaller.

129

00:07:20,000 --> 00:07:25,000

And the light sometimes would be so intensive that it would be really bright.

130

00:07:25,000 --> 00:07:28,000

I see.

131

00:07:28,000 --> 00:07:35,000

Now, at any time that this light gets so intensive, it actually lit up the ground or the area around the sunset?

132

00:07:35,000 --> 00:07:41,000

Well, it's quite far away and it was right on the, the brightest ones stayed right on the very top of the hill.

133

00:07:41,000 --> 00:07:44,000

They did not go down into the snow or I would criticize.

134

00:07:44,000 --> 00:07:45,000

I see.

135

00:07:45,000 --> 00:07:48,000

And the ones that went down in the snow, they did get quite bright and light up.

136

00:07:48,000 --> 00:07:53,000

But like I said, I don't have binoculars, so we couldn't see.

137

00:07:53,000 --> 00:07:54,000

Right.

138

00:07:54,000 --> 00:07:59,000

But this is an area where there has been sightings up near that area before.

139

00:07:59,000 --> 00:08:01,000

Oh, I see.

140

00:08:01,000 --> 00:08:04,000

Have there been any recent sightings that you know of?

141

00:08:04,000 --> 00:08:05,000

Not that I know of.

142

00:08:05,000 --> 00:08:06,000

I see.

143

00:08:06,000 --> 00:08:08,000

There might have been, but I know of not.

144

00:08:08,000 --> 00:08:09,000

Right.

145

00:08:09,000 --> 00:08:12,000

Okay, and your husband was watching this also?

146

00:08:12,000 --> 00:08:13,000

Yes.

147

00:08:13,000 --> 00:08:14,000

Okay.

148

00:08:14,000 --> 00:08:16,000

And then that would make two witnesses within your group?

149

00:08:16,000 --> 00:08:20,000

Yes, and my daughter saw it when it first came up over the hill.

150

00:08:20,000 --> 00:08:22,000

Of course, she went to bed before it.

151

00:08:22,000 --> 00:08:23,000

They started moving around.

152

00:08:23,000 --> 00:08:24,000

Yes.

153

00:08:24,000 --> 00:08:25,000

Okay.

154

00:08:25,000 --> 00:08:29,000

Now, were there any aircraft in the area while you were watching this?

155

00:08:29,000 --> 00:08:32,000

No, we never saw any.

156

00:08:32,000 --> 00:08:34,000

How was the weather conditions that night?

157

00:08:34,000 --> 00:08:35,000

Clear.

158

00:08:35,000 --> 00:08:37,000

Perfectly clear before the clouds cut.

159

00:08:37,000 --> 00:08:40,000

I remember seeing the moon come up.

160

00:08:40,000 --> 00:08:42,000

Yes, and it was beautiful.

161

00:08:42,000 --> 00:08:44,000

That was a sight.

162

00:08:44,000 --> 00:08:48,000

Okay, now, I'm curious to know where you got our number.

163

00:08:48,000 --> 00:08:51,000

I called the radio station, KBRC.

164

00:08:51,000 --> 00:08:52,000

Oh, yes.

165

00:08:52,000 --> 00:08:58,000

The man there told me about, he also told me maybe I should call the corps there for me.

166

00:08:58,000 --> 00:09:06,000

They told me there that they do not take any information on you at all.

167

00:09:06,000 --> 00:09:07,000

Okay.

168

00:09:07,000 --> 00:09:11,000

And this was all, they did give me another number.

169

00:09:11,000 --> 00:09:14,000

That was civil defense.

170

00:09:14,000 --> 00:09:16,000

But we don't call them, do we?

171

00:09:16,000 --> 00:09:17,000

No.

172

00:09:17,000 --> 00:09:18,000

Okay.

173

00:09:18,000 --> 00:09:23,000

That's really interesting, though.

174

00:09:23,000 --> 00:09:28,000

I have a newsman in Seattle who specializes in this sort of thing.

175

00:09:28,000 --> 00:09:33,000

Are you willing to talk to him by any chance, or would you rather not have this mentioned at all?

176

00:09:33,000 --> 00:09:35,000

No, I would be willing to talk to him.

177

00:09:35,000 --> 00:09:37,000

I've been quite interested.

178

00:09:37,000 --> 00:09:42,000

In fact, I saw flying saucers before, but I've never, every time I never know where to report it,

179

00:09:42,000 --> 00:09:45,000

but because everybody makes fun of you, they don't realize.

180

00:09:45,000 --> 00:09:46,000

Yes.

181

00:09:46,000 --> 00:09:47,000

Well, this has been one of our big problems.

182

00:09:47,000 --> 00:09:50,000

We're doing all the advertising we can about our reporting center.

183

00:09:50,000 --> 00:09:53,000

I hope that someday we'll get it out to everyone.

184

00:09:53,000 --> 00:09:54,000

Yes.

185

00:09:54,000 --> 00:09:56,000

Well, we sure appreciate your calling.

186

00:09:56,000 --> 00:10:04,000

And I think I'll just give these other witnesses a call and see if we can...

187

00:10:04,000 --> 00:10:07,000

This was the one that was up on the hill, is this correct?

188

00:10:07,000 --> 00:10:08,000

Yes.

189

00:10:08,000 --> 00:10:11,000

Well, they live up on the hill, and it's clearer up there.

190

00:10:11,000 --> 00:10:15,000

They can see more from up there, because down here we have lights and everything.

191

00:10:15,000 --> 00:10:16,000

Yes.

192

00:10:16,000 --> 00:10:21,000

We're still in the post office, and we've got a big yard by it, one of those big ones.

193

00:10:21,000 --> 00:10:28,000

And so much light, and I was just happy to get a pair of field glasses.

194

00:10:28,000 --> 00:10:34,000

I can't make out those, because like I said, it was hard to make out the lights,

195

00:10:34,000 --> 00:10:38,000

because it seemed like they would just flare up, and there'd be three or four,

196

00:10:38,000 --> 00:10:40,000

and then all of a sudden they would kind of go together.

197

00:10:40,000 --> 00:10:45,000

And they said they were all separate, so they counted about 16, they thought.

198

00:10:45,000 --> 00:10:46,000

I see.

199

00:10:46,000 --> 00:10:51,000

They thought they were snowmobiles, because we saw them going up in the air.

200

00:10:51,000 --> 00:10:56,000

Well, thank you very much again for calling, and I hope you keep our number handy.

201

00:10:56,000 --> 00:10:57,000

All right, yes.

202

00:10:57,000 --> 00:10:58,000

Thank you.

203

00:10:58,000 --> 00:10:59,000

Bye-bye.

204

00:10:59,000 --> 00:11:02,000

This is Bob Gribble of Phenomena Research in Seattle, Washington.

205

00:11:02,000 --> 00:11:03,000

Yeah.

206

00:11:03,000 --> 00:11:09,000

I talked to a Mrs. the other night, she was telling me about her sighting of a UFO,

207

00:11:09,000 --> 00:11:16,000

West Barista Bowl on the 25th of February, and she said that you were a witness to this.

208

00:11:16,000 --> 00:11:20,000

I wonder if we could get your description of what you saw.

209

00:11:20,000 --> 00:11:23,000

Well, it was, in a hard way.

210

00:11:23,000 --> 00:11:28,000

She said that you were in a much better position to see this than she was.

211

00:11:28,000 --> 00:11:30,000

Yes, we see this.

212

00:11:30,000 --> 00:11:36,000

We went about a mile from our house, I'd say, up the road.

213

00:11:36,000 --> 00:11:44,000

And when we first got there, we'd seen one large white light go around the mouth, you

214

00:11:44,000 --> 00:11:46,000

know, in the air.

215

00:11:46,000 --> 00:11:47,000

Yes.

216

00:11:47,000 --> 00:11:58,000

And then we stood there for a few more minutes, and there was a number of lights, a huge circle

217

00:11:58,000 --> 00:11:59,000

of lights.

218

00:11:59,000 --> 00:12:06,000

And at first I thought it was just, you know, a helicopter with one handy search light

219

00:12:06,000 --> 00:12:07,000

on it.

220

00:12:07,000 --> 00:12:08,000

Yes.

221

00:12:08,000 --> 00:12:13,000

And then there was a collection of colors of lights in this big thing.

222

00:12:13,000 --> 00:12:21,000

And then it was, it kind of divided in pretty soon, it was light school in every direction.

223

00:12:21,000 --> 00:12:28,000

And we knew it wasn't a helicopter, I still am not sure what it is or what we saw.

224

00:12:28,000 --> 00:12:33,000

But my first impression of it was maybe a whole group of snowmobiles hauled over the

225

00:12:33,000 --> 00:12:34,000

mountains.

226

00:12:34,000 --> 00:12:35,000

Yes.

227

00:12:35,000 --> 00:12:39,000

But then they moved too fast, maybe a couple of miles, the others.

228

00:12:39,000 --> 00:12:43,000

It's about 14 miles long, you know, top of the mountain, I guess.

229

00:12:43,000 --> 00:12:49,000

And it took a matter of seconds to go from one end to the other.

230

00:12:49,000 --> 00:12:57,000

And then it goes straight up in the air, and I know there's nothing around to do that.

231

00:12:57,000 --> 00:13:07,000

They just, well, I'm not a real believer in this, but I did see something, I don't know

232

00:13:07,000 --> 00:13:08,000

what it was.

233

00:13:08,000 --> 00:13:09,000

Yes.

234

00:13:09,000 --> 00:13:13,000

Approximately how many objects in all would you say that you saw?

235

00:13:13,000 --> 00:13:18,000

At the most, oh, I don't know.

236

00:13:18,000 --> 00:13:21,000

We all saw that around 15, all together.

237

00:13:21,000 --> 00:13:28,000

At one, but in the south, there was kind of weird, we kept seeing when they'd go up and

238

00:13:28,000 --> 00:13:35,000

kind of disappear up in the air, and we'd see flickering lights down on the snow and

239

00:13:35,000 --> 00:13:39,000

in the trees, kind of all over the mountain.

240

00:13:39,000 --> 00:13:41,000

We didn't know what that was either.

241

00:13:41,000 --> 00:13:43,000

Were those lights moving?

242

00:13:43,000 --> 00:13:51,000

They didn't seem to be, they seemed to be just flickering, kind of a bluish light, kind

243

00:13:51,000 --> 00:13:55,000

of, I don't know, the whole thing is kind of weird.

244

00:13:55,000 --> 00:14:00,000

But we lost them for about 20 minutes or half an hour.

245

00:14:00,000 --> 00:14:04,000

See, well, now when you said that this one large light seemed to separate, did it actually

246

00:14:04,000 --> 00:14:11,000

seem to separate or was it possible that something was more or less being launched out of that

247

00:14:11,000 --> 00:14:12,000

light, lighted area?

248

00:14:12,000 --> 00:14:15,000

It could have been launched out of that light yet.

249

00:14:15,000 --> 00:14:21,000

But it was just like a solid thing coming out of that light or a space.

250

00:14:21,000 --> 00:14:25,000

I don't know, maybe several hundred yards apart.

251

00:14:25,000 --> 00:14:27,000

What color were they?

252

00:14:27,000 --> 00:14:28,000

They were white.

253

00:14:28,000 --> 00:14:29,000

All white.

254

00:14:29,000 --> 00:14:30,000

All white.

255

00:14:30,000 --> 00:14:31,000

Okay.

256

00:14:31,000 --> 00:14:34,000

And was that big of a cost of weight?

257

00:14:34,000 --> 00:14:39,000

Oh, there was about three colors from what we could make out.

258

00:14:39,000 --> 00:14:43,000

There was one huge, huge bright lighted.

259

00:14:43,000 --> 00:14:47,000

There were several active bright lights.

260

00:14:47,000 --> 00:14:54,000

That was the white, the white was the brightest and it was the red, kind of a blue-green light.

261

00:14:54,000 --> 00:14:55,000

I see.

262

00:14:55,000 --> 00:14:58,000

But they were all mixed in it.

263

00:14:58,000 --> 00:15:03,000

It was quite a ways above the mountain when it first came over and kind of tunneled down

264

00:15:03,000 --> 00:15:08,000

on top and all these objects kept coming out.

265

00:15:08,000 --> 00:15:10,000

Would you say that that?

266

00:15:10,000 --> 00:15:15,000

I don't know if you can really say what it is or, but I know I've never seen it before

267

00:15:15,000 --> 00:15:17,000

and I've been here all my life.

268

00:15:17,000 --> 00:15:21,000

Would you say that that object was sitting on top of the mountain?

269

00:15:21,000 --> 00:15:23,000

Not quite, close.

270

00:15:23,000 --> 00:15:28,000

It's just awful hard to tell because we're still quite a distance away.

271

00:15:28,000 --> 00:15:29,000

Yes.

272

00:15:29,000 --> 00:15:36,000

Okay, now these smaller lights that appear to either separate or come out of the larger

273

00:15:36,000 --> 00:15:39,000

and did they go down towards the ground?

274

00:15:39,000 --> 00:15:46,000

Yes, they went down and they were going along the top of the mountain at a snow level.

275

00:15:46,000 --> 00:15:54,000

And some of them were down in the trees and they just more or less all disappeared at one time.

276

00:15:54,000 --> 00:15:56,000

I don't know where they went.

277

00:15:56,000 --> 00:16:01,000

You didn't see them come back up and move back into this one big light?

278

00:16:01,000 --> 00:16:08,000

Well, see, the big light kind of went back over the hill and after all these come out

279

00:16:08,000 --> 00:16:15,000

and we're watching them on the hill and it kind of just, you know, kind of went over the

280

00:16:15,000 --> 00:16:17,000

stretch of the hill, behind.

281

00:16:17,000 --> 00:16:19,000

I see.

282

00:16:19,000 --> 00:16:25,000

But then later on we did see a once upon a one go right shot down three close to the

283

00:16:25,000 --> 00:16:28,000

tree light and most of it was been logged up there.

284

00:16:28,000 --> 00:16:29,000

Oh, I see.

285

00:16:29,000 --> 00:16:35,000

You know, it's quite moonlight and you could really see the whole rim of the hill.

286

00:16:35,000 --> 00:16:42,000

I've been up there in a four wheel drive during summer but right now there must be at least

287

00:16:42,000 --> 00:16:45,000

70 to snow in there.

288

00:16:45,000 --> 00:16:51,000

Is there any particular thing that anyone would want to see in that area?

289

00:16:51,000 --> 00:16:53,000

Not as I know it.

290

00:16:53,000 --> 00:16:55,000

Are there any mines, old mines?

291

00:16:55,000 --> 00:17:01,000

Yes, there's one a little lower on the hill.

292

00:17:01,000 --> 00:17:08,000

And then all you could see later on was the sparkling type thing in the trees and so forth.

293

00:17:08,000 --> 00:17:10,000

Yeah, and they disappeared.

294

00:17:10,000 --> 00:17:12,000

There's nothing else.

295

00:17:12,000 --> 00:17:20,000

It seems like when these white objects would disappear, then the sparking would come out.

296

00:17:20,000 --> 00:17:26,000

Not in the same place where they were but in the areas where they were dead or something.

297

00:17:26,000 --> 00:17:28,000

I see.

298

00:17:28,000 --> 00:17:33,000

Okay, now how far, did you first site this from your home?

299

00:17:33,000 --> 00:17:37,000

No, the lady that you mentioned before called us.

300

00:17:37,000 --> 00:17:39,000

We cannot see it from the home.

301

00:17:39,000 --> 00:17:42,000

We have large trees right here.

302

00:17:42,000 --> 00:17:48,000

But we are quite a bit closer and so we just jumped in the car and drove up there with four of us.

303

00:17:48,000 --> 00:17:49,000

I see.

304

00:17:49,000 --> 00:17:57,000

There was a man by the name of Moses and he don't believe there was neither but he said it too.

305

00:17:57,000 --> 00:18:01,000

So that's the four of us seen at the same time here.

306

00:18:01,000 --> 00:18:06,000

Approximately how close did you say you got to the mountain?

307

00:18:06,000 --> 00:18:11,000

14, 15 miles, maybe even less.

308

00:18:11,000 --> 00:18:13,000

This is what surprised me.

309

00:18:13,000 --> 00:18:18,000

I have to do in the summer seen car lights up on this mountain.

310

00:18:18,000 --> 00:18:22,000

And these lights were way bigger than way brighter.

311

00:18:22,000 --> 00:18:24,000

I see.

312

00:18:24,000 --> 00:18:30,000

So I've seen four wheel drives up there in the summer and he don't drive it around.

313

00:18:30,000 --> 00:18:40,000

And whatever this was is way larger and a much wider bluer fights light.

314

00:18:40,000 --> 00:18:43,000

And that big light it just maintained.

315

00:18:43,000 --> 00:18:46,000

This regular color while all this was going on.

316

00:18:46,000 --> 00:18:48,000

Yes.

317

00:18:48,000 --> 00:18:55,000

It was like one big fish but all these other lights were around.

318

00:18:55,000 --> 00:19:00,000

It looked like a round, I don't know what.

319

00:19:00,000 --> 00:19:05,000

But these other things did come out of it.

320

00:19:05,000 --> 00:19:09,000

And then they kind of drifted back over the mountain.

321

00:19:09,000 --> 00:19:12,000

That's what I've seen at large.

322

00:19:12,000 --> 00:19:14,000

Yes.

323

00:19:14,000 --> 00:19:23,000

But everyone's probably seen something come across that's white and bright.

324

00:19:23,000 --> 00:19:25,000

And how long did you figure you watched this?

325

00:19:25,000 --> 00:19:27,000

20 to 30 minutes.

326

00:19:27,000 --> 00:19:29,000

20 to 30 minutes.

327

00:19:29,000 --> 00:19:32,000

And of course you wouldn't be able to hear any sound from that distance.

328

00:19:32,000 --> 00:19:34,000

No, no.

329

00:19:34,000 --> 00:19:38,000

Did you by any chance see any aircraft in the area at the time?

330

00:19:38,000 --> 00:19:44,000

No, I was looking because my first impression was one of those really huge helicopters.

331

00:19:44,000 --> 00:19:45,000

Yes.

332

00:19:45,000 --> 00:19:49,000

That's what I thought it was coming over the mountain when I first seen it.

333

00:19:49,000 --> 00:19:56,000

And then no helicopters knew what this did.

334

00:19:56,000 --> 00:19:58,000

Okay.

335

00:19:58,000 --> 00:20:04,000

Well we sure appreciate this information to kind of put together some kind of an investigating case on this.

336

00:20:04,000 --> 00:20:10,000

I'd like to leave our number with you just to let you see it in the future.

337

00:20:10,000 --> 00:20:12,000

Okay.

338

00:20:12,000 --> 00:20:16,000

I'll get the tempo here.

339

00:20:16,000 --> 00:20:19,000

The organization is Phenomenon Research.

340

00:20:19,000 --> 00:20:26,000

We're doing a considerable amount of research and investigation on the UFO phenomenon.

341

00:20:26,000 --> 00:20:32,000

Well I have seen, you know, I have done a lot on the mountain for a long time.

342

00:20:32,000 --> 00:20:37,000

And I have seen things far away, you know, that's what the bright things are.

343

00:20:37,000 --> 00:20:43,000

I've watched the change direction in the middle of the sky.

344

00:20:43,000 --> 00:20:46,000

This I've never seen before.

345

00:20:46,000 --> 00:20:49,000

It's kind of shocking in a way.

346

00:20:49,000 --> 00:20:51,000

Yes, I know what you mean.

347

00:20:51,000 --> 00:20:55,000

Well thank you very, very much for talking to us. We appreciate your cooperation.

348

00:20:55,000 --> 00:20:57,000

Okay. Bye.
