

1

00:00:00,000 --> 00:00:11,400

We recently read an article in the Centrally of Chronicle describing some UFO sightings

2

00:00:11,400 --> 00:00:12,880

you've made in your area.

3

00:00:12,880 --> 00:00:15,280

Apparently you have had a lot of experiences.

4

00:00:15,280 --> 00:00:17,680

I'm wondering what was going on down there.

5

00:00:17,680 --> 00:00:20,280

Well, that was Dr. Lomar up there in Centrally.

6

00:00:20,280 --> 00:00:22,040

He said I ought to report on them.

7

00:00:22,040 --> 00:00:26,040

I said, listen, if I'd report on them, I'd be calling that newspaper every day.

8

00:00:26,040 --> 00:00:27,520

You seen him that often?

9

00:00:27,520 --> 00:00:29,840

Yeah, we've seen eight here this past week.

10

00:00:30,320 --> 00:00:31,120

Eight?

11

00:00:31,120 --> 00:00:31,720

Yeah.

12

00:00:31,720 --> 00:00:34,720

Are these fairly low level or at the high altitude type?

13

00:00:34,720 --> 00:00:37,200

Oh, they was up probably 2,000 feet.

14

00:00:39,200 --> 00:00:42,320

Well, you must live pretty well out in the country then, have very good view.

15

00:00:42,320 --> 00:00:44,160

I live right in town in Toledo.

16

00:00:44,160 --> 00:00:44,760

You do.

17

00:00:44,760 --> 00:00:51,360

But, uh, and I take my binoculars every night when the night when the clear weather and drive around here.

18

00:00:51,360 --> 00:00:52,520

I see.

19

00:00:52,520 --> 00:00:56,320

A lot of times I pick them up before that Catholic mission is out up there.

20

00:00:57,280 --> 00:01:05,280

And, uh, they seem to hang a lot around the east of place up here on the hill.

21

00:01:05,280 --> 00:01:07,760

Now, they've been a stand there.

22

00:01:07,760 --> 00:01:13,760

They, they, they hover over that Bonneville Power Line east of where my restaurant is.

23

00:01:13,760 --> 00:01:16,640

I own that drive-in up there where that free zoo is at.

24

00:01:16,640 --> 00:01:18,480

I own the animals.

25

00:01:18,480 --> 00:01:19,520

I see.

26

00:01:19,520 --> 00:01:23,680

I got animals in there blowin' over the world with some of the dangerousness of being extinct.

27

00:01:23,680 --> 00:01:25,680

I've been raisin' them for 28 years.

28

00:01:26,640 --> 00:01:32,400

When I first moved up there, 12 years ago now in June, one night I was out there burnin' papers.

29

00:01:32,400 --> 00:01:38,720

I'd seen a real bright light out there over there west of where my restaurant sat.

30

00:01:38,720 --> 00:01:43,120

And I couldn't figure out what it would be so I dug down right down to low.

31

00:01:43,120 --> 00:01:47,440

And, uh, so I got the lost and I was burnin' papers.

32

00:01:47,440 --> 00:01:50,720

Pretty soon I'd see the dug down thing went real dim.

33

00:01:50,720 --> 00:01:53,120

And it got bright again.

34

00:01:53,120 --> 00:01:55,120

And it went dim five different times.

35

00:01:55,920 --> 00:01:58,880

And the fifth time it went dim, why, it took off.

36

00:01:58,880 --> 00:02:02,560

It went north and it stopped up there over the town of Napleside.

37

00:02:03,200 --> 00:02:05,520

And it hovered there for about, it stayed there about an hour.

38

00:02:06,160 --> 00:02:11,200

Then it went east over about where that gas field is at, at Murray's Corner.

39

00:02:11,920 --> 00:02:13,680

And it hovered there for about an hour.

40

00:02:14,880 --> 00:02:16,160

And it does that same thing.

41

00:02:16,160 --> 00:02:20,880

When it gets ready to move, it starts going dim and ride about five or six times.

42

00:02:21,680 --> 00:02:24,160

And then it went south down here somewhere.

43

00:02:24,160 --> 00:02:25,840

I couldn't see where it went to.

44

00:02:25,840 --> 00:02:30,880

But when I came home at 1130, why, I stayed and hovered out there east of Alcomie's house.

45

00:02:32,160 --> 00:02:40,320

And about six years ago, one night a girl from Plymouth here and her boyfriend was

46

00:02:40,320 --> 00:02:41,760

coming from Windmob.

47

00:02:41,760 --> 00:02:47,440

And one falls along the side of them about 30 feet high from the bottom of the tight

48

00:02:47,440 --> 00:02:52,560

field over to where Alcomie's, I was going to go up there, the highway turns to the south.

49

00:02:53,280 --> 00:02:57,840

And the Plymouth Saucer just went straight out in the east there, see.

50

00:02:57,840 --> 00:02:58,240

Yes.

51

00:02:59,920 --> 00:03:01,680

But you know, huh?

52

00:03:01,680 --> 00:03:02,160

Go ahead.

53

00:03:03,040 --> 00:03:09,120

In 1974, we started seeing different covered lights on them.

54

00:03:11,120 --> 00:03:12,960

The red light and the blue light.

55

00:03:13,920 --> 00:03:21,680

Now, up in the top, there'll have two blue lights and down on the bottom, they'll have a red one.

56

00:03:22,960 --> 00:03:29,680

And then the ones that start the green lights, well, they've got the green and yellow is what they are.

57

00:03:31,120 --> 00:03:33,280

Well, now I've got everybody in this country watching.

58

00:03:33,280 --> 00:03:36,560

But anyway, I started cutting in 1974.

59

00:03:37,600 --> 00:03:40,080

A guy was down here one day waiting for the bus to come in.

60

00:03:40,080 --> 00:03:41,680

His kid was coming in on the bus here.

61

00:03:42,240 --> 00:03:44,720

He asked me, said, you can watch them UFOs this summer.

62

00:03:44,720 --> 00:03:46,560

And I said, yeah, I said I've only seen three.

63

00:03:47,840 --> 00:03:50,480

Hey, I've seen a dozen or more up there.

64

00:03:51,040 --> 00:03:52,800

He said, what do you think of them red lights, huh?

65

00:03:53,760 --> 00:03:57,760

Well, I said, now listen, I hadn't said anything about them red lights to anybody on my life.

66

00:03:57,760 --> 00:03:59,520

I said, I didn't figure anybody's business.

67

00:03:59,520 --> 00:04:02,160

I said, my eyes been going haywire here lately.

68

00:04:02,160 --> 00:04:04,160

And I had to start wearing glasses when I read.

69

00:04:05,040 --> 00:04:06,800

And I didn't know if it was my eyes or not.

70

00:04:06,800 --> 00:04:08,560

But I had heard of it because of binoculars.

71

00:04:08,560 --> 00:04:10,160

And he said, yeah, I've got a red light on.

72

00:04:10,160 --> 00:04:10,640

Oh, right.

73

00:04:12,160 --> 00:04:16,400

But it's really something.

74

00:04:16,400 --> 00:04:20,000

Well, now these objects that have been seen over the electric transmission lines,

75

00:04:20,000 --> 00:04:21,120

are they fairly low?

76

00:04:22,160 --> 00:04:23,920

Yeah, they'd have to be fairly low.

77

00:04:25,280 --> 00:04:31,360

Well, a guy called me the other day and he said, I want to talk to you about that.

78

00:04:31,360 --> 00:04:35,520

He said, I've seen that one over there that you're talking about over there.

79

00:04:36,320 --> 00:04:39,920

You know, if he's west of Windmob, he said, I want to show you right where that is.

80

00:04:39,920 --> 00:04:41,520

He said, I just live a little ways from there.

81

00:04:42,960 --> 00:04:44,400

He said, I've been seeing that in there.

82

00:04:44,400 --> 00:04:46,400

He said for several years.

83

00:04:49,200 --> 00:04:50,880

What I want to do, I want to get a

84

00:04:51,440 --> 00:04:56,720

infant red lens from my movie camera and I'm going to get some pictures of it at night time.

85

00:04:57,840 --> 00:04:59,600

Well, if you do, we sure like to hear about it.

86

00:05:00,240 --> 00:05:02,560

Now, are you the man who's connected with these meteorites?

87

00:05:03,520 --> 00:05:07,520

No, we have no, our investigation is strictly UFOs.

88

00:05:07,520 --> 00:05:08,240

Is that right?

89

00:05:08,240 --> 00:05:08,800

Right.

90

00:05:08,800 --> 00:05:14,080

Now, have you in all the years that you have been seeing these things, have you ever had

91

00:05:14,080 --> 00:05:16,320

any close encounters with them?

92

00:05:16,320 --> 00:05:20,400

Well, I've seen two of them in the daylight here about six years ago.

93

00:05:20,400 --> 00:05:24,160

East of Toledo up near Mount St. Helens.

94

00:05:24,720 --> 00:05:32,240

Now, they were perfectly round and the big one taken the lead was twice as big as the one behind.

95

00:05:33,120 --> 00:05:41,040

Now, I know they're being brought here on mother ships because I've seen one when their mother

96

00:05:41,040 --> 00:05:44,320

ship over in Alfonso Delgado be three years ago this April.

97

00:05:45,600 --> 00:05:50,000

Me and another guy, the guy that owns that around the music company of Nashville, Tennessee

98

00:05:51,040 --> 00:05:53,600

and him and myself and my wife.

99

00:05:54,240 --> 00:05:59,760

And I know longers here that I've seen them up here working for a warehouse.

100

00:05:59,840 --> 00:06:06,400

I've seen the mother ships up and small ones come out of as high as 10 of them come out.

101

00:06:09,440 --> 00:06:11,760

But you know these guys won't tell nobody nothing about it.

102

00:06:13,280 --> 00:06:14,800

Well, I mean, you can't blame them.

103

00:06:14,800 --> 00:06:15,360

I haven't.

104

00:06:15,920 --> 00:06:20,000

I never used any of them guys names only the guys that them guys are at night.

105

00:06:20,000 --> 00:06:23,200

They wanted me to call the paper and tell them about it.

106

00:06:23,200 --> 00:06:24,960

That's the only reason I call the paper.

107

00:06:24,960 --> 00:06:25,280

Yes.

108

00:06:25,600 --> 00:06:33,440

Like I said, as I could have told them about these for years, I've seen I've seen over south.

109

00:06:34,160 --> 00:06:34,720

No doubt.

110

00:06:36,160 --> 00:06:41,120

Because in the summertime up there in around the restaurant, I see them every night.

111

00:06:42,720 --> 00:06:47,360

Well, now, have you ever seen any of these things come down in the land or come to near landings?

112

00:06:47,360 --> 00:06:48,640

No, I never have.

113

00:06:48,640 --> 00:06:52,400

And I know people around three of here have seen them land at nighttime.

114

00:06:52,480 --> 00:06:52,960

Uh-huh.

115

00:06:53,600 --> 00:06:57,360

They've been landing up there, uh, west of the airport.

116

00:06:59,760 --> 00:07:03,520

A woman seen one of us from the up there in the restaurant here about three weeks ago.

117

00:07:05,760 --> 00:07:10,160

Well, do you keep any records of these, uh, uh, files of any kind?

118

00:07:10,160 --> 00:07:11,520

No, I don't.

119

00:07:11,520 --> 00:07:14,880

I used to write it down when I date when I've seen it.

120

00:07:14,880 --> 00:07:18,080

And I thought maybe one time I'd write a book on it about it.

121

00:07:18,080 --> 00:07:21,120

But I don't know what I have to tell it.

122

00:07:21,440 --> 00:07:23,120

Well, that takes a lot of time.

123

00:07:23,120 --> 00:07:25,120

I got a book wrote about the big clips.

124

00:07:25,120 --> 00:07:30,720

I've done a lot of research on the big clips and I, every time that I try to get anybody to type it off,

125

00:07:30,720 --> 00:07:35,520

I change the dot-dot thing around like they're writing a story and I'm, I'm old.

126

00:07:35,520 --> 00:07:39,760

And I'm just telling them that they're writing and all this.

127

00:07:39,760 --> 00:07:42,080

They want to cash in on their redot-dot thing.

128

00:07:42,080 --> 00:07:42,560

That's right.

129

00:07:42,560 --> 00:07:43,840

I can understand that.

130

00:07:43,840 --> 00:07:46,880

Well, now, uh, what is the name of your restaurant?

131

00:07:46,880 --> 00:07:47,680

I see.

132

00:07:47,680 --> 00:07:49,040

What highway is that on?

133

00:07:49,120 --> 00:07:50,240

Well, it's on the freeway.

134

00:07:50,240 --> 00:07:50,880

Right on the freeway?

135

00:07:50,880 --> 00:07:52,240

100 miles south of Seattle.

136

00:07:52,240 --> 00:07:52,880

Uh-huh.

137

00:07:52,880 --> 00:08:00,880

I've got all colors of deer, redwood, whitewood, blackwood, and, uh, herd of elk, and, uh, four-head of uproof.

138

00:08:00,880 --> 00:08:03,760

Well, that's the one on the right side of the freeway heading south.

139

00:08:03,760 --> 00:08:04,320

Yes.

140

00:08:04,320 --> 00:08:05,040

I see.

141

00:08:05,040 --> 00:08:05,840

Okay.

142

00:08:06,960 --> 00:08:13,280

Is there any, uh, particular time of a day or the week that a person could come down and talk to you?

143

00:08:13,280 --> 00:08:15,280

Oh, you can talk to me anytime.

144

00:08:15,280 --> 00:08:16,480

I'm, I'm dead nothing.

145

00:08:16,480 --> 00:08:22,880

I've had all the, I could name dozens of guys and police were here that I had looking at these UFOs all the time now.

146

00:08:22,880 --> 00:08:30,080

The reason I got a hold of them that night, we've been talking down there in those calisthenics about a week before that.

147

00:08:30,080 --> 00:08:36,880

And, uh, there was a bunch of guys there and they said, now listen, they said, if you want to get a hold of these UFOs, you get a hold of them.

148

00:08:36,880 --> 00:08:38,240

He watches them every night.

149

00:08:38,240 --> 00:08:39,840

So, you got a hold of them.

150

00:08:39,840 --> 00:08:44,240

You said, now listen, the guys down around the garage there, they're talking to you.

151

00:08:44,480 --> 00:08:48,720

The guys down around the garage there tell them, you're watching for UFOs every night.

152

00:08:48,720 --> 00:08:53,920

And I said, if you ever see another one, I want you to call me or come and tell me.

153

00:08:53,920 --> 00:08:55,760

He said, I want to see what one of them looks like.

154

00:08:56,720 --> 00:08:59,600

And I said, well, man, I said, we'll be seeing them.

155

00:08:59,600 --> 00:09:01,440

I said, if the weather clears up, no doubt.

156

00:09:02,000 --> 00:09:03,520

But then I said, we'll only see in three.

157

00:09:03,520 --> 00:09:07,760

I only see in three last year, but I said, don't be seeing about a dozen or 15 of these.

158

00:09:07,760 --> 00:09:10,640

But I said, we'll see some.

159

00:09:10,640 --> 00:09:11,840

There'd be no doubt about that.

160

00:09:11,840 --> 00:09:16,320

So I called him and told him, and he couldn't find his binoculars.

161

00:09:16,320 --> 00:09:18,720

He called me back and said, well, I can't find my binoculars.

162

00:09:18,720 --> 00:09:20,480

I told him he couldn't find his binoculars.

163

00:09:21,120 --> 00:09:22,720

Call me back and I'd bring mine down.

164

00:09:24,720 --> 00:09:27,120

This guy, is he an astronomer?

165

00:09:27,120 --> 00:09:29,120

Oh, no, he just retired.

166

00:09:29,120 --> 00:09:35,680

Guy's been in business here about 50 years in this big truck shop and grew out there in Toledo.

167

00:09:35,680 --> 00:09:36,640

Oh, I see.

168

00:09:36,640 --> 00:09:40,000

And so I went down there with my binoculars.

169

00:09:40,640 --> 00:09:44,480

While I was there, well, he's got a brother who lives there too, but he was,

170

00:09:44,480 --> 00:09:46,240

so I got him out there looking at it.

171

00:09:46,880 --> 00:09:49,760

And you could see the red blue light on it.

172

00:09:50,480 --> 00:09:54,720

He only had one blue light up in the right hand corner to the red one in the left hand corner.

173

00:09:55,280 --> 00:09:58,720

And while he was there, his brother, his friend, came down there.

174

00:09:59,520 --> 00:10:01,440

And they all viewed it to the binoculars.

175

00:10:01,440 --> 00:10:03,680

They said, well, they'd never seen this light that before.

176

00:10:04,480 --> 00:10:08,080

So it hadn't been for them people who wanted me to call the paper.

177

00:10:08,080 --> 00:10:10,080

I wouldn't even call the paper about that one.

178

00:10:11,360 --> 00:10:16,480

My brother seen one landed one time on his branch about 20 years ago.

179

00:10:18,400 --> 00:10:22,320

Now, he told me that he looked at it too with binoculars.

180

00:10:22,960 --> 00:10:32,480

And he says that the box-dancing has popped ventilators on it that opens up along the side of it.

181

00:10:32,480 --> 00:10:38,720

But he thinks that the air comes out of there that makes it run through.

182

00:10:38,720 --> 00:10:40,080

I don't know what it is.

183

00:10:40,960 --> 00:10:41,440

I see.

184

00:10:44,400 --> 00:10:48,640

But anytime you want to call, make a point with those, I'll be sure to be here.

185

00:10:49,760 --> 00:10:51,200

Oh, fine. That would be great.

186

00:10:51,200 --> 00:10:52,800

We've got a bunch of rants down here.

187

00:10:52,800 --> 00:10:54,800

We've been working on the rants since the winter time.

188

00:10:55,760 --> 00:10:57,680

We build roads in the summertime.

189

00:10:57,680 --> 00:10:59,520

We've got real good trucks coming up.

190

00:10:59,600 --> 00:11:00,240

Bro, all right.

191

00:11:01,920 --> 00:11:04,400

Well, we sure appreciate talking to you sometime.

192

00:11:04,400 --> 00:11:07,920

And as soon as the weather clears a little bit, I'll give you a call.

193

00:11:07,920 --> 00:11:08,640

How did that be?

194

00:11:08,640 --> 00:11:09,840

Yeah, well, that'd be fine.

195

00:11:10,400 --> 00:11:12,480

I sure appreciate your talking to me tonight.

196

00:11:12,480 --> 00:11:14,000

Well, now, didn't you come down here?

197

00:11:14,000 --> 00:11:16,400

Does that name sound familiar up here?

198

00:11:16,400 --> 00:11:19,200

Wouldn't this meteorite sound here a while back?

199

00:11:19,200 --> 00:11:22,080

We spent a considerable amount of time investigating.

200

00:11:22,080 --> 00:11:25,040

We didn't go to the site because of the weather.

201

00:11:25,040 --> 00:11:27,360

Where could I sell some of those meteorites at?

202

00:11:27,600 --> 00:11:28,960

You mean the fragments?

203

00:11:28,960 --> 00:11:30,160

Well, the main ones.

204

00:11:30,960 --> 00:11:34,560

I had a genius to build a bullfighting machine for me one time.

205

00:11:35,120 --> 00:11:37,920

And we've discovered that it picks up meteorites.

206

00:11:37,920 --> 00:11:39,280

Took you 20 years to build it.

207

00:11:39,920 --> 00:11:40,960

Oh, for really?

208

00:11:40,960 --> 00:11:44,480

I picked up gold as far as 25 miles away with it.

209

00:11:45,440 --> 00:11:48,640

Well, there's several scientific organizations in this country

210

00:11:48,640 --> 00:11:50,320

who are searching for meteorites.

211

00:11:50,320 --> 00:11:55,040

I got him out here about after the excitement of love over here with

212

00:11:55,680 --> 00:12:00,000

and he found that in one hour's time that one fell up here.

213

00:12:00,000 --> 00:12:00,800

Really?

214

00:12:00,800 --> 00:12:03,200

Yeah, it turned out about four feet of snow.

215

00:12:04,000 --> 00:12:07,120

But I know that's it because I had him out here about two years ago

216

00:12:07,120 --> 00:12:08,000

looking for gold.

217

00:12:08,000 --> 00:12:10,320

It's posted in a gold treasure buried up in there.

218

00:12:11,040 --> 00:12:13,360

And there are days in about 1850.

219

00:12:14,320 --> 00:12:17,920

He never got any kind of readings up in there on that rock forever.

220

00:12:18,720 --> 00:12:22,560

And that was pretty close to that same area for this meteorite fell.

221

00:12:25,280 --> 00:12:27,200

I know where there's some big meteorites.

222

00:12:27,200 --> 00:12:28,880

There's one fell down in California.

223

00:12:28,880 --> 00:12:30,480

I used to be down in a highway construction.

224

00:12:31,200 --> 00:12:36,400

I was making my brothers working on that three-way 101 about 100 miles south of Eureka.

225

00:12:37,200 --> 00:12:41,200

And that dog burned the meteorite fell in the big patch of Oak Creek.

226

00:12:41,920 --> 00:12:44,480

The Oak Creek is about three to four foot through.

227

00:12:45,280 --> 00:12:49,840

And it just, it just, well, it just right then right the ground under it.

228

00:12:50,880 --> 00:12:53,120

It covered about nature where that one fell.

229

00:12:54,080 --> 00:12:58,320

Well, I think, how big is the one that fell on the 14th?

230

00:12:59,920 --> 00:13:00,480

What?

231

00:13:00,480 --> 00:13:02,720

How big was the one, this last one you found?

232

00:13:02,720 --> 00:13:03,520

Oh, I don't know.

233

00:13:03,520 --> 00:13:05,120

I like to say it was covered with snow.

234

00:13:05,120 --> 00:13:08,640

We didn't, we didn't try to go up, we got it within a mile of it.

235

00:13:08,640 --> 00:13:09,120

I see.

236

00:13:09,680 --> 00:13:11,280

But his innocence worked on it.

237

00:13:11,840 --> 00:13:16,400

And every one of those docked-on things that we have picked up like down on that reading

238

00:13:16,960 --> 00:13:18,320

has been meteorites.

239

00:13:19,040 --> 00:13:28,240

I, him and I found one three years ago up in their east of, south east of Randall,

240

00:13:28,240 --> 00:13:28,800

Washington.

241

00:13:29,520 --> 00:13:35,520

And it had three rare earth minerals in it, three rare earth minerals in that docked-on rock.

242

00:13:36,720 --> 00:13:40,000

It fell in a rocky terrain and it was a rock.

243

00:13:41,440 --> 00:13:44,240

All it was about the size of almost a big large tub.

244

00:13:45,040 --> 00:13:50,640

And a lot of it was just brown colored rock that we kept breaking the docked-on thing off and

245

00:13:50,640 --> 00:13:52,800

testing it as I took pieces off.

246

00:13:52,800 --> 00:14:01,120

Finally got down to a old spot over the box, about the size, a little bit bigger than a baseball.

247

00:14:02,000 --> 00:14:07,280

And almost just around east it had kind of brownish yellow colored crystal like a tub in it.

248

00:14:07,840 --> 00:14:14,160

And I sent that in and they said it was meteorite and it had three rare earth minerals.

249

00:14:14,160 --> 00:14:16,160

And it was just in it.

250

00:14:16,160 --> 00:14:16,960

I see.

251

00:14:16,960 --> 00:14:23,600

But I sent in, in all the time I've been looking for this gold, I sent in 30 of them that was

252

00:14:23,600 --> 00:14:25,680

meteorites, small pieces.

253

00:14:26,800 --> 00:14:28,880

Hopefully that's the worst thing about it.

254

00:14:28,880 --> 00:14:31,760

Docs probably kept saying no gold, we're picking up 10 things.

255

00:14:32,480 --> 00:14:37,760

I dug a hole down there, I was down at Madden, in the Oregon two years ago looking for that

256

00:14:37,760 --> 00:14:41,040

docked-on Spanish traitors supposed to be buried down there.

257

00:14:41,040 --> 00:14:43,280

That's \$500 million worth.

258

00:14:44,240 --> 00:14:50,240

And I dug a hole there, took out a meteorite of 10 feet deep in the ground.

259

00:14:51,440 --> 00:14:55,920

It took me eight hours to dig that docked-on hole down there, dug that hole three feet wide

260

00:14:56,800 --> 00:15:02,000

and 10 feet long and 10 feet deep.

261

00:15:03,920 --> 00:15:07,120

Well I had to dig a big fence in order to get enough room to work on it.

262

00:15:08,000 --> 00:15:13,120

But on these, you have a force, have you ever had anyone come to interview you from an official

263

00:15:13,120 --> 00:15:13,680

agency?

264

00:15:13,680 --> 00:15:15,520

Oh no, I've never had no.

265

00:15:15,520 --> 00:15:22,000

But I looked, they tell me, boy I ate these reports, that's not the same reports.

266

00:15:22,000 --> 00:15:28,480

Now they tell me that guys that have reports that have got pictures of them, that somebody

267

00:15:28,480 --> 00:15:31,200

come there and picked them up on nades and all the way from them.

268

00:15:34,240 --> 00:15:36,160

Do you know of anyone who has pictures?

269

00:15:37,040 --> 00:15:39,680

Yeah, I know some guys who got some pictures.

270

00:15:40,640 --> 00:15:45,520

I didn't know them, but I, a different guy told me about it and I called them up and I

271

00:15:45,520 --> 00:15:49,280

devised the negatives from them and I found a nighttime there.

272

00:15:49,280 --> 00:15:52,320

Looked brighter than the docked-on starters, it's just pitiful.

273

00:15:53,200 --> 00:16:01,120

Well, regarding these mother ships, would you have any idea the size, just from a visual estimate?

274

00:16:01,120 --> 00:16:07,520

Well, I put it in the fire there once I rolled in and sent them a deal on a day's

275

00:16:07,600 --> 00:16:13,440

nothing, \$50,000, they made it true that they were out of space.

276

00:16:13,440 --> 00:16:20,480

But I would say that that big one was probably a couple thousand feet across.

277

00:16:21,280 --> 00:16:24,720

I would say that it was probably 40,000 feet higher than what I've seen.

278

00:16:26,400 --> 00:16:32,320

And it looked the same docked-on size as the moon does when it's full.

279

00:16:34,720 --> 00:16:36,880

This was seen on a fairly clear night.

280

00:16:36,880 --> 00:16:42,320

Well, it was on the evening about the, oh, it was just dust and not tall.

281

00:16:42,960 --> 00:16:47,760

But now listen, if I could get a guy to talk to you, I could take you out here to die.

282

00:16:48,880 --> 00:16:52,000

I was telling his kid, he was a kid with a barber over here, it wasn't lost,

283

00:16:52,000 --> 00:16:56,640

and I was telling to hear about the old, sometime there last year.

284

00:16:57,600 --> 00:17:01,920

I was telling him one time, I said, you know, I see a couple of U.S. boats one time

285

00:17:02,560 --> 00:17:05,920

out there in the daylight, I said, out east of where you guys live.

286

00:17:05,920 --> 00:17:07,920

Well, he said, we've seen them thousands of times.

287

00:17:07,920 --> 00:17:10,000

He said, we've seen them ever since we were kids.

288

00:17:11,440 --> 00:17:13,200

And he said, my folks see them all the time.

289

00:17:13,840 --> 00:17:16,720

Now they read days, time around that, and now St. Helens a lot.

290

00:17:18,240 --> 00:17:23,840

And I was really surprised because I always figured they flew.

291

00:17:23,840 --> 00:17:30,960

I've seen some in the daytime and it looked like the table's just like I played on the table did.

292

00:17:31,920 --> 00:17:36,000

But I couldn't figure this out unless they were turning up on edge of turning.

293

00:17:36,880 --> 00:17:42,480

But he told me his dad, he told me that he said, more I've seen them flying,

294

00:17:43,120 --> 00:17:44,880

just blown at a terrific speed.

295

00:17:45,440 --> 00:17:48,000

Lamb toot, I see now up there, they were blown across the sky.

296

00:17:48,000 --> 00:17:51,120

They went across there and was out of sight before I could even get to the coast,

297

00:17:51,120 --> 00:17:52,160

or into now the house.

298

00:17:52,960 --> 00:17:56,720

He wanted me to go out there with him and look at that truck you think about buying there.

299

00:17:56,720 --> 00:18:02,160

I was just standing there leaning on that back down that truck bed with my arms

300

00:18:02,160 --> 00:18:05,520

and looking off in the space and I seen them two things go by.

301

00:18:06,480 --> 00:18:10,240

But I said, I've seen them go at a terrific speed and all the ones he just stopped.

302

00:18:11,040 --> 00:18:14,960

That big when he said, and just up there.

303

00:18:14,960 --> 00:18:16,000

I said, what was it?

304

00:18:16,720 --> 00:18:18,080

He said, I don't know what it was.

305

00:18:18,080 --> 00:18:19,680

I said, but do they have a fine song?

306

00:18:19,680 --> 00:18:20,560

Well, he said, I don't know.

307

00:18:21,840 --> 00:18:25,200

But he said, you know, man, tell people to think he's crazy.

308

00:18:26,000 --> 00:18:27,840

Yes, I can understand that.

309

00:18:28,400 --> 00:18:33,040

Has there ever been any story circulating in the area, or have you ever talked to anyone that

310

00:18:33,040 --> 00:18:36,800

has claimed to have seen the occupants while they seem to be around the ground?

311

00:18:36,800 --> 00:18:37,920

No, no.

312

00:18:37,920 --> 00:18:41,200

I've never seen one or no one about ever seen one.

313

00:18:42,720 --> 00:18:47,760

What would be the best area for an individual to go down there to watch?

314

00:18:49,280 --> 00:18:51,280

Well, now a guy told me one time,

315

00:18:51,520 --> 00:18:57,440

it's been a year to burn old guys up there and old miners from up there at Randall.

316

00:18:57,440 --> 00:19:00,160

He gave me a guy's name at the Halus.

317

00:19:00,160 --> 00:19:04,000

He said, do you want to talk to a man that really knows something about them clients'

318

00:19:04,000 --> 00:19:04,480

officers?

319

00:19:04,480 --> 00:19:05,920

He said, you should go talk to him.

320

00:19:05,920 --> 00:19:06,800

But I never did.

321

00:19:07,440 --> 00:19:09,200

I forgot what his name was now.

322

00:19:09,200 --> 00:19:13,760

But he told me that they go up there every September and watch them.

323

00:19:14,400 --> 00:19:18,960

And they, as they crossed over the cascade, divide somewhere along about where the white

324

00:19:18,960 --> 00:19:21,200

path is at to get up on the summit and watch them.

325

00:19:22,240 --> 00:19:24,400

I don't know, but for not, I never do.

326

00:19:24,400 --> 00:19:25,360

We'll see the guys.

327

00:19:27,280 --> 00:19:29,280

But he claims they crossed there in a daytime.

328

00:19:29,280 --> 00:19:32,960

Now, I'll tell you, them Dock-Don things are hard to see.

329

00:19:33,680 --> 00:19:36,560

Did you know that this helicopter crashed here the other day?

330

00:19:37,200 --> 00:19:44,160

That last thing that went up there, he seen a bright light right above that Dock-Don helicopter

331

00:19:44,160 --> 00:19:45,680

before that rotary came off.

332

00:19:46,560 --> 00:19:52,560

And, now, this is hearsay, but this is the one he was telling me last night.

333

00:19:52,560 --> 00:19:58,320

If Randall Zabard were over there, they'd be seeing all that now, too, all the time.

334

00:19:58,320 --> 00:20:04,480

He said that, well, I don't know who told him, you worked here but the county, I suppose,

335

00:20:04,480 --> 00:20:08,160

had been talking about it, but he said that the Dock-Don ace picked it up on the radar

336

00:20:08,160 --> 00:20:09,120

up there at the airport.

337

00:20:09,120 --> 00:20:13,120

Something that was above that helicopter.

338

00:20:13,280 --> 00:20:15,200

Was that the one that was carrying the bell?

339

00:20:15,840 --> 00:20:17,280

It hadn't got the bell yet.

340

00:20:18,480 --> 00:20:23,360

I seen that helicopter come up here and I looked out the window when I went by here

341

00:20:24,080 --> 00:20:30,080

and then I just started downtown to go down to pick up the mail and came back.

342

00:20:30,080 --> 00:20:34,160

They'd only been gone about 15 or 20 minutes and they came back.

343

00:20:34,160 --> 00:20:37,200

They said they'd went up there, poured and stopped and had coffee.

344

00:20:37,760 --> 00:20:41,840

They came back and they went down south here and some lives up there on the hill.

345

00:20:42,720 --> 00:20:43,760

They'd seen a turn.

346

00:20:44,480 --> 00:20:47,280

I think what they'd done, they went down there probably to where the

347

00:20:47,280 --> 00:20:52,560

three-way bridge crosses the Callis River and they turned and then they went north.

348

00:20:52,560 --> 00:20:56,400

They always fly north along the left side of that three-way.

349

00:20:57,600 --> 00:21:02,320

And there were a couple of guys going along there that seen that road come up.

350

00:21:02,960 --> 00:21:09,120

And one of those guys said that he'd seen a bright light right above that Dock-Don helicopter

351

00:21:09,760 --> 00:21:12,960

that just, you can already see, that bright light.

352

00:21:13,520 --> 00:21:16,560

Now I've seen them bright lights in the daytime here myself.

353

00:21:17,280 --> 00:21:20,160

Along in the evening when I used to come home from work different times.

354

00:21:21,440 --> 00:21:23,920

One time I was coming home and I seen one know with it,

355

00:21:23,920 --> 00:21:26,720

Shahala, it was a real bright light.

356

00:21:26,720 --> 00:21:30,400

Come on for just a couple, three seconds.

357

00:21:30,400 --> 00:21:35,760

And went out and it was daylight enough to like it had seen something that had been an airplane there,

358

00:21:35,760 --> 00:21:37,600

but I didn't see a Dock-Don thing.

359

00:21:38,560 --> 00:21:44,160

Now I kind of think that then things must be invisible in the daytime.

360

00:21:45,120 --> 00:21:47,120

That's a very good possibility, yes.

361

00:21:47,120 --> 00:21:49,920

Now I don't know, that one up there,

362

00:21:52,000 --> 00:21:54,000

and two that I've seen over there at that time,

363

00:21:56,160 --> 00:22:00,400

it was about dark, like I say, and I got a good view of them.

364

00:22:00,400 --> 00:22:05,040

You could see in the center that the Dock-Don center of it was a little bit darker

365

00:22:05,920 --> 00:22:07,520

than the outside edges was.

366

00:22:08,480 --> 00:22:13,120

So the center is, I suppose, maybe a nice shaped deal.

367

00:22:13,120 --> 00:22:15,520

It was a little bit darker.

368

00:22:17,120 --> 00:22:18,960

I've seen another one one time here.

369

00:22:20,560 --> 00:22:22,720

This has been about six or seven years ago.

370

00:22:23,360 --> 00:22:24,640

I want me to come down and pick him up.

371

00:22:24,640 --> 00:22:27,120

He got picked up for driving and he's working for me.

372

00:22:27,120 --> 00:22:30,240

And when we come down and pick him up, that Sunday someone's gonna get him.

373

00:22:30,960 --> 00:22:32,240

I've seen something shining.

374

00:22:32,960 --> 00:22:37,520

And I just as I went in behind some trees, I backed up then,

375

00:22:38,240 --> 00:22:40,560

and I said they were looking at it.

376

00:22:40,560 --> 00:22:42,400

I could see the Dock-Don thing is shining.

377

00:22:42,960 --> 00:22:46,080

And pretty soon more of that big one took off and went straight up.

378

00:22:46,720 --> 00:22:48,960

And man, it went out of sight in the middle of the flat.

379

00:22:50,720 --> 00:22:53,040

Well, now these longers that you've talked to,

380

00:22:53,040 --> 00:22:55,680

you talked quite a few of these come into your restaurant.

381

00:22:55,680 --> 00:22:59,120

Oh, well, I know all these guys around here that have been here for years.

382

00:22:59,600 --> 00:23:01,040

I've been raised here.

383

00:23:01,040 --> 00:23:02,480

I've been gone for 20 years.

384

00:23:02,480 --> 00:23:03,840

I was down in Oregon, California.

385

00:23:03,840 --> 00:23:07,840

And I was late construction and logging and mining one thing another.

386

00:23:09,760 --> 00:23:14,960

And I know all these guys, but they won't probably talk to anybody because they said,

387

00:23:14,960 --> 00:23:17,920

my list man, they told me they said,

388

00:23:17,920 --> 00:23:20,160

you're nuts because of that paper.

389

00:23:20,160 --> 00:23:23,440

Why you said, man, there'll be somebody out to talk to you.

390

00:23:23,440 --> 00:23:26,720

He said, well, I said, there always has been.

391

00:23:26,720 --> 00:23:29,520

I said, call me up, come down there and talk to me about it.

392

00:23:30,560 --> 00:23:32,000

He said, I'll report them all.

393

00:23:33,360 --> 00:23:35,840

Well, he said, they'll think you're crazy if you do.

394

00:23:35,840 --> 00:23:37,440

What was the name of this astronomer?

395

00:23:38,320 --> 00:23:40,160

Paul Newman.

396

00:23:40,720 --> 00:23:42,480

Oh, he's from the University of Washington.

397

00:23:43,120 --> 00:23:43,680

Is he?

398

00:23:43,680 --> 00:23:44,720

I think so, yeah.

399

00:23:44,720 --> 00:23:45,360

Yeah.

400

00:23:45,360 --> 00:23:46,880

He lived there in San Sergio.

401

00:23:47,760 --> 00:23:49,360

I seen one there the other night.

402

00:23:49,680 --> 00:23:50,480

Uh,

403

00:23:54,480 --> 00:23:55,840

was just Thursday night.

404

00:23:57,840 --> 00:24:00,080

Now that was under 14th night it was.

405

00:24:00,080 --> 00:24:02,640

But anyway, I stopped there at 15th on the way home

406

00:24:03,280 --> 00:24:07,040

into Halis and I come out there and I've seen a doctor.

407

00:24:07,040 --> 00:24:11,280

Regal Hubbard out there with that new ballpark that's built up there about 2,000 feet.

408

00:24:11,280 --> 00:24:17,760

And I called him and he was called up to over 10th earlier and he couldn't see it.

409

00:24:18,560 --> 00:24:22,640

But if you have to go and dim and get invited,

410

00:24:22,640 --> 00:24:26,240

then that about a half a dozen times, but it never did move.

411

00:24:28,320 --> 00:24:32,880

Now, I know that whenever they go dim a few times, they're getting ready to move.

412

00:24:33,440 --> 00:24:35,680

I don't know what causes the little dim raising about it,

413

00:24:35,680 --> 00:24:39,840

but the good guys told me they're operated magnetic to that.

414

00:24:41,440 --> 00:24:44,640

I'll tell you one doctor thing, more of them things than really travel.

415

00:24:44,640 --> 00:24:48,960

I'll bet you that they're going 35, 40,000 miles an hour.

416

00:24:48,960 --> 00:24:52,960

It's unbelievable the way that two speak to cost is five.

417

00:24:53,760 --> 00:24:56,560

And that time I seen that one over there in El Cordovaada.

418

00:24:57,600 --> 00:25:00,160

I asked that, I said, you ever see a plane in Salterton?

419

00:25:00,160 --> 00:25:00,880

He said, no.

420

00:25:01,760 --> 00:25:03,840

I said, you stop the car and I'll show you one.

421

00:25:04,800 --> 00:25:06,400

I've been watching going along there.

422

00:25:07,440 --> 00:25:10,000

It's already got dim three days of time.

423

00:25:10,000 --> 00:25:10,640

Right again.

424

00:25:10,640 --> 00:25:13,760

And so we stopped the car and he said, that's a star.

425

00:25:13,760 --> 00:25:15,200

No, I said, that's no star.

426

00:25:15,200 --> 00:25:16,320

I said, you watch the night.

427

00:25:16,320 --> 00:25:17,760

It'll go dim pretty quick again.

428

00:25:17,760 --> 00:25:18,960

I said, it's getting ready to move.

429

00:25:20,080 --> 00:25:21,520

Very soon it started going dim.

430

00:25:21,520 --> 00:25:22,720

Boy, he really got excited.

431

00:25:22,720 --> 00:25:23,520

Oh, it's going dim.

432

00:25:23,520 --> 00:25:24,400

It's going dim, he said.

433

00:25:25,040 --> 00:25:27,280

Sure, I said it is nice, but you just watched nice.

434

00:25:27,280 --> 00:25:28,400

It's going to move before long.

435

00:25:29,120 --> 00:25:31,360

And he got by it again and it went dim again.

436

00:25:31,360 --> 00:25:34,640

The next time it went dim, boy, it started out and went straight west.

437

00:25:35,760 --> 00:25:37,840

And it went down there a long ways, man.

438

00:25:37,840 --> 00:25:40,960

He just took the cross to the outside sky and believe him.

439

00:25:40,960 --> 00:25:42,080

That all down there.

440

00:25:43,600 --> 00:25:45,680

And it looked like I could see another one.

441

00:25:45,680 --> 00:25:48,240

The more I thought that I thought that I was a star.

442

00:25:48,240 --> 00:25:49,840

He looked like a star.

443

00:25:50,640 --> 00:25:56,320

And by golly, it got down and it stopped back away from that light.

444

00:25:56,960 --> 00:25:58,160

And it started going slow.

445

00:25:58,160 --> 00:26:00,960

We could see it was getting closer to that other light.

446

00:26:01,600 --> 00:26:03,200

And it went right up.

447

00:26:03,200 --> 00:26:05,120

We just lost it from the time it went up.

448

00:26:05,120 --> 00:26:07,200

When it was two feet in the day, it started all the way up.

449

00:26:07,200 --> 00:26:09,120

It went right into that other dark, down light.

450

00:26:09,120 --> 00:26:10,560

And there was just one light left.

451

00:26:11,760 --> 00:26:15,200

I got your name here.

452

00:26:15,200 --> 00:26:16,160

I got down a tape.

453

00:26:16,160 --> 00:26:17,520

I was going to call the other time.

454

00:26:18,240 --> 00:26:20,000

I was going to see if you know it anywhere.

455

00:26:20,000 --> 00:26:21,600

We'd tell them that meteorite.

456

00:26:21,600 --> 00:26:24,880

I'm going to go down to Port Arsford one of these days and get that guy out here.

457

00:26:25,840 --> 00:26:29,600

And I'm going to find that meteorite, that Port Arsford meteorite.

458

00:26:29,600 --> 00:26:31,120

They claim it for two million dollars.

459

00:26:32,960 --> 00:26:34,400

If it's there, we can find it.

460

00:26:35,040 --> 00:26:38,080

It's got down machinels, go down 400 feet deep.

461

00:26:38,160 --> 00:26:42,080

It'll be too deep to dig it out.

462

00:26:42,080 --> 00:26:43,200

Yeah, it's true.

463

00:26:43,200 --> 00:26:48,960

But if probably covered up with erosion now, two feet maybe.

464

00:26:51,200 --> 00:26:53,520

What I wanted to do is just to mend some red lenses.

465

00:26:53,520 --> 00:26:55,120

I took one of my movie cameras.

466

00:26:55,920 --> 00:26:57,600

I had a movie camera built here.

467

00:26:57,600 --> 00:27:01,680

It put the sound on the first one they ever built in 1953.

468

00:27:03,520 --> 00:27:07,040

And, oh, I got lots of movie equipment.

469

00:27:07,040 --> 00:27:12,960

I followed the big foot for, it says, 1947.

470

00:27:12,960 --> 00:27:14,000

Got a lot of movies up.

471

00:27:15,360 --> 00:27:18,960

You know, them guys, that guy from Do The Graphic magazine last summer asked me,

472

00:27:18,960 --> 00:27:23,440

they said, now, do you think these big foot connected these flying saucers?

473

00:27:24,480 --> 00:27:27,840

I said, now listen, man, have you ever meant something like that?

474

00:27:28,640 --> 00:27:31,200

I said, you don't think there's a man here, crazy for sure.

475

00:27:32,080 --> 00:27:34,240

I said, I've thought that for a long time.

476

00:27:34,240 --> 00:27:39,280

But I said, oh, I wouldn't want to dare put anything in the paper about that.

477

00:27:41,760 --> 00:27:47,360

You know, a UFO over here one time landed over here on the hill, not too far from here,

478

00:27:47,360 --> 00:27:49,600

over there where I found a young fellow on the bader.

479

00:27:50,560 --> 00:27:57,200

And my golly man then got on two embarrassed tracks, just appeared right there.

480

00:27:57,200 --> 00:28:01,120

I got the UFOs and walked through the snow.

481

00:28:01,200 --> 00:28:05,120

I hit the snow on the ground and walked around the water trough there two different times.

482

00:28:05,840 --> 00:28:10,560

And right back out past that house, now then, he was in the Christmas tree area,

483

00:28:10,560 --> 00:28:13,520

where there was Christmas trees, and George England had been cutting them in there.

484

00:28:14,400 --> 00:28:20,240

And he walked right out there, boy, and they just, well, the deputy sheriff told me,

485

00:28:20,240 --> 00:28:23,440

they said, boy, it's a big thing, we've ever seen, they said.

486

00:28:23,440 --> 00:28:26,080

It's similar to the old big foot tracks.

487

00:28:26,080 --> 00:28:28,480

Well, it was the same thing, the deputy sheriff told me.

488

00:28:28,480 --> 00:28:31,600

I was gone the time I was up at Mount St. Helens.

489

00:28:31,600 --> 00:28:34,800

They'd called me and I wasn't home, and there wasn't a way to get in the hole up in the cross.

490

00:28:34,800 --> 00:28:38,640

I was up at Mount St. Helens area, up in there looking for the big foot.

491

00:28:39,600 --> 00:28:48,560

And anyway, them things, they got right in that helicopter, right in that UFO or whatever it was,

492

00:28:48,560 --> 00:28:50,560

trying to toss it, and took off.

493

00:28:51,680 --> 00:28:57,120

And that guy told me that they heard it go, take off in there.

494

00:28:57,920 --> 00:29:05,840

It just sounded like air rushing through, it got gone through a tunnel when that rig took off.

495

00:29:06,480 --> 00:29:08,720

I know another guy here that's seen one.

496

00:29:10,240 --> 00:29:12,160

Oh, I could tell you it does, the guy's seen him.

497

00:29:12,160 --> 00:29:17,760

But anyway, this guy's a good friend of mine, and he wouldn't tell a lie on a stack of eyeballs.

498

00:29:18,480 --> 00:29:22,400

And he told me, he said, my pier has been about three years ago, and he said,

499

00:29:22,400 --> 00:29:26,080

now I've seen the damn thing today I've ever seen in my life, he said.

500

00:29:27,120 --> 00:29:30,400

And he said, I was up here at the ranch, and he'd said there's a snow on the beat.

501

00:29:30,400 --> 00:29:33,360

That was in the temporary, it was two years before this last February.

502

00:29:34,800 --> 00:29:40,560

And he said all at once, he just put snow on, and here this damn thing was, about 250 feet above me,

503

00:29:40,560 --> 00:29:45,440

he said, he said it was a kidney shaped thing, it wasn't making any noise at all,

504

00:29:46,080 --> 00:29:48,400

and just traveled by at a terrific speed.

505

00:29:49,280 --> 00:29:51,600

I said, what time was that, 10 o'clock this morning?

506

00:29:51,600 --> 00:29:54,080

And he said, yeah, why, how'd you know?

507

00:29:54,080 --> 00:29:58,480

And I said, well, I started to win, about 10 o'clock, and I said, up there down the road,

508

00:29:58,480 --> 00:30:02,320

my radio just put play, and went completely dead, I got a push button radio,

509

00:30:03,280 --> 00:30:08,320

and I flipped it, and it didn't play a thing, and I got her down there at the Mormon church,

510

00:30:08,320 --> 00:30:09,360

and it started playing.

511

00:30:10,880 --> 00:30:14,000

And I know a woman, oh, I told everybody about these,

512

00:30:14,000 --> 00:30:16,480

I thought, don't you have both children coming from years around here?

513

00:30:17,360 --> 00:30:21,520

This woman was working out there, her neighbor, she's working here in a drug store,

514

00:30:21,520 --> 00:30:24,080

and she told me that in one day it's been about a year ago now.

515

00:30:24,800 --> 00:30:28,640

But she said my daughter and her boy said they seemed one of them flying saucers last night,

516

00:30:29,520 --> 00:30:35,600

and said they stopped the watches, and the minute they stopped, the car went dead, the motor,

517

00:30:35,600 --> 00:30:36,560

and it wouldn't start.

518

00:30:37,600 --> 00:30:43,360

And she said they had to walk home, and then she said my husband and I, and we went back down there,

519

00:30:43,600 --> 00:30:49,200

and took them back down there to get it, and she said they got in there, and he got in there to

520

00:30:49,200 --> 00:30:52,640

check to see if it started or didn't start, and it started right up.

521

00:30:53,920 --> 00:30:56,800

But I know in a lot of cases, it makes them car motors go dead.

522

00:30:59,360 --> 00:31:01,920

Well, thanks again, Mr. I'm going to get back to you in a couple of weeks.

523

00:31:01,920 --> 00:31:02,640

You're welcome.

524

00:31:02,640 --> 00:31:03,440

All right, goodbye.

525

00:31:03,440 --> 00:31:04,080

Bye-bye.

526

00:31:04,080 --> 00:31:04,640

Yes.

527

00:31:04,640 --> 00:31:08,880

This is Bob Grebel of Phenomena Research in Seattle, and we recently talked to a

528

00:31:09,280 --> 00:31:15,040

who, who advises that there was some kind of UFO activity going on down there, and said

529

00:31:15,040 --> 00:31:16,160

he wanted to investigate.

530

00:31:17,120 --> 00:31:18,160

Did you find anything?

531

00:31:19,600 --> 00:31:20,480

Oh, tonight?

532

00:31:20,480 --> 00:31:21,200

Yes.

533

00:31:21,200 --> 00:31:27,440

Oh, well, he just told me that as I was going home to see what all the light was down beyond,

534

00:31:27,440 --> 00:31:31,680

but I mean, where I turned off to come home, it was still further on down the freeway,

535

00:31:31,680 --> 00:31:33,600

so I wouldn't have had any idea what it was.

536

00:31:33,600 --> 00:31:34,480

Oh, I see.

537

00:31:34,480 --> 00:31:38,480

But tonight, I mean, did he tell you tonight that he tried to get his wife and

538

00:31:39,840 --> 00:31:45,760

I to the door of, you know, the hamburgers and the sewers when he said it just came down from

539

00:31:45,760 --> 00:31:50,640

way up high, and by the time we got the door to look out, it was shooting, you know, down along,

540

00:31:50,640 --> 00:31:53,520

you know, the freeway almost, and flashing away.

541

00:31:54,720 --> 00:31:59,920

So, but I mean, you know, he was wondering what all the light was, you know, on down that direction,

542

00:31:59,920 --> 00:32:04,480

and then, you know, said if I could make out what it was, to call him back, but I mean,

543

00:32:04,480 --> 00:32:06,160

it was on down beyond right.

544

00:32:06,160 --> 00:32:07,040

Oh, I see.

545

00:32:07,520 --> 00:32:11,520

I mean, it looked quite a way like it might have been down as far as the College River,

546

00:32:11,520 --> 00:32:13,120

even, and I don't feel nearly that far.

547

00:32:13,760 --> 00:32:16,160

Was the thing still on the move, you saw it?

548

00:32:16,160 --> 00:32:16,480

Yeah.

549

00:32:18,000 --> 00:32:23,120

And I mean, it wasn't up too high at that time, and I mean, it was flashing, and it was, you know,

550

00:32:23,840 --> 00:32:27,920

not too high from the ground, and I don't mean it was skinning the ground, but I mean, it wasn't,

551

00:32:27,920 --> 00:32:30,000

you know, up, you know, too high.

552

00:32:30,000 --> 00:32:35,520

I mean, a lot of private planes fly that low, you know, but it was really flashing away.

553

00:32:36,160 --> 00:32:38,080

That's the first one I've ever seen.

554

00:32:38,080 --> 00:32:43,280

I mean, I've gone on before and looked, you know, a few years back or so, but I just never

555

00:32:43,280 --> 00:32:44,720

saw it, so I quit looking.

556

00:32:44,720 --> 00:32:50,160

But I gather there's been a number of people down around Toledo who have really, you know,

557

00:32:50,160 --> 00:32:52,320

been seeing him the last month or two.

558

00:32:52,320 --> 00:32:52,560

Yes.

559

00:32:53,120 --> 00:32:54,640

Now, were you in the restaurant at one?

560

00:32:54,640 --> 00:32:55,280

This was same.

561

00:32:55,280 --> 00:32:55,520

Yeah.

562

00:32:56,160 --> 00:32:56,560

Yeah.

563

00:32:56,560 --> 00:33:01,360

And he, you know, he came running to the back door and hollering at Elna and I to come out

564

00:33:01,360 --> 00:33:08,720

and see it, and by the time we got there, it was already, you know, flying parallel to the ground,

565

00:33:08,720 --> 00:33:12,240

you know, I mean, where he said it had been up quite high and came just straight down,

566

00:33:12,240 --> 00:33:16,880

but by the time we got to the door, it was down and scooting, you know.

567

00:33:17,440 --> 00:33:18,480

I think so.

568

00:33:18,480 --> 00:33:18,960

Yeah.

569

00:33:18,960 --> 00:33:20,880

And it was just parallel in the freeway?

570

00:33:21,520 --> 00:33:22,800

I just took out.

571

00:33:22,800 --> 00:33:27,600

I mean, it was a little, a little to the right of the freeway, the same as the hamburgers down,

572

00:33:27,600 --> 00:33:30,720

but I mean, it was just like it was heading right along the freeway.

573

00:33:30,720 --> 00:33:30,960

Yes.

574

00:33:31,440 --> 00:33:31,840

Uh-huh.

575

00:33:32,800 --> 00:33:33,920

Until it was out of sight.

576

00:33:33,920 --> 00:33:38,720

I mean, there's a lot of trees, you know, that, but we could see it, you know, for some distance.

577

00:33:39,440 --> 00:33:42,160

Now, did you say that this thing had colored lights?

578

00:33:42,160 --> 00:33:42,960

Not this one.

579

00:33:42,960 --> 00:33:48,080

This one was flashing and he said that's the first one he's seen that way that most of the other day

580

00:33:48,080 --> 00:33:50,400

had been seeing it was flashing, colored lights.

581

00:33:51,040 --> 00:33:51,360

Uh-huh.

582

00:33:54,000 --> 00:33:55,440

Well, that's fine.

583

00:33:55,440 --> 00:33:57,760

At least I know that there was something involved anyway.

584

00:33:57,760 --> 00:34:00,080

And I mean, it wasn't small either.

585

00:34:00,080 --> 00:34:06,480

I mean, you know, those flashes, I mean, really, you know, well, there would have been some

586

00:34:06,480 --> 00:34:07,600

dimensions to them.

587

00:34:07,600 --> 00:34:12,720

I mean, even from the distance where we were, you know, they weren't easy by any means.

588

00:34:12,720 --> 00:34:14,800

How about the color of these flashes?

589

00:34:14,800 --> 00:34:16,480

Well, what do you want to call it?

590

00:34:16,480 --> 00:34:21,200

It's just like a bright light, but not golden.

591

00:34:21,200 --> 00:34:23,200

And you know, I don't mean a golden glow to it.

592

00:34:23,200 --> 00:34:25,440

And I mean, just, it's just the brightest.

593

00:34:25,440 --> 00:34:26,240

They flashed.

594

00:34:26,240 --> 00:34:27,040

I don't know whether.

595

00:34:27,040 --> 00:34:30,800

And it was like, you know, it would be, say, like in stripes.

596

00:34:30,800 --> 00:34:36,400

I mean, it wasn't just a solid glow, but it was either like, I don't know what it was,

597

00:34:36,400 --> 00:34:39,280

but it was like stripes and ridges going up and down.

598

00:34:39,280 --> 00:34:44,400

And they were seen to be narrower at the bottom and then spreading out a little bit more towards the top.

599

00:34:44,400 --> 00:34:45,040

Yes.

600

00:34:45,040 --> 00:34:47,520

You know, so they were a little wider at the top of it.

601

00:34:48,160 --> 00:34:49,760

And I mean, how can you tell?

602

00:34:49,760 --> 00:34:50,400

I don't know how.

603

00:34:51,440 --> 00:34:55,360

The thing wasn't up too high, but I wouldn't know how far away it was.

604

00:34:55,360 --> 00:35:01,760

But still, each of those flashes in the bottom at the top, I mean, they didn't look like a little in-suit too.

605

00:35:01,760 --> 00:35:05,760

I mean, you know, they had some links to them.

606

00:35:05,760 --> 00:35:07,280

Okay, how about the weather conditions?

607

00:35:08,000 --> 00:35:09,280

Right at that time.

608

00:35:09,280 --> 00:35:13,440

It probably was, probably was sprinkling.

609

00:35:14,000 --> 00:35:16,160

Well, then we did have, you did have a cloud layer.

610

00:35:17,840 --> 00:35:23,280

I, I would imagine, because I know I left right after that and I had to turn on my windshield

611

00:35:23,280 --> 00:35:25,920

lightly so I know it was, you know, a good sprinkle.

612

00:35:25,920 --> 00:35:26,160

Yes.

613

00:35:28,000 --> 00:35:29,920

And even what I wasn't seeing today.

614

00:35:29,920 --> 00:35:30,160

Right.

615

00:35:31,760 --> 00:35:33,040

About what time did this happen?

616

00:35:33,040 --> 00:35:33,920

Do you have any idea?

617

00:35:34,640 --> 00:35:38,080

Well, you see, I signed out at eight o'clock, so it must have been,

618

00:35:38,880 --> 00:35:42,240

it's not, it had to be at least 10 to eight, I would say.

619

00:35:42,240 --> 00:35:43,440

It could have been five to eight.

620

00:35:44,480 --> 00:35:46,000

But right around in there.

621

00:35:46,000 --> 00:35:46,240

Yes.

622

00:35:46,800 --> 00:35:50,240

Because I mean, we were just about cleaning up and I was about ready to leave.

623

00:35:50,240 --> 00:35:53,360

So it had to be right around five to eight.

624

00:35:53,760 --> 00:35:54,160

I see.

625

00:35:55,440 --> 00:35:57,200

Okay, well, thank you very, very much.

626

00:35:57,200 --> 00:35:57,600

All right.

627

00:35:57,600 --> 00:35:58,080

Thank you.

628

00:35:58,080 --> 00:35:58,720

Good night.

629

00:35:58,720 --> 00:35:59,200

Good night.

630

00:35:59,920 --> 00:36:00,720

Bob Kerbal here.

631

00:36:01,360 --> 00:36:02,400

Yeah, hello, Bob.

632

00:36:02,400 --> 00:36:03,840

I understand you saw something tonight.

633

00:36:04,400 --> 00:36:06,400

As it does, I'm the thing I've ever seen.

634

00:36:06,400 --> 00:36:07,600

Boy, that's white light on.

635

00:36:08,240 --> 00:36:11,040

It was a turnin' like them Redlands has been and them Bluelands.

636

00:36:11,920 --> 00:36:14,640

But that's the first time I've ever seen one of them with a white light on.

637

00:36:15,680 --> 00:36:16,320

A turnin'.

638

00:36:17,440 --> 00:36:18,960

I don't know, I thought it landed.

639

00:36:18,960 --> 00:36:20,960

I don't know, I'm right down behind them trees over there.

640

00:36:20,960 --> 00:36:22,720

I don't know where it could have passed the line of that.

641

00:36:23,520 --> 00:36:24,880

It came down out of the sky.

642

00:36:24,880 --> 00:36:25,520

It's come on.

643

00:36:26,400 --> 00:36:29,440

Oh, I didn't wonder if it was about a, probably a thousand feet high.

644

00:36:30,400 --> 00:36:31,280

Maybe a little higher.

645

00:36:32,080 --> 00:36:33,360

But it come right down.

646

00:36:33,360 --> 00:36:37,440

It was down within 400 feet of ground when it went in behind them trees.

647

00:36:37,440 --> 00:36:38,880

Well, it was probably lower than that.

648

00:36:38,880 --> 00:36:41,360

Maybe 300 feet.

649

00:36:42,400 --> 00:36:44,400

But it was right south right, restaurant there.

650

00:36:45,360 --> 00:36:49,360

Oh, it was probably down there a thousand feet.

651

00:36:49,360 --> 00:36:50,000

Uh-huh.

652

00:36:50,000 --> 00:36:54,000

There's a couple little strips of fields, open field in between that timber.

653

00:36:54,000 --> 00:36:54,800

It was all.

654

00:36:55,600 --> 00:36:58,000

But that light was to down down right.

655

00:36:58,000 --> 00:36:59,440

It was unbelievable.

656

00:37:00,160 --> 00:37:04,000

It just showed up around that down down, right on the bottom of it.

657

00:37:04,000 --> 00:37:04,640

Uh-huh.

658

00:37:05,200 --> 00:37:06,800

It just let the whole sky up.

659

00:37:07,920 --> 00:37:11,120

Did this, did you see it as it was coming down out of the sky?

660

00:37:11,120 --> 00:37:13,600

Yeah, I think it was up, like I say, around

661

00:37:14,080 --> 00:37:16,800

about a thousand feet or so when it came on.

662

00:37:16,800 --> 00:37:18,000

Was this a vertical drop?

663

00:37:18,880 --> 00:37:20,240

Yeah, coming straight down.

664

00:37:20,800 --> 00:37:21,040

Yeah.

665

00:37:23,360 --> 00:37:28,160

Did you get any, uh, was there any, uh, outline that you could see?

666

00:37:28,160 --> 00:37:29,200

No, I couldn't see it.

667

00:37:29,200 --> 00:37:29,520

It's all light.

668

00:37:29,520 --> 00:37:31,040

It's not something on that bright light.

669

00:37:31,040 --> 00:37:31,760

Uh-huh.

670

00:37:31,760 --> 00:37:33,200

And mine was radioverted.

671

00:37:34,080 --> 00:37:35,360

It was spinning light?

672

00:37:35,360 --> 00:37:36,880

Yeah, yeah, it was spinning.

673

00:37:36,880 --> 00:37:38,480

That's where all these other lights are.

674

00:37:38,480 --> 00:37:40,960

These red ones and blue ones were benefiting on them.

675

00:37:40,960 --> 00:37:43,040

You say this was on the bottom of the object?

676

00:37:43,040 --> 00:37:46,640

Yeah, well I'd say it was on the bottom, because all I could see was just,

677

00:37:47,440 --> 00:37:49,840

just, they just lit up everything right underneath it.

678

00:37:49,840 --> 00:37:50,320

I see.

679

00:37:52,640 --> 00:37:54,320

And that was the only light that was on it.

680

00:37:54,720 --> 00:37:55,200

Uh-huh.

681

00:37:56,000 --> 00:38:01,600

You know, uh, they seemed to be big R-shaped flying things too, just like them rigs.

682

00:38:02,320 --> 00:38:04,000

That can ruin the water.

683

00:38:04,000 --> 00:38:06,800

Oh yes, yeah, we've heard about those.

684

00:38:06,800 --> 00:38:11,920

Now a kid up here, about, oh, it's been about a year or more, maybe,

685

00:38:12,560 --> 00:38:13,760

maybe not quite a year ago.

686

00:38:13,760 --> 00:38:17,520

It was not, probably been nine months ago.

687

00:38:18,320 --> 00:38:23,440

A kid up here lives up on the hill, just a little kid, about eight or ten years old.

688

00:38:24,080 --> 00:38:29,600

He seen one roll with a barn there one night, and he said it was a roll.

689

00:38:29,600 --> 00:38:34,640

It rattled out ten roofs on the barn, but I don't think that was, I think it was probably

690

00:38:34,640 --> 00:38:39,840

making a little bit of noise, maybe, and it sounded like it was rattling ten on that roof.

691

00:38:40,080 --> 00:38:40,560

Uh-huh.

692

00:38:41,200 --> 00:38:46,480

Well, now, this one tonight, did it just continue moving off horizontally away from you?

693

00:38:46,480 --> 00:38:50,320

Oh, no, it just came down out of the sky down there and went in behind them trees,

694

00:38:50,320 --> 00:38:52,480

and I couldn't see where it went to.

695

00:38:52,480 --> 00:38:52,960

Uh-huh.

696

00:38:53,520 --> 00:39:00,560

See, it was down, down the road from the south of my rest area, probably a thousand feet.

697

00:39:01,920 --> 00:39:04,560

But when it gets down behind the trees, then I couldn't see nothing.

698

00:39:04,560 --> 00:39:04,880

Yes.

699

00:39:06,320 --> 00:39:09,600

I think it has landed, but I don't know, like I said, I'm in the works of the land

700

00:39:09,600 --> 00:39:14,320

that I'm in right now, unless it was in that little strip, there's a couple little narrow strips there.

701

00:39:16,240 --> 00:39:20,560

It slowed down a lot there at the last, though, it didn't, uh, what come this past the words

702

00:39:20,560 --> 00:39:21,280

to start with.

703

00:39:21,280 --> 00:39:24,640

Now buying dollars, them things, and really bring that to a quick home, I'll tell you.

704

00:39:24,640 --> 00:39:25,120

Yeah.

705

00:39:25,120 --> 00:39:26,960

They're getting off of close to you, aren't they?

706

00:39:28,000 --> 00:39:33,440

Well, I never thought to tell you last night, that man told me up there last Friday night out

707

00:39:33,440 --> 00:39:38,800

there, they had a, he's a little bit retired here, and they had a party out there for him,

708

00:39:38,800 --> 00:39:44,160

with the little new grains, and he told me that a week ago, that night, he seen one a

709

00:39:44,160 --> 00:39:48,880

hundred over my rest, and about 400 feet in the air, and he said he stopped there,

710

00:39:49,520 --> 00:39:52,880

and he said, he'd been there about a minute, and he said, boy, it took off with the word

711

00:39:52,880 --> 00:39:53,760

Mount St. Helens.

712

00:39:54,720 --> 00:39:55,280

I'll be there.

713

00:39:57,120 --> 00:40:02,960

And I think he said it had a, I think he said it had a blue and a red light on it.

714

00:40:04,880 --> 00:40:06,720

He couldn't make out any outline either.

715

00:40:07,520 --> 00:40:11,200

Now listen, if I had an infant red lens, we could make an outline on them.

716

00:40:11,200 --> 00:40:11,520

Right.

717

00:40:12,080 --> 00:40:12,880

That's what you need.

718

00:40:12,880 --> 00:40:14,960

Has anybody got any around that we can get?

719

00:40:16,160 --> 00:40:21,200

I've got a movie camera, 16 millimeters, got an inch, uh, opening on it.

720

00:40:22,080 --> 00:40:26,400

If we had an infant from red lens, I'll get some pictures of them, that's darn thanks.

721

00:40:27,680 --> 00:40:35,040

Now, this guy's run that service station, he's seen one there, what'd he say, two or three nights

722

00:40:35,040 --> 00:40:38,720

ago, after over there to the right of the freeway.

723

00:40:39,360 --> 00:40:40,800

But that's what they do.

724

00:40:40,800 --> 00:40:45,520

They hover over that down line over there, then they go to Napa Vine, then they'll make

725

00:40:45,520 --> 00:40:52,480

another move east, and they'll, uh, hover over that dot down over there, the word that gas

726

00:40:52,480 --> 00:40:55,520

or installation, the way they got that gas field there.

727

00:40:57,200 --> 00:41:00,000

And he said it was hovering over there to the right of the freeway over that,

728

00:41:01,120 --> 00:41:03,520

where they got that pump station there.

729

00:41:03,520 --> 00:41:04,080

Oh, I see.

730

00:41:04,560 --> 00:41:08,480

Then he said it moved, and went about two miles and stopped again.

731

00:41:09,040 --> 00:41:12,320

And he said it started running like a son of a gun, and he said he went on in the

732

00:41:12,960 --> 00:41:14,240

house and forgot about it.

733

00:41:15,200 --> 00:41:17,840

Well, how was the weather tonight when you saw this?

734

00:41:17,840 --> 00:41:19,280

It wasn't raining any tonight.

735

00:41:20,640 --> 00:41:21,440

Never clear.

736

00:41:22,800 --> 00:41:25,520

It has been a rain like a son of a gun all day, though.

737

00:41:25,520 --> 00:41:25,840

Yeah.

738

00:41:27,360 --> 00:41:28,720

It's literally poured.

739

00:41:30,080 --> 00:41:32,400

Have you heard of anyone else that saw this tonight?

740

00:41:33,360 --> 00:41:36,400

No, I told them, my wife, that was right there with the door.

741

00:41:37,680 --> 00:41:40,560

I got it out there before it went down behind them trees.

742

00:41:42,080 --> 00:41:47,920

Well, I talked to this, and she said that when she was on the way home, traveling down the freeway

743

00:41:47,920 --> 00:41:52,560

tonight, she could still see the thing heading south parallel in the freeway.

744

00:41:52,560 --> 00:41:53,200

She could.

745

00:41:53,200 --> 00:41:53,600

Yeah.

746

00:41:54,400 --> 00:41:55,040

Is that right?

747

00:41:55,040 --> 00:41:57,920

Well, it was probably standing still down there then, maybe.

748

00:41:57,920 --> 00:42:02,080

Well, she said by the time she got to her turn off, the thing was well south of her.

749

00:42:02,080 --> 00:42:04,080

She figured it was awful close to the river.

750

00:42:05,360 --> 00:42:11,920

But she said that it was obviously quite large because the thing was really bright from even

751

00:42:11,920 --> 00:42:12,800

her distance.

752

00:42:12,800 --> 00:42:13,360

Yeah.

753

00:42:14,000 --> 00:42:15,120

I'll be down going.

754

00:42:16,160 --> 00:42:18,960

Well, it didn't land, and well, I didn't know what it done.

755

00:42:18,960 --> 00:42:20,880

Maybe it did turn over there and take off.

756

00:42:20,880 --> 00:42:21,520

I don't know.

757

00:42:22,880 --> 00:42:26,560

Did she say if the light was still heard or not?

758

00:42:26,560 --> 00:42:28,080

She said it was still very brilliant.

759

00:42:28,080 --> 00:42:28,800

It was brilliant.

760

00:42:28,800 --> 00:42:30,720

She said it appeared to be flashing.

761

00:42:31,520 --> 00:42:31,840

Yeah.

762

00:42:31,840 --> 00:42:33,120

Well, that's the way it does.

763

00:42:33,120 --> 00:42:34,800

It turns around, see.

764

00:42:35,680 --> 00:42:43,760

And it seems like maybe on one side it's brighter than it is on the back part of it because it's

765

00:42:43,760 --> 00:42:48,000

kind of got a shadow a little bit when it turns.

766

00:42:49,280 --> 00:42:51,040

And one side is really bright.

767

00:42:53,680 --> 00:42:54,400

I see.

768

00:42:54,400 --> 00:42:59,520

Boy, if I had some infrared lens now, I guarantee I'll get some dark, dark pictures there.

769

00:42:59,840 --> 00:43:00,400

Some of them.

770

00:43:00,400 --> 00:43:03,040

Well, I'm going to get some.

771

00:43:03,040 --> 00:43:07,280

I'm going to get a whole newspaper, somebody in CPAC to borrow one from them.

772

00:43:08,800 --> 00:43:10,720

Well, we sure appreciate your calling about this.

773

00:43:10,720 --> 00:43:14,960

Did they call a radio airport up there?

774

00:43:14,960 --> 00:43:18,960

I think they tried to get through, but they for some reason they didn't make it.

775

00:43:20,960 --> 00:43:27,040

You know that guy up there told somebody here a while back that they picked up something on

776

00:43:27,040 --> 00:43:28,480

the radar here.

777

00:43:28,480 --> 00:43:29,920

One night we seen one of them.

778

00:43:32,640 --> 00:43:34,640

Well, no doubt they do.

779

00:43:34,640 --> 00:43:35,360

I don't know.

780

00:43:35,360 --> 00:43:38,000

I don't think them guys are allowed to tell anybody anything.

781

00:43:39,280 --> 00:43:44,640

You know, I called the church department here one time along the summertime there,

782

00:43:45,760 --> 00:43:50,240

but when that one kept moving a little bit, tried to get them to come down and look at it.

783

00:43:51,200 --> 00:43:53,600

And they said they didn't have anybody in there at the time.

784

00:43:54,080 --> 00:43:57,440

So if anybody come in, they send them down, but nobody come.

785

00:43:58,320 --> 00:44:00,160

But I was up there feeding the animals that night.

786

00:44:00,160 --> 00:44:04,560

I didn't come with that day, and I got home late and I went up there about 10 o'clock

787

00:44:05,680 --> 00:44:06,880

that night, and I was feeding them.

788

00:44:07,680 --> 00:44:11,520

I was feeding the dog dogs, and I was setting up their long and dry, the freeway bottle over there

789

00:44:11,520 --> 00:44:13,920

for about a while from the station here.

790

00:44:14,880 --> 00:44:19,760

So they took off and went about four, probably a mile south and stopped again.

791

00:44:20,720 --> 00:44:25,680

And I was feeding them along there and kept walking pretty soon they moved again.

792

00:44:27,200 --> 00:44:32,800

And then it was still there when I left and to go home.

793

00:44:33,600 --> 00:44:37,760

And I tried to get the dog-drawn sheriff department to send a deputy down there

794

00:44:37,760 --> 00:44:40,320

and some paper clothes and view that dog-drawn thing.

795

00:44:41,920 --> 00:44:46,880

Well, do you feel that possibly the electric transmission line is what is attracting them?

796

00:44:47,680 --> 00:44:51,840

Well, now listen, I'll tell you, every dog-drawn time I've seen that up there to

797

00:44:51,840 --> 00:44:55,440

rest at night time, there's always a hover over that power line to start with.

798

00:44:56,640 --> 00:45:01,600

And scene one here about, well, it did about three weeks ago now.

799

00:45:02,320 --> 00:45:04,400

It's been about a week since it told me about it.

800

00:45:05,040 --> 00:45:08,160

He's seen one up there hovering over the dog-drawn power line,

801

00:45:08,960 --> 00:45:11,200

and he was just flying right down the power line.

802

00:45:11,200 --> 00:45:15,760

He's going along there in his car, and it had a real,

803

00:45:15,760 --> 00:45:22,400

he said a real bright green reflection with a yellow, yellow light in the center.

804

00:45:26,240 --> 00:45:30,800

But I know that these dog-drawn, them other lights are flashed,

805

00:45:30,800 --> 00:45:35,360

these guys have got better eyes, and I've got to tell them that these other lights are all

806

00:45:35,360 --> 00:45:36,800

alternate. I see.

807

00:45:36,800 --> 00:45:37,760

Up in the air there.

808

00:45:40,000 --> 00:45:41,840

Have you guys ever seen any of them?

809

00:45:42,400 --> 00:45:48,640

No. I haven't. Several of the other people have.

810

00:45:49,920 --> 00:45:54,000

There was one that hovered over that dog-drawn scene plant.

811

00:45:54,720 --> 00:46:02,080

I was at work, and it's been about maybe 67, somewhere along there.

812

00:46:02,080 --> 00:46:06,800

We got the check with the mill where I built that route up there, both bills, to be sure.

813

00:46:07,360 --> 00:46:10,880

But I've seen one up in that, around down that area a lot.

814

00:46:11,920 --> 00:46:18,480

At night time, and then early one morning, we was going to work, but then I saw a little Charlie.

815

00:46:18,480 --> 00:46:21,280

I said, boy, look at that bright star, I said.

816

00:46:22,400 --> 00:46:25,120

And that's before I really know too much about them.

817

00:46:26,160 --> 00:46:32,320

I didn't know, you know, I hadn't been to see them getting bright and damn too much there.

818

00:46:33,280 --> 00:46:35,360

But anyway, this was just that bright.

819

00:46:35,360 --> 00:46:38,240

I said, look at that dog-drawn bright star there, Charlie.

820

00:46:39,200 --> 00:46:42,240

He said, boy, that is bright. There's about six o'clock in the morning.

821

00:46:43,360 --> 00:46:46,720

So, pretty soon I said, by golly, it ain't no star.

822

00:46:46,720 --> 00:46:47,920

I said, it's moving now.

823

00:46:48,640 --> 00:46:51,840

It took off and went up there about to where that steam plant was at.

824

00:46:52,720 --> 00:46:53,360

And stopped.

825

00:46:54,240 --> 00:46:58,000

And that's when they built that steam plant up throughout the centrillion.

826

00:47:00,080 --> 00:47:02,800

So, and then I've seen one one night down there,

827

00:47:02,800 --> 00:47:10,160

well, several nights, coming home late at night time, in December time, the days is long.

828

00:47:11,520 --> 00:47:15,120

And I've seen one down there, I stopped there one night and I got a hold of a guy,

829

00:47:15,120 --> 00:47:17,920

by the name of Guar, down there, there's that old bill.

830

00:47:18,960 --> 00:47:22,720

And I stopped and told him, I said, there's a UFO right there.

831

00:47:22,720 --> 00:47:24,560

And the plant stopped right here, I told him.

832

00:47:25,280 --> 00:47:26,320

Boy, he said, that's a star.

833

00:47:26,320 --> 00:47:27,760

And I said, no, it's not either.

834

00:47:28,400 --> 00:47:30,800

And we stood around there for a while, I'm looking at it.

835

00:47:31,600 --> 00:47:36,000

And he said, it took off and went straight east towards the steam plant.

836

00:47:37,440 --> 00:47:40,480

Well, I've seen them hovering over the Dodd-Born, Columbia River too.

837

00:47:41,520 --> 00:47:46,320

One time I went down to there one night, I called in, I need some for the cat,

838

00:47:46,320 --> 00:47:48,800

I broke something that day and I called in and they put it out.

839

00:47:48,800 --> 00:47:50,480

And they have a place to put it out for you.

840

00:47:50,480 --> 00:47:53,520

And I went down and picked up that night coming back.

841

00:47:53,520 --> 00:47:57,360

I seen this Dodd-Born thing over the Columbia River.

842

00:47:57,360 --> 00:47:58,960

Now, this was did several years ago.

843

00:47:58,960 --> 00:48:02,720

Probably been 14, 14 years ago.

844

00:48:04,000 --> 00:48:07,600

But anyway, I don't care what it was.

845

00:48:07,600 --> 00:48:09,440

It was, you know, it wasn't up too high.

846

00:48:09,440 --> 00:48:12,400

Maybe it, maybe a couple of thousand feet.

847

00:48:12,400 --> 00:48:18,160

So I kept watching the Dodd-Born thing and I thought it looked like it was kind of going

848

00:48:18,160 --> 00:48:20,400

down and so I pulled up there and stopped then.

849

00:48:21,600 --> 00:48:25,040

And it went down a couple of times after that then.

850

00:48:25,600 --> 00:48:26,560

And then it went out.

851

00:48:27,440 --> 00:48:29,040

And I didn't see a Dodd-Born thing.

852

00:48:29,040 --> 00:48:31,680

I sat there for a couple of minutes pretty soon to come on.

853

00:48:31,680 --> 00:48:38,480

It was hovering over a house on the Oregon side there about 400, 500 feet above the house.

854

00:48:39,760 --> 00:48:42,240

And then I come on home and I didn't see nothing about it.

855

00:48:42,240 --> 00:48:45,280

And the next day my wife read, we're two women from Olifthia,

856

00:48:46,000 --> 00:48:51,120

had seen a flying saucer hovering over the Columbia River south along due.

857

00:48:51,840 --> 00:48:55,840

But I have a report that because nobody believed it.

858

00:48:55,840 --> 00:48:58,560

Because there's been people around here at that time, the environment.

859

00:48:59,360 --> 00:49:00,560

Nobody really believed them.

860

00:49:01,440 --> 00:49:03,760

Okay, about what time was your sighting tonight?

861

00:49:03,760 --> 00:49:04,400

Eight o'clock.

862

00:49:08,240 --> 00:49:11,920

Okay, if anything else big happens, why, be sure and let us know.

863

00:49:11,920 --> 00:49:15,040

Oh, we didn't get a whole one in for red lenses now for a camera.

864

00:49:16,000 --> 00:49:23,600

A telescope with an inch deal with a line of female threads.

865

00:49:23,600 --> 00:49:25,840

It's got to have the threads out on the scope.

866

00:49:26,560 --> 00:49:28,720

One inch in for red, female threads.

867

00:49:29,360 --> 00:49:29,680

Yeah.

868

00:49:31,440 --> 00:49:32,960

Well, this would be a male thread.

869

00:49:32,960 --> 00:49:34,960

This screws in to the deal on my camera.

870

00:49:34,960 --> 00:49:38,160

See, that has the threads on the lens.

871

00:49:39,440 --> 00:49:44,000

But now these in from red lenses, now that National Geographic magazine was out here

872

00:49:44,800 --> 00:49:47,280

are running a survey on a little big tip data.

873

00:49:47,280 --> 00:49:50,160

They got some pictures of those big tip up there in the dark, they claim.

874

00:49:50,160 --> 00:49:54,080

And they were down to my place taking pictures of the animals there one night.

875

00:49:55,600 --> 00:49:56,640

I'd love them to clock.

876

00:49:58,480 --> 00:50:03,280

Now, if we could get the whole of them, that'll show that thing right up.

877

00:50:03,280 --> 00:50:04,320

Just like daytime.

878

00:50:05,120 --> 00:50:06,080

Well, I'll work on that.

879

00:50:06,880 --> 00:50:08,080

See what I can do.

880

00:50:08,080 --> 00:50:08,400

All right.

881

00:50:09,200 --> 00:50:11,120

Okay, and thanks very much again for calling.

882

00:50:11,120 --> 00:50:11,760

You're welcome.

883

00:50:11,760 --> 00:50:12,480

Okay, good night.

884

00:50:12,480 --> 00:50:13,280

Bye.

885

00:50:13,280 --> 00:50:14,880

Well, I'm terrible in Seattle again.

886

00:50:14,880 --> 00:50:16,000

Yeah, well, now listen.

887

00:50:16,000 --> 00:50:18,400

You ought to be here with some Doc Donman offers.

888

00:50:19,440 --> 00:50:21,680

A spot of two of them tonight just to dust.

889

00:50:22,480 --> 00:50:23,520

The light is bright.

890

00:50:24,080 --> 00:50:27,440

I had a 40-tower scope on it up here in Brownsville Town.

891

00:50:27,440 --> 00:50:28,240

Davis is a kid.

892

00:50:28,240 --> 00:50:29,040

There's Windlock.

893

00:50:30,720 --> 00:50:34,720

And we got that one in sight just before dark there.

894

00:50:35,360 --> 00:50:41,520

It showed a real red light in the center and blue on the outside edge.

895

00:50:42,560 --> 00:50:44,640

And then we put the ground on the other one.

896

00:50:45,520 --> 00:50:46,880

And it had a blue light.

897

00:50:48,400 --> 00:50:49,200

Let's see now.

898

00:50:50,240 --> 00:50:51,280

Anyway, it was just off.

899

00:50:51,920 --> 00:50:54,320

Only it had a green light around the outside edge.

900

00:50:55,040 --> 00:50:56,960

And then we put it back on the other one.

901

00:50:57,760 --> 00:50:59,360

And it had changed altogether.

902

00:51:00,080 --> 00:51:04,720

It had a, it was all red in the center, just a dim red.

903

00:51:04,720 --> 00:51:09,360

Not a real, wasn't real light red like it used to be at first.

904

00:51:10,480 --> 00:51:11,360

First it was blue.

905

00:51:12,160 --> 00:51:16,400

And it showed red all over with just the outside edge of it was green.

906

00:51:17,520 --> 00:51:20,320

I'm just hooking up my binoculars now to my tripod here.

907

00:51:20,320 --> 00:51:22,640

I'm going to go out and give a bunch of guys a short term.

908

00:51:22,640 --> 00:51:24,000

What part of the sky is this in?

909

00:51:25,920 --> 00:51:28,240

It means a Southwest March.

910

00:51:30,960 --> 00:51:34,560

About, but if you know where the town of Windlock is, why,

911

00:51:35,600 --> 00:51:37,920

it's south of Windlock a little bit.

912

00:51:38,720 --> 00:51:40,560

Is the object moving at all?

913

00:51:40,560 --> 00:51:40,880

No.

914

00:51:41,360 --> 00:51:42,400

It's just panacea.

915

00:51:43,760 --> 00:51:46,880

And I started to scan this guy here tonight.

916

00:51:46,880 --> 00:51:48,640

I was living clear here at dusk.

917

00:51:49,760 --> 00:51:51,280

And more I spotted two of them.

918

00:51:52,640 --> 00:51:53,440

But you never know.

919

00:51:53,440 --> 00:51:57,280

Now we come, I come home last night and I was going to go to bed.

920

00:51:57,280 --> 00:52:01,200

The guy called me up, or the state representative here from down here.

921

00:52:01,200 --> 00:52:03,040

The police called me and said, Clay Gorgasman,

922

00:52:03,040 --> 00:52:04,560

see me at the end of the clock.

923

00:52:05,360 --> 00:52:08,720

At 12 o'clock he closed that place up and we walked outside.

924

00:52:08,800 --> 00:52:12,080

And I said, by golly, I said there are two UFOs right there.

925

00:52:12,720 --> 00:52:13,760

And there's a bunch of guys.

926

00:52:13,760 --> 00:52:15,520

And their names all out there viewing them.

927

00:52:15,520 --> 00:52:18,640

And they said, well, now they said, boy, that is a different

928

00:52:18,640 --> 00:52:20,160

dot down color than the stars.

929

00:52:21,040 --> 00:52:24,960

That's from that United Parmigian field we're here in Windlock.

930

00:52:26,320 --> 00:52:28,640

And we said there was about five minutes.

931

00:52:28,640 --> 00:52:29,920

One of them started going, damn.

932

00:52:30,640 --> 00:52:32,000

And it went real damn.

933

00:52:32,000 --> 00:52:35,360

And then they got right again and done that about five or six times.

934

00:52:35,920 --> 00:52:37,600

And then the other, and it started doing it.

935

00:52:38,240 --> 00:52:40,480

And pretty soon by golly, they both went out.

936

00:52:41,120 --> 00:52:45,040

And when we stopped them in the sky again, all the ones that come on, real bright,

937

00:52:45,040 --> 00:52:47,600

they moved over there several miles to the west.

938

00:52:48,960 --> 00:52:51,920

And then that cop come along and him and I viewed them

939

00:52:51,920 --> 00:52:54,000

till almost two o'clock this morning.

940

00:52:54,800 --> 00:52:59,760

And finally, they went out, one of them, when him and I was watching them.

941

00:53:00,560 --> 00:53:04,240

And it took off, one of them.

942

00:53:04,240 --> 00:53:05,440

And then the other one out.

943

00:53:05,440 --> 00:53:07,600

And then about five minutes later did come on.

944

00:53:07,600 --> 00:53:08,400

Come on home.

945

00:53:08,400 --> 00:53:10,400

And then I got the binoculars up.

946

00:53:12,960 --> 00:53:15,840

Turn around to the north, west here.

947

00:53:18,400 --> 00:53:20,240

Steve spotted something moving up there.

948

00:53:20,240 --> 00:53:22,560

One moving around the stars, I told you about.

949

00:53:23,360 --> 00:53:24,880

It stopped two different times.

950

00:53:26,080 --> 00:53:27,920

It just stopped that up around in stars.

951

00:53:28,560 --> 00:53:32,560

The only time we could see it then was, you know, when it starts moving.

952

00:53:32,560 --> 00:53:33,120

Oh, yes.

953

00:53:33,120 --> 00:53:36,720

But, golly, I can't find that dot gone.

954

00:53:36,720 --> 00:53:47,840

The stars now, her name was, I think, was, but they was going to get their address last weekend.

955

00:53:47,840 --> 00:53:49,200

They said they might go down there.

956

00:53:50,880 --> 00:53:54,240

But she said they heard some weird dog noise was out in the yard.

957

00:53:54,240 --> 00:53:58,880

And they went out there and he was going in, down, down, trying to find the answers.

958

00:53:58,880 --> 00:54:00,480

And this was when she was a little girl.

959

00:54:00,480 --> 00:54:00,800

Yeah.

960

00:54:00,800 --> 00:54:02,640

How old a woman is she now?

961

00:54:02,720 --> 00:54:04,080

Oh, I don't know.

962

00:54:05,040 --> 00:54:05,680

She's married.

963

00:54:05,680 --> 00:54:07,040

That's about all I heard of her.

964

00:54:07,920 --> 00:54:10,880

But anyway, they were going to get her phone number and everything.

965

00:54:10,880 --> 00:54:13,600

I said, we'll get her phone number and guys probably want to call her up.

966

00:54:14,800 --> 00:54:17,520

But I can't even, well, I know that's the name.

967

00:54:18,160 --> 00:54:19,760

Because I remember writing it down.

968

00:54:19,760 --> 00:54:22,480

I had a road on the back one of your cars.

969

00:54:22,480 --> 00:54:24,240

I may have given that car to somebody.

970

00:54:24,880 --> 00:54:26,800

A guy told me the other day he'd seen a lot of them.

971

00:54:26,800 --> 00:54:30,080

I gave him one of your cars that I don't know if that guy has a call in or not.

972

00:54:30,640 --> 00:54:31,360

Well, you never can tell.

973

00:54:31,440 --> 00:54:32,080

I can't even tell.

974

00:54:32,080 --> 00:54:32,800

I said, I tried to call.

975

00:54:32,800 --> 00:54:35,760

This is where they all give me call and collect my stuff.

976

00:54:35,760 --> 00:54:36,400

Just call them.

977

00:54:36,960 --> 00:54:38,960

Oh, I said, we're going to run them down the road.

978

00:54:38,960 --> 00:54:41,760

That's all people, you know.

979

00:54:43,760 --> 00:54:45,040

This guy lives in Elma.

980

00:54:45,680 --> 00:54:46,160

Elma.

981

00:54:46,160 --> 00:54:46,560

Elma.

982

00:54:46,560 --> 00:54:47,120

D-R-M-A.

983

00:54:47,120 --> 00:54:47,520

Oh.

984

00:54:48,320 --> 00:54:50,240

That's on the road, the Abedin.

985

00:54:50,240 --> 00:54:50,640

Right.

986

00:54:53,360 --> 00:54:54,480

Well, I'll get ahold of that.

987

00:54:54,480 --> 00:54:58,640

And then I'll get her, from these whites, her name again.

988

00:54:59,280 --> 00:55:02,720

And like I say, they said they might go down her last weekend.

989

00:55:02,720 --> 00:55:05,200

I don't know if they did or not, but it's really good to talk to them.

990

00:55:05,200 --> 00:55:05,600

Uh-huh.

991

00:55:06,400 --> 00:55:07,360

Oh, that'd be beautiful.

992

00:55:09,200 --> 00:55:13,200

The guy gave me an article here yesterday about one of those singers.

993

00:55:14,960 --> 00:55:16,320

Now, I don't know what his name was.

994

00:55:16,320 --> 00:55:19,360

Jerry O'Rourg, Greg O'Rourg, something's his name.

995

00:55:20,080 --> 00:55:25,440

He'd seen one over there in 1962 between Los Angeles and Las Vegas.

996

00:55:26,080 --> 00:55:26,560

Landed.

997

00:55:27,440 --> 00:55:29,440

And he said that steel dome was turning.

998

00:55:30,720 --> 00:55:31,440

Uh-huh.

999

00:55:31,440 --> 00:55:33,760

And boy, it might have scared him to death.

1000

00:55:34,480 --> 00:55:35,600

Yeah, well, you know.

1001

00:55:35,600 --> 00:55:37,840

Somebody read about him, he's got an article in the paper here,

1002

00:55:37,840 --> 00:55:41,200

and they dropped that paper out there yesterday, clipped it in it.

1003

00:55:41,200 --> 00:55:42,640

Well, was that the National Inquirer?

1004

00:55:44,560 --> 00:55:45,840

No, it wasn't in the Inquirer.

1005

00:55:45,840 --> 00:55:46,720

I don't know what it was in.

1006

00:55:46,720 --> 00:55:47,280

Uh-huh.

1007

00:55:47,280 --> 00:55:49,120

I asked him, he said, no, it wasn't.

1008

00:55:50,480 --> 00:55:53,360

I dropped the dog-drawn thing and picked up it.

1009

00:55:56,240 --> 00:55:57,760

You've been doing any sky watching?

1010

00:55:57,760 --> 00:56:00,240

Well, my vertebrae's been out of place my neck.

1011

00:56:00,240 --> 00:56:01,840

I haven't been a doing much watching.

1012

00:56:01,840 --> 00:56:03,920

I had to blow the car back, because the other day,

1013

00:56:03,920 --> 00:56:05,680

we really got the wrong thing around here.

1014

00:56:06,560 --> 00:56:10,480

And I pulled that vertebrae out of place my neck.

1015

00:56:10,480 --> 00:56:12,880

I went up there just a day or two before you was here.

1016

00:56:14,560 --> 00:56:16,880

I haven't maybe been a doing any watching.

1017

00:56:16,880 --> 00:56:20,000

Now, you're going to have to get yourself a cot and lay on your back and what?

1018

00:56:20,000 --> 00:56:21,200

That's what I was just thinking.

1019

00:56:21,200 --> 00:56:24,880

We'd been down on our hands and knees and looking through that dot-dots telescope

1020

00:56:24,960 --> 00:56:27,520

where they'd be the other car around out there in the devil.

1021

00:56:27,520 --> 00:56:29,040

And the knee's a dot-drawn car.

1022

00:56:29,040 --> 00:56:30,880

I could not have walked a couple days here.

1023

00:56:34,240 --> 00:56:35,600

Oh, I can't do that.

1024

00:56:35,600 --> 00:56:36,000

That's all.

1025

00:56:39,280 --> 00:56:40,240

Did you talk to Paul?

1026

00:56:40,800 --> 00:56:42,560

We didn't get a chance when we were down there.

1027

00:56:42,560 --> 00:56:43,920

We spent most of the afternoon.

1028

00:56:43,920 --> 00:56:46,720

Well, John, you want to see what Paul's from, man.

1029

00:56:46,720 --> 00:56:47,840

Now, there's a taken name.

1030

00:56:47,840 --> 00:56:51,040

All the guys live over there in that dot-drawn car.

1031

00:56:51,040 --> 00:56:57,600

And I'm going to say that woman, did I tell you about that woman that's first in the liquor store?

1032

00:56:58,400 --> 00:57:01,120

About that one of them, I found her.

1033

00:57:01,120 --> 00:57:02,800

I don't think I've seen you since then.

1034

00:57:04,240 --> 00:57:05,520

No, I don't.

1035

00:57:05,520 --> 00:57:06,320

That's a new one.

1036

00:57:07,040 --> 00:57:13,200

Anyway, her daughter went out that Jones Road that leads out there underneath that power line.

1037

00:57:13,840 --> 00:57:15,680

Oh, I don't know, a year or two ago.

1038

00:57:16,480 --> 00:57:21,200

And it followed her with them dot-drawn lights on it.

1039

00:57:21,920 --> 00:57:26,000

It followed her out there and it hovered over the house whenever she took this girlfriend out there

1040

00:57:26,880 --> 00:57:27,680

to get something.

1041

00:57:27,680 --> 00:57:28,960

The house then they came back.

1042

00:57:29,680 --> 00:57:34,240

And like the scared them real to death, it followed her back down the road there then, almost to Wimlock.

1043

00:57:36,880 --> 00:57:41,680

But you see, they've been hovering around them power lines out there about 100 feet above the power line.

1044

00:57:42,320 --> 00:57:42,720

Right.

1045

00:57:42,720 --> 00:57:44,080

And all them people know that.

1046

00:57:44,640 --> 00:57:46,640

That's quite a sub station out there too.

1047

00:57:47,280 --> 00:57:48,480

That Nabilvine to me.

1048

00:57:48,480 --> 00:57:50,000

Yes, that's a big one.

1049

00:57:50,000 --> 00:57:50,960

Well, and it is.

1050

00:57:50,960 --> 00:57:52,160

That's what falls on me.

1051

00:57:53,360 --> 00:57:54,800

He said they don't go to Nabilvine.

1052

00:57:54,800 --> 00:57:59,600

He said they go right down the power line and down right over the sub station there.

1053

00:57:59,600 --> 00:58:00,880

Well, I never thought of that, see.

1054

00:58:01,680 --> 00:58:04,400

I just thought it was over and over the dock down in town in Nabilvine.

1055

00:58:04,400 --> 00:58:10,960

But anyway, this is a hot spot here where there's no question about it.

1056

00:58:10,960 --> 00:58:13,680

They're charging them batteries up without a doubt.

1057

00:58:14,560 --> 00:58:18,080

You know, the reason I've never said that about that, I figure our government owns them.

1058

00:58:19,120 --> 00:58:22,720

Now, my brother got a good look at them one time and I said, you know, what makes them work?

1059

00:58:23,760 --> 00:58:24,960

There's no question about it.

1060

00:58:26,640 --> 00:58:28,720

They got vents that opened up on them.

1061

00:58:29,520 --> 00:58:30,960

He looked at them with binoculars.

1062

00:58:32,240 --> 00:58:38,480

And he says that they worked with some kind of shutters that opened on the bottom of them

1063

00:58:38,480 --> 00:58:39,440

and then got gone.

1064

00:58:39,600 --> 00:58:44,400

When their motor's turned, it pushes the air, it sucks the air through from the side

1065

00:58:45,120 --> 00:58:47,280

and pushes it down to make them go straight up.

1066

00:58:48,560 --> 00:58:55,840

Then when they want to go, you know, in a straight line, why then they open them up

1067

00:58:55,840 --> 00:58:59,280

on the side is something like he told me all about.

1068

00:58:59,280 --> 00:59:01,280

All he said I've done is owned them without a doubt.

1069

00:59:03,200 --> 00:59:04,880

And he said they're coming out of New Mexico.

1070

00:59:06,160 --> 00:59:08,960

That's where their home station is, without a doubt, he says.

1071

00:59:10,400 --> 00:59:11,920

So I don't know.

1072

00:59:11,920 --> 00:59:14,800

Anyway, that's why I've never used such much about it.

1073

00:59:16,000 --> 00:59:18,800

But then Captain, they want me to put that out on the paper.

1074

00:59:18,800 --> 00:59:20,800

So I put that one in there.

1075

00:59:20,800 --> 00:59:28,080

But I'll tell you, it's a good thing that the government does own it that they should never tell

1076

00:59:28,080 --> 00:59:28,880

them they're nothing.

1077

00:59:29,760 --> 00:59:34,640

They've got done, you know, everybody telling this information, they've done the least

1078

00:59:34,640 --> 00:59:36,000

of it, they ought to shoot them.

1079

00:59:36,000 --> 00:59:38,240

And then if they catch them, then they shouldn't even give them a try.

1080

00:59:38,240 --> 00:59:38,720

They're shooting.

1081

00:59:40,320 --> 00:59:44,480

But anyway, nevertheless, we're wrong.

1082

00:59:44,480 --> 00:59:45,440

They're using something.

1083

00:59:46,640 --> 00:59:48,400

Oh, they've been around for a long time.

1084

00:59:48,400 --> 00:59:49,840

Well, that's right.

1085

00:59:49,840 --> 00:59:54,960

Now, them Indians talk about them blue-lice in the sky, man, for 300 years, their ancestors

1086

00:59:54,960 --> 00:59:55,920

tell that idol.

1087

00:59:59,920 --> 01:00:02,400

But anyway, why, they're quite a machine.

1088

01:00:03,120 --> 01:00:05,520

Well, we'll try to get a hold of this, see what you have to say.

1089

01:00:06,960 --> 01:00:08,560

Yeah, that's right.

1090

01:00:08,640 --> 01:00:10,000

They probably got a phone.

1091

01:00:10,000 --> 01:00:11,280

I haven't seen the old man.

1092

01:00:11,280 --> 01:00:14,240

I don't know if they went down there in these wires last weekend or not.

1093

01:00:15,920 --> 01:00:17,520

But I'm sure that was their name.

1094

01:00:17,520 --> 01:00:23,040

Doc's done, I can't figure out what they've done.

1095

01:00:23,040 --> 01:00:23,840

Heck, I didn't.

1096

01:00:23,840 --> 01:00:24,480

That's hard.

1097

01:00:26,880 --> 01:00:27,760

I had it in there.

1098

01:00:27,760 --> 01:00:29,280

I may give one in far away.

1099

01:00:29,280 --> 01:00:31,440

I had it rolled on the back of that card.

1100

01:00:32,400 --> 01:00:32,880

You know what?

1101

01:00:33,920 --> 01:00:36,240

Put out or not underneath that old system.

1102

01:00:36,240 --> 01:00:38,240

And let me run down to pick up the people sitting there.

1103

01:00:38,320 --> 01:00:38,640

Okay.

1104

01:00:41,520 --> 01:00:42,000

Bob?

1105

01:00:42,000 --> 01:00:42,800

Yes.

1106

01:00:42,800 --> 01:00:43,840

Yeah, that's Jackie.

1107

01:00:43,840 --> 01:00:45,760

Is that J-H-E-K-I-E?

1108

01:00:45,760 --> 01:00:46,160

Yep.

1109

01:00:46,160 --> 01:00:46,560

Uh-huh.

1110

01:00:47,840 --> 01:00:55,440

And that buddy that's seen that one, he's a singer.

1111

01:00:56,800 --> 01:00:59,120

And he said it had a brilliant white-licing light.

1112

01:01:00,240 --> 01:01:01,760

Well, he's seen one, no doubt.

1113

01:01:01,760 --> 01:01:03,120

Now, there's no question about that.

1114

01:01:08,560 --> 01:01:10,960

All they've been a number of people told me around about seeing them.

1115

01:01:12,480 --> 01:01:14,960

I just told them this morning down there, they've seen some here

1116

01:01:15,840 --> 01:01:17,120

about a year ago up there over there.

1117

01:01:17,120 --> 01:01:18,480

And I've seen them out there.

1118

01:01:18,480 --> 01:01:20,960

That's where I've seen all of them out in that same area over there.

1119

01:01:21,920 --> 01:01:23,360

And then, uh-huh.

1120

01:01:24,560 --> 01:01:30,880

Oh, well, you get down here and just watch around in the downer line here at night time

1121

01:01:30,880 --> 01:01:31,840

when the weather gets good.

1122

01:01:33,200 --> 01:01:34,480

They'll be around there.

1123

01:01:34,480 --> 01:01:34,800

All right.

1124

01:01:34,800 --> 01:01:37,840

Well, we got a couple spots picked up to do a little overnight camping.

1125

01:01:38,560 --> 01:01:41,360

Did you go out down a King Road and look up that hill there?

1126

01:01:41,360 --> 01:01:45,680

Well, I don't know what the name of the road was, but we went right down to the

1127

01:01:47,600 --> 01:01:52,960

substation and then checked out some of the other under the power line.

1128

01:01:52,960 --> 01:01:57,520

Well, now, if you don't find them any time you let me know, I know where they stay over here.

1129

01:01:58,320 --> 01:02:00,800

I see them almost every night in the summertime.

1130

01:02:02,720 --> 01:02:06,960

But I've seen more here now than the last rock down three weeks and I've ever seen

1131

01:02:07,040 --> 01:02:08,240

that any one time.

1132

01:02:09,200 --> 01:02:11,200

Well, there's still one night down there, Toledo.

1133

01:02:13,360 --> 01:02:14,160

There was two of them.

1134

01:02:14,160 --> 01:02:16,160

I told you about seeing them, I think, didn't I?

1135

01:02:16,160 --> 01:02:16,480

Yes.

1136

01:02:17,120 --> 01:02:18,240

Jim Nettlin seen them.

1137

01:02:18,240 --> 01:02:20,160

Hey, I wanted to tell you about that light, too.

1138

01:02:21,520 --> 01:02:23,280

That guy seen over there with the helicopter?

1139

01:02:24,080 --> 01:02:24,400

Yes.

1140

01:02:25,200 --> 01:02:29,120

He said that light was about 200 feet above that helicopter.

1141

01:02:29,120 --> 01:02:30,800

He said he was watching the light.

1142

01:02:31,760 --> 01:02:32,800

I wondered what it was.

1143

01:02:32,800 --> 01:02:34,640

He couldn't see nothing but that light.

1144

01:02:35,200 --> 01:02:39,680

And when that helicopter come along and got right underneath that light,

1145

01:02:40,240 --> 01:02:45,440

he'd seen a big, toughest note and the road came off to the Dock Down Helicopter.

1146

01:02:46,720 --> 01:02:47,520

Is what he said.

1147

01:02:49,280 --> 01:02:54,720

Now, by golly, I don't know what it done, but he said that big, bright light is all he could see.

1148

01:02:56,000 --> 01:03:01,360

Well, I've seen them bright lights before, by golly alone in the evening and couldn't see a Dock Down thing.

1149

01:03:01,360 --> 01:03:02,240

That's why I see.

1150

01:03:02,240 --> 01:03:05,600

I think they're invisible unless it's dust.

1151

01:03:06,880 --> 01:03:10,960

After just dust a little bit, why then do they show up?

1152

01:03:12,640 --> 01:03:16,000

I've seen one of them one time up there, it's a big, bright light.

1153

01:03:16,880 --> 01:03:18,400

And I'll be done, gone.

1154

01:03:18,400 --> 01:03:20,160

There wasn't a thing when the light went off.

1155

01:03:20,880 --> 01:03:24,400

I stopped and looked and there wasn't a thing to see.

1156

01:03:26,720 --> 01:03:27,920

What was his name again?

1157

01:03:28,880 --> 01:03:29,520

Uh-huh.

1158

01:03:30,080 --> 01:03:35,760

Somebody told him about it, but there's one of them guys that was traveling to see,

1159

01:03:35,760 --> 01:03:37,680

he lived in Seattle, it was owned by Seattle.

1160

01:03:39,680 --> 01:03:40,960

He had paid to get a hold of him.

1161

01:03:40,960 --> 01:03:41,520

Yes.

1162

01:03:41,520 --> 01:03:47,280

Now, the Army, the Army probably knows who it was because they said the guy called in,

1163

01:03:47,840 --> 01:03:49,760

there was two guys seen it that I know of.

1164

01:03:50,800 --> 01:03:54,800

One of the guys stopped over there, my boy, Stores Wimlock, and made the phone call and said

1165

01:03:55,440 --> 01:03:56,960

that he's seen the helicopter twice.

1166

01:03:58,240 --> 01:03:59,840

South of the Wild Animal Park.

1167

01:03:59,840 --> 01:04:00,160

Yes.

1168

01:04:00,800 --> 01:04:07,600

And the other guy, he reported to us from up here somewhere else, going north.

1169

01:04:10,160 --> 01:04:11,680

Do you remember the date on that?

1170

01:04:12,720 --> 01:04:13,840

No, I don't.

1171

01:04:13,840 --> 01:04:15,440

I can check that anyway.

1172

01:04:15,440 --> 01:04:19,840

I don't remember the date, we could live with that guy, probably at the papers at his home yet, maybe.

1173

01:04:21,440 --> 01:04:24,240

You know, they never did take the papers about that helicopter, about that

1174

01:04:24,880 --> 01:04:25,920

road that's coming off.

1175

01:04:25,920 --> 01:04:28,720

Yeah, I know, I followed that, I never did see that.

1176

01:04:28,720 --> 01:04:34,640

They said that they didn't know what caused it to crash, it failed a clear hill,

1177

01:04:34,640 --> 01:04:36,720

what a no hill that is, I don't love a ground.

1178

01:04:37,760 --> 01:04:41,600

You know an airplane crashed in there one time by, got enough to long ago,

1179

01:04:41,600 --> 01:04:43,440

and they could never figure that out either.

1180

01:04:44,560 --> 01:04:46,560

In that same pass of brush, do you know that?

1181

01:04:46,560 --> 01:04:47,200

No.

1182

01:04:47,200 --> 01:04:47,760

That's right.

1183

01:04:48,720 --> 01:04:54,080

An airplane crashed in there on a good third day and killed that guy.

1184

01:04:56,800 --> 01:04:58,240

We're going to have to follow that.

1185

01:04:58,240 --> 01:05:07,120

And that airplane, boy, I would say that it wasn't over, probably 300 feet from where this helicopter crashed.

1186

01:05:09,520 --> 01:05:12,560

Well, when I get a hold of this woman, I'll let you know and...

1187

01:05:15,760 --> 01:05:23,360

Just tell her that, tell her that that fly told me about it, about where they're seeing it.

1188

01:05:23,360 --> 01:05:23,760

Okay.

1189

01:05:23,760 --> 01:05:27,440

Someone Maria skeptical, they won't talk to dogs gone deeply, you know, they're...

1190

01:05:28,320 --> 01:05:30,000

You can't really give them a talk about this.

1191

01:05:30,000 --> 01:05:35,120

Now, since I had the article in the paper, why everybody all over this country is seeing them,

1192

01:05:35,120 --> 01:05:39,520

but they said, oh, don't give a buck cash that I told you this, they said, people think I'm nuts.

1193

01:05:40,400 --> 01:05:43,360

I said listen, man, seeing is believing.

1194

01:05:44,240 --> 01:05:46,080

I said, let them say what they want to say.

1195

01:05:46,960 --> 01:05:48,960

That's what I told Donald the bank this morning.

1196

01:05:48,960 --> 01:05:52,800

I said listen, the mayor was in there, I said listen, seeing is believing.

1197

01:05:53,760 --> 01:05:55,040

She said, I'd like to see one of them.

1198

01:05:55,040 --> 01:05:58,160

Well, I said the next time I see one, I'll get a hold of you, show it to you.

1199

01:06:00,080 --> 01:06:01,680

I said, I know what I've seen.

1200

01:06:01,680 --> 01:06:04,640

And I said, ain't nobody going to change my mind on how I've earned you that.

1201

01:06:07,520 --> 01:06:09,360

That there's been a lot of people seeing them.

1202

01:06:09,360 --> 01:06:10,000

Sure.

1203

01:06:10,000 --> 01:06:14,640

I know that, because man, there's been dozens that come back to me since I've seen you.

1204

01:06:16,240 --> 01:06:17,920

But they've seen them all over this country.

1205

01:06:18,480 --> 01:06:22,080

I'll tell you another woman, she didn't see it, but her daughter's seen one.

1206

01:06:23,040 --> 01:06:24,480

She lives in Casarot.

1207

01:06:25,760 --> 01:06:28,000

She used to work down in that dead stone Toledo.

1208

01:06:28,640 --> 01:06:31,760

And she told me that one night, there was dollars going home there.

1209

01:06:31,760 --> 01:06:34,880

I'd been telling them that the client told her, she's been seeing me all the time.

1210

01:06:34,880 --> 01:06:38,080

You know, when I go in there, I tell you where I cost them.

1211

01:06:38,080 --> 01:06:40,080

I said, I was seeing another UFO last night.

1212

01:06:40,640 --> 01:06:41,840

They were talking about it, you know.

1213

01:06:42,880 --> 01:06:46,000

So I got there one day, I went in there to get that.

1214

01:06:46,000 --> 01:06:49,280

And she told me, she said, hey, my daughter's seen the UFO there.

1215

01:06:49,360 --> 01:06:51,840

I heard her boyfriend, but they stopped to look at it.

1216

01:06:53,280 --> 01:06:56,640

And the motor's died in the car and it wouldn't start.

1217

01:06:56,640 --> 01:06:57,680

And they had to walk home.

1218

01:06:58,880 --> 01:07:01,280

And they said, then we went back with them.

1219

01:07:01,280 --> 01:07:04,400

And her husband was going to throw their car home.

1220

01:07:05,520 --> 01:07:09,600

And I go, they got in there and started right up with that UFO was gone then.

1221

01:07:11,040 --> 01:07:15,200

Well, I know it may not radio was dead one time there, but that was a kidney shape thing.

1222

01:07:15,200 --> 01:07:17,120

That's where you lost an old thing.

1223

01:07:17,120 --> 01:07:18,000

Yes.

1224

01:07:18,080 --> 01:07:19,840

It wasn't around one at all.

1225

01:07:20,960 --> 01:07:22,640

I got to get a hold of that gene talent.

1226

01:07:22,640 --> 01:07:25,920

I talked to him and find out now about that one.

1227

01:07:25,920 --> 01:07:28,720

It was a that they seen up there either.

1228

01:07:29,440 --> 01:07:32,800

But all I know was around that they was unloading them and let them in or what.

1229

01:07:32,800 --> 01:07:34,880

But I'll tell you another woman now I found out.

1230

01:07:35,840 --> 01:07:40,000

Bill White is the one that lived up there around the SeaTac airport.

1231

01:07:40,000 --> 01:07:40,560

Yes.

1232

01:07:40,560 --> 01:07:42,800

It was dark in T.C. there.

1233

01:07:42,800 --> 01:07:44,400

It led a dozen little ones out.

1234

01:07:44,960 --> 01:07:47,280

A dozen lights came out of this other light.

1235

01:07:48,000 --> 01:07:52,480

And two around about 20 minutes and went back in the mother ship and took off.

1236

01:07:52,480 --> 01:07:56,240

And set right there about the same place as the North for about a half an hour.

1237

01:07:57,520 --> 01:07:58,240

I heard about it.

1238

01:07:58,240 --> 01:07:59,840

I mean, I messed that to you.

1239

01:07:59,840 --> 01:08:00,160

Didn't I?

1240

01:08:00,160 --> 01:08:00,560

That's right.

1241

01:08:00,560 --> 01:08:01,280

I think so.

1242

01:08:01,280 --> 01:08:04,960

I talked to her husband in the meantime about it.

1243

01:08:07,920 --> 01:08:10,400

Well, I took some movies to that light there tonight.

1244

01:08:10,400 --> 01:08:11,920

I don't know if it'll show up or not.

1245

01:08:13,360 --> 01:08:14,080

That's gone.

1246

01:08:14,080 --> 01:08:17,520

I'm trying to get a hold of that special lens to take some pictures of that.

1247

01:08:18,960 --> 01:08:22,960

All right, these guys, I know they've got to have some kind of view.

1248

01:08:24,080 --> 01:08:26,800

Have you guys got any cameras of any kind to take pictures of?

1249

01:08:26,800 --> 01:08:28,400

Oh, yes, all kinds of cameras.

1250

01:08:29,040 --> 01:08:31,440

Well, what do you use to get a picture of them lights with?

1251

01:08:32,480 --> 01:08:33,840

Just playing color film.

1252

01:08:34,560 --> 01:08:35,440

Playing color film?

1253

01:08:35,440 --> 01:08:35,760

Movie?

1254

01:08:36,960 --> 01:08:38,640

Either one, either movie or still.

1255

01:08:38,640 --> 01:08:39,760

Is that right?

1256

01:08:39,760 --> 01:08:40,240

Uh-huh.

1257

01:08:40,240 --> 01:08:41,600

It'll show up, huh?

1258

01:08:41,600 --> 01:08:42,080

Oh, yes.

1259

01:08:42,080 --> 01:08:42,640

Oh.

1260

01:08:44,560 --> 01:08:45,440

Well, I'll be back.

1261

01:08:45,440 --> 01:08:45,840

That's gone.

1262

01:08:50,080 --> 01:08:50,960

You don't like something?

1263

01:08:55,200 --> 01:08:57,040

Yeah, well, I won't keep you barred.

1264

01:08:57,040 --> 01:08:59,360

I'll let you know if anything is right, man.

1265

01:08:59,360 --> 01:09:00,480

Thanks much for calling.

1266

01:09:00,480 --> 01:09:00,880

Okay.

1267

01:09:00,880 --> 01:09:01,360

Goodbye.
