

1

00:00:00,000 --> 00:00:07,000

The daughter and son-in-law were coming up to each side of the colony pass and as near

2

00:00:07,000 --> 00:00:13,320

as I, it sure was about 920, between 9 and 930, and it was not raining, it was dry, and

3

00:00:13,320 --> 00:00:18,000

I was laying on the front gate against the window and looking straight ahead, and as

4

00:00:18,000 --> 00:00:23,360

we were coming up the hill I kept noticing this cloud with the flash kind of like a neon

5

00:00:23,360 --> 00:00:28,120

light, and the first thought was that it was lightning behind the cloud, you know, and

6

00:00:28,120 --> 00:00:32,440

I got looking, the sky was all clear with stars in it, and I raised up and I told Ted,

7

00:00:32,440 --> 00:00:33,440

I said, what the heck is that?

8

00:00:33,440 --> 00:00:34,440

I said, you know, storm up there?

9

00:00:34,440 --> 00:00:35,440

And he says, well, he says, did you notice it?

10

00:00:35,440 --> 00:00:40,440

And I said, yeah, and the kids in the back says, my gosh, we're getting into a thunderstorm,

11

00:00:40,440 --> 00:00:41,440

it isn't even raining.

12

00:00:41,440 --> 00:00:46,440

And so we kept looking at it, and I looked all around, the sky is clear, and Ted says,

13

00:00:46,440 --> 00:00:49,440

well, it's just one big cloud like that.

14

00:00:49,440 --> 00:00:53,440

So as we were approaching, I can't estimate it must have been maybe three miles to the

15

00:00:53,440 --> 00:00:54,440

top of the pass.

16

00:00:54,440 --> 00:00:58,040

As we came along the highway, and we noticed the cars were slowing down, but nobody saw

17

00:00:58,960 --> 00:01:02,920

it, and we stopped, and of course we slowed down, and over to the right, there was a clearing

18

00:01:02,920 --> 00:01:08,400

in the area, and I would say probably about two or three blocks off of the highway, you

19

00:01:08,400 --> 00:01:11,720

could see just straight landing, it dropped down like kind of a gully down below, which

20

00:01:11,720 --> 00:01:14,720

you couldn't see the bottom of, but the land was straightened and it dropped.

21

00:01:14,720 --> 00:01:21,160

And in this area was this huge light like, you couldn't see an actual light, just a

22

00:01:21,160 --> 00:01:26,040

different reflection like, it was just millions of neon lights in it, and it was going kind

23

00:01:26,040 --> 00:01:28,040

of off and on, like a heartbeat.

24

00:01:28,040 --> 00:01:33,040

And as it did this, we could see where this was shooting up into the sky and making this

25

00:01:33,040 --> 00:01:34,040

cloud do this.

26

00:01:34,040 --> 00:01:38,040

And we kind of slowed down, and we all were wondering what in the world my daughter who

27

00:01:38,040 --> 00:01:42,040

always says that she's seeing thoughts there, and she says, my godmom, she's just

28

00:01:42,040 --> 00:01:46,040

flying thoughts, and I go, I see the highways probably doing some work, and they lift this

29

00:01:46,040 --> 00:01:47,040

up.

30

00:01:47,040 --> 00:01:50,040

And Ted says, well, I wonder why the flash, and he says it's the weirdest thing he ever

31

00:01:50,040 --> 00:01:55,040

seen, and it was foggy in some areas, and there was just a light fog hanging in there

32

00:01:55,040 --> 00:01:59,040

that made it look like, oh, I guess kind of a misty looking thing.

33

00:01:59,040 --> 00:02:04,040

But it was just something I had never seen before, and it's been bugging me, and I told

34

00:02:04,040 --> 00:02:08,040

Ted, I said, well, we should call or stop in North Bend, so we followed the traffic, and

35

00:02:08,040 --> 00:02:11,040

there wasn't one car ahead of us that stopped in North Bend, everybody just kept running

36

00:02:11,040 --> 00:02:12,040

and going through.

37

00:02:12,040 --> 00:02:15,040

Well, I was going to call yesterday, and I didn't know who to call, so when I come to

38

00:02:15,040 --> 00:02:18,040

work this morning, I tell them to keep quiet, you're going to think I'm nuts, but I just

39

00:02:18,040 --> 00:02:19,040

told them what we've seen.

40

00:02:19,040 --> 00:02:23,040

And this one gal, she says, well, start calling around and tell somebody why not what it is,

41

00:02:23,040 --> 00:02:24,040

because it's really been bothering me.

42

00:02:24,040 --> 00:02:30,040

But it was, I've never seen anything like this, and you couldn't see no actual anything

43

00:02:30,040 --> 00:02:36,040

except the reflection or the lighting, the glow, and it would go off and on.

44

00:02:36,040 --> 00:02:41,040

So I called Bellevue State Patrol that the AI Times told me, because they didn't have

45

00:02:41,040 --> 00:02:43,040

the I-5, so I was freeway.

46

00:02:43,040 --> 00:02:47,040

To see if there was any construction, so she got on the line and she said there was no

47

00:02:47,040 --> 00:02:52,040

construction of any type going on up there where they were using any lights, so I can't

48

00:02:52,040 --> 00:02:55,040

figure out what in the world this strange looking thing was.

49

00:02:55,040 --> 00:02:58,040

And I was wondering if you could get any other calls.

50

00:02:58,040 --> 00:03:00,040

Not from that area, no.

51

00:03:00,040 --> 00:03:02,040

Well, it was really weird.

52

00:03:02,040 --> 00:03:07,040

Okay, now, can you give us any estimate as the exact location that you were involved there?

53

00:03:07,040 --> 00:03:12,040

Well, it was the east side, it seemed like we were just about to the top of the pass,

54

00:03:12,040 --> 00:03:17,040

probably about two miles from the top, and it was on the right side of the highway, on

55

00:03:17,040 --> 00:03:18,040

my side.

56

00:03:18,040 --> 00:03:19,040

I see.

57

00:03:19,040 --> 00:03:22,040

And we were just in the middle of the battle, and we weren't.

58

00:03:22,040 --> 00:03:27,040

We would pass the, I first noticed the cloud shorten after Lake Ketchels, that on the left

59

00:03:27,040 --> 00:03:28,040

side, that big lake.

60

00:03:28,040 --> 00:03:29,040

Right.

61

00:03:29,040 --> 00:03:33,040

Okay, as we were coming around up in there, you kind of get a straight highway, and this

62

00:03:33,040 --> 00:03:40,040

is when we noticed this cloud business, this one cloud, and then we drove up, oh, I don't

63

00:03:40,040 --> 00:03:44,040

know, I couldn't even tell you, it didn't take too far, and then this clearing was there.

64

00:03:44,040 --> 00:03:49,040

And then this big, round, huge, glowed light that was going off and on.

65

00:03:49,040 --> 00:03:54,040

Quite, well, it wasn't a fast off and on, it was just like a regular neon light, and it

66

00:03:54,040 --> 00:03:58,040

reminded me of the reflections of neon lighting, very, very bright.

67

00:03:58,040 --> 00:04:03,040

And then, of course, we went on by, and then I turned around, we kept watching in the back

68

00:04:03,040 --> 00:04:05,040

window, and you could still see it doing it.

69

00:04:05,040 --> 00:04:10,040

And then as we were driving in closer to Seattle, we had gone on how far we had gone, and in

70

00:04:10,040 --> 00:04:16,040

the hill, I kept looking at everything then, I noticed this real bright green type, shiny

71

00:04:16,040 --> 00:04:21,040

light, and it kind of made a big glare, and then it disappeared, and then it kind of, in

72

00:04:21,040 --> 00:04:25,040

the trees, this was in the trees, you could see this type thing again, and so Ketchels

73

00:04:25,040 --> 00:04:29,040

was probably beacons for an airplane, but as we thought they were red, I don't know, but

74

00:04:29,040 --> 00:04:34,040

this is an extremely bright, clear green, and then the same type of a glow.

75

00:04:34,040 --> 00:04:37,040

And I think that, and I'm like, God, what in the world is happening around here?

76

00:04:37,040 --> 00:04:40,040

We travel that path all the time, and never have I seen anything like that.

77

00:04:40,040 --> 00:04:45,040

And I'm not cracking up, but I am quite concerned because I can't believe what I think.

78

00:04:45,040 --> 00:04:48,040

Okay, do you have the approximate location for that green object?

79

00:04:48,040 --> 00:04:52,040

Oh, Gully, you know, I'd have to ask my husband.

80

00:04:52,040 --> 00:04:57,040

But it was in a more dense, wooded area, quite close to the highway.

81

00:04:57,040 --> 00:04:58,040

Yes.

82

00:04:58,040 --> 00:05:00,040

Like coming into North Bend, I think.

83

00:05:00,040 --> 00:05:03,040

Okay, now getting back to this first object, you say that it was in a Gully?

84

00:05:03,040 --> 00:05:04,040

No.

85

00:05:04,040 --> 00:05:06,040

Was this a very deep Gully or fairly shallow?

86

00:05:06,040 --> 00:05:12,040

I would say that it was, I couldn't tell because what I'm trying to say is the land was level.

87

00:05:12,040 --> 00:05:13,040

Yes.

88

00:05:13,040 --> 00:05:17,040

And you could see the horizon of the kind of drop down, and how big it, how far it dropped down.

89

00:05:17,040 --> 00:05:19,040

I don't know, but you couldn't see.

90

00:05:19,040 --> 00:05:23,040

My daughter said she'd seen something extremely bright in it, but I didn't.

91

00:05:23,040 --> 00:05:27,040

All I seen was the reflection of the glowing light.

92

00:05:27,040 --> 00:05:29,040

Okay, would you say that this was sitting on the ground?

93

00:05:29,040 --> 00:05:30,040

Yeah.

94

00:05:30,040 --> 00:05:31,040

Okay.

95

00:05:31,040 --> 00:05:34,040

And was it dark when you came through there?

96

00:05:34,040 --> 00:05:35,040

Black, yeah.

97

00:05:35,040 --> 00:05:36,040

It was dark in the morning, around the 30s.

98

00:05:36,040 --> 00:05:39,040

Is there any possibility you would recognize that again if you went through?

99

00:05:39,040 --> 00:05:40,040

I think so.

100

00:05:40,040 --> 00:05:41,040

Okay.

101

00:05:41,040 --> 00:05:42,040

I would have.

102

00:05:42,040 --> 00:05:43,040

And this was just all light.

103

00:05:43,040 --> 00:05:46,040

Now what was the color of the light?

104

00:05:46,040 --> 00:05:55,040

The same color of the reflection of the neon light in the night was, well it was definite white,

105

00:05:55,040 --> 00:05:58,040

but yet kind of this Gully, it's very Gully.

106

00:05:58,040 --> 00:05:59,040

Florescent type?

107

00:05:59,040 --> 00:06:00,040

Yeah.

108

00:06:00,040 --> 00:06:01,040

Okay.

109

00:06:01,040 --> 00:06:04,040

And it pulsated very similar to a heartbeat.

110

00:06:04,040 --> 00:06:05,040

Right.

111

00:06:05,040 --> 00:06:06,040

Okay.

112

00:06:06,040 --> 00:06:07,040

Were there any other colored lights involved?

113

00:06:07,040 --> 00:06:08,040

No.

114

00:06:08,040 --> 00:06:09,040

Okay, all white.

115

00:06:09,040 --> 00:06:11,040

And then it was foggy in the area.

116

00:06:11,040 --> 00:06:14,040

Now whether this was fog or what, I don't know, just kind of hanging over.

117

00:06:14,040 --> 00:06:15,040

It was the areas looking.

118

00:06:15,040 --> 00:06:17,040

This is what upset me so bad.

119

00:06:17,040 --> 00:06:24,040

And it looked like vapors, but yet it looked like it could have been a light fog or something.

120

00:06:24,040 --> 00:06:27,040

That's about the best I can explain it.

121

00:06:27,040 --> 00:06:32,040

Okay, do you have any idea just a visual estimate of how far away the object was?

122

00:06:32,040 --> 00:06:41,040

I would say probably a mile to two miles in at that far, a mile in, not even a mile maybe.

123

00:06:41,040 --> 00:06:46,040

So Steve and my husband probably, they're better at distance than I am.

124

00:06:46,040 --> 00:06:47,040

Yes.

125

00:06:47,040 --> 00:06:50,040

And he was telling me, I said, did you call anybody on that night?

126

00:06:50,040 --> 00:06:52,040

I said no, I don't know where it started.

127

00:06:52,040 --> 00:06:53,040

I said, I think we're nuts.

128

00:06:53,040 --> 00:06:54,040

And he says, nuts, Kelly.

129

00:06:54,040 --> 00:06:55,040

He says, I can't believe it.

130

00:06:55,040 --> 00:06:57,040

My daughter didn't sleep all night long.

131

00:06:57,040 --> 00:06:59,040

She's been upset ever since she's seen it.

132

00:06:59,040 --> 00:07:03,040

Because it's, I don't know, it's just something you just are breathtaking when you seek it.

133

00:07:03,040 --> 00:07:04,040

It's so strange.

134

00:07:04,040 --> 00:07:05,040

Yes.

135

00:07:05,040 --> 00:07:07,040

And it's the honest I got through.

136

00:07:07,040 --> 00:07:08,040

I'm no letter, cook or anything else.

137

00:07:08,040 --> 00:07:10,040

I'm here, I work at a hospital.

138

00:07:10,040 --> 00:07:15,040

And it's just been driving me nuts in one of the lab checks as you call in and find out

139

00:07:15,040 --> 00:07:16,040

or you're not going to rest until you do.

140

00:07:16,040 --> 00:07:18,040

And I said, they just tell me there were construction lab.

141

00:07:18,040 --> 00:07:19,040

I would be satisfied.

142

00:07:19,040 --> 00:07:23,040

But there's nobody that would have an area that big with construction lights.

143

00:07:23,040 --> 00:07:25,040

I mean, in that type of a glow.

144

00:07:25,040 --> 00:07:29,040

Well, we've been getting a lot of UFO reports in this area in the last week.

145

00:07:29,040 --> 00:07:31,040

Well, I believe it now.

146

00:07:31,040 --> 00:07:33,040

After saying that, there's no way I was against them.

147

00:07:33,040 --> 00:07:38,040

But after saying that, I'm a firm believer now because I just know that wasn't right.

148

00:07:38,040 --> 00:07:41,040

Well, what you have described is it fits the pattern.

149

00:07:41,040 --> 00:07:47,040

So it's really no different to just pulsating light, especially this is what is known as

150

00:07:47,040 --> 00:07:50,040

electromagnetic energy field which surrounds the vehicle itself.

151

00:07:51,040 --> 00:07:54,040

And it lights up just like a light bulb or a fluorescent tube.

152

00:07:54,040 --> 00:07:56,040

And this is one cloud.

153

00:07:56,040 --> 00:07:58,040

The cloud kept pulsating.

154

00:07:58,040 --> 00:08:05,040

And in the center of the cloud, it was more predominant kind of a, well, I don't know if it was

155

00:08:05,040 --> 00:08:09,040

the orange, dirty yellow or something in the center.

156

00:08:09,040 --> 00:08:12,040

And it just looked the whole entire cloud.

157

00:08:12,040 --> 00:08:14,040

This is why we thought it was lightning at first.

158

00:08:14,040 --> 00:08:19,040

But after saying this, and you could see the vapor, not vapors, but the lighting was just

159

00:08:19,040 --> 00:08:23,040

like, well, when they opened a new building, you know, they had these big lights outside.

160

00:08:23,040 --> 00:08:24,040

Right.

161

00:08:24,040 --> 00:08:27,040

And this is how it, this is what was affecting the cloud.

162

00:08:27,040 --> 00:08:28,040

I see.

163

00:08:30,040 --> 00:08:38,040

If you would like, I could have my son-in-law or husband call in and they could give you more detail on the distance and stuff like, you know, that, because I know a big judge

164

00:08:38,040 --> 00:08:41,040

the distance is just, if that would help you any.

165

00:08:41,040 --> 00:08:44,040

Yes, could I have your son-in-law's name?

166

00:08:44,040 --> 00:08:45,040

Steve.

167

00:08:46,040 --> 00:08:49,040

And that happened at about 9.20 p.m. when that was...

168

00:08:49,040 --> 00:08:55,040

Yeah, because we got into Seattle about, we got home about 10.30 and I was trying to look at my watch.

169

00:08:55,040 --> 00:08:58,040

I told Ted, I said, I want to see what time it is.

170

00:08:58,040 --> 00:08:59,040

And I couldn't see my watch.

171

00:08:59,040 --> 00:09:02,040

And he looked at his and he said, looks to be around 9.20.

172

00:09:02,040 --> 00:09:03,040

Uh-huh.

173

00:09:04,040 --> 00:09:06,040

So I, it's just, it's just really weird.

174

00:09:06,040 --> 00:09:09,040

I feel better after talking to you that I haven't flipped my litter.

175

00:09:09,040 --> 00:09:11,040

I think that's, that's, that's the way it is.

176

00:09:11,040 --> 00:09:13,040

I mean, to be honest with God, true.

177

00:09:13,040 --> 00:09:16,040

And that was Monday night? Sunday. Sunday night.

178

00:09:16,040 --> 00:09:18,040

That would be the night of the 31st.

179

00:09:18,040 --> 00:09:19,040

Right.

180

00:09:20,040 --> 00:09:22,040

They're the ones that gave you our number?

181

00:09:22,040 --> 00:09:24,040

Yeah. I see, okay.

182

00:09:25,040 --> 00:09:30,040

And you figure that was about two feet, or excuse me, two miles from the summit on the east side?

183

00:09:30,040 --> 00:09:32,040

Yeah, well Steve and Ted could tell you that more.

184

00:09:32,040 --> 00:09:36,040

I would assume because I was so engrossed and so excited about that.

185

00:09:36,040 --> 00:09:41,040

And then after seeing this other thing that I couldn't, it just, we weren't to the top of the patch yet.

186

00:09:41,040 --> 00:09:42,040

I know that.

187

00:09:42,040 --> 00:09:47,040

And I think I would recognize the area again because you're driving along and it's very wood

188

00:09:47,040 --> 00:09:50,040

and all of a sudden there's this big hole in the trees that are cleared out

189

00:09:50,040 --> 00:09:54,040

and then you can see quite a ways into the, you know, back in there.

190

00:09:54,040 --> 00:09:55,040

Right.

191

00:09:55,040 --> 00:09:57,040

And then you hit a bunch of trees again, you can't see.

192

00:09:57,040 --> 00:09:58,040

Okay.

193

00:09:59,040 --> 00:10:03,040

But it's not my imagination, I'll tell you.

194

00:10:05,040 --> 00:10:08,040

Well, a lot of people are seeing a lot of things.

195

00:10:08,040 --> 00:10:13,040

Yeah, I can believe it. I kind of left at it, but after the four of us slowed down the car and looked at it

196

00:10:13,040 --> 00:10:18,040

and then when my daughters started getting excited, we weren't cranking up, that's for sure.

197

00:10:20,040 --> 00:10:22,040

We're also coming back from east of the mountains.

198

00:10:22,040 --> 00:10:23,040

Oh, great.

199

00:10:23,040 --> 00:10:25,040

And I thought I'd just give you a buzz.

200

00:10:25,040 --> 00:10:28,040

Okay, so do you give us a description of what you did see?

201

00:10:28,040 --> 00:10:33,040

Well, it's about a mile or a half a mile before you got to the summit.

202

00:10:33,040 --> 00:10:39,040

And what it was like, it was something that was art-welding at night with a super big art-weather.

203

00:10:39,040 --> 00:10:41,040

And that's what it was illuminating, the clouds.

204

00:10:41,040 --> 00:10:43,040

And that's about what it looked like.

205

00:10:43,040 --> 00:10:47,040

It was white in color and it was flickering on and off.

206

00:10:47,040 --> 00:10:53,040

And finally, just before we got to the summit, there's a large gap and it was a real super bright light, real bright.

207

00:10:53,040 --> 00:10:58,040

And it lit up the whole area, but it was still flickering, it wasn't a steady light.

208

00:10:58,040 --> 00:11:01,040

And that's about basically what it was.

209

00:11:01,040 --> 00:11:03,040

Okay, what was the color of this light as you saw?

210

00:11:03,040 --> 00:11:04,040

It was white.

211

00:11:04,040 --> 00:11:05,040

Straight white.

212

00:11:05,040 --> 00:11:08,040

Yeah, it was white, but it was illuminating a large area.

213

00:11:08,040 --> 00:11:15,040

And I just forgot it, you know, when I passed by it, I just figured someone was working down in here or whatever.

214

00:11:15,040 --> 00:11:21,040

And when Ted was talking about it this morning, I said, hey, that's all the same thing.

215

00:11:21,040 --> 00:11:24,040

No, you said it was illuminating a large area.

216

00:11:24,040 --> 00:11:26,040

Are you speaking in a ground area?

217

00:11:26,040 --> 00:11:28,040

Okay, it was kind of hard to say.

218

00:11:28,040 --> 00:11:31,040

It was illuminating the clouds, the clouds were low tonight.

219

00:11:31,040 --> 00:11:32,040

I see.

220

00:11:32,040 --> 00:11:35,040

And by what I mean by large, large area of clouds.

221

00:11:35,040 --> 00:11:36,040

Right.

222

00:11:36,040 --> 00:11:39,040

As far as ground space, I don't know.

223

00:11:39,040 --> 00:11:42,040

Okay, and did you stop or did you just proceed on?

224

00:11:42,040 --> 00:11:44,040

No, no, I just proceeded on by.

225

00:11:44,040 --> 00:11:48,040

But you could see it for a good, I'd say a good half a mile through a mile.

226

00:11:48,040 --> 00:11:49,040

I see.

227

00:11:49,040 --> 00:11:53,040

And it was almost right on top of the summit there.

228

00:11:53,040 --> 00:11:59,040

And, like I said, I just forgot about it until Ted and I talked about it this morning.

229

00:11:59,040 --> 00:12:02,040

But I don't know.

230

00:12:02,040 --> 00:12:04,040

And you figured the time about what on that?

231

00:12:04,040 --> 00:12:06,040

9.30, 9.30 quarter to 10.

232

00:12:06,040 --> 00:12:07,040

Okay.

233

00:12:07,040 --> 00:12:09,040

You know.

234

00:12:09,040 --> 00:12:15,040

Okay, do you have any visual estimates of how far away that was or how far it was off the highway?

235

00:12:15,040 --> 00:12:17,040

The highway?

236

00:12:17,040 --> 00:12:19,040

I'd say a good half a mile.

237

00:12:19,040 --> 00:12:20,040

Half a mile, okay.

238

00:12:20,040 --> 00:12:22,040

Yeah, or...

239

00:12:22,040 --> 00:12:24,040

Yeah, I'd say half.

240

00:12:24,040 --> 00:12:28,040

Okay, now would you say that the object or the light itself was on the ground?

241

00:12:28,040 --> 00:12:33,040

Yeah, because it was, I wouldn't say on the ground.

242

00:12:33,040 --> 00:12:38,040

But it was going up into the clouds.

243

00:12:38,040 --> 00:12:40,040

Right, it was going up into the clouds.

244

00:12:40,040 --> 00:12:44,040

Right, so it would have to be from the ground up, but I don't know how close the ground was.

245

00:12:44,040 --> 00:12:48,040

I see, okay.

246

00:12:48,040 --> 00:12:52,040

Do you hear that with anything for size?

247

00:12:52,040 --> 00:12:55,040

For size?

248

00:12:55,040 --> 00:12:56,040

God, no, not really.

249

00:12:56,040 --> 00:13:02,040

Okay, just holding any small article at arm's length about how big would it be?

250

00:13:02,040 --> 00:13:04,040

Like a coin or a...

251

00:13:04,040 --> 00:13:07,040

Oh, you mean the space at the left?

252

00:13:07,040 --> 00:13:08,040

Right, right.

253

00:13:08,040 --> 00:13:11,040

Oh, God, no, I would say maybe half a football field.

254

00:13:11,040 --> 00:13:13,040

A half a football field, okay.

255

00:13:13,040 --> 00:13:16,040

Yeah, that was illuminating up the clouds.

256

00:13:16,040 --> 00:13:19,040

It was a very satellite, it was a large area.

257

00:13:19,040 --> 00:13:22,040

Yeah, okay.

258

00:13:22,040 --> 00:13:25,040

And time of observation.

259

00:13:25,040 --> 00:13:27,040

Time to record it to 10.

260

00:13:27,040 --> 00:13:29,040

Yeah, okay.

261

00:13:29,040 --> 00:13:31,040

Well, this is great.

262

00:13:31,040 --> 00:13:33,040

We're trying to get enough data so we can get up there.

263

00:13:33,040 --> 00:13:37,040

You figured about one and a half miles from the summit.

264

00:13:37,040 --> 00:13:41,040

Hmm, either, yeah, one to a half mile.

265

00:13:41,040 --> 00:13:43,040

One to a half mile, okay.

266

00:13:43,040 --> 00:13:47,040

Let's see if we can get somebody up there and take a look at that area.

267

00:13:47,040 --> 00:13:49,040

Well, we sure appreciate your calling, Larry.

268

00:13:49,040 --> 00:13:50,040

Okay.

269

00:13:50,040 --> 00:13:52,040

And if you see anything in the future, let us know.

270

00:13:52,040 --> 00:13:55,040

And if we get any real good information on this,

271

00:13:55,040 --> 00:13:58,040

why if we happen to get a crew up there and find anything, we'll let you know.

272

00:13:58,040 --> 00:13:59,040

Yeah, fine, thank you.

273

00:13:59,040 --> 00:14:01,040

Thanks again.

274

00:14:01,040 --> 00:14:03,040

This is a UFO reporting center in Seattle.

275

00:14:03,040 --> 00:14:06,040

I wonder if we could get a description of what you saw.

276

00:14:06,040 --> 00:14:11,040

Oh, well, I didn't even get the good shot because I was sitting at the car and my wife thought.

277

00:14:11,040 --> 00:14:15,040

She said, I had to start a light, you know, because it was so foggy up there

278

00:14:15,040 --> 00:14:17,040

just before you start going up the path.

279

00:14:17,040 --> 00:14:20,040

And, you know, you couldn't help but miss it, you know, all the lights being on.

280

00:14:20,040 --> 00:14:24,040

And it was just like a radiation flow or something, you know, it was just up and down,

281

00:14:24,040 --> 00:14:27,040

but it was so foggy, you could see it in the clouds up there.

282

00:14:27,040 --> 00:14:29,040

It was really bright, you know, and we were just driving through,

283

00:14:29,040 --> 00:14:30,040

and I wasn't seeing anything up, and I said,

284

00:14:30,040 --> 00:14:32,040

oh, they must be working on the road, there's some construction, you know,

285

00:14:32,040 --> 00:14:34,040

because it was so bright.

286

00:14:34,040 --> 00:14:36,040

And, you know, my wife, she's got, they have a Monte Carlo,

287

00:14:36,040 --> 00:14:39,040

and she was looking through the little window there, and then she goes,

288

00:14:39,040 --> 00:14:43,040

no, look, it's white, it's white, I'm going, oh, yeah, sure, you know.

289

00:14:43,040 --> 00:14:45,040

She goes, no, look at it, you know, but we kept on,

290

00:14:45,040 --> 00:14:47,040

apparently we kept on looking behind us, and it kept on,

291

00:14:47,040 --> 00:14:50,040

just keep on going and going and going, you know.

292

00:14:50,040 --> 00:14:52,040

And so we didn't figure what it was, but, you know,

293

00:14:52,040 --> 00:14:54,040

I thought it was going to train on construction,

294

00:14:54,040 --> 00:14:56,040

but on Sunday night, we weren't sure.

295

00:14:56,040 --> 00:14:58,040

It was really bright, you know,

296

00:14:58,040 --> 00:15:00,040

you couldn't help but miss it if you're on the freeway.

297

00:15:00,040 --> 00:15:06,040

Now, how far would you say just a visual estimate was the object?

298

00:15:07,040 --> 00:15:09,040

Oh, about a half a mile.

299

00:15:09,040 --> 00:15:10,040

I see.

300

00:15:10,040 --> 00:15:14,040

And it was all light, white light?

301

00:15:14,040 --> 00:15:16,040

Yeah, it would just reflect, you know,

302

00:15:16,040 --> 00:15:19,040

just like fog was coming, you know, it just shone right straight up in the air.

303

00:15:19,040 --> 00:15:20,040

Uh-huh.

304

00:15:20,040 --> 00:15:23,040

And we looked, we went by, you could just go right through the trees

305

00:15:23,040 --> 00:15:26,040

and see it, just bright and shiny, there it was, all light.

306

00:15:26,040 --> 00:15:30,040

And it was, you know, it was kind of different, you know.

307

00:15:30,040 --> 00:15:32,040

So that's what she said, she was going to call somebody and find out.

308

00:15:32,040 --> 00:15:37,040

Well, was there any indication that the source of this light was on the ground?

309

00:15:37,040 --> 00:15:41,040

Yeah, you could see right through the trees, you know, what trees there was.

310

00:15:41,040 --> 00:15:44,040

Because I remember when I was driving, when we drove by,

311

00:15:44,040 --> 00:15:48,040

I can't say maybe a half a mile, maybe a mile or maybe even less,

312

00:15:48,040 --> 00:15:52,040

to that first hotel or, I don't know, what shirt it is,

313

00:15:52,040 --> 00:15:54,040

on the left side road as you're going up to the path.

314

00:15:54,040 --> 00:15:55,040

Yes.

315

00:15:55,040 --> 00:15:57,040

That's about how far it was away, because it was on the right side,

316

00:15:57,040 --> 00:15:59,040

and I just turned around from looking at it,

317

00:15:59,040 --> 00:16:02,040

and then there was that lodge or whatever it was on the left-hand side.

318

00:16:02,040 --> 00:16:04,040

That would be the first lodge heading west.

319

00:16:04,040 --> 00:16:08,040

Right, it was, it's the old Swiss-looking hotel,

320

00:16:08,040 --> 00:16:11,040

I'm not sure what it was, it was all lit up too, you know, all the lights were on.

321

00:16:11,040 --> 00:16:14,040

But it's about a, I just, you know, good thing I looked at it and I turned around

322

00:16:14,040 --> 00:16:16,040

and I remember looking right at that.

323

00:16:16,040 --> 00:16:20,040

And so I spent about a mile away from that and about a half a mile in.

324

00:16:20,040 --> 00:16:23,040

Well, then the object was giving off enough light so that you could see

325

00:16:23,040 --> 00:16:25,040

that it was in the trees.

326

00:16:25,040 --> 00:16:27,040

Oh, you may drove by, they couldn't miss it,

327

00:16:27,040 --> 00:16:28,040

and help them seeing it.

328

00:16:28,040 --> 00:16:29,040

I see.

329

00:16:29,040 --> 00:16:31,040

Because they just, you know, the whole sky was lit up from it.

330

00:16:31,040 --> 00:16:34,040

It was just, it was bright, you couldn't miss it.

331

00:16:34,040 --> 00:16:37,040

Could you give any estimate on the size of that,

332

00:16:37,040 --> 00:16:40,040

comparing it with something?

333

00:16:40,040 --> 00:16:44,040

Well, that's, you know, that's, the only thing I could think of,

334

00:16:44,040 --> 00:16:46,040

at the time, being so bright would be a skylight,

335

00:16:46,040 --> 00:16:48,040

but it was even bigger than that I would think.

336

00:16:48,040 --> 00:16:51,040

Of course, that was so, so, so damp and foggy,

337

00:16:51,040 --> 00:16:54,040

or cloudy, I guess, that they foggier more cloudy.

338

00:16:54,040 --> 00:16:56,040

You could see it right in the clouds, it was,

339

00:16:56,040 --> 00:16:59,040

the clouds were down low and you just, the light was right into it.

340

00:16:59,040 --> 00:17:02,040

And it was bigger than a skylight, because that's the first intention I had,

341

00:17:02,040 --> 00:17:04,040

was that, you know, they must be exploding or something,

342

00:17:04,040 --> 00:17:06,040

and they were gripping light on what they were doing,

343

00:17:06,040 --> 00:17:08,040

so they'd make any mistakes, you know, and they had to think of.

344

00:17:08,040 --> 00:17:10,040

I said, well, it must be a gigantic skylight,

345

00:17:10,040 --> 00:17:13,040

but it was straight up in the air and it wouldn't be doing any good.

346

00:17:13,040 --> 00:17:14,040

Yes.

347

00:17:14,040 --> 00:17:18,040

Well, in other words, this, this, the light which appeared to originate on the ground

348

00:17:18,040 --> 00:17:22,040

was shining as a solid beam up into the sky.

349

00:17:22,040 --> 00:17:25,040

Or was it just a reflection in the sky?

350

00:17:25,040 --> 00:17:28,040

No, it looked, well, could be, I mean, it just, it was there,

351

00:17:28,040 --> 00:17:30,040

when you look in the clouds, there was, there it was.

352

00:17:30,040 --> 00:17:32,040

You could look through the trees and it was all white,

353

00:17:32,040 --> 00:17:34,040

just like a bright light was on.

354

00:17:34,040 --> 00:17:37,040

It was kind of, you know, like a radiation, it was just, you know, there.

355

00:17:37,040 --> 00:17:40,040

I really didn't pay that much, you know, I was staring at it, you know, and stuff,

356

00:17:40,040 --> 00:17:42,040

but I wasn't really thinking of what it could have been, you know,

357

00:17:42,040 --> 00:17:44,040

I was just going, oh, yeah, look at that, you know,

358

00:17:44,040 --> 00:17:45,040

because you couldn't help from this,

359

00:17:45,040 --> 00:17:47,040

and anybody was on the freeway, they had to see it.

360

00:17:47,040 --> 00:17:48,040

Yes.

361

00:17:48,040 --> 00:17:51,040

It didn't reflect light into the vehicle did it?

362

00:17:51,040 --> 00:17:52,040

No.

363

00:17:52,040 --> 00:17:54,040

That wasn't that bright, okay.

364

00:17:54,040 --> 00:17:56,040

And was this a steady light?

365

00:17:56,040 --> 00:18:01,040

Uh, yeah, as far as I remember it was steady, yeah, up in the sky,

366

00:18:01,040 --> 00:18:04,040

I paid more attention to Aaron, Karlie, my wife was,

367

00:18:04,040 --> 00:18:06,040

and Alice were looking into the trees,

368

00:18:06,040 --> 00:18:08,040

and I was just staring up there trying to figure out what the hell it could be.

369

00:18:08,040 --> 00:18:09,040

Yes.

370

00:18:09,040 --> 00:18:12,040

And, you know, then we kind of disappeared,

371

00:18:12,040 --> 00:18:14,040

they'd light on the ground, because, you know,

372

00:18:14,040 --> 00:18:16,040

I was looking up in the sky and Karlie, Alice said,

373

00:18:16,040 --> 00:18:19,040

she was really paying attention to it, she was, oh, I can't see it.

374

00:18:19,040 --> 00:18:22,040

And she said, turn around and look, you can see it right through the bushes again,

375

00:18:22,040 --> 00:18:25,040

you know, the trees, you go see it, see it, and I turn around and I go,

376

00:18:25,040 --> 00:18:29,040

oh, yeah, there it is, you know, and after that we lost sight of it again.

377

00:18:29,040 --> 00:18:30,040

Uh-huh.

378

00:18:30,040 --> 00:18:32,040

But it was definitely on the ground, because you can see,

379

00:18:32,040 --> 00:18:34,040

she started pointing to me again to look behind me,

380

00:18:34,040 --> 00:18:38,040

and in the car you can see it again, sitting down there.

381

00:18:38,040 --> 00:18:43,040

Okay, I think that, uh, we'll just send a crew up there tomorrow

382

00:18:43,040 --> 00:18:45,040

and look around and see if we can find anything.

383

00:18:45,040 --> 00:18:46,040

Okay.

384

00:18:46,040 --> 00:18:48,040

All right, thank you very much for talking to us, Steve.

385

00:18:48,040 --> 00:18:49,040

Uh-huh, you bet.

386

00:18:49,040 --> 00:18:50,040

Okay, bye.

387

00:18:52,040 --> 00:18:54,040

Uh, yes, uh, who are you at now?

388

00:18:54,040 --> 00:18:57,040

Uh, the UFO Reporting Center in Seattle.

389

00:18:57,040 --> 00:19:01,040

Is that the, is that the one located in the Boingfield?

390

00:19:01,040 --> 00:19:06,040

No, that would be the FAA Center in Boingfield.

391

00:19:06,040 --> 00:19:12,040

This is a private organization, we've been in service in this part of the country for 20 years.

392

00:19:13,040 --> 00:19:18,040

No, I have a listing here of several phone numbers that were given to me,

393

00:19:18,040 --> 00:19:23,040

and I just wanted to fewer the people that, uh...

394

00:19:23,040 --> 00:19:25,040

We are also known as Phenomenal Research.

395

00:19:25,040 --> 00:19:28,040

Oh, yeah, yeah, that's the name that was given to me.

396

00:19:28,040 --> 00:19:31,040

I think I've got your phone number down here somewhere.

397

00:19:31,040 --> 00:19:32,040

Uh-huh.

398

00:19:32,040 --> 00:19:34,040

Well, that's correct.

399

00:19:35,040 --> 00:19:41,040

The strange part about it is that this particular object was on the ground when I first saw it.

400

00:19:42,040 --> 00:19:43,040

Uh-huh.

401

00:19:43,040 --> 00:19:45,040

It wasn't in the air.

402

00:19:45,040 --> 00:19:48,040

Uh, there's a street intersection in Tacoma here.

403

00:19:48,040 --> 00:19:52,040

The one with me is in Arturo, and one of them is a side street that goes off, and it's a dead end,

404

00:19:52,040 --> 00:19:58,040

and it happened to be more in the shadows of the main street that I was on.

405

00:19:58,040 --> 00:20:03,040

As I approached that intersection, it just happened to glance to the left,

406

00:20:03,040 --> 00:20:10,040

and, uh, here on the ground appeared to be what I thought was a lantern burning.

407

00:20:10,040 --> 00:20:15,040

Uh, it didn't have a big light.

408

00:20:15,040 --> 00:20:16,040

It didn't have a bright light.

409

00:20:16,040 --> 00:20:20,040

It was more like a lantern that somebody had left burning that.

410

00:20:20,040 --> 00:20:24,040

Uh, by the time I saw it, I called it to my western kitchen.

411

00:20:24,040 --> 00:20:28,040

Just about that time, it started to rise off the ground.

412

00:20:29,040 --> 00:20:36,040

And the glow from it, as near as I could describe it,

413

00:20:36,040 --> 00:20:41,040

the glow from it showed a frame like a fair.

414

00:20:41,040 --> 00:20:49,040

Uh, I could distinguish what looked like a thin pole for thin poles,

415

00:20:49,040 --> 00:20:57,040

and, uh, in a sort of a box-like contraption that would resemble a box kite in the vertical

position,

416

00:20:57,040 --> 00:21:01,040

but it had no, it had no covering over it.

417

00:21:01,040 --> 00:21:02,040

Yes.

418

00:21:02,040 --> 00:21:09,040

In other words, it appeared to be transparent, but I could detect the shadows of something that looked like four poles,

419

00:21:09,040 --> 00:21:16,040

maybe the size of my, uh, maybe thumb or something like that, you know, about an inch in diameter, if they were round, I don't know.

420

00:21:16,040 --> 00:21:21,040

Uh, I mean, the first thought I was, I would say about 60 feet from it.

421

00:21:21,040 --> 00:21:25,040

Uh, I paced it off about 20, 25 paces,

422

00:21:25,040 --> 00:21:29,040

approximately 55, 60 feet from it on the ground.

423

00:21:29,040 --> 00:21:37,040

And, uh, it was probably about six feet high at the most, between five and six feet high at the most.

424

00:21:37,040 --> 00:21:39,040

That is the frame like a fair.

425

00:21:39,040 --> 00:21:45,040

And I would judge about two or two and a half feet in diameter, although I didn't know whether it was round or square,

426

00:21:45,040 --> 00:21:49,040

because I couldn't detect, I couldn't detect any covering on it.

427

00:21:49,040 --> 00:21:50,040

Yes.

428

00:21:50,040 --> 00:21:56,040

Well, the minute I saw it, and I called it to my western kitchen, it began to rise off the ground.

429

00:21:56,040 --> 00:22:05,040

And since we were, it was to our left, I rolled maybe 20 feet more and put on the brick and pulled over to the side.

430

00:22:05,040 --> 00:22:08,040

Life went on one door and I went on the other.

431

00:22:08,040 --> 00:22:15,040

And it was rising, of course, and it was rising, uh, right over our heads.

432

00:22:15,040 --> 00:22:20,040

In other words, it drifted over our heads going in a sudden direction.

433

00:22:21,040 --> 00:22:29,040

And, uh, it passed over, just about over our car, I would say, no more than, oh, no more than 30 feet over the car.

434

00:22:29,040 --> 00:22:32,040

And I was able to look right up underneath it.

435

00:22:32,040 --> 00:22:39,040

And the glow that I saw in the gutter resembled a lantern, actually in the air, uh, resembled two crossbars,

436

00:22:39,040 --> 00:22:48,040

equal distance crossbars, which were glowing, about the color of, uh, bright ember caution light at night.

437

00:22:48,040 --> 00:22:49,040

Yes.

438

00:22:50,040 --> 00:22:58,040

And, uh, this thing, uh, there again, I estimated to be two to three feet in, either diameter or square,

439

00:22:58,040 --> 00:23:04,040

but since I couldn't see no frame around it, no, no shape of it, I couldn't tell when it was around,

440

00:23:04,040 --> 00:23:06,040

or square, there was no covering around it.

441

00:23:06,040 --> 00:23:14,040

And it rose in a vertical position, but it went off on a tangent towards the southwest.

442

00:23:14,040 --> 00:23:21,040

And it rose about the speed of a gas balloon that, uh, you let go at the fairgrounds.

443

00:23:21,040 --> 00:23:22,040

Yes.

444

00:23:22,040 --> 00:23:24,040

And it goes up into the sky.

445

00:23:24,040 --> 00:23:26,040

That's about the speed to which it rose.

446

00:23:26,040 --> 00:23:35,040

Well, uh, shortly after I stopped, another car stopped by the young seller from Fort Lewis, Bobby

M.

447

00:23:35,040 --> 00:23:37,040

And he asked me, what's that?

448

00:23:37,040 --> 00:23:40,040

I said, this is a dart, if I know what it is.

449

00:23:40,040 --> 00:23:46,040

And then, a minute or two later, a couple of young kids came running up from a couple blocks away.

450

00:23:46,040 --> 00:23:53,040

They pointed in the direction where they came from, and they said that they had seen it close to their place,

451

00:23:53,040 --> 00:24:00,040

and it had gone over some houses and disappeared from view from their view, uh, and over some trees,

452

00:24:00,040 --> 00:24:01,040

and they couldn't see it.

453

00:24:01,040 --> 00:24:07,040

And you were running in the direction, and it had gone, and evidently it had gone in the direction to where I saw it,

454

00:24:07,040 --> 00:24:13,040

and it had come down onto the ground again, and then it took off where I saw it.

455

00:24:13,040 --> 00:24:20,040

But, uh, all of us watched it go, and, uh, maybe watched it for three or four minutes,

456

00:24:20,040 --> 00:24:25,040

and then I got to the ocean, all of a sudden I should get to a phone and call up the court Air Force Base,

457

00:24:25,040 --> 00:24:31,040

because it was drifting off in their direction, and in southwest from where we were,

458

00:24:31,040 --> 00:24:38,040

and, um, uh, I figured that maybe they could pick it up on radar, or maybe send the plane up.

459

00:24:38,040 --> 00:24:44,040

Well, I live about a mile and a half from the location that I saw it, and everything went dark around there,

460

00:24:44,040 --> 00:24:52,040

because it was 12.30 at night, and, um, I, uh, told my wife to get in the car, and it spoke,

461

00:24:52,040 --> 00:24:55,040

and I haven't even darkened, I didn't want to follow in somebody's door in the middle of the night,

462

00:24:55,040 --> 00:24:58,040

and ask them to use a phone, because it probably wouldn't anyway.

463

00:24:58,040 --> 00:24:59,040

Right.

464

00:24:59,040 --> 00:25:05,040

So, um, we drove home, uh, quite hastily, and, uh, on the way home,

465

00:25:05,040 --> 00:25:10,040

and I looked back, and actually I made a right-hand turn, and was going down away from it,

466

00:25:10,040 --> 00:25:13,040

but when I looked back, I could still distinguish it in the sky,

467

00:25:13,040 --> 00:25:19,040

and it was glowing with the same intensity that it did, uh, when it passed over my head.

468

00:25:19,040 --> 00:25:25,040

Uh, there was no fire, no heat, no sparks, uh, I'll say there was heat, I don't know,

469

00:25:25,040 --> 00:25:29,040

I couldn't, uh, I didn't get that closer, but there was no sparks, there was no fire,

470

00:25:29,040 --> 00:25:35,040

it's as far as a flame-like affair, there was no smoke, there was no motion,

471

00:25:35,040 --> 00:25:45,040

excepting that, uh, rising on a tangent, and, uh, I got to the phone,

472

00:25:45,040 --> 00:25:48,040

and of course I had someone getting through to the right party at the court,

473

00:25:48,040 --> 00:25:51,040

and after I got through to what I thought was the right party, he said,

474

00:25:51,040 --> 00:25:56,040

well, I'll give, I'll call alert and tell them about it,

475

00:25:56,040 --> 00:26:01,040

and, uh, he didn't even seem interested in taking my neighbor's phone number, although I gave it to him,

476

00:26:01,040 --> 00:26:05,040

and, uh, that was that.

477

00:26:05,040 --> 00:26:09,040

I went back to the location where I had seen it take off the ground,

478

00:26:09,040 --> 00:26:12,040

shortly after that I took a bright light with me,

479

00:26:12,040 --> 00:26:15,040

and I showed the headlights on the spot where it had been sitting,

480

00:26:15,040 --> 00:26:17,040

but I couldn't see a thing on the ground,

481

00:26:17,040 --> 00:26:22,040

and it indicated anything like, burners, smoke carrier, anything.

482

00:26:22,040 --> 00:26:28,040

Yes, actually, actually it was, it was in the, in the middle of a street that was a dead-end street,

483

00:26:28,040 --> 00:26:37,040

but, uh, not very well used, and, uh, it was about, like I say, about 60 feet from the left side of the,

484

00:26:37,040 --> 00:26:41,040

the right side of the artisan that I was traveling on.

485

00:26:41,040 --> 00:26:47,040

The next day I tried to contact the court and see if I could get some information from them

486

00:26:47,040 --> 00:26:52,040

on what they had seen or done, but I couldn't even get through to the same party that I had talked to.

487

00:26:52,040 --> 00:26:56,040

Of course, I was calling in the daytime, and this had happened,

488

00:26:56,040 --> 00:26:59,040

and late at night maybe the same crews were on, different crews were on at that time,

489

00:26:59,040 --> 00:27:01,040

and I don't know.

490

00:27:01,040 --> 00:27:09,040

I called the tribune to see if, uh, if there had been other reporting of, uh, some were denied,

491

00:27:09,040 --> 00:27:15,040

and they said that a man had reported seeing something in the far-off distance about 10.30 that night

492

00:27:15,040 --> 00:27:22,040

that he couldn't figure out what it was, and it was sort of a bright light, but, uh, that's all the tribune knew about it.

493

00:27:22,040 --> 00:27:24,040

I see.

494

00:27:24,040 --> 00:27:30,040

They didn't, uh, well, on the next day, uh, a reporter called me and asked me all kinds of questions about it,

495

00:27:30,040 --> 00:27:35,040

and, uh, oh, any number of questions, and what did he apply?

496

00:27:35,040 --> 00:27:40,040

I don't know, he didn't ask me questions, I'm telling you, I know,

497

00:27:40,040 --> 00:27:44,040

but he asked me all kinds of questions, and he was really interested in so far,

498

00:27:44,040 --> 00:27:49,040

but, uh, I don't think, I think he just dropped it to figure out just another one of those things.

499

00:27:49,040 --> 00:27:55,040

But, uh, this is something that, uh, I very definitely saw, and very definitely experienced,

500

00:27:55,040 --> 00:28:01,040

and, uh, I puzzled at what it is, and I'm not, uh, staying awake at night trying to figure it out,

501

00:28:01,040 --> 00:28:03,040

but at the same time it's quite a puzzle.

502

00:28:03,040 --> 00:28:06,040

Okay, was that Dead End Street inspected during the daylight hours?

503

00:28:06,040 --> 00:28:08,040

I did, yes, I went back during the daytime.

504

00:28:08,040 --> 00:28:10,040

And nothing was found?

505

00:28:10,040 --> 00:28:16,040

Nothing, nothing was found or seen, and, I mean, uh, there was absolutely nothing to indicate that, uh,

506

00:28:16,040 --> 00:28:18,040

this particular object had been there the night before.

507

00:28:18,040 --> 00:28:20,040

Are there quite a few homes there?

508

00:28:20,040 --> 00:28:25,040

Well, there's homes, uh, in that area, but, uh, there's sort of a brushy,

509

00:28:25,040 --> 00:28:27,040

small brushy area between the homes and the areas.

510

00:28:27,040 --> 00:28:29,040

I see. What street was that?

511

00:28:29,040 --> 00:28:37,040

Well, the street that I was on is, uh, was South 56th Street, uh, between Pacific Avenue and, uh, McKinley Avenue.

512

00:28:37,040 --> 00:28:40,040

Pacific, uh, 56th Street runs east and west.

513

00:28:40,040 --> 00:28:41,040

Uh-huh.

514

00:28:41,040 --> 00:28:43,040

I mean, for many winter clothes.

515

00:28:43,040 --> 00:28:44,040

Uh, slightly, yes.

516

00:28:44,040 --> 00:28:51,040

Well, Pacific Avenue runs almost north and south, and McKinley Avenue, we live on, runs almost north and south.

517

00:28:51,040 --> 00:28:52,040

Uh-huh.

518

00:28:52,040 --> 00:29:03,040

Well, the 56th Street is an arterial between those two, and, uh, it was, uh, at 56th and B Street.

519

00:29:03,040 --> 00:29:09,040

Now, B Street is a dead-end street on the left going east.

520

00:29:09,040 --> 00:29:17,040

Uh, on the right, uh, it is not B Street at all because there's a jogging there, and there's a big church on the left.

521

00:29:17,040 --> 00:29:18,040

I see.

522

00:29:18,040 --> 00:29:23,040

But it passed over our car, and it passed over, and the church went off in the south of the direction.

523

00:29:23,040 --> 00:29:30,040

This was a 1230th night at the tap that I saw it, and, uh, it was a rather clear night.

524

00:29:30,040 --> 00:29:32,040

I can see a long distance.

525

00:29:32,040 --> 00:29:35,040

About how long, uh, did you observe the object?

526

00:29:35,040 --> 00:29:40,040

Well, I see we watched it for, uh, three, four, five minutes.

527

00:29:40,040 --> 00:29:41,040

Uh-huh.

528

00:29:41,040 --> 00:29:48,040

Did you by any chance get the names of the, uh, other people who had stopped or the youngster that came up to the scene?

529

00:29:48,040 --> 00:29:51,040

I wished I had. I did not.

530

00:29:51,040 --> 00:29:52,040

Okay.

531

00:29:52,040 --> 00:29:54,040

That's something I, uh, would have to say.

532

00:29:54,040 --> 00:29:58,040

It probably never will in my lifetime ever happen again, but it never does, boss. I'm sure.

533

00:29:58,040 --> 00:29:59,040

It's just names.

534

00:29:59,040 --> 00:30:04,040

My wife and I are the only ones that's been truly collaborated.

535

00:30:04,040 --> 00:30:08,040

But these two boys, or this group of boys, uh, stated that the object had-

536

00:30:08,040 --> 00:30:09,040

Just two boys.

537

00:30:09,040 --> 00:30:13,040

Uh-huh. That it had apparently landed where you had first seen it then.

538

00:30:13,040 --> 00:30:14,040

Uh-huh. Yeah.

539

00:30:14,040 --> 00:30:18,040

Well, the two boys came running and they said they pointed off in that direction.

540

00:30:18,040 --> 00:30:22,040

We lived down there. We had, so we shot down there, and they, we couldn't tell what it was.

541

00:30:22,040 --> 00:30:25,040

They came running in the direction that they saw it go.

542

00:30:25,040 --> 00:30:35,040

So obviously it hovered over, or passed over the houses rather low, and then it, uh, it went down again onto B Street where I shot.

543

00:30:35,040 --> 00:30:38,040

Okay.

544

00:30:38,040 --> 00:30:41,040

And that was about 10 p.m. when you first started it.

545

00:30:41,040 --> 00:30:42,040

It was 1230.

546

00:30:42,040 --> 00:30:43,040

1230.

547

00:30:43,040 --> 00:30:48,040

Yeah. This other fellow that, uh, told the Tribune that he had saw it had seen something.

548

00:30:48,040 --> 00:30:50,040

He said he saw it around 1030, that thing.

549

00:30:50,040 --> 00:30:51,040

About 1030.

550

00:30:51,040 --> 00:30:57,040

Now, whether he saw the same thing or not, I don't know, because he didn't see it close. He saw it far away in the sky.

551

00:30:57,040 --> 00:30:58,040

Right.

552

00:30:59,040 --> 00:31:02,040

And did you get the name of our organization from a source in Tacoma?

553

00:31:02,040 --> 00:31:09,040

Well, it so happened that the next day after, well, this, this was a 1230 night and about 4 in the afternoon, that same day.

554

00:31:09,040 --> 00:31:11,040

This is 1230 in the morning, I should say.

555

00:31:11,040 --> 00:31:12,040

Yes.

556

00:31:12,040 --> 00:31:13,040

P.M.

557

00:31:13,040 --> 00:31:14,040

P.M.

558

00:31:14,040 --> 00:31:21,040

4, about 4 o'clock that same day, I called the court to see if I could get any information, and they couldn't give me no information at all.

559

00:31:21,040 --> 00:31:28,040

And they suggested that I call Washington, uh, Washington State, uh, Civil Defense and Olympia.

560

00:31:29,040 --> 00:31:34,040

Now, why I don't know what they did. So I called Washington State Civil Defense and Olympia.

561

00:31:34,040 --> 00:31:40,040

Some girl answered the phone down there and she said, oh, we don't handle anything like that anymore.

562

00:31:40,040 --> 00:31:47,040

And I don't know if they ever did, but she said, uh, she said, I can give you the phone number of some people to call.

563

00:31:47,040 --> 00:31:53,040

And she mentioned, uh, she mentioned your, your, your group, a lot of our research.

564

00:31:53,040 --> 00:31:54,040

Uh-huh.

565

00:31:54,040 --> 00:31:59,040

When that number, she gave me that number, P.O. Boxing, D.O.7, I think.

566

00:31:59,040 --> 00:32:08,040

And she also gave me the name of a number of Washington State, uh, Center for U.S. Post Studies and Fort Renton.

567

00:32:08,040 --> 00:32:14,040

And, uh, Washington State are not exploring in Fio, Seattle.

568

00:32:14,040 --> 00:32:20,040

Uh, I didn't call either, either one of these.

569

00:32:20,040 --> 00:32:25,040

Because I thought that, uh, maybe the reporter would do something about it.

570

00:32:25,040 --> 00:32:31,040

Uh, once, he, uh, when he was calling us the following day, he asked, of course, all kinds of questions.

571

00:32:31,040 --> 00:32:38,040

And I told him who I had called and the names that I had gotten from Washington Civil Defense and one of them was yours.

572

00:32:38,040 --> 00:32:42,040

He said he was going to follow it up, but I don't think he ever did.

573

00:32:42,040 --> 00:32:44,040

And he never got a call from him to do it.

574

00:32:44,040 --> 00:32:45,040

No.

575

00:32:45,040 --> 00:32:51,040

Well, that is the situation as it stood, and I just left it that way.

576

00:32:51,040 --> 00:33:01,040

It's a, uh, it's a peculiar situation as far as I'm concerned, because, uh, until now I was neither a believer nor a disbeliever.

577

00:33:01,040 --> 00:33:04,040

I just figured that maybe it's so, maybe it isn't so.

578

00:33:04,040 --> 00:33:06,040

You know, you just don't dwell on the subject.

579

00:33:06,040 --> 00:33:11,040

And even today, I don't dwell on it because, uh, whatever it is, it is.

580

00:33:11,040 --> 00:33:12,040

And that's all there is to it.

581

00:33:12,040 --> 00:33:17,040

I can't, uh, I can't, I don't have the answer to the mystery.

582

00:33:17,040 --> 00:33:24,040

And, uh, I'm not, as I said, I don't, but the time to lay a week at night, right?

583

00:33:24,040 --> 00:33:28,040

Keep a week at night trying to solve a mystery that isn't solvable as far as I'm concerned.

584

00:33:28,040 --> 00:33:29,040

True.

585

00:33:31,040 --> 00:33:32,040

Okay.

586

00:33:32,040 --> 00:33:37,040

It's been a puzzle and, uh, I can assure you we weren't drinking.

587

00:33:37,040 --> 00:33:39,040

Well, we sure appreciate, uh...

588

00:33:39,040 --> 00:33:41,040

It's a question everybody's been asking me.

589

00:33:41,040 --> 00:33:43,040

Every time we talk about it, what you have to drink.

590

00:33:43,040 --> 00:33:44,040

Oh, yes.

591

00:33:44,040 --> 00:33:45,040

Well, that's common.

592

00:33:45,040 --> 00:33:46,040

Uh...

593

00:33:46,040 --> 00:33:51,040

We sure appreciate your talking to us, and if we get any additional information on this, we'll let you know.

594

00:33:51,040 --> 00:33:55,040

Well, I would be very much interested in additional information.

595

00:33:55,040 --> 00:33:56,040

What is your name?

596

00:33:56,040 --> 00:33:59,040

Uh, Bob Gribble, G-R-I-B-B-L-E.

597

00:33:59,040 --> 00:34:04,040

You know, I think that's the name I got from the...

598

00:34:04,040 --> 00:34:05,040

All right.

599

00:34:05,040 --> 00:34:08,040

When I get that name, wait a minute, let me look through it.

600

00:34:08,040 --> 00:34:12,040

And that name written down here someplace.

601

00:34:12,040 --> 00:34:14,040

Phenomenal research, Robert Gribble.

602

00:34:14,040 --> 00:34:15,040

Uh-huh.

603

00:34:15,040 --> 00:34:16,040

That's right.

604

00:34:16,040 --> 00:34:21,040

That's the name that was given to me by this office, and I'll look it.

605

00:34:21,040 --> 00:34:22,040

All right.

606

00:34:22,040 --> 00:34:24,040

So, every day, they know you people.

607

00:34:24,040 --> 00:34:25,040

Very good.

608

00:34:25,040 --> 00:34:26,040

They know about you.

609

00:34:26,040 --> 00:34:27,040

That's great.

610

00:34:27,040 --> 00:34:28,040

Uh-huh.

611

00:34:28,040 --> 00:34:29,040

Well, I thank you again, sir.

612

00:34:29,040 --> 00:34:30,040

Okay.

613

00:34:30,040 --> 00:34:31,040

All right.

614

00:34:31,040 --> 00:34:32,040

Good night.

615

00:34:34,040 --> 00:34:35,040

Good night.

616

00:34:35,040 --> 00:34:36,040

Good night.

617

00:34:36,040 --> 00:34:37,040

Good night.

618

00:34:37,040 --> 00:34:38,040

Good night.

619

00:34:38,040 --> 00:34:39,040

Good night.

620

00:34:39,040 --> 00:34:40,040

Good night.

621

00:34:40,040 --> 00:34:41,040

Good night.

622

00:34:41,040 --> 00:34:42,040

Good night.

623

00:34:42,040 --> 00:34:43,040

Good night.

624

00:34:43,040 --> 00:34:44,040

Good night.

625

00:34:44,040 --> 00:34:45,040

Good night.

626

00:34:45,040 --> 00:34:46,040

Good night.

627

00:34:46,040 --> 00:34:47,040

Good night.

628

00:34:47,040 --> 00:34:48,040

Good night.

629

00:34:48,040 --> 00:34:49,040

Good night.

630

00:34:49,040 --> 00:34:50,040

Good night.

631

00:34:50,040 --> 00:34:51,040

Good night.

632

00:34:51,040 --> 00:34:52,040

Good night.

633

00:34:52,040 --> 00:34:53,040

Good night.

634

00:34:53,040 --> 00:34:54,040

Good night.

635

00:34:54,040 --> 00:34:55,040

Good night.

636

00:34:55,040 --> 00:34:56,040

Good night.

637

00:34:56,040 --> 00:34:57,040

Good night.

638

00:34:57,040 --> 00:34:58,040

Good night.

639

00:34:58,040 --> 00:34:59,040

Good night.

640

00:34:59,040 --> 00:35:00,040

Good night.

641

00:35:00,040 --> 00:35:01,040

Good night.

642

00:35:01,040 --> 00:35:02,040

Good night.

643

00:35:02,040 --> 00:35:03,040

Good night.
