

1

00:00:00,000 --> 00:00:04,000

We're still in for the incident UFO.

2

00:00:04,000 --> 00:00:05,000

You bet we are.

3

00:00:05,000 --> 00:00:07,000

Okay, we got something here.

4

00:00:07,000 --> 00:00:09,000

I'll just use all these 7 logs here.

5

00:00:09,000 --> 00:00:10,000

Okay.

6

00:00:10,000 --> 00:00:12,000

A 00550.

7

00:00:12,000 --> 00:00:14,000

Hey.

8

00:00:14,000 --> 00:00:19,000

November in 7476 Yankee, Prince Mackey.

9

00:00:19,000 --> 00:00:24,000

DFRK, Stillboro, Oregon.

10

00:00:24,000 --> 00:00:30,000

55 miles north-west, the Lakey, URR.

11

00:00:30,000 --> 00:00:39,000

We spotted an object, don't pop, with flat bottom.

12

00:00:39,000 --> 00:00:44,000

A close gym from the north.

13

00:00:44,000 --> 00:00:52,000

We burst course to Pearl O, course, with 7670.

14

00:00:52,000 --> 00:00:58,000

Then departed rapidly to the northeast.

15

00:00:58,000 --> 00:01:01,000

It's appearing behind us now.

16

00:01:01,000 --> 00:01:07,000

Still racing for the cross-containment.

17

00:01:07,000 --> 00:01:09,000

Okay.

18

00:01:09,000 --> 00:01:12,000

Did you heard of party news?

19

00:01:12,000 --> 00:01:16,000

No, we just got the number of aircraft in the site.

20

00:01:16,000 --> 00:01:17,000

Okay.

21

00:01:17,000 --> 00:01:18,000

We can get the mountain air.

22

00:01:18,000 --> 00:01:20,000

We said I think we're still working now.

23

00:01:20,000 --> 00:01:21,000

Pardon me?

24

00:01:21,000 --> 00:01:23,000

We're still working here, Cod.

25

00:01:23,000 --> 00:01:24,000

I see.

26

00:01:24,000 --> 00:01:26,000

Is there any possibility of getting that information from him?

27

00:01:26,000 --> 00:01:27,000

Yeah, we'll try.

28

00:01:27,000 --> 00:01:30,000

He's probably a lot of the new, little girl, not really to cry.

29

00:01:30,000 --> 00:01:31,000

Hang on just a second.

30

00:01:31,000 --> 00:01:32,000

Thank you.

31

00:01:34,000 --> 00:01:38,000

Hang on, we'll get the pilot here.

32

00:01:38,000 --> 00:01:41,000

Okay, we'll go to the site.

33

00:01:44,000 --> 00:01:47,000

People have to wait until the SFC first.

34

00:01:47,000 --> 00:01:48,000

Yeah.

35

00:01:51,000 --> 00:01:53,000

We're going to get the radio.

36

00:01:53,000 --> 00:01:55,000

Come on, here, anyway.

37

00:01:55,000 --> 00:01:56,000

Huh?

38

00:01:56,000 --> 00:01:57,000

Huh?

39

00:01:57,000 --> 00:02:00,000

Radio.

40

00:02:00,000 --> 00:02:03,000

Yeah, he's got a radio, so they'll call me back in a minute.

41

00:02:03,000 --> 00:02:06,000

We'll just hang on and we'll get it.

42

00:02:06,000 --> 00:02:07,000

Thank you.

43

00:02:07,000 --> 00:02:10,000

I've never seen a wild, I don't know what the BPA is.

44

00:02:10,000 --> 00:02:13,000

I've heard the radio coming up and cutting the cross.

45

00:02:13,000 --> 00:02:14,000

Okay.

46

00:02:14,000 --> 00:02:18,000

45 or 50 minutes before you land at the coast, girl.

47

00:02:18,000 --> 00:02:19,000

Okay.

48

00:02:19,000 --> 00:02:20,000

I'll take a day out of that.

49

00:02:20,000 --> 00:02:22,000

I'll probably get it all.

50

00:02:22,000 --> 00:02:23,000

Fine, thank you very much, sir.

51

00:02:23,000 --> 00:02:25,000

I really appreciate your cooperation.

52

00:02:25,000 --> 00:02:26,000

Okay.

53

00:02:26,000 --> 00:02:27,000

Thank you again.

54

00:02:27,000 --> 00:02:28,000

Yes, very much.

55

00:02:28,000 --> 00:02:29,000

All right.

56

00:02:29,000 --> 00:02:31,000

I think I figured out what it was.

57

00:02:31,000 --> 00:02:34,000

I'm going to have to get out of the car to get that.

58

00:02:34,000 --> 00:02:37,000

But, it's on the moon over there.

59

00:02:37,000 --> 00:02:42,000

And I think that if you flex on water, I'm going to have to see if the...

60

00:02:42,000 --> 00:02:45,000

if you go first of all, it looks like light.

61

00:02:45,000 --> 00:02:48,000

And, that kind of turned away.

62

00:02:48,000 --> 00:02:55,000

And I think the hill, as we were going along, was kind of blocking the moon.

63

00:02:55,000 --> 00:02:59,000

And he just... he was just reflecting on that water before we actually saw the moon.

64

00:02:59,000 --> 00:03:01,000

I'm sure that's what it was.

65

00:03:01,000 --> 00:03:04,000

So, I don't really think there was anything.

66

00:03:04,000 --> 00:03:07,000

Is it this rocket that you've been in once, right?

67

00:03:07,000 --> 00:03:10,000

Well, we thought it was kind of falling along.

68

00:03:10,000 --> 00:03:14,000

And, of course, the moon would do that, it would be a moving.

69

00:03:14,000 --> 00:03:20,000

And, the reason it didn't appear is because I believe that a hill, as we were going along,

70

00:03:20,000 --> 00:03:21,000

was dark.

71

00:03:21,000 --> 00:03:25,000

And, it would be reflecting, and then it would be blocked out.

72

00:03:25,000 --> 00:03:29,000

So, I'm... you get to talking about it later, and we're almost there.

73

00:03:29,000 --> 00:03:30,000

That's what it was.

74

00:03:30,000 --> 00:03:32,000

It's the other two parties aboard yet.

75

00:03:32,000 --> 00:03:33,000

Uh-huh.

76

00:03:35,000 --> 00:03:38,000

And that would be a definite conclusion, and then, right.

77

00:03:38,000 --> 00:03:40,000

Yeah, we're almost there.

78

00:03:40,000 --> 00:03:42,000

Okay, so, thank you very much.

79

00:03:44,000 --> 00:03:46,000

Thank you.
