

1

00:00:00,000 --> 00:00:07,920

We were already in bed and we heard a very strange noise and it sounds funny but it almost

2

00:00:07,920 --> 00:00:13,320

sounds like what you hear on television, that sort of a high pitched, wearing noise.

3

00:00:13,320 --> 00:00:14,320

Yes.

4

00:00:14,320 --> 00:00:18,160

We live out of ways in Salem, we're kind of out in the country a little bit and we have

5

00:00:18,160 --> 00:00:22,240

wheat fields all around us, we just have one close neighbor.

6

00:00:22,240 --> 00:00:29,400

It sounded like it was not coming from the sky so much, it's more on our level, ground

7

00:00:29,400 --> 00:00:30,400

level.

8

00:00:30,400 --> 00:00:32,400

Now that was just hearing that.

9

00:00:32,400 --> 00:00:34,400

Now the next night, I have a-

10

00:00:34,400 --> 00:00:35,400

What was the date on that you remember?

11

00:00:35,400 --> 00:00:36,400

Oh, let me think now.

12

00:00:36,400 --> 00:00:39,400

Frank, can you remember what night that was?

13

00:00:39,400 --> 00:00:41,400

I know it was last week.

14

00:00:41,400 --> 00:00:45,400

Okay, he said he'd think, well I told you about the next night because this was the very next

15

00:00:45,400 --> 00:00:46,400

night.

16

00:00:46,400 --> 00:00:47,400

Okay.

17

00:00:47,400 --> 00:00:52,400

I have a new baby and I get up often in the middle of the night and I was in his room,

18

00:00:52,400 --> 00:00:58,400

this must have been all I'd say about four or so in the morning and I was nursing him

19

00:00:58,400 --> 00:01:05,400

and I looked out the window and I saw a very bright light knowing it was much too low for

20

00:01:05,400 --> 00:01:11,760

a star, much too big for a star and I knew it wasn't an airplane or a helicopter and

21

00:01:11,760 --> 00:01:17,400

I looked at it for a little while and then I looked down and turned to the baby and was

22

00:01:17,400 --> 00:01:20,400

in a minute or two, I looked back and it was gone.

23

00:01:20,400 --> 00:01:24,400

And so that was that, that's really it on that.

24

00:01:24,400 --> 00:01:29,400

If I had been more attentive to it at the time I probably would have noticed more things

25

00:01:29,400 --> 00:01:30,400

about it.

26

00:01:30,400 --> 00:01:31,400

Yes.

27

00:01:31,400 --> 00:01:35,400

And then on Sunday we were with Cindy, we drove to Portland and I just happened to have

28

00:01:35,400 --> 00:01:41,400

a conversation with her about did she believe in UFOs and she said no and then I told her

29

00:01:41,400 --> 00:01:47,400

what had happened and then just last night she cited those ones of what she thought was.

30

00:01:47,400 --> 00:01:52,400

Okay, now that light that you saw, the bright light, which part of the sky was that located

31

00:01:52,400 --> 00:01:53,400

in?

32

00:01:53,400 --> 00:01:55,400

Some of the, you mean in which direction?

33

00:01:55,400 --> 00:01:56,400

Yes.

34

00:01:56,400 --> 00:01:57,400

Okay, well I was looking towards the west.

35

00:01:57,400 --> 00:01:58,400

To the west, okay.

36

00:01:58,400 --> 00:02:04,400

And do you have any idea in relation to altitude or degrees off of the horizon?

37

00:02:04,400 --> 00:02:07,400

It's really hard for me to tell you that.

38

00:02:07,400 --> 00:02:13,400

I'm not real good at that, figuring you know, so like so many feet but it was, all I can

39

00:02:13,400 --> 00:02:15,400

say is it was low in the sky.

40

00:02:15,400 --> 00:02:16,400

Very low, okay.

41

00:02:16,400 --> 00:02:17,400

Yes.

42

00:02:17,400 --> 00:02:19,400

Would you say it was close to the horizon?

43

00:02:19,400 --> 00:02:22,400

No, let's say maybe a little bit higher than that.

44

00:02:22,400 --> 00:02:23,400

Okay.

45

00:02:23,400 --> 00:02:26,400

And about how long did you watch that?

46

00:02:26,400 --> 00:02:30,400

I watched that for a good two minutes I'd say.

47

00:02:30,400 --> 00:02:32,400

Okay, what color was it?

48

00:02:32,400 --> 00:02:34,400

It was a bright light.

49

00:02:34,400 --> 00:02:35,400

Just straight and white.

50

00:02:35,400 --> 00:02:36,400

Right.

51

00:02:36,400 --> 00:02:38,400

Okay, and it didn't move while you were watching it?

52

00:02:38,400 --> 00:02:43,400

No, it sort of glistened or sparkled.

53

00:02:43,400 --> 00:02:44,400

Okay.

54

00:02:44,400 --> 00:02:48,400

Yeah, but it was very big.

55

00:02:49,400 --> 00:02:56,400

Let's see, let me ask Frank, could you think what night that was?

56

00:02:56,400 --> 00:02:59,400

Okay, he said he was pretty sure it was Wednesday night.

57

00:02:59,400 --> 00:03:00,400

Okay.

58

00:03:00,400 --> 00:03:03,400

And I know that we heard the sound the night before I saw the object.

59

00:03:03,400 --> 00:03:05,400

It was a very strange sound.

60

00:03:05,400 --> 00:03:07,400

Oh, high pitched worrying.

61

00:03:07,400 --> 00:03:10,400

And about how long did that sound last?

62

00:03:10,400 --> 00:03:12,400

Oh, that was a couple of minutes.

63

00:03:12,400 --> 00:03:14,400

Okay, did that wake you up?

64

00:03:14,400 --> 00:03:15,400

Are you sleeping at the time?

65

00:03:15,400 --> 00:03:17,400

No, no, it didn't wake us up.

66

00:03:17,400 --> 00:03:19,400

About what time did that occur?

67

00:03:19,400 --> 00:03:23,400

We had just gotten into bed so it was reasonably late at night,

68

00:03:23,400 --> 00:03:24,400

like towards midnight.

69

00:03:24,400 --> 00:03:25,400

At night, okay.

70

00:03:25,400 --> 00:03:27,400

And we usually watch part of Johnny Carson,

71

00:03:27,400 --> 00:03:29,400

so I'm sure it must have been around that time.

72

00:03:29,400 --> 00:03:31,400

Do you have any pets in your home?

73

00:03:31,400 --> 00:03:34,400

Yes, we have two Irish setters, but usually at night they sleep in.

74

00:03:34,400 --> 00:03:36,400

They sleep in the basement during the winter.

75

00:03:36,400 --> 00:03:38,400

Well, that sound didn't bother them then?

76

00:03:38,400 --> 00:03:39,400

No.

77

00:03:39,400 --> 00:03:40,400

No barking or anything?

78

00:03:40,400 --> 00:03:41,400

No.

79

00:03:41,400 --> 00:03:42,400

Okay.

80

00:03:42,400 --> 00:03:45,400

Okay, and your husband didn't see the light?

81

00:03:45,400 --> 00:03:46,400

No, he didn't.

82

00:03:46,400 --> 00:03:47,400

Okay.

83

00:03:47,400 --> 00:03:50,400

I'm the one that gets up in the middle of the night.

84

00:03:50,400 --> 00:03:53,400

Okay, well we sure appreciate you taking the time.

85

00:03:53,400 --> 00:03:55,400

Oh, that's no problem at all.

86

00:03:55,400 --> 00:03:59,400

I'm, you know, I suppose no explanation for it really, huh?

87

00:03:59,400 --> 00:04:00,400

Well, not really.

88

00:04:00,400 --> 00:04:04,400

We don't know if any bright stars or anything in the western sky that hour of the morning.

89

00:04:04,400 --> 00:04:05,400

Yes.

90

00:04:05,400 --> 00:04:08,400

Well, okay, I'm glad if I could help.

91

00:04:08,400 --> 00:04:09,400

Okay, thank you very much.

92

00:04:09,400 --> 00:04:10,400

You're welcome.

93

00:04:10,400 --> 00:04:11,400

Bye-bye.
