

1

00:00:00,000 --> 00:00:05,000

We understand you're having a little problem with some beeping sound out your way.

2

00:00:05,000 --> 00:00:06,000

That's true.

3

00:00:06,000 --> 00:00:09,000

I wonder if you'd give us a description of just what's happening.

4

00:00:09,000 --> 00:00:14,000

Well, it's just a continually beeping out in the woods out there.

5

00:00:14,000 --> 00:00:18,000

And we had a friend walked out.

6

00:00:18,000 --> 00:00:25,000

Well, Sunday night, myself and my wife and Moldiv's boy and his wife and a couple other young people

7

00:00:25,000 --> 00:00:29,000

and two sheriffs walked out there and we pinpointed this thing to a tree.

8

00:00:29,000 --> 00:00:32,000

And then it stopped.

9

00:00:32,000 --> 00:00:36,000

And then the next time we heard it was probably 200, 300 yards away from us again.

10

00:00:36,000 --> 00:00:37,000

I see.

11

00:00:37,000 --> 00:00:38,000

That was last Monday.

12

00:00:38,000 --> 00:00:39,000

Uh-huh.

13

00:00:39,000 --> 00:00:50,000

And then last night, a friend of mine, it might say, we went out there and he might say the same

thing again, basically.

14

00:00:50,000 --> 00:00:53,000

Okay, this beeping is a continuous thing?

15

00:00:53,000 --> 00:00:55,000

It's, yes.

16

00:00:55,000 --> 00:00:59,000

It's a rhythmic continuous beeping, yes.

17

00:00:59,000 --> 00:01:00,000

Okay.

18

00:01:00,000 --> 00:01:03,000

Any animals in the area, such as pets?

19

00:01:03,000 --> 00:01:04,000

Pets.

20

00:01:04,000 --> 00:01:07,000

Yeah, were there any pets, dogs with you at the time?

21

00:01:07,000 --> 00:01:08,000

This was going on?

22

00:01:08,000 --> 00:01:09,000

No, no dogs or anything out there was.

23

00:01:09,000 --> 00:01:10,000

I see, okay.

24

00:01:10,000 --> 00:01:13,000

There's a lot of dogs in the neighborhood, though.

25

00:01:13,000 --> 00:01:16,000

Could this be heard over quite an area?

26

00:01:16,000 --> 00:01:24,000

Yeah, I could say that, well, when we heard it, we was probably, oh, a good two bucks from it.

27

00:01:24,000 --> 00:01:26,000

Just a hitty block, you know.

28

00:01:26,000 --> 00:01:27,000

Yes.

29

00:01:27,000 --> 00:01:28,000

Okay.

30

00:01:28,000 --> 00:01:33,000

Well, I'll tell you what we would like to do.

31

00:01:33,000 --> 00:01:36,000

If that shows up again tonight, could you give us a call?

32

00:01:36,000 --> 00:01:37,000

Uh-huh.

33

00:01:37,000 --> 00:01:45,000

We have representatives out in the Auburn area, and we'd like to get somebody down there and get this thing on tape, see if we can't find out what it is.

34

00:01:45,000 --> 00:01:50,000

That's what I was wishing I'd had a portable tape recorder, so I got to tape this thing, nothing.

35

00:01:50,000 --> 00:01:51,000

Uh-huh.

36

00:01:51,000 --> 00:02:00,000

Does this appear to be something that would be a metallic or transmitted type signal?

37

00:02:00,000 --> 00:02:09,000

To me, it sounds more of a mechanical type beep than anything I can pinpoint it to.

38

00:02:09,000 --> 00:02:10,000

Yes.

39

00:02:10,000 --> 00:02:13,000

The Sunday Night Movement is out there.

40

00:02:13,000 --> 00:02:17,000

Well, the two sheriffs, as well, it's probably a wounded seagull, you know.

41

00:02:17,000 --> 00:02:22,000

I don't know how to be able to feel.

42

00:02:22,000 --> 00:02:31,000

Well, we've had a lot of this in the past, and of course the quick explanation for some people is that it's a certain breed of owl, white owl.

43

00:02:31,000 --> 00:02:32,000

Uh-huh.

44

00:02:32,000 --> 00:02:41,000

Kind of a mating signal, but a lot of these cases have been to such a degree that there's no way it could have been an owl.

45

00:02:41,000 --> 00:02:46,000

Well, now like Sunday Night, the first time my son heard it, it was about seven o'clock in the evening, you know.

46

00:02:46,000 --> 00:02:47,000

Yes.

47

00:02:47,000 --> 00:02:57,000

And what we've finally done everything we were going to do and everything in the sheriffs department got out here and we got out there and located this thing, it was a four-hour period.

48

00:02:57,000 --> 00:03:01,000

This thing could continually beep for four solid hours.

49

00:03:01,000 --> 00:03:03,000

Staying in the same place?

50

00:03:03,000 --> 00:03:04,000

Yeah.

51

00:03:04,000 --> 00:03:05,000

Uh-huh.

52

00:03:05,000 --> 00:03:08,000

Okay, well, if it happens again tonight, would you give us a call?

53

00:03:08,000 --> 00:03:09,000

I sure will.

54

00:03:09,000 --> 00:03:10,000

Thank you very much.

55

00:03:11,000 --> 00:03:15,000

There's some flashes and some deepened noise.

56

00:03:15,000 --> 00:03:20,000

There's been a happen in the past few nights, and nobody would do anything about it.

57

00:03:20,000 --> 00:03:22,000

A window to start tonight?

58

00:03:22,000 --> 00:03:24,000

Well, it starts about eight o'clock at night.

59

00:03:24,000 --> 00:03:26,000

And it quits during the day.

60

00:03:26,000 --> 00:03:28,000

During the daytime too?

61

00:03:28,000 --> 00:03:29,000

No, it quits during the day.

62

00:03:29,000 --> 00:03:30,000

Oh, I see.

63

00:03:30,000 --> 00:03:31,000

Uh-huh.

64

00:03:31,000 --> 00:03:32,000

And it's a mechanical sound.

65

00:03:32,000 --> 00:03:34,000

It's definitely not an animal.

66

00:03:34,000 --> 00:03:35,000

Uh-huh.

67

00:03:35,000 --> 00:03:37,000

And there's flashes to go with it.

68

00:03:37,000 --> 00:03:40,000

Uh, what color are the flashes?

69

00:03:40,000 --> 00:03:45,000

Sort of white, you know, like you take a picture during the night, you know, flashball?

70

00:03:45,000 --> 00:03:46,000

Yes.

71

00:03:46,000 --> 00:03:47,000

It's flashes just like that.

72

00:03:47,000 --> 00:03:48,000

Uh-huh.

73

00:03:48,000 --> 00:03:53,000

A minute or a while ago, down by the lake, we've seen the aglow, and that's where all the

74

00:03:53,000 --> 00:03:55,000

beeping noise is coming from right now.

75

00:03:55,000 --> 00:03:56,000

Down by the where?

76

00:03:56,000 --> 00:04:01,000

Down by the still lake that I've backed property here.

77

00:04:01,000 --> 00:04:10,000

Well, there isn't anything we can do about it tonight, but probably tomorrow we'll have

78

00:04:10,000 --> 00:04:12,000

an investigator call you.

79

00:04:12,000 --> 00:04:16,000

But there isn't really anything we can do about it this late.

80

00:04:16,000 --> 00:04:22,000

Okay, well, just a while ago, there was a report, a report of Federal News that went back to

81

00:04:22,000 --> 00:04:27,000

where it was taking pictures with infrared film, you know?

82

00:04:27,000 --> 00:04:28,000

Yes.

83

00:04:28,000 --> 00:04:29,000

See if you could spot anything.

84

00:04:29,000 --> 00:04:33,000

Yes, well, we've had a couple reports on this this evening.

85

00:04:33,000 --> 00:04:34,000

Yes.

86

00:04:34,000 --> 00:04:36,000

Well, thank you very much for calling.

87

00:04:36,000 --> 00:04:37,000

We'll see what we can do.

88

00:04:37,000 --> 00:04:42,000

Okay, well, anyway, the police and nobody will do anything about it.

89

00:04:42,000 --> 00:04:48,000

They've been up several times, you know, they won't go down in the woods to rescue it.

90

00:04:48,000 --> 00:04:49,000

Uh-huh.

91

00:04:49,000 --> 00:04:53,000

So it's got, everybody knew we were pretty sick up right now.

92

00:04:53,000 --> 00:04:54,000

Okay.

93

00:04:54,000 --> 00:04:56,000

Well, thank you for calling.

94

00:04:56,000 --> 00:04:57,000

Okay.

95

00:04:57,000 --> 00:04:58,000

All right, goodbye.

96

00:04:59,000 --> 00:05:00,000

Bye.
