

1

00:00:00,000 --> 00:00:07,000

I was just a guy who wanted to use these books to read the beyond reality.

2

00:00:07,000 --> 00:00:11,000

I was reading an arc with him, Bigfoot, and I thought of this thing down here.

3

00:00:11,000 --> 00:00:22,000

Have you people ever done any research or looking for any of these Bigfeet characters where they are down in the Southern California area?

4

00:00:22,000 --> 00:00:26,000

Well, we've collected a lot of information from there, yes.

5

00:00:26,000 --> 00:00:32,000

I didn't hear too much about the Bigfeet characters until I moved up to Montana.

6

00:00:32,000 --> 00:00:38,000

I don't know how fresh the information has to be to you or what you're looking for,

7

00:00:38,000 --> 00:00:47,000

but my two boys have gone back about five or six years ago now in a rough area to Hatchby Mountain.

8

00:00:47,000 --> 00:00:52,000

There's a big canyon and a draw that goes back and we used to go hunting in there quite a bit.

9

00:00:52,000 --> 00:01:02,000

And this was an early winter for a back in there hunting and we ran across some of these barefoot friends in their home.

10

00:01:02,000 --> 00:01:09,000

And we didn't think too much about it, other than they're just bare-feet friends in their home.

11

00:01:09,000 --> 00:01:16,000

But it's a big, rough, rugged area of Southern California just in the Mojave area.

12

00:01:16,000 --> 00:01:23,000

And it's a lot of dry deserts and it goes back in and draw and it goes back to the 26th Wild Mountain.

13

00:01:23,000 --> 00:01:28,000

So we had spent probably nine, ten years roaming around that mountain area.

14

00:01:28,000 --> 00:01:34,000

But I just didn't know whether any sightings were down there, whether you'd be interested in this location or anything.

15

00:01:34,000 --> 00:01:35,000

Oh, very definitely.

16

00:01:35,000 --> 00:01:36,000

Pardon me?

17

00:01:36,000 --> 00:01:39,000

Yes, we're collecting data from anywhere in the North American continent.

18

00:01:39,000 --> 00:01:41,000

Yeah, we didn't think about it.

19

00:01:41,000 --> 00:01:43,000

We went to a couple of people at the funniest thing happened.

20

00:01:43,000 --> 00:01:48,000

On the hunting trip we saw these big, giant barefoot friends in the snow.

21

00:01:48,000 --> 00:01:51,000

And of course everybody laughed and I just sort of dropped it.

22

00:01:51,000 --> 00:01:53,000

But being up here, it's just the last matter, I guess.

23

00:01:53,000 --> 00:01:54,000

Right.

24

00:01:54,000 --> 00:01:57,000

Do you have any idea of just how long they were?

25

00:01:57,000 --> 00:02:05,000

Well, I'd say the footprints were probably one and a half times the size of my foot on my eight and a half.

26

00:02:05,000 --> 00:02:08,000

And they were wide.

27

00:02:08,000 --> 00:02:13,000

And they had a big stride because, remember some, some of them fell apart in the desert.

28

00:02:13,000 --> 00:02:18,000

And I guess the steps were probably treating me to part a little better than that.

29

00:02:18,000 --> 00:02:21,000

Because we followed a couple of the footprints.

30

00:02:21,000 --> 00:02:22,000

And it was white.

31

00:02:22,000 --> 00:02:23,000

Something had been running.

32

00:02:23,000 --> 00:02:25,000

It was pretty big stride.

33

00:02:25,000 --> 00:02:27,000

But I thought I had my two boys.

34

00:02:27,000 --> 00:02:28,000

We had been hunting.

35

00:02:28,000 --> 00:02:31,000

And I was on the top of the hill when I had to buy the berkwill.

36

00:02:31,000 --> 00:02:37,000

We were kind of scared ourselves into wondering what somebody would be doing running around their barefoot.

37

00:02:38,000 --> 00:02:39,000

We got out of there.

38

00:02:39,000 --> 00:02:40,000

Right.

39

00:02:40,000 --> 00:02:48,000

I said I'd mentioned that a couple of times about this weird big bear-feet print out there in this drawing is the Hatchby Mountain.

40

00:02:48,000 --> 00:02:52,000

And anyway, we just didn't do too much about it.

41

00:02:52,000 --> 00:02:56,000

But this friend of mine up here has been talking about this bad question.

42

00:02:56,000 --> 00:02:58,000

Big-T people in the A&E and a couple of books reading it.

43

00:02:58,000 --> 00:02:59,000

I was just reading this.

44

00:02:59,000 --> 00:03:01,000

And I thought, well, what the heck?

45

00:03:01,000 --> 00:03:04,000

Maybe it might be something you might be interested in.

46

00:03:04,000 --> 00:03:05,000

Sure, definitely.

47

00:03:05,000 --> 00:03:08,000

What, do you have any idea what year that was?

48

00:03:08,000 --> 00:03:10,000

Well, let's see.

49

00:03:15,000 --> 00:03:17,000

It's about 71-72.

50

00:03:17,000 --> 00:03:18,000

I was going to write.

51

00:03:18,000 --> 00:03:23,000

And I thought, well, before I write anything and it's going in a long explanation that might end up in a trash,

52

00:03:23,000 --> 00:03:26,000

I just, I saw the phone number and think, well, I take a chance to call.

53

00:03:26,000 --> 00:03:30,000

And if you're only working on recent stuff, I just forget about it.

54

00:03:30,000 --> 00:03:38,000

But I could probably give you a general description on a map or, I don't know,

55

00:03:38,000 --> 00:03:43,000

if you've got people that have maps that you want to do more in a specific location.

56

00:03:43,000 --> 00:03:45,000

I know exactly where it would be.

57

00:03:45,000 --> 00:03:49,000

In fact, this guy was talking to me and said, well, maybe we ought to take cameras.

58

00:03:49,000 --> 00:03:50,000

We want an expedition down there.

59

00:03:50,000 --> 00:03:55,000

But since that time, my father's last big book movie, and I don't think I want to go back in.

60

00:03:55,000 --> 00:03:57,000

He's working with us for any of us.

61

00:03:57,000 --> 00:04:00,000

Well, a few people have been scared good by him, I guess.

62

00:04:00,000 --> 00:04:06,000

But I said, the more I thought about it, the more I'm reading and hearing about these fast-watches or something.

63

00:04:06,000 --> 00:04:08,000

I just can't help believe it.

64

00:04:08,000 --> 00:04:13,000

There's either some backup in there now or there was one.

65

00:04:13,000 --> 00:04:15,000

It's an isolated area.

66

00:04:15,000 --> 00:04:19,000

And I don't think if they're in there or once in there, whatever, it's made these footprints.

67

00:04:19,000 --> 00:04:22,000

I don't see how it could be getting out of there.

68

00:04:22,000 --> 00:04:29,000

It's surrounded by quite a bit of, well, more or less than a rolling town or,

69

00:04:29,000 --> 00:04:34,000

not to call them flatlands, I don't think, because it's a well-tuned area in the bad end of the mountain.

70

00:04:34,000 --> 00:04:37,000

That's right. We drove through there just about six weeks ago.

71

00:04:37,000 --> 00:04:39,000

This is a Dikatchby area.

72

00:04:39,000 --> 00:04:40,000

Yeah, that's what it is.

73

00:04:40,000 --> 00:04:42,000

You know where the Jawbone area is?

74

00:04:42,000 --> 00:04:43,000

Yes.

75

00:04:43,000 --> 00:04:47,000

Well, it's going in on a Jawbone area.

76

00:04:47,000 --> 00:04:55,000

Again, I've been there for three years, but there was an old road going off on the left as you went

in.

77

00:04:55,000 --> 00:04:57,000

It was a four-wheel drive road.

78

00:04:57,000 --> 00:05:04,000

And it went back and then it was an old dead end and went up a sheer draw in this rock ledges

79

00:05:04,000 --> 00:05:07,000

and then a bunch of timber and six trees up to the top.

80

00:05:07,000 --> 00:05:14,000

And there was a water, a little bit of water running down to there the first time of the year.

81

00:05:14,000 --> 00:05:21,000

And we had gone up on the road till we didn't go back any further.

82

00:05:21,000 --> 00:05:23,000

It was kind of super instanzing like that.

83

00:05:23,000 --> 00:05:30,000

Going back up around on the right-hand side in a draw, there's a lot of granite formations and the timber thing like that.

84

00:05:30,000 --> 00:05:31,000

Yes.

85

00:05:31,000 --> 00:05:34,000

That's where we saw them. We were hunting up in that area.

86

00:05:34,000 --> 00:05:38,000

And then down here, I'm down on the flatlands.

87

00:05:38,000 --> 00:05:43,000

Again, this is before a bunch of motorback and things like that.

88

00:05:43,000 --> 00:05:45,000

Well, motorback and brawling is running around.

89

00:05:45,000 --> 00:05:49,000

The lower part of that, the desert part of Jawbone.

90

00:05:49,000 --> 00:05:52,000

But I don't think there are many people that would hike back in.

91

00:05:52,000 --> 00:05:55,000

We'd hike back in there. Not even on that side.

92

00:05:55,000 --> 00:05:58,000

But everybody thought we were crazy anyway.

93

00:05:58,000 --> 00:06:06,000

That's where it's a big cave, a big draw between these granites and the side timbers where we saw these tracks.

94

00:06:06,000 --> 00:06:12,000

But you're getting quite a bit of the hairy creature reports from around Great Falls right now.

95

00:06:12,000 --> 00:06:14,000

Well, I heard something like that.

96

00:06:14,000 --> 00:06:17,000

And somebody said that I'm close to Marion.

97

00:06:17,000 --> 00:06:22,000

And somebody said to me, that's part of Bigfoot.

98

00:06:22,000 --> 00:06:24,000

Over here by Ashley Lake.

99

00:06:24,000 --> 00:06:25,000

Oh.

100

00:06:25,000 --> 00:06:28,000

That's one night.

101

00:06:28,000 --> 00:06:35,000

Then, as a lady down the street here, not too far from where we are, there's a place called McGinnis Meadows.

102

00:06:35,000 --> 00:06:40,000

It's pretty thick and wild. It grows up into what they call the rebellion area.

103

00:06:40,000 --> 00:06:42,000

It's thick and rugged.

104

00:06:42,000 --> 00:06:47,000

Woman claims that she saw one.

105

00:06:47,000 --> 00:06:48,000

Back in here.

106

00:06:48,000 --> 00:06:49,000

I see.

107

00:06:49,000 --> 00:06:53,000

And that was just a whole couple of months ago.

108

00:06:53,000 --> 00:06:58,000

Well, my boy also said that they thought it was an upright bear, but it was too big.

109

00:06:58,000 --> 00:06:59,000

And she sort of laughed about it.

110

00:06:59,000 --> 00:07:00,000

It's a big threat.

111

00:07:00,000 --> 00:07:03,000

But then, apparently she got in the car and went driving down there.

112

00:07:03,000 --> 00:07:04,000

And got pretty close to it.

113

00:07:04,000 --> 00:07:07,000

She said it was a big upright bearie creature.

114

00:07:07,000 --> 00:07:09,000

She was brave.

115

00:07:09,000 --> 00:07:12,000

She had three girls with her, too.

116

00:07:12,000 --> 00:07:13,000

She was brave.

117

00:07:13,000 --> 00:07:15,000

But it went up the hillside.

118

00:07:15,000 --> 00:07:17,000

Anyway, that was just something I passed out.

119

00:07:17,000 --> 00:07:21,000

If you'd like me to write more detail, I can reply to that to you.

120

00:07:21,000 --> 00:07:25,000

But unless you've got some kind of a mapped one, you want me to point out more.

121

00:07:25,000 --> 00:07:27,000

No, I think I've got enough detail in that.

122

00:07:27,000 --> 00:07:32,000

But we sure would appreciate hearing about anything that happens in your area in the future.

123

00:07:32,000 --> 00:07:37,000

Well, you know, as far as things are concerned, do you talk about it?

124

00:07:37,000 --> 00:07:47,000

People think they're weird or they laugh or something, but there is also a funny light

125

00:07:47,000 --> 00:07:52,000

where your bull thing comes down and lands in one of these drawers, too.

126

00:07:52,000 --> 00:07:56,000

And that wasn't too long ago.

127

00:07:56,000 --> 00:07:59,000

Well, this is the type of information we're looking for.

128

00:07:59,000 --> 00:08:05,000

And even if you hear about it and could get the party's name and telephone number,

129

00:08:05,000 --> 00:08:07,000

why we could always get in contact with them.

130

00:08:07,000 --> 00:08:09,000

Oh, yeah.

131

00:08:09,000 --> 00:08:10,000

Okay.

132

00:08:10,000 --> 00:08:12,000

We'd appreciate any help you could give us.

133

00:08:12,000 --> 00:08:13,000

All right, we're there.

134

00:08:13,000 --> 00:08:14,000

Well, thanks very much for calling.

135

00:08:14,000 --> 00:08:15,000

You bet.

136

00:08:15,000 --> 00:08:16,000

Thank you.

137

00:08:16,000 --> 00:08:17,000

Bye.
