

1

00:00:00,000 --> 00:00:13,800

Okay, well, well, my father and our next-door neighbor have been standing out in the front

2

00:00:13,800 --> 00:00:17,680

yard for about the past 10 minutes watching this thing.

3

00:00:17,680 --> 00:00:23,400

It seems to be a long beam of light, and they've been looking through it through a telescope.

4

00:00:23,400 --> 00:00:27,680

And it looks to me like it's kind of in the shape of what people call a flying saucer.

5

00:00:27,680 --> 00:00:30,760

It's got a long tail on it.

6

00:00:30,760 --> 00:00:33,120

And it was pretty close to it for a while.

7

00:00:33,120 --> 00:00:41,040

And then within just a minute, it went down towards the West Horizon really fast, and

8

00:00:41,040 --> 00:00:45,120

we've been talking to one of the local news stations here, and my mother just came in

9

00:00:45,120 --> 00:00:49,240

and said that it separated into two halves and then just totally disappeared.

10

00:00:49,240 --> 00:00:52,920

Okay, now when did you first spot that?

11

00:00:52,920 --> 00:00:56,040

It was about 15 minutes ago.

12

00:00:56,040 --> 00:00:57,040

Okay.

13

00:00:57,040 --> 00:01:02,720

Now, when you first saw it, it was just a shaft of light?

14

00:01:02,720 --> 00:01:07,960

Yeah, it was sort of small in the end, and then it got a little bit wider in the middle

15

00:01:07,960 --> 00:01:11,680

and then smaller, you know, like a side angle of a flying saucer.

16

00:01:11,680 --> 00:01:12,680

Yes.

17

00:01:12,680 --> 00:01:13,680

Like a disc?

18

00:01:13,680 --> 00:01:14,680

Yeah.

19

00:01:14,680 --> 00:01:16,680

Okay, this thing was on the horizontal flat?

20

00:01:16,680 --> 00:01:22,880

Um, first it was on the horizontal flat, then it turned perpendicular to the Earth, and

21

00:01:22,880 --> 00:01:24,880

then it turned back horizontally again.

22

00:01:24,880 --> 00:01:29,320

And it stayed on one shaft while it was doing all this?

23

00:01:29,320 --> 00:01:30,320

Mm-hmm.

24

00:01:30,320 --> 00:01:31,320

Okay.

25

00:01:31,320 --> 00:01:37,120

And then it was at a, oh, kind of a, between a wide angle up and a 90 degree, where I

26

00:01:37,120 --> 00:01:40,320

was at a 90 degree angle, it was at an angle.

27

00:01:40,320 --> 00:01:41,320

Okay.

28

00:01:41,320 --> 00:01:42,320

And it wasn't flat.

29

00:01:42,320 --> 00:01:45,320

It wasn't flat across, and it wasn't straight up and down.

30

00:01:45,320 --> 00:01:47,320

It was kind of in the middle.

31

00:01:47,320 --> 00:01:48,320

Okay.

32

00:01:48,320 --> 00:01:50,320

Now what color was the object?

33

00:01:50,320 --> 00:01:55,320

Oh, I'd say maybe, well, it was sort of yellow-orange.

34

00:01:55,320 --> 00:01:58,320

It was more yellow.

35

00:01:58,320 --> 00:01:59,320

Okay.

36

00:01:59,320 --> 00:02:04,320

And your mother said that it broke into two?

37

00:02:04,320 --> 00:02:05,320

Mm-hmm.

38

00:02:05,320 --> 00:02:06,320

My father said it did too.

39

00:02:06,320 --> 00:02:09,320

Right straight in half, and then it just disappeared out of sight.

40

00:02:09,320 --> 00:02:11,320

Okay, now what shape were the two?

41

00:02:11,320 --> 00:02:12,320

Did they?

42

00:02:12,320 --> 00:02:14,320

It was just like they had sliced it right in half.

43

00:02:14,320 --> 00:02:15,320

Okay.

44

00:02:15,320 --> 00:02:16,320

Equal portions.

45

00:02:16,320 --> 00:02:19,320

And they said that it disappeared.

46

00:02:19,320 --> 00:02:21,320

Was this disappearance sudden?

47

00:02:21,320 --> 00:02:23,320

Yes, it was very.

48

00:02:23,320 --> 00:02:24,320

Okay.

49

00:02:24,320 --> 00:02:27,320

No sound involved in this?

50

00:02:27,320 --> 00:02:28,320

None whatsoever.

51

00:02:28,320 --> 00:02:34,320

And about how far away would you say that was just as a visual estimate?

52

00:02:34,320 --> 00:02:36,320

When we first saw it?

53

00:02:36,320 --> 00:02:37,320

Yes.

54

00:02:37,320 --> 00:02:39,320

Oh, maybe 15, 20 miles?

55

00:02:39,320 --> 00:02:40,320

Okay.

56

00:02:40,320 --> 00:02:42,320

How's the weather conditions there?

57

00:02:42,320 --> 00:02:43,320

Pardon?

58

00:02:43,320 --> 00:02:45,320

The weather conditions, the sky conditions.

59

00:02:45,320 --> 00:02:50,320

Well, it's, well, maybe half overcast.

60

00:02:50,320 --> 00:02:53,320

And all of this was taking place under the cloud level?

61

00:02:53,320 --> 00:02:54,320

Yes, it was.

62

00:02:54,320 --> 00:02:55,320

Okay.

63

00:02:55,320 --> 00:03:03,320

Now, could you give me any estimate on how, in degrees, how far above the horizon the object was operating at?

64

00:03:03,320 --> 00:03:07,320

I'll see.

65

00:03:07,320 --> 00:03:09,320

Maybe 80 degrees.

66

00:03:09,320 --> 00:03:13,320

Okay.

67

00:03:13,320 --> 00:03:14,320

And how many witnesses?

68

00:03:14,320 --> 00:03:15,320

Just the three?

69

00:03:15,320 --> 00:03:19,320

No, there's four, five.

70

00:03:19,320 --> 00:03:23,320

Okay.

71

00:03:23,320 --> 00:03:24,320

Okay.

72

00:03:24,320 --> 00:03:28,320

Now, when the object broke up, did it change color?

73

00:03:28,320 --> 00:03:30,320

Did the object change color when it broke up?

74

00:03:30,320 --> 00:03:31,320

No.

75

00:03:31,320 --> 00:03:32,320

No, it stayed the same.

76

00:03:32,320 --> 00:03:34,320

It just faded out.

77

00:03:34,320 --> 00:03:35,320

Okay.

78

00:03:35,320 --> 00:03:39,320

The party looking at this through the telescope definitely saw a disc type?

79

00:03:39,320 --> 00:03:40,320

Mm-hmm.

80

00:03:40,320 --> 00:03:41,320

Cape?

81

00:03:41,320 --> 00:03:42,320

Yes.

82

00:03:42,320 --> 00:03:48,320

My father just said that it seemed like an object that the sun was reflecting off of.

83

00:03:48,320 --> 00:03:50,320

It was reflecting light then.

84

00:03:50,320 --> 00:03:51,320

Mm-hmm.

85

00:03:51,320 --> 00:03:53,320

Okay, did it appear to be metallic?

86

00:03:53,320 --> 00:03:58,320

Um, all it looked like was, was fire.

87

00:03:58,320 --> 00:04:00,320

You know, the color.

88

00:04:00,320 --> 00:04:05,320

Dad thought maybe it was, it was metallic or something and the sun was reflecting off it.

89

00:04:05,320 --> 00:04:06,320

I see.

90

00:04:06,320 --> 00:04:07,320

Okay.

91

00:04:08,320 --> 00:04:12,320

Dad just said it had a really big long tail on it.

92

00:04:12,320 --> 00:04:15,320

Okay, that was the tail.

93

00:04:15,320 --> 00:04:19,320

Is he speaking to a trail of vapor or something like that?

94

00:04:19,320 --> 00:04:21,320

Um, is he speaking of a trail of vapor?

95

00:04:21,320 --> 00:04:25,320

Uh, whatever it was.

96

00:04:25,320 --> 00:04:29,320

Uh, he doesn't know, but he said whatever it was was reflecting the sun.

97

00:04:29,320 --> 00:04:31,320

Okay, fine.

98

00:04:31,320 --> 00:04:33,320

Because he said it was very bright.

99

00:04:33,320 --> 00:04:34,320

Okay.

100

00:04:34,320 --> 00:04:40,320

Well, we sure appreciate this report and we'll get on this and see if we can come up with

101

00:04:40,320 --> 00:04:45,320

some kind of identification and if we do find some answers or if we come up with other witnesses

102

00:04:45,320 --> 00:04:47,320

why we'll get back to you and let you know.

103

00:04:47,320 --> 00:04:49,320

Oh, well thank you very much.

104

00:04:49,320 --> 00:04:50,320

We appreciate the call.

105

00:04:50,320 --> 00:04:52,320

We're curious to know where you got our number.

106

00:04:52,320 --> 00:04:58,320

Well, we called KGRB Radio Station, Handful Cam, and they suggested that we call out a

107

00:04:58,320 --> 00:05:02,320

fair title at the aviation department and they gave us this number.

108

00:05:02,320 --> 00:05:03,320

Oh, fine.

109

00:05:03,320 --> 00:05:05,320

Well, thank you very much.

110

00:05:05,320 --> 00:05:06,320

Well, thank you.

111

00:05:06,320 --> 00:05:07,320

Great.

112

00:05:07,320 --> 00:05:08,320

Goodbye.

113

00:05:08,320 --> 00:05:09,320

Bye-bye.
