

1

00:00:00,000 --> 00:00:03,000

You have a report in center?

2

00:00:03,000 --> 00:00:05,000

This is like in County Sheriff's Office.

3

00:00:05,000 --> 00:00:06,000

Yes sir.

4

00:00:06,000 --> 00:00:10,000

Okay, we've got two of our officers out right now, two of the city officers.

5

00:00:10,000 --> 00:00:14,000

This is also reported by Calis-Bell Montana, the Sheriff's Office.

6

00:00:14,000 --> 00:00:22,000

Here as I can tell by the radio traffic, it's red and blue, yellow lights, interchangeable, kind of like a blur.

7

00:00:22,000 --> 00:00:28,000

Just following the skyline more or less.

8

00:00:28,000 --> 00:00:36,000

As far as I know, aviation is advised. There's no flights out at this time, especially in this area.

9

00:00:36,000 --> 00:00:38,000

Is it fairly stationary?

10

00:00:38,000 --> 00:00:40,000

No, it's not.

11

00:00:40,000 --> 00:00:49,000

Okay, are any of those officers that we can contact later?

12

00:00:49,000 --> 00:00:54,000

Uh, let me see, I imagine.

13

00:00:54,000 --> 00:01:01,000

If you could call the Calis-Bell Sheriff's Office, they're open 24 hours down there, and get you their phone number.

14

00:01:01,000 --> 00:01:06,000

Okay, thank you very much.

15

00:01:06,000 --> 00:01:07,000

You betcha.

16

00:01:07,000 --> 00:01:08,000

Bye bye.

17

00:01:08,000 --> 00:01:09,000

Sheriff's Department.

18

00:01:09,000 --> 00:01:15,000

I'm calling from the UFO Reporting Center in Washington, and we understand you're having a little activity over your area.

19

00:01:15,000 --> 00:01:16,000

Oh, aren't we ever?

20

00:01:16,000 --> 00:01:18,000

We have all sorts of fun.

21

00:01:18,000 --> 00:01:20,000

Could you give us a little description of what's happening?

22

00:01:20,000 --> 00:01:26,000

Well, just a moment, let me get to the officers. They've got a big task to be following it. Let me see what he's got to say.

23

00:01:26,000 --> 00:01:30,000

710-919.

24

00:01:30,000 --> 00:01:32,000

Yes.

25

00:01:32,000 --> 00:01:41,000

I've got the UFO Reporting Center in Washington on the line. Could you give me some description of the odd-gauge-flat-boxes now?

26

00:01:41,000 --> 00:01:49,000

Well, it's moving in a southerly direction, and it looks like probably about this white.

27

00:01:49,000 --> 00:01:55,000

It's about the middle of the bottom line, so she said it's out. It's right over.

28

00:01:55,000 --> 00:01:59,000

10-4, you said it continually changes colors?

29

00:01:59,000 --> 00:02:03,000

No, no, it just constantly changes colors.

30

00:02:03,000 --> 00:02:11,000

The light light, the waves come out from the light, and when it moves fast, a little bit, and then she goes right slow.

31

00:02:11,000 --> 00:02:14,000

Then moves fast, and then very slow.

32

00:02:14,000 --> 00:02:22,000

10-4, then it's bright kind of white or yellowish color, or is it the green and red that the other people reported?

33

00:02:22,000 --> 00:02:29,000

10-4.

34

00:02:29,000 --> 00:02:35,000

10-4. That's interesting. Did you hear him?

35

00:02:35,000 --> 00:02:38,000

Yes. Did he say there was fire coming out of one end of it?

36

00:02:38,000 --> 00:02:47,000

No, he didn't. He said it's a bright light. He said it seems to be kind of glowing. It seems to speed up and then go very slowly.

37

00:02:47,000 --> 00:02:54,000

It's a radar base, and of course he said it's having too low for them to pick anything up.

38

00:02:54,000 --> 00:03:00,000

Earlier reports, I've had three different reports, and they all said the same thing though.

39

00:03:00,000 --> 00:03:06,000

When they first saw it, this was the same one. It changed colors.

40

00:03:06,000 --> 00:03:12,000

Green, red, white. It kind of grew out of focus and in focus, it seemed like.

41

00:03:12,000 --> 00:03:22,000

It was northwest of the city of Kalispell, or more west, I would say east, or the northeast, and then it went up more north, directly north.

42

00:03:22,000 --> 00:03:27,000

Then all of a sudden, if it's the same one, it's down south.

43

00:03:27,000 --> 00:03:36,000

He said it's moving in a suddenly direction, taking his time in there, generally watching it.

44

00:03:36,000 --> 00:03:40,000

I don't know. What else can I say? Just a moment.

45

00:03:40,000 --> 00:03:43,000

7, 10, 919.

46

00:03:43,000 --> 00:03:54,000

You said you had the other subjects in the car. Could you possibly give me any name if a gentleman would like to be able to contact people later date?

47

00:03:54,000 --> 00:03:56,000

10-4.

48

00:03:56,000 --> 00:03:57,000

Okay, and then there was.

49

00:03:57,000 --> 00:04:00,000

Look at that. She moved in a biter.

50

00:04:00,000 --> 00:04:04,000

10-4. Is it very large or just small?

51

00:04:04,000 --> 00:04:06,000

It's quite large.

52

00:04:06,000 --> 00:04:13,000

10-4. Just a solid light then. There's nothing that looks like maybe fire or anything coming out of one end.

53

00:04:13,000 --> 00:04:16,000

Yeah, not that I could detect.

54

00:04:16,000 --> 00:04:20,000

10-4. You heard him talk about that the last, didn't you?

55

00:04:20,000 --> 00:04:21,000

Yes.

56

00:04:21,000 --> 00:04:23,000

Quite large, you said.

57

00:04:23,000 --> 00:04:26,000

Has he ever mentioned a given shape for that light?

58

00:04:26,000 --> 00:04:29,000

No, it's 7, 10, 919.

59

00:04:29,000 --> 00:04:31,000

7, 10.

60

00:04:31,000 --> 00:04:36,000

Yes, so what about a shape?

61

00:04:36,000 --> 00:04:41,000

10-4.

62

00:04:41,000 --> 00:04:46,000

It looks like it could be round, but it could be flat.

63

00:04:46,000 --> 00:04:49,000

10-4.

64

00:04:49,000 --> 00:04:52,000

It looks kind of round now, but it could be flat.

65

00:04:52,000 --> 00:04:56,000

I just give you a whole lot.

66

00:04:56,000 --> 00:05:03,000

But you know, just the first night, most people were getting ready to go to bed and just happened to look out the window.

67

00:05:03,000 --> 00:05:09,000

One people were siding it through a rifle, a high-powered rifle scroll, and getting it pretty good.

68

00:05:09,000 --> 00:05:14,000

They couldn't do anything definite as far as a shape, or anything they said. They could just see the light.

69

00:05:14,000 --> 00:05:15,000

Yes.

70

00:05:15,000 --> 00:05:17,000

And it was getting brighter and dimmer.

71

00:05:17,000 --> 00:05:19,000

9, 7, 10.

72

00:05:19,000 --> 00:05:25,000

10-4.

73

00:05:25,000 --> 00:05:27,000

What time do they get off in the morning?

74

00:05:27,000 --> 00:05:29,000

They'll get off at 6.

75

00:05:29,000 --> 00:05:33,000

That would probably be a good idea. We'll wait until afternoon to call them.

76

00:05:33,000 --> 00:05:34,000

Yeah.

77

00:05:34,000 --> 00:05:35,000

Okay.

78

00:05:35,000 --> 00:05:38,000

It'd be really nice for them.

79

00:05:38,000 --> 00:05:40,000

But they're watching it right now.

80

00:05:40,000 --> 00:05:41,000

Uh-huh.

81

00:05:41,000 --> 00:05:43,000

Oh dear.

82

00:05:43,000 --> 00:05:46,000

10-4, 14.

83

00:05:46,000 --> 00:05:50,000

But anyway, anything else I can tell you?

84

00:05:50,000 --> 00:05:52,000

Okay, about when did that start? Do you remember?

85

00:05:52,000 --> 00:05:57,000

Yeah, it's certainly after midnight, I believe. Let's see.

86

00:05:57,000 --> 00:06:03,000

Yeah, it all started after midnight. I got a call about 0012.

87

00:06:03,000 --> 00:06:04,000

Okay.

88

00:06:04,000 --> 00:06:10,000

The first one. And then they just came in just a few minutes after that, the other two.

89

00:06:10,000 --> 00:06:14,000

I hadn't gotten anything after that because it's late enough that most people are in bed.

90

00:06:14,000 --> 00:06:19,000

These people just happened to be getting up like for a drink of water or just going to bed and looking out the window.

91

00:06:19,000 --> 00:06:20,000

Right.

92

00:06:20,000 --> 00:06:24,000

So, the other one is still, got excited.

93

00:06:24,000 --> 00:06:27,000

Okay, well, I hope it doesn't come in at land.

94

00:06:27,000 --> 00:06:32,000

Yeah, well, we're giving him a bad time about being careful out there on the road all by himself.

95

00:06:32,000 --> 00:06:33,000

Okay.

96

00:06:33,000 --> 00:06:35,000

Thank you very much.

97

00:06:35,000 --> 00:06:36,000

Anytime.

98

00:06:36,000 --> 00:06:37,000

Bye.

99

00:06:37,000 --> 00:06:38,000

Let's see, UFO reporting center.

100

00:06:38,000 --> 00:06:43,000

I wonder if we could get a description of the object you saw on the 11th.

101

00:06:43,000 --> 00:06:48,000

Well, it was just really bright.

102

00:06:48,000 --> 00:06:55,000

Kui couldn't make out a real definite shape about it and it seemed to, well, move it in a bit and then stop.

103

00:06:55,000 --> 00:06:56,000

Move and then stop.

104

00:06:56,000 --> 00:06:58,000

Then all of a sudden, bam, she was just gone.

105

00:06:58,000 --> 00:06:59,000

It disappeared.

106

00:06:59,000 --> 00:07:03,000

It was three of us watching for about an hour.

107

00:07:03,000 --> 00:07:07,000

And it was fantastically bright.

108

00:07:07,000 --> 00:07:14,000

It seemed like there was, I don't know, light beams or something coming out from it on the bottom side.

109

00:07:14,000 --> 00:07:16,000

We're talking about it, but the bottom, there was.

110

00:07:16,000 --> 00:07:19,000

Okay, which direction in the sky was this located?

111

00:07:19,000 --> 00:07:21,000

That would have been east.

112

00:07:21,000 --> 00:07:22,000

Uh-huh.

113

00:07:22,000 --> 00:07:25,000

And why did you first spot that?

114

00:07:25,000 --> 00:07:28,000

Well, it was about a certain thing at what time.

115

00:07:28,000 --> 00:07:32,000

All our officers, I think, called you just as I spotted that.

116

00:07:32,000 --> 00:07:33,000

I see.

117

00:07:33,000 --> 00:07:36,000

So the time of reporting, you should have been a bit of in the same time.

118

00:07:36,000 --> 00:07:38,000

Uh-huh.

119

00:07:38,000 --> 00:07:44,000

And there was no really radical movements to the object at all?

120

00:07:44,000 --> 00:07:50,000

Well, it moved along, you know, I mean, it moved kind of slow.

121

00:07:50,000 --> 00:07:54,000

I don't know, you know, the first time it was a star.

122

00:07:54,000 --> 00:07:56,000

And now we had a lot of reports that evening.

123

00:07:56,000 --> 00:08:01,000

And we were working patrol and we were in South Patrol and over the mountains.

124

00:08:01,000 --> 00:08:02,000

It was over the mountains.

125

00:08:02,000 --> 00:08:04,000

It wasn't over the valley.

126

00:08:04,000 --> 00:08:05,000

Uh-huh.

127

00:08:05,000 --> 00:08:07,000

And it was real down real well.

128

00:08:07,000 --> 00:08:09,000

It was just above the mountain peaks.

129

00:08:09,000 --> 00:08:12,000

Because they called our radar base up here to see if they could pick it up.

130

00:08:12,000 --> 00:08:15,000

And they said it was too low to get a fix on it.

131

00:08:15,000 --> 00:08:19,000

But they moved along and then it would go kind of fast.

132

00:08:19,000 --> 00:08:20,000

Well, it moved very wet.

133

00:08:20,000 --> 00:08:23,000

And then it just, just to a screeching halt, you know, just that.

134

00:08:23,000 --> 00:08:24,000

It was unreal.

135

00:08:24,000 --> 00:08:26,000

I couldn't believe it.

136

00:08:26,000 --> 00:08:29,000

Well, now, how was the weather there?

137

00:08:29,000 --> 00:08:30,000

Clear.

138

00:08:30,000 --> 00:08:32,000

Full moon, just really pretty out.

139

00:08:32,000 --> 00:08:37,000

Okay, now at any time could you see that object between you and the peaks?

140

00:08:37,000 --> 00:08:38,000

Yeah.

141

00:08:38,000 --> 00:08:40,000

It came down below the peak level when?

142

00:08:40,000 --> 00:08:46,000

Uh, well, it stayed, it stayed, well, it was kind of, when I first saw it,

143

00:08:46,000 --> 00:08:49,000

when I first spotted it, we blew the peak level.

144

00:08:49,000 --> 00:08:53,000

And she came up and then there was two of times where we watched it drop below them.

145

00:08:53,000 --> 00:08:54,000

I see.

146

00:08:54,000 --> 00:08:55,000

And it was back up again.

147

00:08:55,000 --> 00:08:57,000

It stayed pretty well above them and it was moving, moving east.

148

00:08:57,000 --> 00:08:59,000

And all of a sudden, it just was gone.

149

00:08:59,000 --> 00:09:00,000

I mean, just literally gone.

150

00:09:00,000 --> 00:09:02,000

Just went out like a light bulb?

151

00:09:02,000 --> 00:09:03,000

Yeah, just.

152

00:09:03,000 --> 00:09:04,000

I see.

153

00:09:04,000 --> 00:09:07,000

Do you have any estimates as to how far away it was?

154

00:09:07,000 --> 00:09:12,000

Well, it would be over what we considered our Bob Marshall wilderness area.

155

00:09:12,000 --> 00:09:13,000

Uh-huh.

156

00:09:13,000 --> 00:09:15,000

Okay, do you have any estimate in size?

157

00:09:15,000 --> 00:09:17,000

Can you compare it with anything?

158

00:09:17,000 --> 00:09:24,000

Well, boy, I just, you know, there would almost be, you know,

159

00:09:24,000 --> 00:09:30,000

it was so bright that I would be hard to do, you know, nothing to compare it with.

160

00:09:30,000 --> 00:09:31,000

Uh-huh.

161

00:09:31,000 --> 00:09:32,000

Okay.

162

00:09:32,000 --> 00:09:36,000

And the color was a white?

163

00:09:36,000 --> 00:09:40,000

Yeah, it was very definitely just a really bright white.

164

00:09:40,000 --> 00:09:42,000

Did it ever change that color?

165

00:09:42,000 --> 00:09:44,000

No, it was constant.

166

00:09:44,000 --> 00:09:48,000

And I said it was light rays, you know, coming out from it.

167

00:09:48,000 --> 00:09:49,000

Uh-huh.

168

00:09:49,000 --> 00:09:51,000

On the bottom, on the top side, not.

169

00:09:51,000 --> 00:09:54,000

It seemed kind of, it was, well, I couldn't hear it because I thought,

170

00:09:54,000 --> 00:09:58,000

well, I know it could be a star, but it just, it wasn't, no way.

171

00:09:58,000 --> 00:10:00,000

Because it really started out that way.

172

00:10:00,000 --> 00:10:02,000

It was really bright, but there was no comparison.

173

00:10:02,000 --> 00:10:03,000

Uh-huh.

174

00:10:04,000 --> 00:10:07,000

Okay, well, we sure appreciate this information.

175

00:10:07,000 --> 00:10:08,000

We'll be back for it.

176

00:10:08,000 --> 00:10:09,000

Thank you very much.

177

00:10:09,000 --> 00:10:10,000

Bye-bye now.

178

00:10:10,000 --> 00:10:11,000

Bye.
