

1

00:00:00,000 --> 00:00:07,000

Can you give me some information? There's some kind of object in the sky and we weren't

2

00:00:08,480 --> 00:00:15,480

there's anything reported about it. We're over in the Linwood Downy here and there's

3

00:00:15,480 --> 00:00:17,080

something shiny up there. It's long.

4

00:00:17,080 --> 00:00:20,000

Okay, what part of the sky is this in?

5

00:00:20,000 --> 00:00:22,000

What is it the north east?

6

00:00:22,000 --> 00:00:24,000

North east, dad.

7

00:00:24,000 --> 00:00:25,000

Jay!

8

00:00:25,000 --> 00:00:28,000

I think he said the north east.

9

00:00:29,000 --> 00:00:31,000

Yeah, the north east area.

10

00:00:31,000 --> 00:00:35,000

The north east area. We're in Linwood.

11

00:00:35,000 --> 00:00:36,000

Uh huh.

12

00:00:36,000 --> 00:00:38,000

We don't have any on it.

13

00:00:38,000 --> 00:00:43,000

We're coming up there. We don't know what it is. We've never seen anything like it.

14

00:00:43,000 --> 00:00:46,000

Okay, now would you give me a precise description of what you're looking at?

15

00:00:46,000 --> 00:00:48,000

Oh, do you know what it is?

16

00:00:48,000 --> 00:00:50,000

Oh, I know. It's long and shiny.

17

00:00:50,000 --> 00:00:52,000

It's long and shiny, as you say.

18

00:00:52,000 --> 00:00:54,000

That's all I'm saying is it's long and shiny.

19

00:00:54,000 --> 00:00:55,000

Like silver?

20

00:00:55,000 --> 00:00:56,000

Yeah.

21

00:00:56,000 --> 00:00:57,000

Like silver.

22

00:00:57,000 --> 00:00:59,000

And it's moving real slow.

23

00:00:59,000 --> 00:01:01,000

In which direction?

24

00:01:01,000 --> 00:01:04,000

It's going what, northeast, did he say?

25

00:01:04,000 --> 00:01:06,000

It's the northeast area.

26

00:01:06,000 --> 00:01:09,000

Well, they're out there watching it with binoculars.

27

00:01:09,000 --> 00:01:11,000

So, a friend of ours told us about it.

28

00:01:11,000 --> 00:01:14,000

Oh, we know it's long and shiny. It's silver.

29

00:01:14,000 --> 00:01:15,000

Uh huh.

30

00:01:15,000 --> 00:01:18,000

It's going real slow. It's going upward.

31

00:01:18,000 --> 00:01:24,000

We just want to say it's report. We don't even know what it is. We've never seen it before.

32

00:01:24,000 --> 00:01:29,000

It's going northeast and it's going up real slow.

33

00:01:29,000 --> 00:01:33,000

And this is the long silver object in the northern sky?

34

00:01:33,000 --> 00:01:34,000

Pardon?

35

00:01:34,000 --> 00:01:36,000

Long silver object in the northern sky?

36

00:01:36,000 --> 00:01:39,000

Yes. It's going northeast.

37

00:01:39,000 --> 00:01:41,000

Okay, what time did you spot that about?

38

00:01:41,000 --> 00:01:43,000

What, about five minutes ago?

39

00:01:43,000 --> 00:01:44,000

Silver?

40

00:01:44,000 --> 00:01:46,000

Yeah, but I mean we just spotted it.

41

00:01:46,000 --> 00:01:47,000

Yeah, five minutes ago.

42

00:01:47,000 --> 00:01:49,000

We just spotted it five minutes ago.

43

00:01:49,000 --> 00:01:51,000

Okay, where did you get our number?

44

00:01:51,000 --> 00:01:52,000

Pardon?

45

00:01:52,000 --> 00:01:53,000

Where did you get our number?

46

00:01:53,000 --> 00:02:00,000

I called the operator and then she had me connected with the police or somebody and then they gave me their number.

47

00:02:00,000 --> 00:02:05,000

Okay, we'll get on this and see if we can't find out what it is and if we do we'll get back to you and let you know.

48

00:02:05,000 --> 00:02:07,000

Okay, thank you very much.

49

00:02:07,000 --> 00:02:11,000

We would like to talk to someone who watched that object with binoculars.

50

00:02:11,000 --> 00:02:14,000

Oh, just a minute. Did someone watch the UFO?

51

00:02:14,000 --> 00:02:16,000

Yeah, hello. Turn it up. Hello?

52

00:02:16,000 --> 00:02:17,000

Yes, sir.

53

00:02:17,000 --> 00:02:18,000

Yes, sir.

54

00:02:18,000 --> 00:02:20,000

I'm calling for the UFO reporting center.

55

00:02:20,000 --> 00:02:23,000

Okay, would you like to talk to someone who watched that object with binoculars?

56

00:02:23,000 --> 00:02:24,000

You are seeking to...

57

00:02:24,000 --> 00:02:27,000

Fine, would you describe exactly what you saw?

58

00:02:27,000 --> 00:02:38,000

Okay, it was over in the south, I mean in the east, northeast area, like over...

59

00:02:38,000 --> 00:02:40,000

Oh, I live in Lentwood.

60

00:02:40,000 --> 00:02:48,000

Okay, and it was in the northeast area which would be actually over Downey and Paramount.

61

00:02:48,000 --> 00:02:49,000

Okay.

62

00:02:49,000 --> 00:02:55,000

And it looked like it was going straight up, but yet it kept drifting this way.

63

00:02:55,000 --> 00:03:01,000

And it was in three stages at one time, in other words I mean several different times, you know,

64

00:03:01,000 --> 00:03:05,000

but when you could see it the best is when it came into three stages.

65

00:03:05,000 --> 00:03:14,000

And it was real shiny, then it would glimmer off, then it was a real loud...

66

00:03:14,000 --> 00:03:18,000

I mean a real bright cloth, you know.

67

00:03:18,000 --> 00:03:19,000

Yes.

68

00:03:19,000 --> 00:03:26,000

Then it would kind of a blueish cast, then a silver cast, then it would fade away, then it would come back.

69

00:03:26,000 --> 00:03:27,000

Then it would not go.

70

00:03:27,000 --> 00:03:29,000

Right, and it would come and go.

71

00:03:29,000 --> 00:03:30,000

Okay.

72

00:03:30,000 --> 00:03:34,000

Alright, the last time we seen it was going off to the southeast direction.

73

00:03:34,000 --> 00:03:40,000

So what it was we don't know, in fact we've never seen anything like it before.

74

00:03:40,000 --> 00:03:43,000

Okay, now which direction was the object traveling?

75

00:03:43,000 --> 00:03:45,000

Well, more or less straight up.

76

00:03:45,000 --> 00:03:46,000

Straight up.

77

00:03:46,000 --> 00:03:49,000

It was not our knowledge, but it was drifting this way.

78

00:03:49,000 --> 00:03:50,000

Uh-huh.

79

00:03:50,000 --> 00:03:56,000

Which was actually right over the city of Lindwood towards last, in other words the last part we could see of it.

80

00:03:56,000 --> 00:03:59,000

Okay, now did it have any definite given shape?

81

00:03:59,000 --> 00:04:02,000

Did it hold any particular shape?

82

00:04:02,000 --> 00:04:15,000

Well, it just looked like a silver bullet, in other words it was like a rock.

83

00:04:15,000 --> 00:04:17,000

It had two or three phases to it.

84

00:04:17,000 --> 00:04:18,000

Uh-huh.

85

00:04:18,000 --> 00:04:21,000

And when it came bright, then it would separate.

86

00:04:21,000 --> 00:04:25,000

Oh, it separated into two or three separate sections?

87

00:04:25,000 --> 00:04:26,000

Yes, sir.

88

00:04:26,000 --> 00:04:28,000

This is what we couldn't figure out.

89

00:04:28,000 --> 00:04:31,000

We can verify through our neighbors.

90

00:04:31,000 --> 00:04:33,000

Then we'd also verify that through our neighbors.

91

00:04:33,000 --> 00:04:34,000

Uh-huh.

92

00:04:34,000 --> 00:04:39,000

Now, but they all stayed more or less together, and then when it became dull it was one again?

93

00:04:39,000 --> 00:04:42,000

No, when it was real bright.

94

00:04:42,000 --> 00:04:47,000

It was all stayed together, then it faded into three stages.

95

00:04:47,000 --> 00:04:50,000

Oh, I see, I see, I see.

96

00:04:50,000 --> 00:04:55,000

Is there a possibility that what you were watching was three separate objects and then they all?

97

00:04:55,000 --> 00:04:56,000

It was all one.

98

00:04:56,000 --> 00:04:57,000

Then all one?

99

00:04:57,000 --> 00:04:58,000

Then all one?

100

00:04:58,000 --> 00:04:59,000

When they got bright.

101

00:04:59,000 --> 00:05:00,000

Yes, sir.

102

00:05:00,000 --> 00:05:01,000

Uh-huh.

103

00:05:01,000 --> 00:05:02,000

Okay.

104

00:05:02,000 --> 00:05:04,000

And it seemed, did it actually disappear upward?

105

00:05:04,000 --> 00:05:06,000

Did it go out of sight?

106

00:05:06,000 --> 00:05:08,000

No, sir, it didn't go out of sight.

107

00:05:08,000 --> 00:05:14,000

In fact, I mean, the last part we could see of it, I mean, it was still, it was drifting towards,

108

00:05:14,000 --> 00:05:20,000

towards the city of Compton when we last seen it.

109

00:05:20,000 --> 00:05:23,000

But it didn't go out of sight when you quit looking at it?

110

00:05:23,000 --> 00:05:24,000

No, sir.

111

00:05:24,000 --> 00:05:25,000

Okay, okay.

112

00:05:25,000 --> 00:05:28,000

It kept getting bright, then it would dim, say.

113

00:05:28,000 --> 00:05:29,000

Uh-huh.

114

00:05:29,000 --> 00:05:36,000

Okay, now, just out of a quick guess, do you have any idea how high that thing was?

115

00:05:36,000 --> 00:05:43,000

Oh, I would roughly say, uh, five miles, maybe.

116

00:05:43,000 --> 00:05:44,000

Okay.

117

00:05:44,000 --> 00:05:45,000

Eight.

118

00:05:45,000 --> 00:05:46,000

Okay, now, how about size?

119

00:05:46,000 --> 00:05:49,000

Could you compare it with any particular aircraft?

120

00:05:49,000 --> 00:05:51,000

No, sir, I really couldn't.

121

00:05:51,000 --> 00:05:52,000

I'd tell you the truth about it.

122

00:05:52,000 --> 00:05:58,000

I really couldn't, uh, I really couldn't tell you about that.

123

00:05:58,000 --> 00:05:59,000

Okay.

124

00:05:59,000 --> 00:06:04,000

Uh, it's hard to say on that, you know.

125

00:06:04,000 --> 00:06:05,000

Okay, fine.

126

00:06:05,000 --> 00:06:07,000

Did you get our number from your local police?

127

00:06:07,000 --> 00:06:08,000

Yes, sir.

128

00:06:08,000 --> 00:06:09,000

Okay.

129

00:06:09,000 --> 00:06:12,000

Well, we'll keep working on this, and if we get anything on it, we'll get back to you

130

00:06:12,000 --> 00:06:13,000

and let you know.

131

00:06:13,000 --> 00:06:14,000

Uh-huh.

132

00:06:14,000 --> 00:06:19,000

Uh, see, it was actually, in other words, let's put it this way, it was to be over the city

133

00:06:19,000 --> 00:06:23,000

of, uh, Whittier, Whittier.

134

00:06:23,000 --> 00:06:24,000

Okay.

135

00:06:24,000 --> 00:06:27,000

The city of Commerce, uh, the city of Commerce and Whittier.

136

00:06:27,000 --> 00:06:28,000

Okay.

137

00:06:28,000 --> 00:06:29,000

We first spotted it.

138

00:06:29,000 --> 00:06:32,000

But when we last seen it, it was right over the city of Linnwood.

139

00:06:32,000 --> 00:06:33,000

Okay.

140

00:06:33,000 --> 00:06:37,000

It was headed, in other words, towards the city of Coffin when we last seen it.

141

00:06:37,000 --> 00:06:38,000

Right.

142

00:06:38,000 --> 00:06:40,000

In which it just actually disappeared.

143

00:06:40,000 --> 00:06:43,000

But it seemed like it was going straight up.

144

00:06:43,000 --> 00:06:45,000

Okay, thank you very much.

145

00:06:45,000 --> 00:06:46,000

Yes, sir.

146

00:06:46,000 --> 00:06:47,000

Goodbye.

147

00:06:47,000 --> 00:06:48,000

Appreciate your call.

148

00:06:48,000 --> 00:06:49,000

Okay.

149

00:06:49,000 --> 00:06:50,000

You know we're having no idea what it was.

150

00:06:50,000 --> 00:06:51,000

Not yet.

151

00:06:51,000 --> 00:06:52,000

Uh-huh.

152

00:06:52,000 --> 00:06:53,000

Okay.

153

00:06:53,000 --> 00:06:54,000

Okay, we appreciate it.

154

00:06:54,000 --> 00:06:55,000

Right.

155

00:06:55,000 --> 00:06:56,000

Bye-bye.
