

1

00:00:00,000 --> 00:00:05,000

Yeah, this was Ventura Sheriff's Office, Ventura, California.

2

00:00:05,000 --> 00:00:06,000

Yes, sir.

3

00:00:06,000 --> 00:00:10,000

And evidently it's been reported last night at UFO, Ventura County.

4

00:00:10,000 --> 00:00:11,000

Yes.

5

00:00:11,000 --> 00:00:12,000

Yeah, okay.

6

00:00:12,000 --> 00:00:16,000

We just had another reporting of something that occurred yesterday.

7

00:00:16,000 --> 00:00:17,000

Okay.

8

00:00:17,000 --> 00:00:18,000

Okay, I'll give you the information.

9

00:00:18,000 --> 00:00:27,000

It was approximately after, just right after 1600 hours, it was a large, long, similar to

10

00:00:27,000 --> 00:00:31,000

a Goodyear blimp flat and gray.

11

00:00:31,000 --> 00:00:40,000

And it was observed above the airstrip near Point Magoo, parallel with the freeway.

12

00:00:40,000 --> 00:00:42,000

Okay, beautiful.

13

00:00:42,000 --> 00:00:43,000

We'll take care of it.

14

00:00:43,000 --> 00:00:44,000

Okay.

15

00:00:44,000 --> 00:00:45,000

Thank you very much.

16

00:00:45,000 --> 00:00:46,000

All right, bye.

17

00:00:46,000 --> 00:00:48,000

This is UFO Reporting Center in Washington.

18

00:00:48,000 --> 00:00:49,000

Oh.

19

00:00:49,000 --> 00:00:52,000

We would like very much to hear about your sighting last night.

20

00:00:52,000 --> 00:00:57,000

Well, I was telling my husband I didn't pay any attention to it until I read the paper

21

00:00:57,000 --> 00:01:05,000

tonight and another lady had, it said in the paper had seen two objects in the Camarillo

22

00:01:05,000 --> 00:01:06,000

area.

23

00:01:06,000 --> 00:01:07,000

Is that the Ventura paper?

24

00:01:07,000 --> 00:01:08,000

No, it's the Aconoclastm.

25

00:01:08,000 --> 00:01:09,000

Okay.

26

00:01:09,000 --> 00:01:16,000

And when I was leaving work at Point Magoo, I happened to see, I don't know if it was

27

00:01:16,000 --> 00:01:17,000

the same thing she saw.

28

00:01:17,000 --> 00:01:20,000

I'm just, you know, they remind me of what I had seen.

29

00:01:20,000 --> 00:01:23,000

It was a very large, gray object.

30

00:01:23,000 --> 00:01:29,000

To me, it, my first thought was a blimp, but it had no writing on the side and it was very

31

00:01:29,000 --> 00:01:34,000

flat and it was moving very slowly and it was moving parallel with the freeway.

32

00:01:34,000 --> 00:01:40,000

And when I got around the airstrip at the base of Magoo, I wanted to see what it was.

33

00:01:40,000 --> 00:01:41,000

It was nowhere in sight.

34

00:01:41,000 --> 00:01:48,000

And I didn't think another thing of it until I read the paper and that was around four

35

00:01:48,000 --> 00:01:50,000

and four, four, ten.

36

00:01:50,000 --> 00:01:55,000

And this lady said she saw the Montlouis Road, which was in Camarillo, about four thirty.

37

00:01:55,000 --> 00:02:00,000

And it just struck me, you know, my husband said, well, call, you know, so I did.

38

00:02:00,000 --> 00:02:01,000

Okay.

39

00:02:01,000 --> 00:02:03,000

Now, did this object have any lights on it?

40

00:02:03,000 --> 00:02:04,000

Colored lights?

41

00:02:04,000 --> 00:02:06,000

No, I saw nothing at all.

42

00:02:06,000 --> 00:02:07,000

Did you see any openings?

43

00:02:07,000 --> 00:02:08,000

No.

44

00:02:08,000 --> 00:02:09,000

Dependages?

45

00:02:09,000 --> 00:02:13,000

No, I was at a, that's why when I went around the airstrip, I was hoping to get a closer

46

00:02:13,000 --> 00:02:14,000

look at it.

47

00:02:14,000 --> 00:02:15,000

Yes.

48

00:02:15,000 --> 00:02:16,000

You know, and I could see nothing.

49

00:02:16,000 --> 00:02:18,000

It was just plain gray.

50

00:02:18,000 --> 00:02:21,000

I just saw no windows or anything.

51

00:02:21,000 --> 00:02:23,000

No tendages or anything?

52

00:02:23,000 --> 00:02:28,000

No, I was cloudy because we've had fog out here and I could just see it moving.

53

00:02:28,000 --> 00:02:32,000

It seemed to be moving very slowly, but like I said, when I got around the airstrip, it

54

00:02:32,000 --> 00:02:33,000

was nowhere in sight.

55

00:02:33,000 --> 00:02:35,000

I couldn't see it anywhere.

56

00:02:35,000 --> 00:02:36,000

Okay.

57

00:02:36,000 --> 00:02:41,000

Now, do you have any idea of the altitude and the distance from you?

58

00:02:41,000 --> 00:02:49,000

Oh boy, from me, to me, it looked like I said it was running parallel with the freeway.

59

00:02:49,000 --> 00:02:57,000

I would estimate about, I'm very bad at distances, a mile and a half.

60

00:02:57,000 --> 00:02:58,000

Okay.

61

00:02:58,000 --> 00:03:01,000

You know, it was on the, I was on the Navy base, so I'm not sure.

62

00:03:01,000 --> 00:03:04,000

A mile and a half or two miles from where I was to the freeway.

63

00:03:04,000 --> 00:03:05,000

That's where it looked.

64

00:03:05,000 --> 00:03:09,000

Well, if there was fog in the area, would you say, would you consider this object to be

65

00:03:09,000 --> 00:03:11,000

fairly low then to be seen?

66

00:03:11,000 --> 00:03:18,000

Yes, it wasn't high in the air.

67

00:03:18,000 --> 00:03:21,000

You know, like, it didn't look like it was way up.

68

00:03:21,000 --> 00:03:22,000

Right.

69

00:03:22,000 --> 00:03:26,000

Put it that way because I could see it and like I said, we've had foggy weather, not

70

00:03:26,000 --> 00:03:29,000

thick fog, but you know, that drizzly fog to get out here.

71

00:03:29,000 --> 00:03:30,000

Right.

72

00:03:30,000 --> 00:03:31,000

And I could see it.

73

00:03:31,000 --> 00:03:33,000

I would hesitate to say how far up it was.

74

00:03:33,000 --> 00:03:36,000

It didn't look like it was very high up.

75

00:03:36,000 --> 00:03:40,000

It wasn't low, low, but it, you know, it was low enough for me to see.

76

00:03:40,000 --> 00:03:41,000

Okay.

77

00:03:41,000 --> 00:03:43,000

Now, could you estimate its size by comparing it with something that you know?

78

00:03:43,000 --> 00:03:46,000

Well, they don't, like I said, the first thing I thought of was the good year blimp.

79

00:03:46,000 --> 00:03:48,000

It would be as long as the blimp.

80

00:03:48,000 --> 00:03:50,000

That's what it looked like to me.

81

00:03:50,000 --> 00:03:51,000

Okay.

82

00:03:51,000 --> 00:03:52,000

That's about 206 feet long.

83

00:03:52,000 --> 00:03:53,000

Yeah.

84

00:03:53,000 --> 00:03:57,000

That was my first, my very first thought was it was a blimp and I couldn't see anything

85

00:03:57,000 --> 00:03:58,000

else in the area.

86

00:03:58,000 --> 00:03:59,000

Right.

87

00:03:59,000 --> 00:04:00,000

What time did that happen?

88

00:04:00,000 --> 00:04:02,000

This was around four.

89

00:04:02,000 --> 00:04:03,000

About 4pm.

90

00:04:03,000 --> 00:04:04,000

Okay.

91

00:04:04,000 --> 00:04:06,000

Now, how long do you think you watched that?

92

00:04:06,000 --> 00:04:11,000

A minute, maybe, because I was at the light and I happened to see it and I was trying to

93

00:04:11,000 --> 00:04:17,000

come as I went down the strip, trying to look through my window to see it better and it

94

00:04:17,000 --> 00:04:18,000

disappeared.

95

00:04:18,000 --> 00:04:20,000

In other words, it disappeared after your observation was broke off.

96

00:04:20,000 --> 00:04:21,000

Right.

97

00:04:21,000 --> 00:04:24,000

And it was just within minutes, you know, and it was gone.

98

00:04:24,000 --> 00:04:27,000

And I just, I never thought a thing about it, you know, until I read down the paper,

99

00:04:27,000 --> 00:04:31,000

I thought, well, that was right around, that was just prior to when I had seen it.

100

00:04:31,000 --> 00:04:36,000

And of course Lewis Road is headed out towards Camarillo, which is the way it was headed.

101

00:04:36,000 --> 00:04:39,000

And this lady said she saw two.

102

00:04:39,000 --> 00:04:41,000

One on Lewis Road, one over the mountain.

103

00:04:41,000 --> 00:04:42,000

I only saw the one.

104

00:04:42,000 --> 00:04:44,000

Of course, I wasn't looking around for another one either.

105

00:04:44,000 --> 00:04:45,000

Right.

106

00:04:45,000 --> 00:04:49,000

But it was so funny because it was so close to the time I had seen it and that's the way

107

00:04:49,000 --> 00:04:54,000

it was headed, that at the time was, you know, like right in the same time area, which would

108

00:04:54,000 --> 00:04:55,000

have been right.

109

00:04:55,000 --> 00:04:56,000

Okay.

110

00:04:56,000 --> 00:04:58,000

Well, we had another call yesterday from Moore Park.

111

00:04:58,000 --> 00:04:59,000

Right.

112

00:04:59,000 --> 00:05:00,000

That's the lady that was in the paper.

113

00:05:00,000 --> 00:05:01,000

Okay.

114

00:05:01,000 --> 00:05:05,000

And that's what, it struck me so funny, the coincidences, you know, I didn't see, she

115

00:05:05,000 --> 00:05:08,000

said they had red writing on it, but I was too far away.

116

00:05:08,000 --> 00:05:10,000

I could see nothing underneath it.

117

00:05:10,000 --> 00:05:11,000

Yes.

118

00:05:11,000 --> 00:05:12,000

Okay.

119

00:05:12,000 --> 00:05:13,000

Beautiful.

120

00:05:13,000 --> 00:05:14,000

Okay.

121

00:05:14,000 --> 00:05:15,000

You were the other one in the car?

122

00:05:15,000 --> 00:05:16,000

Yes.

123

00:05:16,000 --> 00:05:18,000

Have you talked to anybody else that might have seen this on the base?

124

00:05:18,000 --> 00:05:23,000

No, I was just reading the paper like half hour ago and was talking to my husband and

125

00:05:23,000 --> 00:05:25,000

he said we'll call, you know.

126

00:05:25,000 --> 00:05:30,000

You know, I think I was a little weird, but it was so funny because of the time, you know,

127

00:05:30,000 --> 00:05:35,000

and he described exactly what I was seeing, you know, I'll call.

128

00:05:35,000 --> 00:05:40,000

That's great because these multiple witness cases are the ones that we were constantly

129

00:05:40,000 --> 00:05:41,000

looking for.

130

00:05:41,000 --> 00:05:42,000

Oh.

131

00:05:42,000 --> 00:05:43,000

Okay.

132

00:05:43,000 --> 00:05:49,000

And of course, this object was moving straight.

133

00:05:49,000 --> 00:05:52,000

No motions, no maneuvers of any kind.

134

00:05:52,000 --> 00:05:54,000

Not that I could see it.

135

00:05:54,000 --> 00:05:56,000

To me it was moving parallel with the freeway.

136

00:05:56,000 --> 00:05:57,000

Okay.

137

00:05:57,000 --> 00:06:04,000

Would that be between, that would be between the freeway then and the air base, right?

138

00:06:04,000 --> 00:06:05,000

Yes.

139

00:06:05,000 --> 00:06:06,000

The field, okay.

140

00:06:06,000 --> 00:06:09,000

Well, no, it would be the air base and then it's the freeway.

141

00:06:09,000 --> 00:06:11,000

It was moving parallel with the freeway.

142

00:06:11,000 --> 00:06:12,000

Very good.

143

00:06:12,000 --> 00:06:17,000

Well, we sure appreciate you talking to us and if we need additional information, could

144

00:06:17,000 --> 00:06:18,000

we feel free to call back?

145

00:06:18,000 --> 00:06:19,000

Sure, fine.

146

00:06:19,000 --> 00:06:20,000

Okay, thank you very much.

147

00:06:20,000 --> 00:06:21,000

You're welcome.

148

00:06:21,000 --> 00:06:22,000

Bye.

149

00:06:22,000 --> 00:06:23,000

Bye.

150

00:06:23,000 --> 00:06:24,000

Bye.
