

1

00:00:00,000 --> 00:00:05,560

I can't really understand how I would be the only one who saw it because there were

2

00:00:05,560 --> 00:00:07,200

lots of people out there yesterday.

3

00:00:07,200 --> 00:00:12,360

Well, we have, by our experience, there could be 100 people see things and only one person

4

00:00:12,360 --> 00:00:14,680

would call and say anything about it.

5

00:00:14,680 --> 00:00:15,680

I see.

6

00:00:15,680 --> 00:00:21,800

Well, the thing about it was, it was not, to me, I never saw flying saucer or any sort

7

00:00:21,800 --> 00:00:27,840

of object in the sky as flying or even, you know, at all.

8

00:00:27,840 --> 00:00:36,480

All I saw was light, shooting sort of light in many different directions, widespread,

9

00:00:36,480 --> 00:00:38,480

and it was there, you know.

10

00:00:38,480 --> 00:00:40,200

I didn't even know it was there.

11

00:00:40,200 --> 00:00:45,360

I thought it was my imagination, but I thought out of the corner of my eye and then directly

12

00:00:45,360 --> 00:00:46,360

focused on it.

13

00:00:46,360 --> 00:00:50,720

I was just in the sky, watched it happen for about three seconds, which is quite a long

14

00:00:50,720 --> 00:00:56,320

time, and then wrote it off as my imagination because I didn't see anything, any source,

15

00:00:56,320 --> 00:01:01,480

no UFO, no nothing, just the light shooting in the sky.

16

00:01:01,480 --> 00:01:05,720

And then my friend told me that they had UFO reports somewhere in Deming, I think it was

17

00:01:05,720 --> 00:01:11,360

yesterday, with shooting star-type light, which that would sort of have a description

18

00:01:11,360 --> 00:01:12,760

so much what I saw.

19

00:01:12,760 --> 00:01:14,320

Now, was this during the daytime?

20

00:01:14,320 --> 00:01:19,760

At two o'clock in the afternoon, or approximately two o'clock, give or take, you know, 15 minutes

21

00:01:19,760 --> 00:01:20,760

of either way.

22

00:01:20,760 --> 00:01:24,280

Now, when you say shooting light, do you mean streaking across the sky?

23

00:01:24,280 --> 00:01:25,280

Exactly.

24

00:01:26,240 --> 00:01:29,080

And what part of the sky would this be in?

25

00:01:29,080 --> 00:01:39,000

I was on Lake Al-Qaeda, I mean, Al-Qaeda Beach, and just noticed it down out of the corner

26

00:01:39,000 --> 00:01:41,720

of my eye and then watched it directly.

27

00:01:41,720 --> 00:01:47,120

It was just above, you know, it was like over the water, but I didn't see any flying saucer

28

00:01:47,120 --> 00:01:48,120

or anything.

29

00:01:48,120 --> 00:01:49,880

But it was in every direction.

30

00:01:49,880 --> 00:01:55,720

It wasn't simply, you know, in one central direction, it was all over the place.

31

00:01:55,720 --> 00:01:59,000

I mean, you know, it was crazy.

32

00:01:59,000 --> 00:02:02,240

Would this be right out over the Elliott Bay?

33

00:02:02,240 --> 00:02:05,400

I don't know where Elliott Bay is, I'm really not a native in the middle.

34

00:02:05,400 --> 00:02:09,240

You weren't facing Vash on Island, which is across the water, were you?

35

00:02:09,240 --> 00:02:10,640

Excuse me?

36

00:02:10,640 --> 00:02:13,960

You weren't facing West, you were facing more to the North?

37

00:02:14,040 --> 00:02:22,280

I was on the beach and it was, well, I suppose I was facing sort of North.

38

00:02:22,280 --> 00:02:24,680

Right, okay, that'd be out over Elliott Bay.

39

00:02:24,680 --> 00:02:25,680

Uh-huh, right.

40

00:02:25,680 --> 00:02:29,480

You didn't have any sightings over there yesterday, did you?

41

00:02:29,480 --> 00:02:30,480

No, we didn't.

42

00:02:30,480 --> 00:02:31,480

What about this thing in Deming?

43

00:02:31,480 --> 00:02:32,480

Where?

44

00:02:32,480 --> 00:02:33,480

In Deming, Washington.

45

00:02:33,480 --> 00:02:36,480

Do you have any UFO thing yesterday?

46

00:02:36,480 --> 00:02:37,480

Deming?

47

00:02:37,480 --> 00:02:38,480

Deming, I think it is.

48

00:02:38,480 --> 00:02:40,480

No, that's new to us.

49

00:02:40,480 --> 00:02:43,360

You didn't hear, did you have any reports yesterday?

50

00:02:43,360 --> 00:02:45,640

No, not a thing.

51

00:02:45,640 --> 00:02:52,360

But my friend said she heard it on the radio, a UFO report, and described it as what I saw

52

00:02:52,360 --> 00:02:54,360

as shooting light.

53

00:02:54,360 --> 00:02:55,360

What are you doing?

54

00:02:55,360 --> 00:02:57,360

No, we haven't had a darn thing here.

55

00:02:57,360 --> 00:03:03,520

Well, see this to me, when I was very young, and this is back in the 60s, I had seen a

56

00:03:03,520 --> 00:03:05,920

flying car, but it was simple.

57

00:03:05,920 --> 00:03:10,120

I mean, it was nothing, it was silver and it was moving across the sky.

58

00:03:10,120 --> 00:03:11,120

Now, I can relate to that.

59

00:03:11,120 --> 00:03:12,120

Right.

60

00:03:12,120 --> 00:03:18,240

But as far as flashing light in many directions, very far stretched, that's a little different.

61

00:03:18,240 --> 00:03:19,640

Was this a white light?

62

00:03:19,640 --> 00:03:20,800

Yeah, very white.

63

00:03:20,800 --> 00:03:23,240

Now, it was a bright day yesterday.

64

00:03:23,240 --> 00:03:24,240

Right.

65

00:03:24,240 --> 00:03:30,920

And, you know, sunshine out, blue sky, and it was bright, and this light was extremely

66

00:03:30,920 --> 00:03:36,040

illuminate, you know, even during the brightness of the day.

67

00:03:36,040 --> 00:03:39,440

Now this was a streak of light, or you couldn't see any stories.

68

00:03:39,440 --> 00:03:40,440

Not one streak.

69

00:03:40,440 --> 00:03:46,880

It was a streak at one time, all over the sky, exactly, in very different directions,

70

00:03:46,880 --> 00:03:48,800

and widespread.

71

00:03:48,800 --> 00:03:52,840

And they would just, they would simply streak, and they wouldn't last one second in streaking,

72

00:03:52,840 --> 00:03:59,200

but the whole thing took place for probably around three seconds, and then it was over.

73

00:03:59,200 --> 00:04:03,680

And three seconds is a long time to sit there and watch something like that.

74

00:04:03,680 --> 00:04:05,360

Now would this be high up in the sky?

75

00:04:05,360 --> 00:04:10,440

It seemed not, for me to give any sort of dimensions or measurement would be almost impossible.

76

00:04:10,440 --> 00:04:15,440

I would think that it was pretty high, but it was so bright that it seemed near.

77

00:04:15,440 --> 00:04:19,080

However, you know, it could have been, since it was light, it was very hard to tell any

78

00:04:19,080 --> 00:04:20,080

sort of distance.

79

00:04:20,080 --> 00:04:21,080

Right.

80

00:04:21,080 --> 00:04:26,360

And it's very surprising to me that no one else on the beach has reported it, because

81

00:04:26,360 --> 00:04:29,600

something like that is not simply just a UFO, it was much more than that.
