

1

00:00:00,000 --> 00:00:12,000

We keep trying to trash it overthinking, well it's probably Forest Service or what would

2

00:00:12,000 --> 00:00:20,000

be, I wonder what that would be that would be such a bright orange and a great big headlight

3

00:00:20,000 --> 00:00:24,000

at the top of a mountain at 7,000 feet high.

4

00:00:24,000 --> 00:00:28,000

Was this appear to be sitting on top of the mountain?

5

00:00:28,000 --> 00:00:31,000

It came up over a mountain range.

6

00:00:31,000 --> 00:00:34,000

Are you familiar with the Kalispell area?

7

00:00:34,000 --> 00:00:35,000

Yes.

8

00:00:35,000 --> 00:00:40,000

Well that is the Rocky Mountain range right there.

9

00:00:40,000 --> 00:00:43,000

And she saw this about two o'clock in the morning.

10

00:00:43,000 --> 00:00:51,000

So we keep talking it over thinking, oh well it's nothing just, but it was, she said it's so huge,

11

00:00:51,000 --> 00:00:57,000

it was so huge, wouldn't likely be maneuvers, night maneuvers.

12

00:00:57,000 --> 00:01:01,000

And I thought well I'll ask you, do they have that in the Forest Service?

13

00:01:01,000 --> 00:01:03,000

Night maneuvers, do you know?

14

00:01:03,000 --> 00:01:07,000

No, no the Forest Service wouldn't have anything like that.

15

00:01:07,000 --> 00:01:09,000

When did this happen?

16

00:01:09,000 --> 00:01:18,000

Well it was, let's see last week, a week ago, a week ago yesterday, a week ago last night.

17

00:01:18,000 --> 00:01:21,000

Is the party, is the party who saw it available?

18

00:01:21,000 --> 00:01:24,000

Yes, she's available, I don't know if she wants to, I don't know if she wants to.

19

00:01:24,000 --> 00:01:27,000

Would you like to talk to her?

20

00:01:27,000 --> 00:01:28,000

Hello.

21

00:01:28,000 --> 00:01:31,000

Hello, would you like to describe what you saw?

22

00:01:31,000 --> 00:01:34,000

Yes, do you get many calls on UFOs?

23

00:01:34,000 --> 00:01:35,000

Yes ma'am.

24

00:01:35,000 --> 00:01:36,000

Do you have the right department?

25

00:01:36,000 --> 00:01:37,000

A lot of calls.

26

00:01:37,000 --> 00:01:43,000

Yeah, well this was, like she said, two o'clock last, well it would have been Saturday morning.

27

00:01:43,000 --> 00:01:51,000

And I saw it from summer which is about 10 or 15 miles from the mountain range.

28

00:01:51,000 --> 00:01:55,000

And it was a big orange glow up on top of the highest peak.

29

00:01:55,000 --> 00:02:03,000

And there was a separate orange glow on this side of the, which would have been on the west side of the mountain.

30

00:02:03,000 --> 00:02:11,000

And oh I probably want that for maybe 10 minutes, 5 or 10 minutes, I don't know.

31

00:02:11,000 --> 00:02:21,000

And then from the east side came two big big headlights in the middle of this big orange glow coming up over the mountains from the east side.

32

00:02:21,000 --> 00:02:23,000

Now they came out of the glow?

33

00:02:23,000 --> 00:02:31,000

They came, it was like this, like this orange glow was one big light ray.

34

00:02:31,000 --> 00:02:32,000

Okay.

35

00:02:32,000 --> 00:02:39,000

And then these two huge headlights right in the center come up over the mountain towards me.

36

00:02:39,000 --> 00:02:52,000

And this smaller orange blob on this side of the mountains moved up and joined forces with this other whatever that was coming over the mountain.

37

00:02:52,000 --> 00:02:53,000

You mean they merged?

38

00:02:53,000 --> 00:02:54,000

Yes.

39

00:02:54,000 --> 00:02:55,000

Okay.

40

00:02:55,000 --> 00:03:02,000

And then it was kind of a thinner ray which I assume it was turning around when these two joined.

41

00:03:02,000 --> 00:03:07,000

And then it went back east, back over on the other side of the mountain.

42

00:03:07,000 --> 00:03:15,000

And then I could see the black silhouette of the mountain against this light ray, this orange glow.

43

00:03:15,000 --> 00:03:22,000

And then it started moving to the south and up high.

44

00:03:22,000 --> 00:03:23,000

Okay.

45

00:03:23,000 --> 00:03:27,000

And we watched, I watched it for probably a half hour.

46

00:03:27,000 --> 00:03:28,000

Okay.

47

00:03:28,000 --> 00:03:33,000

Now the largest glow, the highest one, did that have any particular shape?

48

00:03:33,000 --> 00:03:34,000

No it didn't.

49

00:03:34,000 --> 00:03:35,000

No?

50

00:03:35,000 --> 00:03:37,000

Just a large glob of light?

51

00:03:37,000 --> 00:03:38,000

Right.

52

00:03:38,000 --> 00:03:39,000

Okay.

53

00:03:39,000 --> 00:03:40,000

Now how about the smaller one?

54

00:03:40,000 --> 00:03:43,000

The smaller one, they laugh at me.

55

00:03:43,000 --> 00:03:54,000

The only way I can describe it is one of these wine, canvas wine containers that they squirt wine into their mouth, you know?

56

00:03:54,000 --> 00:03:55,000

Yes.

57

00:03:55,000 --> 00:03:57,000

That's the only thing I can think of.

58

00:03:57,000 --> 00:03:58,000

Okay.

59

00:03:58,000 --> 00:03:59,000

That sort of a shape.

60

00:03:59,000 --> 00:04:00,000

Uh-huh.

61

00:04:00,000 --> 00:04:02,000

It's kind of a pear shape yet.

62

00:04:02,000 --> 00:04:03,000

Okay.

63

00:04:03,000 --> 00:04:10,000

And I don't remember whether the peak of that pear shaped object was connected to the other or not.

64

00:04:10,000 --> 00:04:11,000

I don't know.

65

00:04:11,000 --> 00:04:14,000

I can't say that it was and I can't say that it wasn't.

66

00:04:14,000 --> 00:04:15,000

Okay.

67

00:04:15,000 --> 00:04:20,000

Now in comparison, how much smaller was the small object compared to the large one?

68

00:04:20,000 --> 00:04:28,000

Oh, the smaller one was, it's so hard for me to describe size from that distance.

69

00:04:28,000 --> 00:04:32,000

It was very small compared to the big orange glow.

70

00:04:32,000 --> 00:04:33,000

Okay.

71

00:04:33,000 --> 00:04:35,000

Do you have any estimate of how big the other one was?

72

00:04:35,000 --> 00:04:37,000

Could you compare it with any object?

73

00:04:37,000 --> 00:04:42,000

Well, let me see.

74

00:04:42,000 --> 00:04:54,000

If you can imagine a big orange light behind the, on the other side of the peak of Mount Rainier, something like that.

75

00:04:54,000 --> 00:04:57,000

I mean, it was, it lit up the sky to a certain extent.

76

00:04:57,000 --> 00:05:01,000

You could see streets of white clouds and then dark and then white clouds.

77

00:05:01,000 --> 00:05:02,000

Okay.

78

00:05:02,000 --> 00:05:06,000

And, but the sky was just light.

79

00:05:06,000 --> 00:05:10,000

It wasn't an orange reflection that far up to see the clouds.

80

00:05:10,000 --> 00:05:14,000

The orange was pretty well centered around the top of the mountain.

81

00:05:14,000 --> 00:05:17,000

Did the intensity of that light remain the same at all times?

82

00:05:17,000 --> 00:05:18,000

Yes, it did.

83

00:05:18,000 --> 00:05:22,000

Did it reflect itself off the surface of the ground at all that you could see?

84

00:05:22,000 --> 00:05:23,000

Not that I could see.

85

00:05:23,000 --> 00:05:24,000

Okay.

86

00:05:24,000 --> 00:05:26,000

But how long did you watch that?

87

00:05:26,000 --> 00:05:29,000

Well, like I say, it was, it must have been close to a half hour.

88

00:05:29,000 --> 00:05:30,000

Okay.

89

00:05:30,000 --> 00:05:33,000

And were you the only witness to this?

90

00:05:33,000 --> 00:05:36,000

During the biggest part of the light, I was.

91

00:05:36,000 --> 00:05:45,000

I finally went in and woke up my sister because there has been a lot of talk in that area of seeing these objects.

92

00:05:45,000 --> 00:05:51,000

In fact, I have a sister coming in tonight that has seen one.

93

00:05:51,000 --> 00:06:02,000

And she was, she finally got up and her first thought was the moon,

94

00:06:02,000 --> 00:06:07,000

but it definitely wasn't the moon and it wasn't in the right location for moon.

95

00:06:07,000 --> 00:06:13,000

And then she watched it with me for another 15, 20 minutes as it moved south and up.

96

00:06:13,000 --> 00:06:18,000

But she could see the light reflection and so on in the back.

97

00:06:18,000 --> 00:06:21,000

Did you see any aircraft in the sky at the time?

98

00:06:21,000 --> 00:06:22,000

No, no it didn't.

99

00:06:22,000 --> 00:06:24,000

Okay.

100

00:06:24,000 --> 00:06:26,000

Well, we sure appreciate this report.

101

00:06:26,000 --> 00:06:31,000

And if your sister would be in the mood, we'd like to hear from her tomorrow.

102

00:06:31,000 --> 00:06:33,000

We would like to talk about that, Sadine.

103

00:06:33,000 --> 00:06:34,000

Well, fine.

104

00:06:34,000 --> 00:06:43,000

I'm sure she'd be glad to because we were vacationing back there and I talked to her in the morning and described what I had seen.

105

00:06:43,000 --> 00:06:45,000

This was Saturday morning early.

106

00:06:45,000 --> 00:06:51,000

And she said, well, it's very similar to what she had seen just not too long before that.

107

00:06:51,000 --> 00:06:52,000

Uh-huh.

108

00:06:52,000 --> 00:06:55,000

And it seems to be quite a common occurrence back there.

109

00:06:55,000 --> 00:06:58,000

Well, we've been getting quite a few calls from Northwestern Montana.

110

00:06:58,000 --> 00:06:59,000

Is that right?

111

00:06:59,000 --> 00:07:04,000

Up around Libby in Kalispell and Missoula and so forth.

112

00:07:04,000 --> 00:07:11,000

No, no idea as to what it could be in the logical explanation for it.

113

00:07:11,000 --> 00:07:13,000

Not for the, what you have seen.

114

00:07:13,000 --> 00:07:17,000

No, sometimes when we get objects that have some kind of a shape, we can come up with some kind of an answer.

115

00:07:17,000 --> 00:07:28,000

But when it involves just a large mass of light, we must assume that it's an energy field of some kind surrounding a very unconventional object.

116

00:07:28,000 --> 00:07:30,000

Well, it definitely was.

117

00:07:30,000 --> 00:07:36,000

And when I first looked at it and just saw the orange reflection, naturally you're curious and wonder.

118

00:07:36,000 --> 00:07:42,000

But when these two headlights come up over the mountain, then that kind of sent chills up your back.

119

00:07:42,000 --> 00:07:46,000

It was definitely round light.

120

00:07:46,000 --> 00:07:47,000

Uh-huh.

121

00:07:47,000 --> 00:07:48,000

You know.

122

00:07:48,000 --> 00:07:51,000

Okay, now that was 2 a.m. and that was last Saturday morning, right?

123

00:07:51,000 --> 00:07:52,000

Yeah.

124

00:07:52,000 --> 00:07:53,000

That would be the 18th.

125

00:07:53,000 --> 00:07:54,000

Uh-huh.

126

00:07:54,000 --> 00:07:55,000

Okay.

127

00:07:55,000 --> 00:07:57,000

Well, we sure appreciate your call.

128

00:07:57,000 --> 00:07:58,000

All right, fine.

129

00:07:58,000 --> 00:08:01,000

And we'll be looking forward to hearing from your sister.

130

00:08:01,000 --> 00:08:03,000

All right, just a moment.

131

00:08:03,000 --> 00:08:08,000

Oh, she was wondering if that was an East number or if you were in the South end.

132

00:08:08,000 --> 00:08:09,000

No, we're in the South end.

133

00:08:09,000 --> 00:08:10,000

South end.

134

00:08:10,000 --> 00:08:11,000

Uh-huh.

135

00:08:11,000 --> 00:08:12,000

All right, fine.

136

00:08:12,000 --> 00:08:16,000

Well, we'll have their duty to drive in here just any moment.

137

00:08:16,000 --> 00:08:20,000

So we'll, can they call you?

138

00:08:20,000 --> 00:08:21,000

Are you there 24 hours a day?

139

00:08:21,000 --> 00:08:22,000

Yes, uh-huh.

140

00:08:22,000 --> 00:08:23,000

Uh-huh.

141

00:08:23,000 --> 00:08:24,000

All right.

142

00:08:24,000 --> 00:08:26,000

But specifically tomorrow if you can make it.

143

00:08:26,000 --> 00:08:29,000

Okay, would you like first ask for you or?

144

00:08:29,000 --> 00:08:31,000

No, anyone that's on duty.

145

00:08:31,000 --> 00:08:32,000

Okay.

146

00:08:32,000 --> 00:08:33,000

Thank you.

147

00:08:33,000 --> 00:08:34,000

Fine.

148

00:08:34,000 --> 00:08:35,000

Bye.

149

00:08:35,000 --> 00:08:36,000

Bye.
