

1

00:00:00,000 --> 00:00:05,000

I'm here in Albuquerque in Mexico.

2

00:00:05,000 --> 00:00:10,000

I just called the police department and they gave me your number to call.

3

00:00:10,000 --> 00:00:15,000

We just spotted about half an hour ago, hard time,

4

00:00:15,000 --> 00:00:20,000

three discus shaped, very brightly bright yellow color.

5

00:00:20,000 --> 00:00:25,000

We don't know what they are either.

6

00:00:25,000 --> 00:00:30,000

They were in the southwest of town.

7

00:00:30,000 --> 00:00:35,000

We tried to run them down and evidently they group together and disappeared below the horizon.

8

00:00:35,000 --> 00:00:37,000

So they were that low?

9

00:00:37,000 --> 00:00:43,000

Yes. We saw them. Albuquerque is pretty high altitude in the area around southwest of its low.

10

00:00:43,000 --> 00:00:45,000

That's how come we saw them.

11

00:00:45,000 --> 00:00:51,000

So when we drove out towards the southwest we went down and evidently if they were headed west,

12

00:00:51,000 --> 00:00:56,000

they would have dropped below the horizon pretty fast.

13

00:00:56,000 --> 00:01:00,000

So by the time we got to the other side of town they had disappeared.

14

00:01:00,000 --> 00:01:06,000

My wife is a firm disbeliever in UFOs and she even thinks they were.

15

00:01:06,000 --> 00:01:10,000

Okay, now do you have any estimate on size?

16

00:01:10,000 --> 00:01:16,000

No, maybe distance. I'd say about four miles away.

17

00:01:16,000 --> 00:01:19,000

Southwest of the airport.

18

00:01:19,000 --> 00:01:21,000

They were definitely silver?

19

00:01:21,000 --> 00:01:26,000

No, they were well. They looked like they had their own illumination.

20

00:01:26,000 --> 00:01:31,000

The sun was going down just breaking the horizon so that might have done it off the bottom of something.

21

00:01:31,000 --> 00:01:35,000

But they're flying balloons in the area but we knew definitely they weren't the balloons.

22

00:01:35,000 --> 00:01:38,000

They're flying a hot air balloon contest here this week.

23

00:01:38,000 --> 00:01:40,000

You could definitely make out this disc of shape.

24

00:01:40,000 --> 00:01:43,000

Yes, definitely they were disc of shaped objects.

25

00:01:43,000 --> 00:01:48,000

Matter of fact one of them was sitting on about a 45 degree angle for a while.

26

00:01:48,000 --> 00:01:51,000

Okay, how long did you watch those?

27

00:01:51,000 --> 00:01:54,000

I'd say about 15 minutes before they disappeared.

28

00:01:54,000 --> 00:01:58,000

Okay, any estimate of exact altitude when you spotted them?

29

00:01:58,000 --> 00:02:01,000

We kind of heard you say that, I'm not on a size.

30

00:02:01,000 --> 00:02:08,000

I'd say they were about 20 degrees above the horizon line when we first saw them.

31

00:02:08,000 --> 00:02:11,000

They moved down towards the horizon as we moved towards them.

32

00:02:11,000 --> 00:02:14,000

And the traffic kind of held us up from getting out there.

33

00:02:14,000 --> 00:02:17,000

Did you ever have time to get out of the car and watch them?

34

00:02:17,000 --> 00:02:22,000

Yeah, we were in one of the shopping center parking lots when my son first spotted them.

35

00:02:22,000 --> 00:02:23,000

Oh, I see.

36

00:02:23,000 --> 00:02:26,000

You had both feet way back too.

37

00:02:26,000 --> 00:02:28,000

And he spotted them.

38

00:02:28,000 --> 00:02:30,000

At the time we only saw two.

39

00:02:30,000 --> 00:02:37,000

When we started driving out to see if we couldn't get closer to them, we saw the third one.

40

00:02:37,000 --> 00:02:41,000

Okay, now did these things just stick together or were they any kind of a pattern?

41

00:02:41,000 --> 00:02:48,000

They were two together and then one looked like it might have been old, seven, eight hundred yards,

42

00:02:48,000 --> 00:02:51,000

half a mile from the other two.

43

00:02:51,000 --> 00:02:56,000

But the two did kind of stick together and two of them looked like they were fairly large and one kind of small.

44

00:02:56,000 --> 00:02:59,000

Okay, were they stationary around the move when you first sighted them?

45

00:02:59,000 --> 00:03:02,000

When we first saw them they were just standing there.

46

00:03:02,000 --> 00:03:08,000

Well, they were moving slightly, just barely, because I kept the line on them with the telephone line.

47

00:03:08,000 --> 00:03:12,000

And they moved below the line, which means they were hit southwest at the time.

48

00:03:12,000 --> 00:03:17,000

At a very low rate of speed, if any at all, like they were just drifting.

49

00:03:17,000 --> 00:03:18,000

Right.

50

00:03:18,000 --> 00:03:20,000

Do they seem to increase at any time?

51

00:03:20,000 --> 00:03:22,000

Increase the speed?

52

00:03:22,000 --> 00:03:25,000

Not noticeably no.

53

00:03:25,000 --> 00:03:31,000

Other than that, when we turned, let's say we were hit a down a block and we had our island.

54

00:03:31,000 --> 00:03:34,000

When we turned the corner, they had disappeared.

55

00:03:34,000 --> 00:03:38,000

There was a house on the corner. When we came around the corner, they weren't there anymore.

56

00:03:38,000 --> 00:03:42,000

And these hot air balloons, they fly around here, they aren't that fast.

57

00:03:42,000 --> 00:03:44,000

Okay.

58

00:03:44,000 --> 00:03:47,000

How's the sky conditions?

59

00:03:47,000 --> 00:03:48,000

Perfectly clear.

60

00:03:48,000 --> 00:03:49,000

Okay.

61

00:03:49,000 --> 00:03:51,000

With a limited visibility.

62

00:03:51,000 --> 00:03:52,000

Are you in the military?

63

00:03:52,000 --> 00:03:53,000

Yes.

64

00:03:53,000 --> 00:03:54,000

Okay.

65

00:03:54,000 --> 00:03:59,000

And I'm an aircraft mechanic. Somebody tried to tell me they were aircraft landing lights.

66

00:03:59,000 --> 00:04:01,000

I know better.

67

00:04:01,000 --> 00:04:03,000

They weren't even in the right color.

68

00:04:03,000 --> 00:04:05,000

Okay. How many witnesses in the group?

69

00:04:05,000 --> 00:04:08,000

Let's see. All five of us saw it.

70

00:04:08,000 --> 00:04:09,000

Five of us.

71

00:04:09,000 --> 00:04:11,000

And I'm sure there were three or four other people in the parking lot that saw it.

72

00:04:11,000 --> 00:04:14,000

Matter of fact, one guy ran a grocery cart into a car.

73

00:04:14,000 --> 00:04:16,000

Not looking where he was going.

74

00:04:16,000 --> 00:04:17,000

Uh-oh.

75

00:04:17,000 --> 00:04:20,000

Okay. Any aircraft in the sky at the time?

76

00:04:20,000 --> 00:04:23,000

Yes. There was one small aircraft.

77

00:04:23,000 --> 00:04:28,000

It was a Piper Comanche or Cherokee dual engine job.

78

00:04:28,000 --> 00:04:30,000

Does it seem to be paying any attention to these other guys?

79

00:04:30,000 --> 00:04:32,000

No. It was flying due north.

80

00:04:32,000 --> 00:04:34,000

Okay.

81

00:04:34,000 --> 00:04:37,000

Okay. Well, we'll get on this.

82

00:04:37,000 --> 00:04:41,000

And if we come up with anything on our investigation, we'll get back to you and let you know.

83

00:04:41,000 --> 00:04:42,000

Yeah. I'd appreciate it.

84

00:04:42,000 --> 00:04:45,000

And I got on the radio on the CB.

85

00:04:45,000 --> 00:04:46,000

Uh-huh.

86

00:04:46,000 --> 00:04:48,000

And it was so jammed up that I couldn't get anything through.

87

00:04:48,000 --> 00:04:51,000

I was going to try to find out if anybody else had it spotted.

88

00:04:51,000 --> 00:04:54,000

You mean it was jammed up with radio chatter or static?

89

00:04:54,000 --> 00:04:55,000

Yeah. An static. Both.

90

00:04:55,000 --> 00:04:56,000

Uh-huh.

91

00:04:56,000 --> 00:04:59,000

Kind of terrible for, you know, usually it's nice and crisp around here.

92

00:04:59,000 --> 00:05:03,000

Because of the atmosphere here, we're so high up in everything,

93

00:05:03,000 --> 00:05:06,000

we can get out 7-8 miles on a CB here.

94

00:05:06,000 --> 00:05:09,000

Do the statics seem to clear up after these things disappeared?

95

00:05:09,000 --> 00:05:11,000

Yeah. It's a lot better now.

96

00:05:11,000 --> 00:05:12,000

Uh-huh.

97

00:05:12,000 --> 00:05:14,000

Okay.

98

00:05:14,000 --> 00:05:17,000

Well, we sure appreciate this report.

99

00:05:17,000 --> 00:05:20,000

And like I say, if we get any more on it, we'll definitely get back to you and let you know.

100

00:05:20,000 --> 00:05:21,000

Well, I sure appreciate it.

101

00:05:21,000 --> 00:05:23,000

Where did you get our number?

102

00:05:23,000 --> 00:05:25,000

The Albuquerque Police Department.

103

00:05:25,000 --> 00:05:27,000

Okay. Great. Thanks again.

104

00:05:27,000 --> 00:05:28,000

Okay.

105

00:05:28,000 --> 00:05:30,000

Thank you.
