

1

00:00:00,000 --> 00:00:07,000

Where's this located?

2

00:00:07,000 --> 00:00:08,000

Washington.

3

00:00:08,000 --> 00:00:09,000

Washington, D.C.?

4

00:00:09,000 --> 00:00:10,000

Oh, state.

5

00:00:10,000 --> 00:00:11,000

Oh, I was going to say, whoa.

6

00:00:11,000 --> 00:00:14,000

You're not going to believe this or maybe you are.

7

00:00:14,000 --> 00:00:18,000

This is Deputy from the Sheriff's Office in San Diego, California.

8

00:00:18,000 --> 00:00:19,000

Yes.

9

00:00:19,000 --> 00:00:24,000

And by the time I'd seen it myself, I didn't think I was just flipping out and I would

10

00:00:24,000 --> 00:00:25,000

have quit.

11

00:00:25,000 --> 00:00:26,000

But I had two witnesses with me.

12

00:00:26,000 --> 00:00:30,000

And we just saw a couple of things that none of us can explain.

13

00:00:30,000 --> 00:00:34,000

And our business officer was talking about on the radio and they said we ought to call

14

00:00:34,000 --> 00:00:35,000

you.

15

00:00:35,000 --> 00:00:36,000

Okay, I'd like to hear about it.

16

00:00:36,000 --> 00:00:37,000

Well.

17

00:00:37,000 --> 00:00:38,000

Can you talk from that phone?

18

00:00:38,000 --> 00:00:39,000

Oh, yeah.

19

00:00:39,000 --> 00:00:40,000

Okay.

20

00:00:40,000 --> 00:00:43,000

They were kind of cylindrical in shape.

21

00:00:43,000 --> 00:00:48,000

I mean, you know, they looked kind of like maybe a cigar that was fat in the middle.

22

00:00:48,000 --> 00:00:49,000

Yes.

23

00:00:49,000 --> 00:00:50,000

That's how you kind of tapered it each end.

24

00:00:50,000 --> 00:00:51,000

Uh-huh.

25

00:00:51,000 --> 00:00:58,000

And I had a real bright, extremely bright white light right in the middle of it.

26

00:00:58,000 --> 00:01:01,000

And it had rings on each end.

27

00:01:01,000 --> 00:01:06,000

It looked like black, you know, like the rings around the planet, Saturn or whatever it is.

28

00:01:06,000 --> 00:01:07,000

Yes.

29

00:01:07,000 --> 00:01:10,000

It looked like it had a couple of them on the end.

30

00:01:10,000 --> 00:01:13,000

And then the first one I saw, I thought a plane was crashing.

31

00:01:13,000 --> 00:01:17,000

We were in a remote area on top of a mountain.

32

00:01:17,000 --> 00:01:22,000

And dark all around us, you know, there's no other lights or obstructions or anything.

33

00:01:22,000 --> 00:01:26,000

And we were out there checking a stolen car.

34

00:01:26,000 --> 00:01:30,000

And I looked at this thing and I really, I thought a plane, I almost called the business

35

00:01:30,000 --> 00:01:35,000

officer, there's a plane crashing because it had extremely bright, just bright, bright,

36

00:01:35,000 --> 00:01:36,000

red flashing.

37

00:01:36,000 --> 00:01:37,000

I don't know what it was.

38

00:01:37,000 --> 00:01:41,000

It was lights or it was light not gaseous fumes or what.

39

00:01:41,000 --> 00:01:42,000

But it looked like it was on fire.

40

00:01:42,000 --> 00:01:43,000

You know, it's just bright.

41

00:01:43,000 --> 00:01:45,000

And it wasn't that far away from us.

42

00:01:45,000 --> 00:01:48,000

And I realized it was hovering.

43

00:01:48,000 --> 00:01:49,000

It was just hovering there.

44

00:01:49,000 --> 00:01:53,000

And that continued for all two or three minutes.

45

00:01:53,000 --> 00:01:56,000

And then the extremely red stuff died down.

46

00:01:56,000 --> 00:02:02,000

And then we saw all sorts of flashing, red, blue, green.

47

00:02:02,000 --> 00:02:06,000

And what other color?

48

00:02:06,000 --> 00:02:08,000

Red, blue, green.

49

00:02:08,000 --> 00:02:09,000

And white and orange.

50

00:02:09,000 --> 00:02:13,000

But the white was just a steady white coming right out of the middle, just a continuous

51

00:02:13,000 --> 00:02:14,000

blue.

52

00:02:14,000 --> 00:02:17,000

And all these other lights were flashing around it.

53

00:02:17,000 --> 00:02:21,000

And we got the binoculars out and we're looking at things through that.

54

00:02:21,000 --> 00:02:25,000

And it just continued over there for about five minutes.

55

00:02:25,000 --> 00:02:32,000

And then all at once it just shut everything down except this continuous glowing white.

56

00:02:32,000 --> 00:02:34,000

And it just took off.

57

00:02:34,000 --> 00:02:35,000

And I mean, took off.

58

00:02:35,000 --> 00:02:37,000

I'd never seen anything disappear so fast in my life.

59

00:02:37,000 --> 00:02:38,000

Which direction?

60

00:02:38,000 --> 00:02:39,000

It went west.

61

00:02:39,000 --> 00:02:40,000

Okay.

62

00:02:40,000 --> 00:02:41,000

Towards the ocean.

63

00:02:41,000 --> 00:02:44,000

And it continued to gain altitude.

64

00:02:44,000 --> 00:02:47,000

And I was watching it through the binoculars.

65

00:02:47,000 --> 00:02:52,000

And I could see it extremely well when we first observed it.

66

00:02:52,000 --> 00:02:59,000

And I'd say probably the complete time it took it to disappear from sight through a pair

67

00:02:59,000 --> 00:03:05,000

of 8x50 binoculars was a total of maybe 12 seconds at the most.

68

00:03:05,000 --> 00:03:08,000

I mean, it just took off and it was gone.

69

00:03:08,000 --> 00:03:10,000

So I called.

70

00:03:10,000 --> 00:03:14,000

And I mean, this other guy we were talking about, we called my beat partner on the radio

71

00:03:14,000 --> 00:03:16,000

and I asked him if he happened to see it.

72

00:03:16,000 --> 00:03:17,000

And he didn't.

73

00:03:17,000 --> 00:03:22,000

And approximately five minutes later, I observed a second one doing the same thing.

74

00:03:22,000 --> 00:03:25,000

This one was quite a bit further away.

75

00:03:25,000 --> 00:03:28,000

It was over what we call Mount Woodson area.

76

00:03:28,000 --> 00:03:30,000

And he could observe this one.

77

00:03:30,000 --> 00:03:34,000

And this one continued to hover at quite an extreme altitude.

78

00:03:34,000 --> 00:03:41,000

The same thing, bright red, green, blue, orange, yellow flashing light with a continuous white

79

00:03:41,000 --> 00:03:46,000

glow out of the middle for approximately 15 minutes.

80

00:03:46,000 --> 00:03:49,000

And then all at once it did the same thing.

81

00:03:49,000 --> 00:03:52,000

Shut everything down and just took off like a bat out of hell.

82

00:03:52,000 --> 00:03:55,000

And it only took it about five seconds to disappear from view.

83

00:03:55,000 --> 00:04:02,000

Now it was at such an altitude that I could not detect any sort of shape like on this other one.

84

00:04:02,000 --> 00:04:03,000

Yes.

85

00:04:03,000 --> 00:04:08,000

I could not see the rings except for once it looked like both rings were on one side of it.

86

00:04:08,000 --> 00:04:12,000

But I mean, it was at such a distance the way it was kind of, excuse me, I mean,

87

00:04:12,000 --> 00:04:15,000

launch hazy through the binoculars even.

88

00:04:15,000 --> 00:04:20,000

The only thing you could really tell for sure was that the extremely bright red, blue,

89

00:04:20,000 --> 00:04:22,000

and all these other lights.

90

00:04:22,000 --> 00:04:25,000

And I mean, you just hovered one spot.

91

00:04:25,000 --> 00:04:26,000

We had a good point of reference.

92

00:04:26,000 --> 00:04:30,000

It was a bright star directly adjacent to it.

93

00:04:30,000 --> 00:04:32,000

And it never wavered an inch.

94

00:04:32,000 --> 00:04:35,000

And then all of a sudden the light was gone.

95

00:04:35,000 --> 00:04:38,000

Okay, do you have any estimate in size on those?

96

00:04:38,000 --> 00:04:39,000

Oh, man, I couldn't tell.

97

00:04:39,000 --> 00:04:43,000

The first one we saw, I would say, was extremely large.

98

00:04:43,000 --> 00:04:48,000

But due to the altitude, I really couldn't get a reference point to tell, you know,

99

00:04:48,000 --> 00:04:50,000

how close the thing was to it.

100

00:04:50,000 --> 00:04:51,000

Right.

101

00:04:51,000 --> 00:04:53,000

It could have been clear out over the ocean for all I know.

102

00:04:53,000 --> 00:04:59,000

But it looked like it was maybe a mile away and about the size of a football field.

103

00:04:59,000 --> 00:05:04,000

Yeah, my partner agrees, because it was extremely big.

104

00:05:04,000 --> 00:05:08,000

But like I said, there's no telling how far away from us it was.

105

00:05:08,000 --> 00:05:13,000

And with all those flashing lights, I really couldn't tell.

106

00:05:13,000 --> 00:05:17,000

But I think what we saw at first was some sort of fuel burn off or something,

107

00:05:17,000 --> 00:05:22,000

because it really looked, I mean, there was flames and it looked like a plane was on fire.

108

00:05:22,000 --> 00:05:24,000

And going down is what it looked like.

109

00:05:24,000 --> 00:05:29,000

But I mean, it just hovered dead still for a good five minutes at least.

110

00:05:29,000 --> 00:05:35,000

And we saw the first one at a quarter to eight, and the second one after that one disappeared.

111

00:05:35,000 --> 00:05:39,000

About five minutes later, it would have made it about five minutes to eight.

112

00:05:39,000 --> 00:05:40,000

Okay.

113

00:05:42,000 --> 00:05:44,000

I still don't really believe it.

114

00:05:44,000 --> 00:05:48,000

I mean, it's kind of like I'm trying to talk myself out of, I saw it.

115

00:05:48,000 --> 00:05:50,000

You know, it's weird.

116

00:05:50,000 --> 00:05:52,000

Right, were these fairly low?

117

00:05:52,000 --> 00:05:54,000

The first one was very low.

118

00:05:54,000 --> 00:05:56,000

I mean, it looked like it was extremely low.

119

00:05:56,000 --> 00:05:59,000

The second one was a pretty high altitude.

120

00:05:59,000 --> 00:06:01,000

Okay.

121

00:06:01,000 --> 00:06:05,000

The first one, it looked like it was all maybe, oh, would you say,

122

00:06:05,000 --> 00:06:08,000

it was lower than Mount Woodson, lower than the fuel mount.

123

00:06:08,000 --> 00:06:11,000

That would have made it, our elevation here is about 1,300 feet,

124

00:06:11,000 --> 00:06:14,000

and Mount Woodson is about, what, 26, ain't it?

125

00:06:14,000 --> 00:06:20,000

So it looked like it was below the peak of Mount Woodson, so I guess maybe 2,000 feet.

126

00:06:22,000 --> 00:06:26,000

But there was also a third officer that saw the second one,

127

00:06:26,000 --> 00:06:30,000

and he was on his way to take a runaway report.

128

00:06:30,000 --> 00:06:35,000

And about, let's see, I was 745 for the first one, about 255 for the second one.

129

00:06:35,000 --> 00:06:36,000

Right.

130

00:06:36,000 --> 00:06:38,000

Okay, that's great.

131

00:06:38,000 --> 00:06:42,000

Yeah, pretty good to do something, guys with a white suit to pick the other one.

132

00:06:42,000 --> 00:06:45,000

No way, tomorrow.

133

00:06:45,000 --> 00:06:50,000

I ain't kidding you, if I hadn't been somebody with me, and I'd seen that first one,

134

00:06:50,000 --> 00:06:52,000

I really thought I'd flipped out.

135

00:06:52,000 --> 00:06:56,000

Okay, if we send you a questionnaire, would you take a little time to fill it out?

136

00:06:56,000 --> 00:06:57,000

You bet.

137

00:06:57,000 --> 00:06:58,000

It takes about 30 minutes.

138

00:06:58,000 --> 00:07:02,000

I heard people tell me about seeing things before, you know, and I was like,

139

00:07:02,000 --> 00:07:10,000

I've seen a lot of civilian aircraft, and military aircraft, and Navy aircraft,

140

00:07:10,000 --> 00:07:13,000

and as far as I know, we ain't got nothing that can do that.

141

00:07:13,000 --> 00:07:17,000

And it's equipped with that kind of lighting devices.

142

00:07:17,000 --> 00:07:22,000

And was that light such, the brilliant light, such that it did any illumination of the sky?

143

00:07:22,000 --> 00:07:27,000

No, I would say it actually illuminated the sky.

144

00:07:27,000 --> 00:07:30,000

It was just a steady, continuous, bright glow.

145

00:07:30,000 --> 00:07:31,000

Uh-huh.

146

00:07:31,000 --> 00:07:34,000

And it didn't illuminate the ground or anything like that.

147

00:07:34,000 --> 00:07:36,000

And that light stayed on?

148

00:07:36,000 --> 00:07:38,000

That light was continuous.

149

00:07:38,000 --> 00:07:42,000

And the other one just kind of flashed and came on and would stay on for a bit and die down.

150

00:07:42,000 --> 00:07:46,000

And it's kind of hard to explain, really.

151

00:07:46,000 --> 00:07:47,000

Okay.

152

00:07:47,000 --> 00:07:48,000

Yeah, right.

153

00:07:48,000 --> 00:07:49,000

That's a good description.

154

00:07:49,000 --> 00:07:53,000

Like, have you ever seen one of these handheld, what they call sparklers, these kids hold these?

155

00:07:53,000 --> 00:07:54,000

Oh, sure.

156

00:07:54,000 --> 00:07:55,000

That's what it looked like.

157

00:07:55,000 --> 00:07:59,000

Now, real continuous glow out of the middle and then all these other colors going around it.

158

00:07:59,000 --> 00:08:00,000

Okay.

159

00:08:00,000 --> 00:08:02,000

Well, we sure appreciate this.

160

00:08:02,000 --> 00:08:07,000

And if we get any additional information on this case, we'll get back to you and let you know.

161

00:08:07,000 --> 00:08:08,000

Okay.

162

00:08:08,000 --> 00:08:10,000

In the meantime, we'll get that questionnaire off.

163

00:08:10,000 --> 00:08:11,000

All right.

164

00:08:11,000 --> 00:08:12,000

Yeah, I'd be happy to fill it out for you.

165

00:08:12,000 --> 00:08:13,000

Thank you very much.

166

00:08:13,000 --> 00:08:14,000

Uh-huh.

167

00:08:14,000 --> 00:08:15,000

See you later.

168

00:08:15,000 --> 00:08:15,500

Bye.

169

00:08:16,000 --> 00:08:17,000

Bye.
