

1

00:00:00,000 --> 00:00:07,000

Yes sir, this is Officer Snyder, Nebraska.

2

00:00:07,000 --> 00:00:08,000

Yes.

3

00:00:08,000 --> 00:00:11,000

And I'd like to make a report.

4

00:00:11,000 --> 00:00:12,000

Okay.

5

00:00:12,000 --> 00:00:20,000

What we seem to have here is a, I had a report about eight o'clock that a bright object moved

6

00:00:20,000 --> 00:00:25,000

from the western part of the sky to the eastern part.

7

00:00:25,000 --> 00:00:26,000

Yes.

8

00:00:26,000 --> 00:00:31,000

I checked it with binoculars myself and it seems to be holding now.

9

00:00:31,000 --> 00:00:37,000

And it starts, now it appears to be a triangular shape.

10

00:00:37,000 --> 00:00:44,000

And earlier it was a trapezoid shape.

11

00:00:44,000 --> 00:00:51,000

It was longer on one side than it would narrow down into a sort of triangular shape.

12

00:00:51,000 --> 00:00:53,000

You know what I mean by triangular shape?

13

00:00:53,000 --> 00:00:54,000

Yes.

14

00:00:54,000 --> 00:00:59,000

And now it appears to be moving slightly to the west.

15

00:00:59,000 --> 00:01:00,000

Okay.

16

00:01:00,000 --> 00:01:03,000

Did the people actually see this thing moving from west to east?

17

00:01:03,000 --> 00:01:04,000

Yes sir.

18

00:01:04,000 --> 00:01:05,000

Okay.

19

00:01:05,000 --> 00:01:06,000

What time did that occur?

20

00:01:06,000 --> 00:01:09,000

It was approximately eight o'clock.

21

00:01:09,000 --> 00:01:10,000

Okay.

22

00:01:10,000 --> 00:01:14,000

Did you see this yourself?

23

00:01:14,000 --> 00:01:19,000

I didn't see the movement, the larger movement.

24

00:01:19,000 --> 00:01:24,000

I saw it earlier, approximately 9.30.

25

00:01:24,000 --> 00:01:29,000

And that's when I observed the trapezoid shape.

26

00:01:29,000 --> 00:01:38,000

And now I've noticed that it has started moving west, but not at the speed that it was reported

27

00:01:38,000 --> 00:01:40,000

to me as having moved earlier.

28

00:01:40,000 --> 00:01:41,000

Okay.

29

00:01:41,000 --> 00:01:43,000

Do you have any idea the altitude of this thing?

30

00:01:43,000 --> 00:01:44,000

Oh boy.

31

00:01:44,000 --> 00:01:46,000

Is it fairly high or?

32

00:01:46,000 --> 00:01:48,000

It seems to be fairly high now.

33

00:01:48,000 --> 00:01:50,000

Earlier it seemed quite lower.

34

00:01:50,000 --> 00:01:53,000

I was convinced it could have been a weather balloon.

35

00:01:53,000 --> 00:01:59,000

But now that it's this late at night it really couldn't be because it wouldn't be reflecting

36

00:01:59,000 --> 00:02:00,000

sunlight.

37

00:02:00,000 --> 00:02:01,000

I would think.

38

00:02:01,000 --> 00:02:04,000

Do you have the name of anyone who saw the thing on the move?

39

00:02:04,000 --> 00:02:08,000

Boy, his name is...

40

00:02:08,000 --> 00:02:09,000

Okay.

41

00:02:09,000 --> 00:02:12,000

Could we have your name again, sir?

42

00:02:12,000 --> 00:02:13,000

Okay.

43

00:02:13,000 --> 00:02:17,000

I have another law enforcement officer that has seen it also.

44

00:02:17,000 --> 00:02:18,000

Okay.

45

00:02:18,000 --> 00:02:23,000

His name is...he's with the Dodge County Sheriff's Department.

46

00:02:23,000 --> 00:02:25,000

Okay, sir.

47

00:02:25,000 --> 00:02:29,000

We'll get on this thing and see if we can come up with some kind of an idea.

48

00:02:29,000 --> 00:02:30,000

Okay.

49

00:02:30,000 --> 00:02:33,000

And if we get anything on it, we'll get back here and let you know.

50

00:02:33,000 --> 00:02:34,000

All right.

51

00:02:34,000 --> 00:02:35,000

I'd appreciate that.

52

00:02:35,000 --> 00:02:36,000

Thanks much for the call.

53

00:02:36,000 --> 00:02:37,000

Okay.

54

00:02:37,000 --> 00:02:38,000

Good night.

55

00:02:38,000 --> 00:02:39,000

Good night.

56

00:02:39,000 --> 00:02:40,000

Good night.

57

00:02:40,000 --> 00:02:41,000

Good night.

58

00:02:41,000 --> 00:02:42,000

Good night.
