

1

00:00:00,000 --> 00:00:07,000

I was reading a newspaper, I lived in C.V. Valley.

2

00:00:07,000 --> 00:00:13,000

And I was reading about this UFO object, that you know, a garden, a sky.

3

00:00:13,000 --> 00:00:17,000

And I didn't pay much attention to it at the time.

4

00:00:17,000 --> 00:00:20,000

I think it was last Wednesday.

5

00:00:20,000 --> 00:00:25,000

The day they had to, there was to be a cloud in the sky, it looked like a UFO.

6

00:00:25,000 --> 00:00:30,000

And I was leaving home real early in the morning. I leave home about 4.30 in the morning.

7

00:00:30,000 --> 00:00:34,000

And I drive over to see me freeway into San Fernando.

8

00:00:34,000 --> 00:00:41,000

And I had a hell of a time trying to get my radio to stay on beam, the music that was playing.

9

00:00:41,000 --> 00:00:47,000

And this particular object that I was looking at, that I was driving into San Fernando,

10

00:00:47,000 --> 00:00:50,000

it had all types of colors on it.

11

00:00:50,000 --> 00:00:54,000

It looked like a flying ship to me.

12

00:00:54,000 --> 00:01:01,000

But I could get the waves, wave sounds back like a beep-beats sound from my radio.

13

00:01:01,000 --> 00:01:04,000

And I just had that all the way to work that particular morning.

14

00:01:04,000 --> 00:01:06,000

This was coming in quite clear?

15

00:01:06,000 --> 00:01:08,000

This was coming in quite clear.

16

00:01:08,000 --> 00:01:11,000

Okay, was this showing the other reception right out?

17

00:01:11,000 --> 00:01:14,000

It was just showing them right out.

18

00:01:14,000 --> 00:01:18,000

Okay, does this object have a defined shape?

19

00:01:18,000 --> 00:01:20,000

Yes, it did.

20

00:01:20,000 --> 00:01:28,000

It had a shape of an egg-like, you know, an egg shape.

21

00:01:28,000 --> 00:01:34,000

And I don't know if you know where this Lockerdyme test center is up in Valley.

22

00:01:34,000 --> 00:01:36,000

Yes, yes.

23

00:01:36,000 --> 00:01:43,000

Well, just as I got almost into that particular area, this emanating sound that I heard,

24

00:01:43,000 --> 00:01:46,000

it just took over the radio completely.

25

00:01:46,000 --> 00:01:50,000

It was just like you were giving signals, you know, a beep-beats sound.

26

00:01:50,000 --> 00:01:54,000

And just after I passed through there a little bit, it got a little weaker though.

27

00:01:54,000 --> 00:01:59,000

But from what I could see, it looked like it was just like something was even in this direction,

28

00:01:59,000 --> 00:02:01,000

towards that hill, you know.

29

00:02:01,000 --> 00:02:03,000

Okay, now how far was the object from there?

30

00:02:03,000 --> 00:02:10,000

Well, that object was way over into, I would say that object was way out into,

31

00:02:10,000 --> 00:02:13,000

I guess you would say that Glendale Mountain out there.

32

00:02:13,000 --> 00:02:14,000

Okay.

33

00:02:14,000 --> 00:02:16,000

Way over.

34

00:02:16,000 --> 00:02:20,000

I guess that's beyond Burbank out there, you know.

35

00:02:20,000 --> 00:02:23,000

Looks like it's headed towards that passablee, I guess.

36

00:02:23,000 --> 00:02:29,000

Now, would that be over that CD or a civilian defense center by any chance?

37

00:02:29,000 --> 00:02:30,000

Right.

38

00:02:30,000 --> 00:02:33,000

Right on top of the hill, there's a very large radio center.

39

00:02:33,000 --> 00:02:35,000

Right, right.

40

00:02:35,000 --> 00:02:36,000

Be right in that area.

41

00:02:36,000 --> 00:02:38,000

It looked like it was way behind that area.

42

00:02:38,000 --> 00:02:40,000

Okay.

43

00:02:41,000 --> 00:02:44,000

And this was Friday?

44

00:02:44,000 --> 00:02:46,000

No, it wasn't Friday.

45

00:02:46,000 --> 00:02:50,000

I think it was either Wednesday morning or Thursday morning.

46

00:02:50,000 --> 00:02:52,000

Okay.

47

00:02:52,000 --> 00:02:58,000

It was the next day, it was the day before when CME had this picture in the paper about clouds,

48

00:02:58,000 --> 00:02:59,000

like a spaceship.

49

00:02:59,000 --> 00:03:00,000

Oh, okay.

50

00:03:00,000 --> 00:03:01,000

Yeah.

51

00:03:01,000 --> 00:03:02,000

But what time?

52

00:03:02,000 --> 00:03:06,000

Well, this was about quarter to five.

53

00:03:06,000 --> 00:03:10,000

Between the birding quarter to five and one.

54

00:03:10,000 --> 00:03:15,000

But how long was that in view now while you were watching it?

55

00:03:15,000 --> 00:03:22,000

Oh, gee, it was in view until I get down into, way down into San Fernando there,

56

00:03:22,000 --> 00:03:25,000

but somebody go and take freeway going into Burbank.

57

00:03:25,000 --> 00:03:26,000

Okay.

58

00:03:26,000 --> 00:03:30,000

Now, did it maintain its position at all times or was it on the move at all?

59

00:03:30,000 --> 00:03:32,000

No, most of the time it maintained its position.

60

00:03:32,000 --> 00:03:36,000

It was real slow like, you know, it would go real fast.

61

00:03:36,000 --> 00:03:38,000

Okay.

62

00:03:38,000 --> 00:03:40,000

Do you have any estimate of size?

63

00:03:44,000 --> 00:03:47,000

I'll pair up with another object.

64

00:03:47,000 --> 00:03:53,000

Oh, I would say the size of her.

65

00:03:53,000 --> 00:03:55,000

A large automobile, I would say, really.

66

00:03:55,000 --> 00:03:56,000

Okay.

67

00:03:56,000 --> 00:03:59,000

How about altitude?

68

00:03:59,000 --> 00:04:04,000

The altitude itself looked like it was just hanging next to a cloud, really.

69

00:04:04,000 --> 00:04:06,000

The rest is a cloud in the sky.

70

00:04:06,000 --> 00:04:08,000

And it was laying right next to a cloud.

71

00:04:08,000 --> 00:04:13,000

In other words, if you would just really look at it as being a cloud, you'd say,

72

00:04:13,000 --> 00:04:18,000

there's another cloud in the sky, because that particular morning there was very, very few clouds in the sky.

73

00:04:18,000 --> 00:04:22,000

And it was just laying right next to a cloud.

74

00:04:22,000 --> 00:04:28,000

So maybe there's about, if you would look at it, there's about five feet different between it and the cloud.

75

00:04:28,000 --> 00:04:29,000

Okay.

76

00:04:29,000 --> 00:04:34,000

But you could actually look like it had light behind it, you know.

77

00:04:34,000 --> 00:04:39,000

I figured out, well, maybe the sun is coming up, but then I looked at the cloud that was next to it,

78

00:04:39,000 --> 00:04:48,000

and then you see the difference in, you know, the color behind the cloud, you know,

79

00:04:48,000 --> 00:04:52,000

it didn't have any particular color, but this thing that was next to the cloud,

80

00:04:52,000 --> 00:04:55,000

it had a sort of a light behind it.

81

00:04:55,000 --> 00:04:58,000

Now, which direction would you be looking when you're watching it?

82

00:04:58,000 --> 00:05:08,000

When I would be, if I was traveling, a semi-freeway, I would be looking out,

83

00:05:08,000 --> 00:05:12,000

say, San Bernardino way, I guess, way out in that area.

84

00:05:12,000 --> 00:05:13,000

Right.

85

00:05:13,000 --> 00:05:17,000

You figured this was about Thursday or Friday?

86

00:05:17,000 --> 00:05:19,000

Or Wednesday or Thursday?

87

00:05:19,000 --> 00:05:20,000

Wednesday or Thursday, you know.

88

00:05:20,000 --> 00:05:21,000

Right.

89

00:05:21,000 --> 00:05:24,000

And the data was real clear, and then it cut foggy the next day, I think it was.

90

00:05:24,000 --> 00:05:25,000

I'm pretty sure it was Wednesday.

91

00:05:25,000 --> 00:05:32,000

Okay, because Thursday was Independence Day or Veterans Day or whatever that was, right?

92

00:05:32,000 --> 00:05:36,000

I'm pretty sure it was Wednesday though, because it was real clear Wednesday.

93

00:05:36,000 --> 00:05:39,000

Okay, and that was the day the article appeared in the paper?

94

00:05:39,000 --> 00:05:41,000

Well, the article appeared in the paper the next day.

95

00:05:41,000 --> 00:05:43,000

The next day, right?

96

00:05:43,000 --> 00:05:48,000

The particular sound though, you know, I've heard sounds before, you know,

97

00:05:48,000 --> 00:05:52,000

different beep-beeps sounds because I worked for an aircraft company.

98

00:05:52,000 --> 00:05:56,000

And this particular sound, it just took over radio completely.

99

00:05:56,000 --> 00:05:58,000

It just turned the music off.

100

00:05:58,000 --> 00:06:02,000

When I got up by rocker-dying area up there, and the music just went away completely,

101

00:06:02,000 --> 00:06:05,000

and all these little sounds came in, beep-beeps sounds, you know.

102

00:06:05,000 --> 00:06:06,000

Beeping, straight-beeping right through?

103

00:06:06,000 --> 00:06:07,000

Yeah, straight-beeping right through.

104

00:06:07,000 --> 00:06:09,000

How about static?

105

00:06:09,000 --> 00:06:11,000

That's the thing about it, it just wasn't no static.

106

00:06:11,000 --> 00:06:13,000

No static, just the beeping, okay.

107

00:06:13,000 --> 00:06:14,000

Now, did you have any other problems?

108

00:06:14,000 --> 00:06:17,000

Were there any problems with the car?

109

00:06:17,000 --> 00:06:20,000

Ignition, so forth?

110

00:06:20,000 --> 00:06:25,000

I didn't notice that, no, I didn't pay much attention to it.

111

00:06:25,000 --> 00:06:28,000

And that, you're saying, you know, as far as the light you mean,

112

00:06:28,000 --> 00:06:32,000

is that the noise, the engine want to quit or something like that?

113

00:06:32,000 --> 00:06:34,000

No, I didn't have that type of thing.

114

00:06:34,000 --> 00:06:38,000

Okay, did you have any unusual physical sensations yourself?

115

00:06:38,000 --> 00:06:39,000

Did I?

116

00:06:39,000 --> 00:06:42,000

I just had a weird feeling, I can tell you that.

117

00:06:42,000 --> 00:06:48,000

Okay, no tingling, any tingling in the body?

118

00:06:48,000 --> 00:06:52,000

No way, not really, but I just had a chill run across my body, like,

119

00:06:52,000 --> 00:06:54,000

you were, what's this out here, you know.

120

00:06:54,000 --> 00:06:55,000

Yeah, okay.

121

00:06:55,000 --> 00:06:58,000

Because there wasn't nobody on the freeway that time of morning, really.

122

00:06:58,000 --> 00:06:59,000

Right.

123

00:06:59,000 --> 00:07:02,000

You know, that's the kind of feeling that I got.

124

00:07:02,000 --> 00:07:06,000

Okay, well, I'll tell you what we'll do.

125

00:07:06,000 --> 00:07:09,000

We'll see if we can come up with more information on this,

126

00:07:09,000 --> 00:07:11,000

and if we do, we'll get back to you and let you know.

127

00:07:11,000 --> 00:07:12,000

Okay, fine.

128

00:07:12,000 --> 00:07:13,000

Thank you for calling.

129

00:07:13,000 --> 00:07:14,000

Right.

130

00:07:14,000 --> 00:07:15,000

Right, bye.
