

1

00:00:00,000 --> 00:00:08,240

Yes sir, this is the Cache County Sheriff's Office in Logan, Utah.

2

00:00:08,240 --> 00:00:13,320

We had an incident up here tonight that I'm sure someone else will contact you about.

3

00:00:13,320 --> 00:00:18,080

I don't have much faith in this type of a thing, but I tell you we better bring it to

4

00:00:18,080 --> 00:00:19,080

your attention.

5

00:00:19,080 --> 00:00:22,080

A man by the name of...

6

00:00:22,080 --> 00:00:23,080

Uh-huh.

7

00:00:23,080 --> 00:00:28,160

Mr. Logan saw an object this evening.

8

00:00:28,160 --> 00:00:31,680

His wife saw it and his brother and several other people in the area.

9

00:00:31,680 --> 00:00:37,040

So a large object, they thought believed it to be the moon when it came over the horizon.

10

00:00:37,040 --> 00:00:39,760

It's a rather orange in color.

11

00:00:39,760 --> 00:00:47,920

It came over the horizon and it was moving west out of Logan Canyon.

12

00:00:47,920 --> 00:00:54,080

It came over on our side of the mountain and it appeared to shoot something down towards

13

00:00:54,080 --> 00:00:56,560

the ground.

14

00:00:56,560 --> 00:01:01,160

And they know exactly where whatever it was that went from the big large object to the

15

00:01:01,160 --> 00:01:04,680

ground is right now.

16

00:01:04,680 --> 00:01:07,000

I don't know what other information I can give you.

17

00:01:07,000 --> 00:01:09,400

Oh, I sure appreciate this.

18

00:01:09,400 --> 00:01:10,400

Okay.

19

00:01:10,400 --> 00:01:14,800

I think he's a pretty rational man.

20

00:01:14,800 --> 00:01:15,800

I went up and looked for it.

21

00:01:15,800 --> 00:01:17,800

There was another deputy sheriff that also went up.

22

00:01:17,800 --> 00:01:18,800

He's very rational.

23

00:01:18,800 --> 00:01:19,800

His wife seemed rather concerned.

24

00:01:19,800 --> 00:01:22,800

In fact, it's because of Tara, everyone she saw it.

25

00:01:22,800 --> 00:01:23,800

I see.

26

00:01:23,800 --> 00:01:26,800

And so I don't believe this guy's cracked bottom.

27

00:01:26,800 --> 00:01:29,280

Okay, well we'll contact him and see what he's got.

28

00:01:29,280 --> 00:01:30,280

All righty.

29

00:01:30,280 --> 00:01:31,280

Thanks very much.

30

00:01:31,280 --> 00:01:32,280

You bet, sir.

31

00:01:32,280 --> 00:01:33,280

All right.

32

00:01:33,280 --> 00:01:34,280

Let's see you up at the reporting center in Washington.

33

00:01:34,280 --> 00:01:36,280

We've been advised you saw something in the sky tonight.

34

00:01:36,280 --> 00:01:37,780

We'd like to hear about it.

35

00:01:37,780 --> 00:01:46,260

Well, I went out on the patio facing east across the golf course and I'd seen a great

36

00:01:46,260 --> 00:01:50,780

big orange object get about the size of the moon, a full moon.

37

00:01:50,780 --> 00:01:53,780

And it was a moving this way and it was below the clouds.

38

00:01:53,780 --> 00:01:57,380

And so I came in and got my brother and my wife out of the basement.

39

00:01:57,380 --> 00:01:59,860

We are down here in the fireplace.

40

00:01:59,860 --> 00:02:04,580

And so we went upstairs and looked and what lasted about three minutes.

41

00:02:04,580 --> 00:02:09,580

And then all of a sudden it looked like somebody dropped out of a parachute.

42

00:02:09,580 --> 00:02:10,580

I mean, it dropped.

43

00:02:10,580 --> 00:02:17,860

That there was just a solid orange streak from this big object right into the snow on this

44

00:02:17,860 --> 00:02:21,100

side of the mountain, which would be airlined from here up.

45

00:02:21,100 --> 00:02:25,820

It wouldn't be over two and a half miles because we're out against the mountain.

46

00:02:25,820 --> 00:02:26,820

Yes.

47

00:02:26,820 --> 00:02:30,500

And it came down past the mountain and then this big object disappeared.

48

00:02:30,500 --> 00:02:31,500

Okay.

49

00:02:31,500 --> 00:02:33,500

And you say it disappeared.

50

00:02:33,500 --> 00:02:35,500

Did it just go out?

51

00:02:35,500 --> 00:02:40,460

It was working this way because see it lasted while I came in the house and in the basement

52

00:02:40,460 --> 00:02:46,900

and got mother to that was here with me and walked out on the patio and I as soon as it

53

00:02:46,900 --> 00:02:50,620

disappeared, well, then I called the sheriff's department and told them about it.

54

00:02:50,620 --> 00:02:53,020

And it happened two minutes after six.

55

00:02:53,020 --> 00:02:54,020

I see.

56

00:02:54,020 --> 00:02:55,020

Okay.

57

00:02:55,020 --> 00:02:56,420

Wester standard time here.

58

00:02:56,420 --> 00:02:57,420

Wester time.

59

00:02:57,420 --> 00:02:58,420

Okay.

60

00:02:58,420 --> 00:03:02,980

Now when the object shot this shaft of light down to the ground, do you have any idea of

61

00:03:02,980 --> 00:03:05,380

how high it was in the sky?

62

00:03:05,380 --> 00:03:12,260

Well it was above the mountain where the object was and it, well, I've got to end up in that

63

00:03:12,260 --> 00:03:19,580

territory with the Jeep and snow building and all I imagine it would be three or four

64

00:03:19,580 --> 00:03:24,340

thousand feet it dropped from the object until it hit it, live in the snow.

65

00:03:24,460 --> 00:03:25,460

Okay.

66

00:03:25,460 --> 00:03:27,260

And that was that when the bigger object disappeared?

67

00:03:27,260 --> 00:03:29,580

What was that?

68

00:03:29,580 --> 00:03:31,580

Did the object disappear after that happened?

69

00:03:31,580 --> 00:03:32,580

Yes.

70

00:03:32,580 --> 00:03:35,700

And the object disappeared just letting us know we looked up and why I said, oh, there's

71

00:03:35,700 --> 00:03:39,300

the object disappeared and then we just seen one flash of it after that.

72

00:03:39,300 --> 00:03:40,300

Okay.

73

00:03:40,300 --> 00:03:41,860

And it was moving towards the south then.

74

00:03:41,860 --> 00:03:43,780

But it was coming right this way.

75

00:03:43,780 --> 00:03:47,780

I said it's coming this way and I, they said there's no motors, there's no flashing, it

76

00:03:47,780 --> 00:03:51,540

can't be a helicopter and it can't be an airplane.

77

00:03:51,540 --> 00:03:56,420

And it just really shook us there because it was so close to our home there.

78

00:03:56,420 --> 00:03:59,060

They were within about two blocks of the mountain.

79

00:03:59,060 --> 00:04:00,060

I see.

80

00:04:00,060 --> 00:04:01,060

Okay.

81

00:04:01,060 --> 00:04:02,060

Which direction were you looking when you?

82

00:04:02,060 --> 00:04:03,060

Straight east, direct east.

83

00:04:03,060 --> 00:04:04,060

Okay.

84

00:04:04,060 --> 00:04:06,660

The USAC, you know, the Utah State University.

85

00:04:06,660 --> 00:04:07,660

Yeah.

86

00:04:07,660 --> 00:04:10,340

I'm just right on the border, just a block from the university.

87

00:04:10,340 --> 00:04:11,340

Okay.

88

00:04:11,340 --> 00:04:18,340

And so we were looking where it could then get the little southeast from our house.

89

00:04:18,340 --> 00:04:19,340

Okay.

90

00:04:19,340 --> 00:04:20,940

And this was moving under the cloud layer?

91

00:04:20,940 --> 00:04:22,340

Yeah, it was under the cloud.

92

00:04:22,340 --> 00:04:23,340

Yes, sir.

93

00:04:23,340 --> 00:04:26,220

Did it seem to illuminate that cloud layer at all?

94

00:04:26,220 --> 00:04:28,580

You could see it, yes, a little bit.

95

00:04:28,580 --> 00:04:31,980

You could see it, is it past the cloud?

96

00:04:31,980 --> 00:04:33,460

You could see a light shadow.

97

00:04:33,460 --> 00:04:34,460

Okay.

98

00:04:34,460 --> 00:04:36,500

I mean the light reflecting on the clouds.

99

00:04:36,500 --> 00:04:37,500

Right, okay.

100

00:04:37,500 --> 00:04:40,500

And you saw it at about 6.02?

101

00:04:40,500 --> 00:04:41,500

6.02.

102

00:04:41,500 --> 00:04:42,500

Okay.

103

00:04:42,500 --> 00:04:48,380

I was talking to the deputy sheriff, the dispatcher, at the six minutes after, because

104

00:04:48,380 --> 00:04:50,500

I was looking to my watch when I was talking to him.

105

00:04:50,500 --> 00:04:51,500

Okay.

106

00:04:51,500 --> 00:04:55,260

And we watched it until it disappeared and then I grabbed the phone and called them.

107

00:04:55,260 --> 00:04:57,260

All right, sir.

108

00:04:57,260 --> 00:04:58,980

In which city are you living in?

109

00:04:58,980 --> 00:04:59,980

Logan, Utah.

110

00:04:59,980 --> 00:05:00,980

Logan, okay.

111

00:05:00,980 --> 00:05:03,980

And how many witnesses to that?

112

00:05:03,980 --> 00:05:09,020

There were three of us, my wife and my brother that's living with me.

113

00:05:09,020 --> 00:05:11,580

And we're 60 years old, 62 and 60.

114

00:05:11,580 --> 00:05:12,580

Okay.

115

00:05:12,580 --> 00:05:17,660

Now do you have any estimate of the distance from you between you and that object?

116

00:05:17,660 --> 00:05:25,300

Well, from where the snow was, I'd say, airline, it would be approximately two and a half, maybe

117

00:05:25,300 --> 00:05:26,300

three miles.

118

00:05:26,300 --> 00:05:27,300

Oh, that's pretty close.

119

00:05:27,300 --> 00:05:28,300

Yeah, yes.

120

00:05:28,300 --> 00:05:32,220

It's because I know that area because we're looking, we look at it all the time from our

121

00:05:32,220 --> 00:05:34,220

patio in the summer and also winter.

122

00:05:34,220 --> 00:05:40,140

And it's been snowing here today and the clouds, it's not a snowing here at the time, but it

123

00:05:40,140 --> 00:05:42,140

overcast cloudy now.

124

00:05:42,140 --> 00:05:43,140

Okay.

125

00:05:43,140 --> 00:05:44,860

Well, we appreciate you talking to us.

126

00:05:44,860 --> 00:05:47,660

If we get any more information on this, we'll let you know about it.

127

00:05:47,660 --> 00:05:48,660

All right.

128

00:05:48,660 --> 00:05:49,660

And thank you for calling.

129

00:05:49,660 --> 00:05:50,160

Bye.
