

1

00:00:00,000 --> 00:00:07,000

I call my sheriff's department. I live out in the county and they asked me to call this number.

2

00:00:07,000 --> 00:00:17,000

There's something up in the sky around my house, over north of my house, and there's no lights, no motor sounds.

3

00:00:17,000 --> 00:00:22,000

I don't see anything. I just hear something.

4

00:00:22,000 --> 00:00:24,000

You just hear something?

5

00:00:24,000 --> 00:00:25,000

You just hear it?

6

00:00:25,000 --> 00:00:28,000

I hear something, but I don't see anything.

7

00:00:28,000 --> 00:00:41,000

It doesn't sound like a motor. It sounds like two electric wires spewing electricity, but they are up in the sky and it's moving around up there.

8

00:00:41,000 --> 00:00:47,000

I can't see it. It's a clear evening and the stars are out.

9

00:00:47,000 --> 00:00:56,000

It's a little north of the... well, it's about straight north from my place.

10

00:00:56,000 --> 00:01:05,000

I just wondered, I don't know what it is. They were already before my life. I'm 63 years old, almost, and I got 2020 here in.

11

00:01:05,000 --> 00:01:11,000

Very good site. I had my wife come out and listen to it.

12

00:01:11,000 --> 00:01:16,000

Are you local? Are you here in Houston? What am I calling to?

13

00:01:16,000 --> 00:01:18,000

You're calling in Washington.

14

00:01:18,000 --> 00:01:19,000

You're in Washington?

15

00:01:19,000 --> 00:01:20,000

Yeah.

16

00:01:20,000 --> 00:01:24,000

I would have done that if I didn't know I'm...

17

00:01:24,000 --> 00:01:29,000

Okay, we'll make this fast. What time... you see this... you see it's still out there?

18

00:01:29,000 --> 00:01:36,000

Yes, my wife's out there now. She went across. We have some neighbors. We live out in the county north of Houston.

19

00:01:36,000 --> 00:01:44,000

And she decided to go over and get our neighbors to see... let them listen to it. She's over there now.

20

00:01:44,000 --> 00:01:52,000

She went out while I started to call and to make sure it still sounded out there, she said it was.

21

00:01:52,000 --> 00:01:56,000

And so she came back and reported just as I dialed her last number.

22

00:01:56,000 --> 00:02:02,000

I've never seen a UFO. I'm not saying this is one. It is an unidentified sound.

23

00:02:02,000 --> 00:02:09,000

I read about them, but I don't think this is anything like a flying object.

24

00:02:09,000 --> 00:02:11,000

Where'd you get her phone number?

25

00:02:11,000 --> 00:02:15,000

I told you, but you missed it, I guess. The police sheriff's department.

26

00:02:15,000 --> 00:02:16,000

Sheriff's department?

27

00:02:16,000 --> 00:02:23,000

I called him and asked him to send somebody out here and listen to it a little bit before we did anything else.

28

00:02:23,000 --> 00:02:28,000

He said, now go ahead and call this number. He said, be alright. So I did.

29

00:02:28,000 --> 00:02:31,000

And I apologize if I disturb you.

30

00:02:31,000 --> 00:02:37,000

No, no, you didn't. Thanks for calling. Hey, but we'll check this out and if we get anything we'll call you back, alright?

31

00:02:37,000 --> 00:02:39,000

How are you going to do it? May I ask?

32

00:02:39,000 --> 00:02:45,000

Well, if we get anything on it, we'll get you back, but...

33

00:02:45,000 --> 00:02:48,000

Well, are you going to contact somebody here?

34

00:02:48,000 --> 00:02:51,000

Well, in case you want to know about it, what it is.

35

00:02:51,000 --> 00:02:56,000

Well, certainly I do, but I just wondered, how are you going to check it out from Washington?

36

00:02:56,000 --> 00:03:01,000

We got ways all over the United States to check it out.

37

00:03:01,000 --> 00:03:03,000

Okay. So, we'll be right this evening?

38

00:03:03,000 --> 00:03:05,000

Anytime we can.

39

00:03:05,000 --> 00:03:08,000

Well, it's going on right now.

40

00:03:08,000 --> 00:03:10,000

Okay. Bye.
