

1

00:00:00,000 --> 00:00:06,000

I want to report to you both the sighting that we had yesterday afternoon.

2

00:00:06,000 --> 00:00:07,000

Okay, we'd like to hear about it.

3

00:00:07,000 --> 00:00:13,000

Okay, we were traveling, we were on a camping trip north of Santa Barbara up at Gaviota.

4

00:00:13,000 --> 00:00:14,000

Yes.

5

00:00:14,000 --> 00:00:19,000

And it was about 3.30 in the afternoon and we can't give you the exact time because we

6

00:00:19,000 --> 00:00:25,000

never even thought to look at our watch until later but it was right around 3.30 and we

7

00:00:25,000 --> 00:00:28,000

were traveling south on 101 on our way home.

8

00:00:28,000 --> 00:00:33,000

And the visibility was really good because it was clear and windy as you know yesterday.

9

00:00:33,000 --> 00:00:39,000

And as we were traveling all of a sudden in front of us, right in front of our truck,

10

00:00:39,000 --> 00:00:44,000

up, oh it must have been about a quarter of a mile, it seemed like it might have been far

11

00:00:44,000 --> 00:00:50,000

other than that but that's what it seemed like but right above us we saw seven objects.

12

00:00:50,000 --> 00:00:57,000

And they were disc shaped, they were just like bowls, you know, one on top of each other.

13

00:00:57,000 --> 00:01:07,000

There were two on the left that looked larger and they were very, very silver and very gleaming

14

00:01:07,000 --> 00:01:12,000

and we thought possibly that the position of the sun which was kind of over my right shoulder

15

00:01:12,000 --> 00:01:18,000

as we were driving, I was in the rider's seat, the passenger's seat, might have made them

16

00:01:18,000 --> 00:01:20,000

show more silver.

17

00:01:20,000 --> 00:01:25,000

And then we immediately saw three more on the left and they were in a kind of a formation

18

00:01:25,000 --> 00:01:32,000

and they were kind of red and kind of blue and also silver.

19

00:01:32,000 --> 00:01:38,000

And then I said oh there's six of them and one appeared in the middle and then a seventh

20

00:01:38,000 --> 00:01:39,000

appeared in the middle.

21

00:01:39,000 --> 00:01:47,000

So altogether we saw seven but the two in the middle appeared after the other five.

22

00:01:47,000 --> 00:01:56,000

And they weren't traveling in any particular direction, they were just there and they were hovering

23

00:01:56,000 --> 00:02:03,000

and they were swaying, especially the two on the left, they were just swaying back and forth

24

00:02:03,000 --> 00:02:09,000

and that's why we knew they weren't planes and also they were thicker in the middle and very disc shaped.

25

00:02:09,000 --> 00:02:13,000

I mean they looked very definitely not like planes.

26

00:02:13,000 --> 00:02:14,000

Yes.

27

00:02:14,000 --> 00:02:18,000

And like I said, the visibility was great, they were right in front of us.

28

00:02:18,000 --> 00:02:26,000

It was almost unmistakable and my husband who was very skeptical says those are flying saucers.

29

00:02:26,000 --> 00:02:35,000

And then he said, grabbed the binoculars to my son and they were right in the seat in front of us

30

00:02:35,000 --> 00:02:40,000

because we had been looking at some other things on the property that we'd just gotten off of

31

00:02:40,000 --> 00:02:44,000

so we had our binoculars right in front with us although we were in a camper.

32

00:02:44,000 --> 00:02:49,000

And while my son and I were fishing around for the binoculars Chuck said forget it, they disappeared.

33

00:02:49,000 --> 00:02:52,000

And they disappeared just as suddenly as they appeared.

34

00:02:52,000 --> 00:02:56,000

They didn't fade out of sight like a plane will do as it's going off in the distance.

35

00:02:56,000 --> 00:02:57,000

Just click right off?

36

00:02:57,000 --> 00:02:59,000

Just click right like that.

37

00:02:59,000 --> 00:03:07,000

There weren't any clouds in the sky that they could have gone behind, there weren't any hills right where we were.

38

00:03:07,000 --> 00:03:12,000

And there was a carload of teenagers that was in the left lane, we were in the middle lane

39

00:03:12,000 --> 00:03:17,000

and they were pointing up, you know, and one guy was leaning up the car window and shouting

40

00:03:17,000 --> 00:03:23,000

and there was also a beacon stand on storage truck that was a little behind us and in the right lane.

41

00:03:23,000 --> 00:03:28,000

And we were trying to get his attention to see, you know, to try to get him to stop

42

00:03:28,000 --> 00:03:32,000

because we wanted to ask him if he had seen it but we couldn't get him to stop.

43

00:03:32,000 --> 00:03:36,000

But then we did stop right after the sighting.

44

00:03:36,000 --> 00:03:39,000

And my husband got out of the car with the binoculars and he looked all around

45

00:03:39,000 --> 00:03:44,000

but we never saw anything after that and the whole sighting was taken about one minute.

46

00:03:44,000 --> 00:03:46,000

Okay, now which direction were you traveling to?

47

00:03:46,000 --> 00:03:47,000

We were traveling south.

48

00:03:47,000 --> 00:03:52,000

And we were about 15 miles north of Santa Barbara.

49

00:03:52,000 --> 00:03:59,000

Okay, now, when these were two you were right, is that the way to you?

50

00:03:59,000 --> 00:04:02,000

No, they were directly, they were directly ahead of our car.

51

00:04:02,000 --> 00:04:04,000

Okay, and they just...

52

00:04:04,000 --> 00:04:09,000

There were three on the right which I would say would be a little bit right of our car

53

00:04:09,000 --> 00:04:13,000

and then two a little bit left and then the two in the middle that appeared last

54

00:04:13,000 --> 00:04:16,000

they were kind of right directly ahead of where I was sitting.

55

00:04:16,000 --> 00:04:21,000

Okay, but the first one you saw, did they just suddenly appear in front of your vision?

56

00:04:21,000 --> 00:04:22,000

Yes.

57

00:04:22,000 --> 00:04:23,000

Okay.

58

00:04:23,000 --> 00:04:25,000

And they disappeared the same way.

59

00:04:25,000 --> 00:04:26,000

Okay.

60

00:04:26,000 --> 00:04:31,000

Did these seven at any time hold any particular formation?

61

00:04:32,000 --> 00:04:35,000

Yes, they were in formation.

62

00:04:35,000 --> 00:04:39,000

There were like...

63

00:04:39,000 --> 00:04:41,000

Oh, how can I explain this?

64

00:04:41,000 --> 00:04:47,000

I've got a picture in my mind but I can't draw it for you.

65

00:04:47,000 --> 00:04:50,000

There were like...

66

00:04:50,000 --> 00:04:54,000

The two on the left were like one on top of each other.

67

00:04:54,000 --> 00:04:55,000

Yes.

68

00:04:55,000 --> 00:05:02,000

And then the three on the right, it was like one even with the top one on the left

69

00:05:02,000 --> 00:05:07,000

and then one a little farther off to the right, kind of in the middle

70

00:05:07,000 --> 00:05:15,000

and then another one down in the bottom, kind of even with the bottom one on the left.

71

00:05:15,000 --> 00:05:16,000

Can you tell what I mean?

72

00:05:16,000 --> 00:05:17,000

Yes.

73

00:05:17,000 --> 00:05:24,000

Okay, and then the six would appear in the middle and it was kind of down below the group.

74

00:05:25,000 --> 00:05:34,000

And then the seventh one that appeared was even with the one on the right that was the extreme right.

75

00:05:34,000 --> 00:05:35,000

Yes.

76

00:05:35,000 --> 00:05:45,000

So it would be like two on the top right and left and then two in the middle right and left

77

00:05:45,000 --> 00:05:49,000

and then two more right and left and then one at the bottom in the middle.

78

00:05:49,000 --> 00:05:50,000

Okay.

79

00:05:51,000 --> 00:05:56,000

Does that sound like... I mean, does that sound launchy-coer like any other sighting system?

80

00:05:56,000 --> 00:05:57,000

Yes.

81

00:05:57,000 --> 00:06:03,000

Now, the objects themselves, would you say that they were a disc form?

82

00:06:03,000 --> 00:06:06,000

Very definitely. Unmistakable.

83

00:06:06,000 --> 00:06:09,000

Do they have any protrusions or openings or lights?

84

00:06:09,000 --> 00:06:15,000

Nope, we've not seen any openings and we didn't see anything on top, just the soft to itself.

85

00:06:15,000 --> 00:06:18,000

Although it looked like they had seams in the middle.

86

00:06:18,000 --> 00:06:27,000

The two that were on the map must have been closer because we could see them planar and they were the ones that were shining silver, most of the silver can't.

87

00:06:27,000 --> 00:06:32,000

Okay, now do you have any estimate of size on those? Can you compare them with anything?

88

00:06:32,000 --> 00:06:36,000

Oh, larger than a moon.

89

00:06:39,000 --> 00:06:41,000

Larger than the full moon?

90

00:06:41,000 --> 00:06:42,000

Mm-hmm.

91

00:06:42,000 --> 00:06:43,000

Okay.

92

00:06:45,000 --> 00:06:50,000

Well, I don't know how to compare them.

93

00:06:50,000 --> 00:06:57,000

I'm sitting here looking at my basketball court, which is about... how far is that basketball court from us?

94

00:06:57,000 --> 00:06:59,000

About 30 feet.

95

00:06:59,000 --> 00:07:09,000

And I would say that, you know, from the distance where we were, they probably looked to be about that size.

96

00:07:09,000 --> 00:07:11,000

Okay.

97

00:07:11,000 --> 00:07:15,000

Any estimate of how close they were to you?

98

00:07:15,000 --> 00:07:29,000

I'm not that good at, you know, judging distance in the air because I haven't really, you know, I've taken trips on commercial airlines, but I'm not a flyer and so I can't really tell.

99

00:07:29,000 --> 00:07:34,000

But I would think probably about a quarter of a mile.

100

00:07:34,000 --> 00:07:35,000

Okay, now...

101

00:07:35,000 --> 00:07:39,000

About half a mile? I don't really know. I couldn't say that for sure.

102

00:07:39,000 --> 00:07:48,000

Did, uh, when you first saw these, they apparently appeared fairly low enough so that you didn't have to look up?

103

00:07:48,000 --> 00:08:01,000

Right. We weren't looking up. Of course, we're in a camper. It's a heavy deluxe camper and the seat is kind of high, but we weren't looking up. No, they were kind of... they were right in front of us.

104

00:08:01,000 --> 00:08:03,000

Okay.

105

00:08:03,000 --> 00:08:06,000

Did they hold that position there at all times?

106

00:08:06,000 --> 00:08:07,000

Yes.

107

00:08:07,000 --> 00:08:10,000

All the time we were observing them, except they were swaying.

108

00:08:10,000 --> 00:08:13,000

When you say sway, do you mean they were rocking?

109

00:08:13,000 --> 00:08:14,000

Rocking, yes.

110

00:08:14,000 --> 00:08:16,000

Okay, like a pendulum?

111

00:08:16,000 --> 00:08:17,000

Yeah.

112

00:08:17,000 --> 00:08:18,000

Okay.

113

00:08:18,000 --> 00:08:21,000

Kind of like a little half moon, right rock.

114

00:08:21,000 --> 00:08:23,000

Oh, right. Okay. Very good.

115

00:08:23,000 --> 00:08:28,000

And did they maintain that brightness and color and everything all during your observation?

116

00:08:28,000 --> 00:08:39,000

Um, the ones on the right, uh, changed from kind of a red, and I also saw some blue light, and then silver.

117

00:08:39,000 --> 00:08:47,000

And then the ones that appeared in the middle, they looked red when they first appeared. They had kind of a light-red or pinkish cast.

118

00:08:47,000 --> 00:08:48,000

Yes.

119

00:08:48,000 --> 00:08:57,000

And then they turned silver. But the two on the left that we saw, which looked larger than the other, so I just assumed that they were closer.

120

00:08:57,000 --> 00:09:05,000

They looked silver the whole time, and they were very shiny. So I assumed that they were closer than the others.

121

00:09:05,000 --> 00:09:08,000

Did you have any problems with the car while all this was going on?

122

00:09:08,000 --> 00:09:14,000

No, no we did not. And, you know, we just kept going. We didn't, you know, numb out or anything.

123

00:09:14,000 --> 00:09:15,000

Right.

124

00:09:15,000 --> 00:09:23,000

And we, um, the car kept going, and, you know, there were other cars going on the freeway too.

125

00:09:23,000 --> 00:09:26,000

Anyone in the camper experience anything unusual?

126

00:09:26,000 --> 00:09:27,000

Okay.

127

00:09:27,000 --> 00:09:31,000

We were just, you know, very excited, and, um...

128

00:09:31,000 --> 00:09:34,000

And you saw others watching this too?

129

00:09:34,000 --> 00:09:35,000

Pardon me?

130

00:09:35,000 --> 00:09:38,000

You saw others and other vehicles looking at these too?

131

00:09:38,000 --> 00:09:49,000

Yeah, we saw some teenagers in the car on the left lane that we're looking, and, and, and then, um, they kind of came up around us fast and, and pointed.

132

00:09:49,000 --> 00:10:01,000

But the guy in the beacon span and storage truck, he was behind us, and we tried to get his attention as he came around us on the right lane later to, to see if, you know, if he had seen him.

133

00:10:01,000 --> 00:10:12,000

And, and we pointed up and, you know, kind of had a question, look on our faces, to see if he could give us any indication that he had seen him, and he, you know, just kept looking straight ahead.

134

00:10:12,000 --> 00:10:13,000

So...

135

00:10:13,000 --> 00:10:15,000

Okay, now where are these objects directly over the freeway?

136

00:10:15,000 --> 00:10:18,000

Um...

137

00:10:19,000 --> 00:10:30,000

The two on the left, I would say, were kind of left of the freeway, and then the three on the right were, um, probably right over the water, because we were driving right along the beacon.

138

00:10:30,000 --> 00:10:31,000

Right.

139

00:10:31,000 --> 00:10:33,000

And then the two that appeared in the middle, I would say, would be over the freeway.

140

00:10:33,000 --> 00:10:34,000

Okay.

141

00:10:37,000 --> 00:10:43,000

And when they left, you didn't see anything remaining in the sky? No smoke, no vapor, anything like that?

142

00:10:43,000 --> 00:10:44,000

Uh-huh.

143

00:10:44,000 --> 00:10:45,000

Okay.

144

00:10:45,000 --> 00:11:01,000

In fact, that was the first thing my husband looked for was a vapor trail, and, and he had been in the Air Force, and, uh, and he said they're not yet, there's no, there's no vapor trail at all, and then he says they're too fat in the middle, and then, and then, you know, they were definitely saucer-shaped.

145

00:11:01,000 --> 00:11:02,000

Right.

146

00:11:03,000 --> 00:11:08,000

I called the Santa Barbara Sheriff's station because I wanted to know if there had been any other sightings, and they gave me your number.

147

00:11:08,000 --> 00:11:09,000

Uh-huh.

148

00:11:09,000 --> 00:11:11,000

And that was yesterday, right?

149

00:11:11,000 --> 00:11:12,000

Yes, sir.

150

00:11:12,000 --> 00:11:13,000

About 3-30.

151

00:11:13,000 --> 00:11:14,000

Have you had any other calls?

152

00:11:14,000 --> 00:11:15,000

No, not yet.

153

00:11:16,000 --> 00:11:17,000

How was the weather?

154

00:11:18,000 --> 00:11:19,000

Very clear.

155

00:11:19,000 --> 00:11:22,000

It was windy, but there was, there wasn't a cloud in the sky.

156

00:11:22,000 --> 00:11:23,000

Okay.

157

00:11:23,000 --> 00:11:26,000

It was just really, uh, really good visibility.

158

00:11:28,000 --> 00:11:32,000

Okay, did you by chance have any dreams about this last night?

159

00:11:32,000 --> 00:11:33,000

No.

160

00:11:33,000 --> 00:11:34,000

Anyone else in the family?

161

00:11:34,000 --> 00:11:42,000

No, but I, I had a dream Thursday night, that I was, that I was, I dreamed I was talking to my sister on the telephone and then,

162

00:11:42,000 --> 00:11:52,000

I told her that we had seen some UFOs, and, and then on the way up to Santa Barbara, I told my husband and, and my son that we were going to see some UFOs this weekend.

163

00:11:52,000 --> 00:11:55,000

But I quite often have psychic dreams anyway.

164

00:11:55,000 --> 00:11:56,000

Let's see.

165

00:11:56,000 --> 00:12:03,000

But the thing that was odd was that, uh, we don't know why we left at the time we did, because normally when we go up there, we leave later.

166

00:12:03,000 --> 00:12:05,000

We were all having a good time.

167

00:12:05,000 --> 00:12:11,000

There wasn't a reason for us to leave at that particular time, but we all seemed to be in a hurry to leave right at that time.

168

00:12:11,000 --> 00:12:21,000

And, uh, also we were delayed because some, uh, uh, our table and chairs that we had on our top rack, uh, started slipping off in the wind.

169

00:12:21,000 --> 00:12:30,000

And so, uh, we, we decided that we would get, uh, get up, we would stop the car, I mean the camper and get up and take the equipment down and put it back in the back.

170

00:12:31,000 --> 00:12:38,000

Now, if we hadn't done all that in time, exactly as we did, uh, we wouldn't have seen them.

171

00:12:38,000 --> 00:12:41,000

Have you seen anything like this or any UFOs before?

172

00:12:41,000 --> 00:12:56,000

One at a time, uh, my sister and, and I, and our two children were traveling from, from North Dakota late at night and we saw what we thought looked like three, uh, UFOs, uh, at the California Nevada border.

173

00:12:56,000 --> 00:13:04,000

But it was at night and you know how lights, uh, play tricks with you, especially if your imagination's, uh, working, you know.

174

00:13:04,000 --> 00:13:14,000

And, uh, we, uh, we do, you know, some sky watching and everything and we see lights sometimes that look like they could be, but, uh, you know, nothing definite.

175

00:13:14,000 --> 00:13:17,000

Okay. How long have you been psychically inclined?

176

00:13:17,000 --> 00:13:21,000

Uh, all my life, probably.

177

00:13:21,000 --> 00:13:23,000

Okay. Anyone else in the family have that?

178

00:13:23,000 --> 00:13:25,000

Yes, uh, both my children.

179

00:13:25,000 --> 00:13:30,000

Okay.

180

00:13:30,000 --> 00:13:33,000

Well, this is great. We sure appreciate this report.

181

00:13:33,000 --> 00:13:34,000

Now, if we...

182

00:13:34,000 --> 00:13:44,000

I'm also a school teacher and, uh, I told all my children about it and, uh, um, and most of the teachers on the staff, nearly everyone believed, uh, my story.

183

00:13:44,000 --> 00:13:48,000

There wasn't anybody that, you know, called me a liar or anything.

184

00:13:48,000 --> 00:13:51,000

Uh, new generation is that way. They're very inclined.

185

00:13:51,000 --> 00:13:52,000

Yeah.

186

00:13:52,000 --> 00:13:57,000

If we could get a, uh, investigator into interview, would that be permissible?

187

00:13:57,000 --> 00:14:00,000

Yes, and we'd be glad to submit to a light detector test.

188

00:14:00,000 --> 00:14:02,000

Oh, that's not necessary.

189

00:14:02,000 --> 00:14:03,000

Whatever.

190

00:14:03,000 --> 00:14:06,000

But I would be interested in knowing if anyone else sighted them.

191

00:14:06,000 --> 00:14:12,000

Um, you know, I would, if, uh, if you could call me a collector, whatever, if you could get any more sightings in that area.

192

00:14:12,000 --> 00:14:15,000

Well, if we get anything else on it, we'll let you know definitely.

193

00:14:15,000 --> 00:14:16,000

Uh-huh.

194

00:14:16,000 --> 00:14:20,000

Because people really like to have some kind of confirmation on their sightings.

195

00:14:20,000 --> 00:14:21,000

Right.

196

00:14:21,000 --> 00:14:23,000

Well, we sure appreciate this report.

197

00:14:23,000 --> 00:14:26,000

And like I said, if we get anything more on it while you hear from us.

198

00:14:26,000 --> 00:14:27,000

Okay. Very good.

199

00:14:27,000 --> 00:14:28,000

Thank you very much.

200

00:14:28,000 --> 00:14:29,000

Thank you.

201

00:14:29,000 --> 00:14:30,000

Bye.

202

00:14:30,000 --> 00:14:31,000

Bye-bye.
