

1

00:00:00,000 --> 00:00:07,000

Hello. Yes. Yes, this is Cluce County Sheriff's Office in Calusa, California. Yes, ma'am.

2

00:00:07,000 --> 00:00:14,000

And what am I calling? Seattle Washington. Seattle Washington. Yes. Okay, we've got a reporting in the UFO. You want it? Yes, ma'am.

3

00:00:14,000 --> 00:00:21,000

Okay, approximately 3.23 a.m. this morning.

4

00:00:22,000 --> 00:00:26,000

We're out watching their goats because they've had a lot of thefts. Uh-huh.

5

00:00:26,000 --> 00:00:35,000

And they're kind of staking the place out and they called in what they believe, very seriously, to be a UFO.

6

00:00:35,000 --> 00:00:42,000

And it's described as a, it was about a quarter of a mile high in the air and it was headed northeast.

7

00:00:42,000 --> 00:00:44,000

And this was one object?

8

00:00:44,000 --> 00:00:49,000

And one object and they said it was traveling approximately a thousand miles per hour.

9

00:00:49,000 --> 00:00:57,000

And they only seen it for about three seconds. And it was oblonged with a bright white light.

10

00:00:57,000 --> 00:01:06,000

And then as it passed over and it faded to a light blue. And then as it went by, you know, it was just a couple of seconds,

11

00:01:06,000 --> 00:01:15,000

and as it went by, it appeared as if a real bright blue light behind a bunch of little windows.

12

00:01:15,000 --> 00:01:18,000

Okay.

13

00:01:18,000 --> 00:01:22,000

And it did make a sound. No sound at all.

14

00:01:22,000 --> 00:01:24,000

What time did that occur again?

15

00:01:24,000 --> 00:01:27,000

Okay, approximately 3.23 this morning.

16

00:01:27,000 --> 00:01:30,000

3.23, okay.

17

00:01:30,000 --> 00:01:33,000

It was approximately 35, 40 feet across.

18

00:01:33,000 --> 00:01:36,000

Okay.

19

00:01:36,000 --> 00:01:39,000

Did you have their telephone number?

20

00:01:39,000 --> 00:01:44,000

Yeah. Okay, I told them that I would, you know, that they would, that you guys would probably be calling them.

21

00:01:44,000 --> 00:01:50,000

And so they said that's fine. And they were out guarding their goats.

22

00:01:50,000 --> 00:01:52,000

Okay, well we sure appreciate this.

23

00:01:52,000 --> 00:01:53,000

Okay.

24

00:01:53,000 --> 00:01:54,000

Thank you.

25

00:01:54,000 --> 00:01:55,000

We'll be calling them back.

26

00:01:55,000 --> 00:01:56,000

Yes, ma'am.

27

00:01:56,000 --> 00:01:57,000

Okay.

28

00:01:57,000 --> 00:01:58,000

Thank you very much.

29

00:01:58,000 --> 00:02:00,000

We understand you saw something in the sky early this morning.

30

00:02:00,000 --> 00:02:02,000

Yes, we did.

31

00:02:02,000 --> 00:02:07,000

We were out in the country about 3.23 this morning.

32

00:02:07,000 --> 00:02:10,000

Okay, I wonder if we could get a description right from the beginning.

33

00:02:10,000 --> 00:02:14,000

Well, let me have them tell you, because he's the one that spotted it first.

34

00:02:14,000 --> 00:02:16,000

Okay.

35

00:02:16,000 --> 00:02:18,000

Hello.

36

00:02:18,000 --> 00:02:21,000

Yes, sir, this is the UFO Reporting Center in Washington.

37

00:02:21,000 --> 00:02:22,000

Yeah.

38

00:02:22,000 --> 00:02:25,000

I wonder if we could get a description of exactly what you saw this morning.

39

00:02:25,000 --> 00:02:26,000

All right.

40

00:02:26,000 --> 00:02:32,000

Well, we were, my wife and I were sitting out, we've had trouble with the guy stealing goats.

41

00:02:32,000 --> 00:02:33,000

Yes.

42

00:02:33,000 --> 00:02:36,000

So we're sitting out there watching to try and catch them.

43

00:02:36,000 --> 00:02:39,000

And my boy runs one shift, we run another.

44

00:02:39,000 --> 00:02:55,000

Well, anyhow, I looked up and I was looking toward the goat pens and I noticed kind of almost a white light coming towards me going northeast, traveling.

45

00:02:55,000 --> 00:02:56,000

Yes.

46

00:02:56,000 --> 00:02:59,000

And it was traveling fast, real fast.

47

00:02:59,000 --> 00:03:06,000

And so I told my wife, look, look, you know, and so she looked up there and she's seen it all quite a ways too.

48

00:03:06,000 --> 00:03:07,000

She could see it.

49

00:03:07,000 --> 00:03:12,000

And then when it got up about even with us, it didn't turn or anything.

50

00:03:12,000 --> 00:03:18,000

And it was about, I'd say between a quarter and a half a mile away.

51

00:03:18,000 --> 00:03:23,000

And when it got up even with us, then there was a blue, a light blue light.

52

00:03:23,000 --> 00:03:27,000

And you could see the form of the thing.

53

00:03:27,000 --> 00:03:30,000

It was kind of oval.

54

00:03:30,000 --> 00:03:32,000

Well, it's hard to explain.

55

00:03:32,000 --> 00:03:37,000

It was even shape, but it was thicker in the center than it was on the outside.

56

00:03:37,000 --> 00:03:38,000

Yes.

57

00:03:38,000 --> 00:03:46,000

And it looked like little blue windows, little blue light shining through windows about the center of it.

58

00:03:46,000 --> 00:03:49,000

And I'm not a sound.

59

00:03:49,000 --> 00:03:53,000

Okay. Now you could actually see the fuselage of an object itself.

60

00:03:53,000 --> 00:03:56,000

I could see the black outline of it.

61

00:03:56,000 --> 00:03:58,000

Yeah, I don't know if my wife could.

62

00:03:58,000 --> 00:03:59,000

Uh-huh.

63

00:03:59,000 --> 00:04:07,000

She could see the lights and all, but she couldn't see the outline of the object, you know, itself.

64

00:04:07,000 --> 00:04:09,000

I could see the outline of it.

65

00:04:09,000 --> 00:04:13,000

Okay. Now you say it was thicker in the center than at the ends.

66

00:04:13,000 --> 00:04:14,000

Oh, yes.

67

00:04:14,000 --> 00:04:17,000

But would this be some form of a disc shape?

68

00:04:17,000 --> 00:04:23,000

It looked like it could have been two plates together, more or less, to explain it over the phone.

69

00:04:23,000 --> 00:04:24,000

Okay, and tapering on the ends.

70

00:04:24,000 --> 00:04:25,000

Right.

71

00:04:25,000 --> 00:04:29,000

Okay, did these little blue lights, were they around the circumference of the eye?

72

00:04:29,000 --> 00:04:33,000

They were right around the middle, as near as I could tell about the center of it.

73

00:04:33,000 --> 00:04:34,000

Uh-huh.

74

00:04:34,000 --> 00:04:36,000

And they went all the way around that you could see.

75

00:04:36,000 --> 00:04:39,000

When it got sideways, they looked clear across it.

76

00:04:39,000 --> 00:04:44,000

I could see it looked like little windows with a blue light in behind it.

77

00:04:44,000 --> 00:04:45,000

Okay.

78

00:04:45,000 --> 00:04:49,000

Now, which direction were you looking when you first saw that light?

79

00:04:49,000 --> 00:04:54,000

I was looking, uh, let's see, it was going northeast.

80

00:04:54,000 --> 00:04:56,000

I was looking south.

81

00:04:56,000 --> 00:04:57,000

Do south.

82

00:04:57,000 --> 00:04:58,000

Right.

83

00:04:58,000 --> 00:05:01,000

And this thing was coming up from the southwest then?

84

00:05:01,000 --> 00:05:04,000

Yes, it came from the south and going north.

85

00:05:04,000 --> 00:05:05,000

Okay.

86

00:05:05,000 --> 00:05:07,000

The northeast, I should say.

87

00:05:07,000 --> 00:05:08,000

Okay.

88

00:05:08,000 --> 00:05:11,000

Now, did it come close to coming actually overhead?

89

00:05:11,000 --> 00:05:15,000

No, it was to the side of me, about a quarter of a mile.

90

00:05:15,000 --> 00:05:19,000

And that would still be to the south of you or to the southeast of you?

91

00:05:19,000 --> 00:05:21,000

It would be southeast, yeah.

92

00:05:21,000 --> 00:05:22,000

Okay.

93

00:05:22,000 --> 00:05:29,000

There was a little Piper Cub came over about, uh, I'll say an hour earlier or an hour later,

94

00:05:29,000 --> 00:05:30,000

was it, later?

95

00:05:30,000 --> 00:05:31,000

Was it earlier?

96

00:05:31,000 --> 00:05:32,000

Yeah.

97

00:05:32,000 --> 00:05:37,000

There was a little Piper Cub come over earlier, and I could see the lights blinking on it,

98

00:05:37,000 --> 00:05:38,000

and I could identify it easy.

99

00:05:38,000 --> 00:05:40,000

And that thing was closer.

100

00:05:40,000 --> 00:05:43,000

It was closer than the plane was.

101

00:05:43,000 --> 00:05:44,000

Uh-huh.

102

00:05:44,000 --> 00:05:45,000

So it was fairly close.

103

00:05:45,000 --> 00:05:50,000

Okay, now, as it passed over your area, did you notice any change of speed?

104

00:05:50,000 --> 00:05:53,000

No, it was just traveling enormously fast.

105

00:05:53,000 --> 00:05:57,000

And did you watch this until it went out of sight in the distance?

106

00:05:57,000 --> 00:06:02,000

I tried to watch it, but after it, there was some trees in the way, and when it got behind

107

00:06:02,000 --> 00:06:05,000

those trees, then I turned and looked and I never could see it again.

108

00:06:05,000 --> 00:06:06,000

Okay.

109

00:06:07,000 --> 00:06:10,000

It was moving awful fast.

110

00:06:10,000 --> 00:06:13,000

Do you have any estimate of altitude?

111

00:06:13,000 --> 00:06:14,000

Uh, yes.

112

00:06:14,000 --> 00:06:20,000

I can guess pretty good on speeds and altitude and stuff like that.

113

00:06:20,000 --> 00:06:22,000

Okay, how high would you say it was off the ground?

114

00:06:22,000 --> 00:06:29,000

I would say, uh, it was probably a little over a quarter of a mile, but not a half a mile.

115

00:06:29,000 --> 00:06:30,000

Okay.

116

00:06:30,000 --> 00:06:33,000

Now, how about distance from you?

117

00:06:33,000 --> 00:06:39,000

Distance from me, it was, uh, about a half a mile.

118

00:06:39,000 --> 00:06:40,000

Okay.

119

00:06:40,000 --> 00:06:41,000

Any estimate of size?

120

00:06:41,000 --> 00:06:43,000

Can you compare it with anything?

121

00:06:43,000 --> 00:06:49,000

Uh, well, with airplane and comparing it in an airplane, it looked to be about twice

122

00:06:49,000 --> 00:06:51,000

the size of a Piper Cub.

123

00:06:51,000 --> 00:06:52,000

Okay.

124

00:06:52,000 --> 00:06:55,000

Or maybe a little larger than that.

125

00:06:55,000 --> 00:06:59,000

Okay, now, you didn't see any other lights on it other than the blue?

126

00:06:59,000 --> 00:07:03,000

When it faced us coming to us, the light was almost white.

127

00:07:03,000 --> 00:07:04,000

Okay.

128

00:07:04,000 --> 00:07:07,000

Then when it got up even with us, it was blue.

129

00:07:07,000 --> 00:07:09,000

Okay, all blue.

130

00:07:09,000 --> 00:07:14,000

In other words, was this object, other than those blue lights, was the object surrounded

131

00:07:14,000 --> 00:07:16,000

by any kind of a halo of light?

132

00:07:16,000 --> 00:07:20,000

No, no other lights on it except the blue lights when it turned sideways with me.

133

00:07:20,000 --> 00:07:22,000

Then all you could see was that dark hulk.

134

00:07:22,000 --> 00:07:23,000

That's all.

135

00:07:23,000 --> 00:07:26,000

Just a dark outline of it and then the blue lights around it.

136

00:07:26,000 --> 00:07:27,000

Okay.

137

00:07:27,000 --> 00:07:28,000

About the center.

138

00:07:28,000 --> 00:07:31,000

And did you hear a sound?

139

00:07:31,000 --> 00:07:32,000

No sound.

140

00:07:32,000 --> 00:07:37,000

Okay, did this have any effect on your farm animals?

141

00:07:37,000 --> 00:07:41,000

I couldn't see the farm animals from where I was.

142

00:07:41,000 --> 00:07:43,000

I was just watching the area.

143

00:07:43,000 --> 00:07:50,000

I didn't get close enough and it was at 3, 23 this morning.

144

00:07:50,000 --> 00:07:51,000

Right.

145

00:07:51,000 --> 00:07:52,000

And it was dark.

146

00:07:52,000 --> 00:07:57,000

So we're just watching for somebody to drive in and try to steal the goats, see?

147

00:07:57,000 --> 00:07:58,000

Yes.

148

00:07:58,000 --> 00:08:01,000

They've stole them twice already and so we just sit back and watch for lights.

149

00:08:01,000 --> 00:08:02,000

So we're back.

150

00:08:02,000 --> 00:08:07,000

I was probably pretty far from the goats as I was the object that went over.

151

00:08:07,000 --> 00:08:08,000

Okay.

152

00:08:08,000 --> 00:08:18,000

But it definitely was something like that because it didn't make any sound and it was traveling.

153

00:08:18,000 --> 00:08:24,000

I've been where jets went over at Sound Barrier, break them into Sound Barrier and it was traveling

154

00:08:24,000 --> 00:08:26,000

almost twice that fast.

155

00:08:26,000 --> 00:08:28,000

It was going enormously fast.

156

00:08:28,000 --> 00:08:29,000

Okay.

157

00:08:29,000 --> 00:08:30,000

How are the sky conditions?

158

00:08:30,000 --> 00:08:31,000

Clear.

159

00:08:31,000 --> 00:08:32,000

Clear at the time.

160

00:08:32,000 --> 00:08:33,000

Clear.

161

00:08:33,000 --> 00:08:34,000

No fog, no clouds, no nothing.

162

00:08:34,000 --> 00:08:36,000

The stars were shining all over.

163

00:08:36,000 --> 00:08:37,000

Okay.

164

00:08:37,000 --> 00:08:43,000

When you first saw that light and it was heading northeast, did it maintain a straight course?

165

00:08:43,000 --> 00:08:44,000

Yes.

166

00:08:44,000 --> 00:08:45,000

Okay.

167

00:08:45,000 --> 00:08:46,000

It didn't vary at all.

168

00:08:46,000 --> 00:08:48,000

It looked like it just as straight as a shot.

169

00:08:48,000 --> 00:08:53,000

Did it appear to you as though it was traveling in a horizontal flight path?

170

00:08:53,000 --> 00:08:55,000

You mean up or down?

171

00:08:55,000 --> 00:08:56,000

A level.

172

00:08:56,000 --> 00:08:58,000

It was going level, yes.

173

00:08:58,000 --> 00:08:59,000

Okay.

174

00:08:59,000 --> 00:09:04,000

And did anything else occur after this went out of sight?

175

00:09:04,000 --> 00:09:06,000

Did anything strange occur in the area?

176

00:09:06,000 --> 00:09:07,000

No.

177

00:09:07,000 --> 00:09:10,000

I kept looking and everything and I had my window down in the truck.

178

00:09:10,000 --> 00:09:12,000

I wasn't looking through a window or anything.

179

00:09:12,000 --> 00:09:14,000

I was looking right out at it.

180

00:09:14,000 --> 00:09:17,000

And I didn't hear or see anything after that.

181

00:09:17,000 --> 00:09:18,000

Okay.

182

00:09:18,000 --> 00:09:28,000

Did this light as it was approaching you appear to light up the sky or light up the sky?

183

00:09:28,000 --> 00:09:29,000

No.

184

00:09:29,000 --> 00:09:33,000

It didn't shine like a beam or anything like that.

185

00:09:33,000 --> 00:09:35,000

It was just like a white light.

186

00:09:35,000 --> 00:09:39,000

But it didn't throw any light out from it.

187

00:09:39,000 --> 00:09:40,000

Okay.

188

00:09:40,000 --> 00:09:44,000

So about 3.23.

189

00:09:44,000 --> 00:09:45,000

Yes.

190

00:09:45,000 --> 00:09:46,000

It was that time.

191

00:09:46,000 --> 00:09:47,000

Not about.

192

00:09:47,000 --> 00:09:48,000

Exactly.

193

00:09:48,000 --> 00:09:49,000

Okay.

194

00:09:49,000 --> 00:09:56,000

And we'll be out there again in the morning if it comes by I'll see it again.

195

00:09:56,000 --> 00:09:59,000

We're going to be out there every night because we're trying to catch these guys.

196

00:09:59,000 --> 00:10:02,000

They've got away with about \$1,000 worth of goats in a month.

197

00:10:02,000 --> 00:10:05,000

I'd just like to know if anybody else seen it but my wife and I both seen it.

198

00:10:05,000 --> 00:10:08,000

We know for sure that it went by there.

199

00:10:08,000 --> 00:10:09,000

Okay.

200

00:10:09,000 --> 00:10:12,000

Now when, is this was coming in from the Southwest?

201

00:10:12,000 --> 00:10:16,000

Would you say that it was coming in possibly from the ocean area?

202

00:10:16,000 --> 00:10:24,000

Well, as fast as it was going I would say it had to because you see we're not so far from the ocean here.

203

00:10:24,000 --> 00:10:28,000

And as fast as it was going I don't think it could turn in that distance.

204

00:10:28,000 --> 00:10:29,000

Right.

205

00:10:29,000 --> 00:10:34,000

Unless it stopped or unless it was stopped and just took off and could gain that much speed.

206

00:10:34,000 --> 00:10:35,000

Uh-huh.

207

00:10:35,000 --> 00:10:38,000

But it definitely came from that way.

208

00:10:38,000 --> 00:10:39,000

Okay.

209

00:10:39,000 --> 00:10:41,000

All right sir, thank you again.

210

00:10:41,000 --> 00:10:42,000

All righty.

211

00:10:42,000 --> 00:10:43,000

Good night.

212

00:10:43,000 --> 00:10:44,000

Okay, thanks a lot.

213

00:10:44,000 --> 00:10:45,000

Goodbye.
