

1

00:00:00,000 --> 00:00:03,000

You have a reporting center?

2

00:00:03,000 --> 00:00:05,000

Yes, this is Mrs. Cranremone.

3

00:00:05,000 --> 00:00:06,000

Yes.

4

00:00:06,000 --> 00:00:11,000

My two of my daughters and I were just here in our dining room and our dogs were outside

5

00:00:11,000 --> 00:00:13,000

and they started really raising a ruckus.

6

00:00:13,000 --> 00:00:19,000

So we happened to look outside and our whole backyard was just a real bright, pinky shred,

7

00:00:19,000 --> 00:00:20,000

I guess you would say.

8

00:00:20,000 --> 00:00:29,000

And so I went outside to see what it was and going off towards the southeast, there was

9

00:00:29,000 --> 00:00:34,000

this object and all I could see was the red and then it kind of turned and went south

10

00:00:34,000 --> 00:00:40,000

in front of the moon where I could see it and it was a really weird looking object and then

11

00:00:40,000 --> 00:00:45,000

it just disappeared and it looked like there was something shooting down out of it as it

12

00:00:45,000 --> 00:00:49,000

was going straight inside of me.

13

00:00:49,000 --> 00:00:52,000

Okay, about what time is this fair?

14

00:00:52,000 --> 00:00:54,000

Just about three or four minutes ago.

15

00:00:54,000 --> 00:00:55,000

Okay.

16

00:00:55,000 --> 00:00:57,000

How did it happen?

17

00:00:57,000 --> 00:00:58,000

Did you hear any sound?

18

00:00:58,000 --> 00:01:01,000

No sound at all, just our dogs barking.

19

00:01:01,000 --> 00:01:03,000

This is what attracted you to the outdoors?

20

00:01:03,000 --> 00:01:08,000

Right, my oldest daughter looked outside and about the same time I did too and she said

21

00:01:08,000 --> 00:01:16,000

something and I was just kind of shocked for a second and I jumped up and ran outside and

22

00:01:16,000 --> 00:01:19,000

it had gone by then and it was going in a southeastly direction.

23

00:01:19,000 --> 00:01:22,000

Okay, which direction were you looking at the time?

24

00:01:22,000 --> 00:01:25,000

Well, I was looking west out my window.

25

00:01:25,000 --> 00:01:26,000

Okay.

26

00:01:26,000 --> 00:01:31,000

Now, could you give me any estimate of altitude?

27

00:01:31,000 --> 00:01:34,000

Was this in low or high?

28

00:01:34,000 --> 00:01:36,000

It seemed pretty low.

29

00:01:36,000 --> 00:01:39,000

About what our small airplane would fly.

30

00:01:39,000 --> 00:01:40,000

Okay.

31

00:01:40,000 --> 00:01:45,000

Now, you said the outdoors was completely eliminated?

32

00:01:45,000 --> 00:01:50,000

Right, the whole backyard was just a pretty color.

33

00:01:50,000 --> 00:01:52,000

I mean, it was a pinkish red.

34

00:01:52,000 --> 00:01:55,000

It was just like somebody had turned on a floodlight or something.

35

00:01:55,000 --> 00:01:58,000

The whole thing was just completely lit up.

36

00:01:58,000 --> 00:02:00,000

Okay, was this object traveling?

37

00:02:00,000 --> 00:02:04,000

Was it in a position where it would have passed directly overhead?

38

00:02:04,000 --> 00:02:05,000

Right.

39

00:02:05,000 --> 00:02:06,000

Okay.

40

00:02:06,000 --> 00:02:11,000

And it must have been moving pretty fast because from the time I got out there until the time

41

00:02:11,000 --> 00:02:16,000

I finally saw it, which was just a matter of a second, it was quite a ways over.

42

00:02:16,000 --> 00:02:20,000

It looked like all it might have been maybe five or ten miles away from us.

43

00:02:20,000 --> 00:02:21,000

Okay.

44

00:02:21,000 --> 00:02:26,000

Then you probably watched it for how long?

45

00:02:26,000 --> 00:02:31,000

Maybe a couple of seconds before it finally turned to a more southern direction and then

46

00:02:31,000 --> 00:02:32,000

it just kind of disappeared.

47

00:02:32,000 --> 00:02:34,000

I couldn't see it in your own view.

48

00:02:34,000 --> 00:02:35,000

Okay.

49

00:02:35,000 --> 00:02:38,000

Now, did that object have any defined shape to it?

50

00:02:38,000 --> 00:02:42,000

I couldn't really tell because it was dark and the only thing I could see was when it

51

00:02:42,000 --> 00:02:48,000

was silhouetted against the moon and it had turned then and all I could see was this red,

52

00:02:48,000 --> 00:02:50,000

you know, down below it.

53

00:02:50,000 --> 00:02:55,000

And it looked like it was maybe a circle shape.

54

00:02:55,000 --> 00:03:00,000

I could guess you would say because it was light or something on the bottom.

55

00:03:00,000 --> 00:03:04,000

It looked like it might have probably been on the bottom because there was something red

56

00:03:04,000 --> 00:03:07,000

shooting out at the bottom of the object.

57

00:03:07,000 --> 00:03:11,000

Now, when you say something shooting out, would this be something as though it was leaving

58

00:03:11,000 --> 00:03:15,000

the object or would this be a shaft or rays of light?

59

00:03:15,000 --> 00:03:17,000

Well, it could have been rays of light.

60

00:03:17,000 --> 00:03:21,000

It looked like it was, how can I explain?

61

00:03:21,000 --> 00:03:23,000

You don't want a sparkler.

62

00:03:23,000 --> 00:03:24,000

Yes.

63

00:03:24,000 --> 00:03:28,000

You know how when you shake a sparkler and a fire pops off?

64

00:03:28,000 --> 00:03:29,000

That's what it looked like.

65

00:03:29,000 --> 00:03:30,000

Okay.

66

00:03:30,000 --> 00:03:33,000

Okay, any estimate of size?

67

00:03:33,000 --> 00:03:38,000

I couldn't really say because, like I said, I couldn't really see it that good.

68

00:03:38,000 --> 00:03:41,000

I just think I'd gotten outside when I first saw that.

69

00:03:41,000 --> 00:03:43,000

Did the dogs calm down after this disappeared?

70

00:03:43,000 --> 00:03:44,000

Yeah.

71

00:03:44,000 --> 00:03:45,000

Okay.

72

00:03:46,000 --> 00:03:48,000

Okay, and how many witnesses?

73

00:03:48,000 --> 00:03:49,000

Three.

74

00:03:49,000 --> 00:03:51,000

Three, okay.

75

00:03:53,000 --> 00:03:56,000

Okay, well, we sure appreciate this report and we're going to check it out right away.

76

00:03:56,000 --> 00:03:59,000

And if we come up with any additional information, we'll get back to you and let you know.

77

00:03:59,000 --> 00:04:00,000

Oh, I hope you do.

78

00:04:00,000 --> 00:04:01,000

Thank you very much.

79

00:04:01,000 --> 00:04:02,000

Okay, thank you.

80

00:04:02,000 --> 00:04:03,000

Bye-bye.
