

1

00:00:00,000 --> 00:00:07,000

I saw a UFO and I reported it to the town marshal here and he also saw it in one other

2

00:00:07,000 --> 00:00:08,000

person.

3

00:00:08,000 --> 00:00:11,000

Okay, would you like to describe what you saw?

4

00:00:11,000 --> 00:00:17,000

Yes, it was, I couldn't really tell how big it was but as far as big it was, well the

5

00:00:17,000 --> 00:00:21,000

top of it was fairly dome shaped, pretty round.

6

00:00:21,000 --> 00:00:22,000

Uh huh.

7

00:00:22,000 --> 00:00:26,000

And the bottom of it was round but it was flatter than the top part.

8

00:00:26,000 --> 00:00:33,000

It was kind of flattened out at the bottom and it had a red light that seemed to stay

9

00:00:33,000 --> 00:00:37,000

stationary on the back part and a white light that seemed to be towards the front somewhere.

10

00:00:37,000 --> 00:00:47,000

And it had a noise, kind of like a chip but it was a lot lighter and it made several slow

11

00:00:47,000 --> 00:00:49,000

things around the town.

12

00:00:49,000 --> 00:00:52,000

Okay, but what time did you spot that?

13

00:00:52,000 --> 00:00:54,000

It's been about 30 minutes ago.

14

00:00:54,000 --> 00:00:55,000

Okay.

15

00:00:55,000 --> 00:00:59,000

Would you like to talk to the town marshal?

16

00:00:59,000 --> 00:01:02,000

Okay, and who saw it the longest?

17

00:01:02,000 --> 00:01:05,000

Uh, me and another boy saw it the same length of time.

18

00:01:05,000 --> 00:01:12,000

Uh, incidentally I saw it, I saw the sun, it go by the sun and I saw the sun, I mean the

19

00:01:12,000 --> 00:01:18,000

moon and the moon being channeled and sort of, you know, kind of giving away its shape.

20

00:01:18,000 --> 00:01:21,000

Okay, now was this thing on the move, was it moving?

21

00:01:21,000 --> 00:01:28,000

Well, when we first saw it it was stationary over the town or maybe toward the back near

22

00:01:28,000 --> 00:01:34,000

the end of the town and it was stationary there and as we looked at it for a while we

23

00:01:34,000 --> 00:01:39,000

could see it starting to move, you know, and then it made several things around the town

24

00:01:39,000 --> 00:01:46,000

or not in any direction or any pattern but just here and there, you know, and then it

25

00:01:46,000 --> 00:01:48,000

slowly went off.

26

00:01:48,000 --> 00:01:51,000

Okay, when it went away which direction did it go?

27

00:01:51,000 --> 00:01:54,000

It went, what direction did it go?

28

00:01:54,000 --> 00:01:57,000

South-east.

29

00:01:57,000 --> 00:02:00,000

Okay.

30

00:02:00,000 --> 00:02:05,000

And it just moved more or less erratically around the town area?

31

00:02:05,000 --> 00:02:08,000

In no particular place.

32

00:02:08,000 --> 00:02:12,000

Okay, do you have any estimate of altitude?

33

00:02:12,000 --> 00:02:19,000

I'm not very good on altitude but it wasn't very high, it was lower than what a low-flying plane

34

00:02:19,000 --> 00:02:21,000

would fly.

35

00:02:21,000 --> 00:02:26,000

Okay, you could definitely make out an object.

36

00:02:26,000 --> 00:02:28,000

I can definitely make out the shape of it here.

37

00:02:28,000 --> 00:02:32,000

Right, okay.

38

00:02:32,000 --> 00:02:35,000

Do you have any estimate as to how close it got to you?

39

00:02:35,000 --> 00:02:38,000

To me, how close would you say?

40

00:02:38,000 --> 00:02:41,000

Oh, always funny.

41

00:02:41,000 --> 00:02:44,000

It must have been about an eighth of a mile.

42

00:02:44,000 --> 00:02:48,000

Okay.

43

00:02:48,000 --> 00:02:51,000

That would be from my island.

44

00:02:51,000 --> 00:02:55,000

Any estimate of size, can you compare it with anything?

45

00:02:55,000 --> 00:03:01,000

That would be kind of hard to do but if I was to guess I'd say it was probably the length of

46

00:03:01,000 --> 00:03:05,000

about a size of a boxcar in length.

47

00:03:05,000 --> 00:03:07,000

Okay.

48

00:03:07,000 --> 00:03:09,000

And this was dome-shaped?

49

00:03:09,000 --> 00:03:12,000

Yes.

50

00:03:12,000 --> 00:03:18,000

And incidentally, the thing is I didn't know until I talked to the chauffeur but I've been reported,

51

00:03:18,000 --> 00:03:21,000

I think one other time or two other times.

52

00:03:21,000 --> 00:03:22,000

Two other times.

53

00:03:22,000 --> 00:03:24,000

I didn't know that until tonight.

54

00:03:24,000 --> 00:03:26,000

Okay.

55

00:03:26,000 --> 00:03:28,000

About two different people.

56

00:03:28,000 --> 00:03:30,000

That was this evening?

57

00:03:30,000 --> 00:03:32,000

Yes, this was this evening.

58

00:03:32,000 --> 00:03:34,000

Okay.

59

00:03:34,000 --> 00:03:36,000

Okay, can we talk to the gentleman on duty there?

60

00:03:36,000 --> 00:03:38,000

Yeah.

61

00:03:38,000 --> 00:03:40,000

Good morning.

62

00:03:40,000 --> 00:03:43,000

Could we get a description of what you saw?

63

00:03:43,000 --> 00:03:48,000

Well, it was like he said, kind of in nearly a bit.

64

00:03:48,000 --> 00:03:53,000

And it flew over the town.

65

00:03:53,000 --> 00:03:57,000

Oh, I think it was pretty good.

66

00:03:57,000 --> 00:04:00,000

And what it was, I wanted to screen check the school.

67

00:04:00,000 --> 00:04:04,000

When I got back there, it was hard for me to hurry up, you know.

68

00:04:04,000 --> 00:04:08,000

And like I said, it kind of made a rumble.

69

00:04:08,000 --> 00:04:12,000

I could get a lot lower, you know, wouldn't notice loud.

70

00:04:12,000 --> 00:04:17,000

And they said it stood kind of over the school, covered over the school there,

71

00:04:17,000 --> 00:04:19,000

a little bit dead quality.

72

00:04:19,000 --> 00:04:22,000

And kind of watched it, that's really about all I know.

73

00:04:22,000 --> 00:04:28,000

But I did, I seen the red light, stationary red light, and a white light,

74

00:04:28,000 --> 00:04:31,000

whenever it was here by City Hall.

75

00:04:31,000 --> 00:04:32,000

Uh-huh.

76

00:04:32,000 --> 00:04:36,000

And I really didn't get, you know, real, real good looking.

77

00:04:36,000 --> 00:04:38,000

But they did.

78

00:04:38,000 --> 00:04:43,000

And here's another guy here that's been seeing it, Billy Andrews.

79

00:04:43,000 --> 00:04:45,000

But I did see it.

80

00:04:45,000 --> 00:04:48,000

Okay.

81

00:04:48,000 --> 00:04:52,000

So here at Bennington, Oklahoma.

82

00:04:52,000 --> 00:04:53,000

Okay.

83

00:04:53,000 --> 00:04:54,000

And you're the Marshal?

84

00:04:54,000 --> 00:04:58,000

Yeah.

85

00:04:58,000 --> 00:04:59,000

Okay.

86

00:04:59,000 --> 00:05:02,000

The other gentleman is just about to fit what you saw.

87

00:05:02,000 --> 00:05:03,000

Yeah.

88

00:05:03,000 --> 00:05:05,000

He's standing right here if you'd like to talk to him.

89

00:05:05,000 --> 00:05:06,000

Okay.

90

00:05:06,000 --> 00:05:07,000

Hello?

91

00:05:07,000 --> 00:05:08,000

Yes, sir.

92

00:05:08,000 --> 00:05:14,000

We've seen this UFO, we're going, we're kind of rabbit hunting.

93

00:05:14,000 --> 00:05:18,000

And we're down by the school, and we've seen it back on the backside of town.

94

00:05:18,000 --> 00:05:23,000

First I started the store, then I've seen that red light flashing right behind it.

95

00:05:23,000 --> 00:05:25,000

And we come up this way, it started moving.

96

00:05:25,000 --> 00:05:29,000

We come up this way and pulled in here to City Hall, tell the Marshal, and he was gone.

97

00:05:29,000 --> 00:05:31,000

We got a real good look at it.

98

00:05:31,000 --> 00:05:34,000

And about the time he came up, got a good look at it.

99

00:05:34,000 --> 00:05:39,000

Just like the other guy said, it kind of had some red, beaming lights on it, on the bottom of it.

100

00:05:39,000 --> 00:05:42,000

Then that and on the back, that white light on the front.

101

00:05:42,000 --> 00:05:48,000

And it kind of hovered, just kind of hovered around in one spot, kind of rocked backwards and forwards.

102

00:05:48,000 --> 00:05:51,000

It's something like I ain't never seen before.

103

00:05:51,000 --> 00:05:54,000

Okay.

104

00:05:54,000 --> 00:06:01,000

And now did you or just did what you saw pretty much meet the description of what the other gentlemen described?

105

00:06:01,000 --> 00:06:02,000

Yes.

106

00:06:02,000 --> 00:06:03,000

Okay.

107

00:06:03,000 --> 00:06:05,000

And he and I were saying at the same time, all three of us.

108

00:06:05,000 --> 00:06:06,000

Oh, okay, very good.

109

00:06:06,000 --> 00:06:09,000

Did you see any other aircraft in the area at the time?

110

00:06:09,000 --> 00:06:10,000

No, we sure didn't.

111

00:06:10,000 --> 00:06:11,000

We didn't see nothing around.

112

00:06:11,000 --> 00:06:16,000

But it kind of freaked me out, you know, I never seen anything like it before.

113

00:06:16,000 --> 00:06:19,000

It was hovering so low and it's moving around.

114

00:06:19,000 --> 00:06:21,000

It's quite a hovering noise, you know.

115

00:06:21,000 --> 00:06:25,000

And I ain't never seen anything like it before, just like this shape, then kind of like this shape.

116

00:06:25,000 --> 00:06:27,000

It was good size, too.

117

00:06:27,000 --> 00:06:29,000

Real good size.

118

00:06:29,000 --> 00:06:31,000

Okay, what would you estimate its size?

119

00:06:31,000 --> 00:06:34,000

Oh, heck, real good depth.

120

00:06:34,000 --> 00:06:36,000

Could you compare it with something?

121

00:06:36,000 --> 00:06:37,000

Oh, yeah.

122

00:06:37,000 --> 00:06:40,000

I know it's a length of a box car and a lot wider.

123

00:06:40,000 --> 00:06:41,000

Okay.

124

00:06:41,000 --> 00:06:47,000

Now, did this thing while you were, or you gentlemen were out there watching this, did it approach you at any time?

125

00:06:47,000 --> 00:06:52,000

If it hovered over towards us and went back the other way, kind of rocked back the other way,

126

00:06:52,000 --> 00:06:57,000

then back again and then red beams kind of hit us once or twice there when they come over.

127

00:06:57,000 --> 00:07:01,000

And then it just moved off real slow like it didn't.

128

00:07:01,000 --> 00:07:04,000

Was there actually shafts of light coming out of this thing?

129

00:07:04,000 --> 00:07:05,000

Yes, it sure was.

130

00:07:05,000 --> 00:07:07,000

Okay, how many were there, do you know?

131

00:07:07,000 --> 00:07:13,000

Well, there was two red lights under the bottom of it, kind of like a, just a beam like it was hitting the ground or something.

132

00:07:13,000 --> 00:07:14,000

Okay.

133

00:07:14,000 --> 00:07:22,000

And then that red flash kind of flashed and light on the back and then a big white glowy light on the front.

134

00:07:22,000 --> 00:07:24,000

I mean, it glowed real big.

135

00:07:24,000 --> 00:07:31,000

That's why I didn't most believe it was a star or something because it was real huge and real white glowy light.

136

00:07:31,000 --> 00:07:38,000

Okay, now those red shafts of light coming out at the bottom, were they on at all times while it was moving?

137

00:07:38,000 --> 00:07:39,000

They didn't at all times.

138

00:07:39,000 --> 00:07:40,000

They never did flash on and off.

139

00:07:40,000 --> 00:07:43,000

It was just kind of like a beam of some sort.

140

00:07:43,000 --> 00:07:45,000

Did that seem to illuminate the ground?

141

00:07:45,000 --> 00:07:46,000

Yes, it did.

142

00:07:46,000 --> 00:07:47,000

Okay.

143

00:07:50,000 --> 00:07:51,000

All right, sir.

144

00:07:51,000 --> 00:07:55,000

Well, if we need any additional information, would it be okay to get back to you?

145

00:07:55,000 --> 00:07:56,000

Yes, sure.

146

00:07:56,000 --> 00:07:57,000

We would.

147

00:07:57,000 --> 00:07:59,000

This other guy here, he talked earlier.

148

00:07:59,000 --> 00:08:01,000

He needs a few more words.

149

00:08:01,000 --> 00:08:02,000

Okay.

150

00:08:04,000 --> 00:08:08,000

When you asked him if it flashed, I noticed that it seemed to be close.

151

00:08:08,000 --> 00:08:09,000

It didn't flash at all.

152

00:08:09,000 --> 00:08:10,000

Nothing seemed to flash.

153

00:08:10,000 --> 00:08:13,000

But then as it got further out, it seemed like it started flashing.

154

00:08:13,000 --> 00:08:15,000

The white light was all we could see then.

155

00:08:15,000 --> 00:08:17,000

And then it just moved away?

156

00:08:17,000 --> 00:08:19,000

Yeah, it just went away.

157

00:08:19,000 --> 00:08:20,000

Okay.

158

00:08:20,000 --> 00:08:24,000

And you saw these red beams of light also?

159

00:08:24,000 --> 00:08:26,000

Oh, it was just a red light on it.

160

00:08:26,000 --> 00:08:32,000

It might have appeared to be, it was a, the white light was pretty bright when it got, you know, when you look right up into it.

161

00:08:32,000 --> 00:08:35,000

But there were no beams flashing down, you know.

162

00:08:35,000 --> 00:08:38,000

It might have appeared to be that way, but it's just light.

163

00:08:38,000 --> 00:08:39,000

Okay.

164

00:08:40,000 --> 00:08:45,000

Well, if we need additional information, would you be alright to get back to you?

165

00:08:45,000 --> 00:08:47,000

Yes, I'd like that.

166

00:08:47,000 --> 00:08:48,000

Okay.

167

00:08:48,000 --> 00:08:55,000

Well, we're going to check this thing out and if we come up with any answers on it, why we'll get back to you gentlemen and let you know about it.

168

00:08:55,000 --> 00:08:56,000

Okay.

169

00:08:56,000 --> 00:08:57,000

We sure appreciate your calling.

170

00:08:57,000 --> 00:08:58,000

Okay.

171

00:08:58,000 --> 00:08:59,000

Thank you very much.

172

00:08:59,000 --> 00:09:00,000

Huh?

173

00:09:00,000 --> 00:09:01,000

Yes, sir.

174

00:09:01,000 --> 00:09:02,000

We spotted it again.

175

00:09:02,000 --> 00:09:06,000

It just keeps hovering over and over, kind of making a wide circle around the town.

176

00:09:06,000 --> 00:09:08,000

Okay.

177

00:09:09,000 --> 00:09:11,000

Is this the same identical thing?

178

00:09:11,000 --> 00:09:13,000

The same identical thing.

179

00:09:14,000 --> 00:09:18,000

What kind of maneuvers is this thing making over the town?

180

00:09:18,000 --> 00:09:24,000

It comes in just a wide circle, it comes straight across the world, more like a square.

181

00:09:24,000 --> 00:09:30,000

It goes down and circles way back over out, out city limits and back over again.

182

00:09:30,000 --> 00:09:31,000

Uh-huh.

183

00:09:31,000 --> 00:09:33,000

Here's the other guy, he was winning.

184

00:09:33,000 --> 00:09:34,000

Okay.

185

00:09:35,000 --> 00:09:36,000

Sir?

186

00:09:36,000 --> 00:09:37,000

Yes.

187

00:09:37,000 --> 00:09:42,000

I don't want to bother you anything, but it did make the two more passes back over the town if it's important or anything.

188

00:09:42,000 --> 00:09:43,000

Okay.

189

00:09:43,000 --> 00:09:46,000

Now, is this giving off the same sound?

190

00:09:46,000 --> 00:09:48,000

Yes, it's the very same sound.

191

00:09:48,000 --> 00:10:00,000

The only thing different is we noticed that there seems to be two red lights, one that doesn't flash when you look at it from some way and then when you look at it from another way, it does flash white and then red.

192

00:10:00,000 --> 00:10:01,000

Uh-huh.

193

00:10:01,000 --> 00:10:03,000

We saw the bottom of it this time.

194

00:10:03,000 --> 00:10:06,000

There seems to be a few more lights.

195

00:10:06,000 --> 00:10:09,000

I can't tell sure how many, but we saw the bottom of it.

196

00:10:09,000 --> 00:10:13,000

I think it's bigger than what we first said.

197

00:10:13,000 --> 00:10:15,000

Okay, now did it come directly overhead?

198

00:10:15,000 --> 00:10:17,000

It came directly overhead.

199

00:10:17,000 --> 00:10:19,000

Okay.

200

00:10:19,000 --> 00:10:21,000

Is this thing circular?

201

00:10:21,000 --> 00:10:22,000

Uh-huh.

202

00:10:22,000 --> 00:10:25,000

Yes, it looks like it starts to fall.

203

00:10:25,000 --> 00:10:32,000

At least the front party, that's the part where the white light can be seen.

204

00:10:32,000 --> 00:10:37,000

Okay, now did you notice anything else in the way of openings in this thing at all?

205

00:10:37,000 --> 00:10:42,000

No, we couldn't see that close. No openings. I couldn't tell.

206

00:10:42,000 --> 00:10:45,000

Okay, how high do you think it was when it went directly overhead?

207

00:10:45,000 --> 00:10:51,000

This time it was about the same as what a low flying plane would be.

208

00:10:51,000 --> 00:10:52,000

Uh-huh.

209

00:10:52,000 --> 00:10:56,000

Okay, it's still giving off the same old sound.

210

00:10:56,000 --> 00:10:59,000

Yeah, and he said it's coming back too.

211

00:10:59,000 --> 00:11:05,000

This is a small town. We wouldn't wake a bunch of people up if we thought it was doing it good.

212

00:11:05,000 --> 00:11:07,000

Uh-huh.

213

00:11:07,000 --> 00:11:13,000

Is there any, what is there, did you have anything in particular in that town that it would be looking at?

214

00:11:13,000 --> 00:11:16,000

I can't, that's one thing I can't figure out.

215

00:11:16,000 --> 00:11:19,000

It's flowing this time. Can I go outside and look at it?

216

00:11:19,000 --> 00:11:21,000

Sure, go ahead.

217

00:11:21,000 --> 00:11:23,000

I'm looking at it.

218

00:11:23,000 --> 00:11:24,000

Uh-huh.

219

00:11:24,000 --> 00:11:26,000

It's flowing this time. It's substantially flowing.

220

00:11:26,000 --> 00:11:30,000

But it hasn't got overhead yet. It's moving even slower than before.

221

00:11:30,000 --> 00:11:33,000

And they want to know if there's anything you want to know about this.

222

00:11:33,000 --> 00:11:35,000

Well, anybody got a camera around?

223

00:11:35,000 --> 00:11:40,000

We sure don't. I wish we did, I really.

224

00:11:40,000 --> 00:11:45,000

Okay, well, what is this, strictly farming country in that area?

225

00:11:45,000 --> 00:11:47,000

Yes, it's a farming town, yes.

226

00:11:47,000 --> 00:11:51,000

Do you have any, are there any hydroelectric dams or power stations?

227

00:11:51,000 --> 00:11:57,000

Not in this area, it's just a, I don't know what, what things want.

228

00:11:57,000 --> 00:12:01,000

Some of the last one now, just a second.

229

00:12:05,000 --> 00:12:08,000

Just turned sideways in the back right way.

230

00:12:08,000 --> 00:12:11,000

Okay. Is there any air bases in that area?

231

00:12:11,000 --> 00:12:12,000

Air bases?

232

00:12:12,000 --> 00:12:13,000

Yeah.

233

00:12:13,000 --> 00:12:20,000

The closest one's about, oh, seven miles away, I guess.

234

00:12:20,000 --> 00:12:24,000

And it's just a tiny, the next town is Durand, Oklahoma.

235

00:12:24,000 --> 00:12:25,000

Uh-huh.

236

00:12:25,000 --> 00:12:28,000

Is it the one I speak of, just a little runway?

237

00:12:28,000 --> 00:12:30,000

Yeah, okay.

238

00:12:30,000 --> 00:12:33,000

Well, I'll tell you what you do.

239

00:12:33,000 --> 00:12:38,000

If that thing continues to show and maneuver around the area, would you keep some notes on it?

240

00:12:38,000 --> 00:12:39,000

Yes, I would.

241

00:12:39,000 --> 00:12:46,000

And then we'll get back to you and check out and just see what follow-up information you've got.

242

00:12:46,000 --> 00:12:48,000

Making another turn back this way, too.

243

00:12:48,000 --> 00:12:49,000

Uh-huh.

244

00:12:50,000 --> 00:12:54,000

This thing's weird, I know, but it's true, absolutely.

245

00:12:54,000 --> 00:12:57,000

How are the sky conditions there tonight?

246

00:12:57,000 --> 00:13:00,000

They're, let me just, it's real clear, isn't it?

247

00:13:00,000 --> 00:13:05,000

Everything, the stars are all shining, it's real clear now.

248

00:13:05,000 --> 00:13:08,000

Okay, now what time did that show up the second time?

249

00:13:08,000 --> 00:13:11,000

The second time just a few minutes before we called you.

250

00:13:11,000 --> 00:13:13,000

Just a few minutes, okay.

251

00:13:13,000 --> 00:13:19,000

Okay, well, we appreciate this report again and they won't be necessary to make another call, but do keep notes.

252

00:13:19,000 --> 00:13:20,000

We will keep notes.

253

00:13:20,000 --> 00:13:23,000

And then we'll get back to you later and find out what happened.

254

00:13:23,000 --> 00:13:24,000

Okay, can I ask you one question?

255

00:13:24,000 --> 00:13:25,000

Yes.

256

00:13:25,000 --> 00:13:34,000

There's no possibility that this could be a jet of any kind that's, because, um, I mean, they don't have anything like this that can be stationary, do they?

257

00:13:34,000 --> 00:13:37,000

I wouldn't know, not stopping, no, no.

258

00:13:37,000 --> 00:13:41,000

And I don't think any small jet would fly or anything like that.
