

1

00:00:00,000 --> 00:00:10,000

Did anybody report seeing any greenish looking lights over the Seattle downtown last night?

2

00:00:10,000 --> 00:00:11,000

Greenish?

3

00:00:11,000 --> 00:00:15,000

Yeah, but, well, I think it was around 11 or after.

4

00:00:15,000 --> 00:00:16,000

No, ma'am.

5

00:00:16,000 --> 00:00:17,000

It did.

6

00:00:17,000 --> 00:00:18,000

Did you see something?

7

00:00:18,000 --> 00:00:19,000

I did.

8

00:00:19,000 --> 00:00:20,000

Yeah.

9

00:00:20,000 --> 00:00:21,000

Would you like to hear about it?

10

00:00:21,000 --> 00:00:26,000

Well, we live on Queen Anne Hill and we have a view of the downtown Seattle area.

11

00:00:26,000 --> 00:00:36,000

And they, well, there was three, well, I'm not any good at estimating distances or anything,

12

00:00:36,000 --> 00:00:43,000

but they were over the downtown area or over the harbor area, sort of, three green lights,

13

00:00:43,000 --> 00:00:49,000

quite good size with a solid center and then a glow sort of around them.

14

00:00:49,000 --> 00:00:50,000

Yes.

15

00:00:50,000 --> 00:00:51,000

Re-eating out.

16

00:00:51,000 --> 00:00:54,000

And they were parallel with each other at some distance apart.

17

00:00:54,000 --> 00:01:00,000

And they were just gently floating down until I couldn't see them anymore.

18

00:01:00,000 --> 00:01:01,000

They just disappeared.

19

00:01:01,000 --> 00:01:05,000

I wondered, you know, if anyone else had seen them.

20

00:01:05,000 --> 00:01:08,000

Now, these were floating down towards the south?

21

00:01:08,000 --> 00:01:09,000

Right.

22

00:01:09,000 --> 00:01:10,000

Uh-huh.

23

00:01:10,000 --> 00:01:15,000

Towards the, well, they were going down, not out first sideways.

24

00:01:15,000 --> 00:01:16,000

Okay.

25

00:01:16,000 --> 00:01:18,000

Now, you were looking due west at the time?

26

00:01:18,000 --> 00:01:19,000

Well, southwest.

27

00:01:19,000 --> 00:01:20,000

Southwest, okay.

28

00:01:20,000 --> 00:01:21,000

Right.

29

00:01:21,000 --> 00:01:25,000

And did these, did you see these actually come down to the water?

30

00:01:25,000 --> 00:01:32,000

No, I didn't because, you know, apartment buildings and so on are in the way too.

31

00:01:32,000 --> 00:01:33,000

Right.

32

00:01:33,000 --> 00:01:41,000

But until they disappeared behind some buildings, but they were, what was funny was that they

33

00:01:41,000 --> 00:01:50,000

were parallel with each other with, see, maybe 15, 20 feet between each one.

34

00:01:50,000 --> 00:01:56,000

They were all the same size and they were just, they seemed to be just floating gently

35

00:01:56,000 --> 00:01:57,000

down.

36

00:01:57,000 --> 00:02:00,000

I mean, it wasn't speeding in any direction or anything.

37

00:02:00,000 --> 00:02:04,000

In other words, they were holding a straight line position on the horizontal.

38

00:02:04,000 --> 00:02:05,000

Right.

39

00:02:05,000 --> 00:02:06,000

Okay.

40

00:02:06,000 --> 00:02:08,000

And they maintained that until they disappeared from your sight.

41

00:02:08,000 --> 00:02:09,000

Right.

42

00:02:09,000 --> 00:02:10,000

Okay.

43

00:02:10,000 --> 00:02:11,000

How about the brilliance?

44

00:02:11,000 --> 00:02:12,000

Did they hold the brilliance all the way?

45

00:02:12,000 --> 00:02:13,000

Yes, they were.

46

00:02:13,000 --> 00:02:16,000

They were very bright with a greenish glow.

47

00:02:17,000 --> 00:02:20,000

I'm surprised no one else saw them.

48

00:02:20,000 --> 00:02:21,000

Okay.

49

00:02:21,000 --> 00:02:23,000

What was the shade of the green?

50

00:02:23,000 --> 00:02:25,000

Did you recognize that?

51

00:02:25,000 --> 00:02:35,000

Well, it was a bright green, not a dark, sort of a, well, more to the yellow or chartreuse

52

00:02:35,000 --> 00:02:38,000

green than to a darker green.

53

00:02:38,000 --> 00:02:39,000

Okay.

54

00:02:39,000 --> 00:02:41,000

Would it resemble the achilles green at all?

55

00:02:41,000 --> 00:02:42,000

No.

56

00:02:42,000 --> 00:02:45,000

It was sort of a fluorescent glow sort of.

57

00:02:45,000 --> 00:02:46,000

Okay.

58

00:02:46,000 --> 00:02:51,000

And it was very bright, solid in the center and then.

59

00:02:51,000 --> 00:02:52,000

Yeah.

60

00:02:52,000 --> 00:02:55,000

I was just amazed when I saw it and I yelled for my husband.

61

00:02:55,000 --> 00:02:57,000

He was in the other room.

62

00:02:57,000 --> 00:03:02,000

And, but by the time he got out, I don't know, he was in the bathroom or something.

63

00:03:02,000 --> 00:03:06,000

By the time he got out and came out, they had to scoot from the site.

64

00:03:06,000 --> 00:03:09,000

Do you have any estimate of size on those?

65

00:03:09,000 --> 00:03:11,000

Could you compare them with anything?

66

00:03:12,000 --> 00:03:16,000

Well, they would have had to fit pretty big.

67

00:03:16,000 --> 00:03:17,000

Uh-huh.

68

00:03:17,000 --> 00:03:21,000

At the least they would have been 25 feet, I would think.

69

00:03:21,000 --> 00:03:23,000

Well, that is very big.

70

00:03:23,000 --> 00:03:28,000

I mean, compared to the building size that they were next to.

71

00:03:28,000 --> 00:03:29,000

Uh-huh.

72

00:03:29,000 --> 00:03:30,000

Okay.

73

00:03:30,000 --> 00:03:33,000

10, 15, something in there.

74

00:03:33,000 --> 00:03:34,000

Okay.

75

00:03:34,000 --> 00:03:39,000

I called King to see if they had, you know, anyone who had reported it.

76

00:03:39,000 --> 00:03:45,000

I talked to Don Chambers and he said, if you had anything like it, you'd appreciate hearing from this.

77

00:03:45,000 --> 00:03:46,000

Right.

78

00:03:46,000 --> 00:03:48,000

I'm just surprised no one else is.

79

00:03:48,000 --> 00:03:52,000

Well, now the fact that we didn't get a call doesn't mean a lot of other people didn't see him.

80

00:03:52,000 --> 00:03:58,000

Because we have found that when we have a thousand people see something in the sky, we might only hear from one person.

81

00:03:58,000 --> 00:03:59,000

Yeah.

82

00:03:59,000 --> 00:04:01,000

A lot of people are afraid to call him.

83

00:04:01,000 --> 00:04:05,000

Well, in Norway would I give him my name, I think, because I wouldn't want any publicity.

84

00:04:05,000 --> 00:04:06,000

Uh-huh.

85

00:04:06,000 --> 00:04:11,000

But I live on Queen Anne Hill and we have a good view of the downtown area.

86

00:04:11,000 --> 00:04:17,000

And it was just, it was just really, I couldn't believe my eyes when I saw what I was seeing, you know.

87

00:04:17,000 --> 00:04:19,000

Okay, about what time was that?

88

00:04:19,000 --> 00:04:22,000

Oh, it must have been actually 11 sometimes.

89

00:04:22,000 --> 00:04:23,000

Okay.

90

00:04:23,000 --> 00:04:26,000

Okay, you know, do you want us to get back to you?

91

00:04:26,000 --> 00:04:28,000

If we get any information on this?

92

00:04:28,000 --> 00:04:29,000

Why?

93

00:04:29,000 --> 00:04:30,000

Sure would.

94

00:04:30,000 --> 00:04:33,000

Well, we sure appreciate this report.

95

00:04:33,000 --> 00:04:40,000

And if we get any additional calls on this or if we come up with any information as to what the objects were, we'll get back to you and let you know.

96

00:04:40,000 --> 00:04:41,000

I'd appreciate it.

97

00:04:41,000 --> 00:04:42,000

Thanks again.

98

00:04:42,000 --> 00:04:43,000

Thank you very much.

99

00:04:43,000 --> 00:04:44,000

Bye-bye.

100

00:04:44,000 --> 00:04:45,000

Goodbye.
