

1

00:00:00,000 --> 00:00:04,000

Yes, this is Walton County Sheriff's Office.

2

00:00:04,000 --> 00:00:05,000

Yes, sir.

3

00:00:05,000 --> 00:00:06,000

I had a call.

4

00:00:06,000 --> 00:00:08,000

They believe they saw a UFO.

5

00:00:08,000 --> 00:00:10,000

There's nothing we can do about it.

6

00:00:10,000 --> 00:00:15,000

I tried to give her to, you know, call you, but she won't call long distance.

7

00:00:15,000 --> 00:00:18,000

I've got her number if you want to call her.

8

00:00:18,000 --> 00:00:21,000

She has quite a description of this thing and everything.

9

00:00:21,000 --> 00:00:23,000

I don't know if you'd be interested.

10

00:00:23,000 --> 00:00:24,000

Okay.

11

00:00:24,000 --> 00:00:25,000

Alrighty.

12

00:00:25,000 --> 00:00:26,000

Thank you very much.

13

00:00:26,000 --> 00:00:27,000

You're welcome.

14

00:00:27,000 --> 00:00:28,000

Bye.

15

00:00:28,000 --> 00:00:30,000

This is the UFO Reporting Center.

16

00:00:30,000 --> 00:00:32,000

We understand she saw something in the sky.

17

00:00:32,000 --> 00:00:40,000

Yeah, she's drawn a design on the paper here in a tactic in shape with a circle in the middle where the goldish colored light came from.

18

00:00:40,000 --> 00:00:42,000

And then on the side there's two lights.

19

00:00:42,000 --> 00:00:48,000

She said there was bigger than headlights with a small red light on the side of each of them.

20

00:00:48,000 --> 00:00:52,000

And then two small red lights on the back of it.

21

00:00:52,000 --> 00:00:53,000

Okay.

22

00:00:53,000 --> 00:00:54,000

When did she see that?

23

00:00:54,000 --> 00:00:57,000

About nine o'clock tonight.

24

00:00:57,000 --> 00:01:03,000

They were down at church and heard another girl that went for a walk up the Grandview Road.

25

00:01:03,000 --> 00:01:06,000

The church is on the intersection of North Enterprise and Grandview.

26

00:01:06,000 --> 00:01:14,000

And they had went for a walk up the Grandview Road to the trailer house just east of the church

about eight or quarter of a mile east of the church.

27

00:01:14,000 --> 00:01:16,000

And that's where they saw it.

28

00:01:16,000 --> 00:01:22,000

Before they saw it they heard this buzzing sound and then this real bright light, goldish colored light came down.

29

00:01:22,000 --> 00:01:25,000

And beam out came right straight down.

30

00:01:26,000 --> 00:01:27,000

This is a beam of light?

31

00:01:27,000 --> 00:01:28,000

Yeah.

32

00:01:28,000 --> 00:01:29,000

Okay.

33

00:01:29,000 --> 00:01:30,000

Can we talk to her?

34

00:01:30,000 --> 00:01:31,000

Is she there?

35

00:01:31,000 --> 00:01:32,000

Yeah, she's right here.

36

00:01:34,000 --> 00:01:35,000

Hello?

37

00:01:35,000 --> 00:01:39,000

Could we get a complete description of what happened right from the beginning?

38

00:01:39,000 --> 00:01:40,000

Okay.

39

00:01:40,000 --> 00:01:42,000

After that we were at the church.

40

00:01:42,000 --> 00:01:43,000

Okay.

41

00:01:43,000 --> 00:01:46,000

We were at the church and we were standing by talking.

42

00:01:46,000 --> 00:01:51,000

Then we decided we'd take a walk because we had a few problems we wanted to discuss.

43

00:01:51,000 --> 00:01:52,000

Uh-huh.

44

00:01:52,000 --> 00:01:56,000

So we started out in the church and we got a quarter of a mile down the road.

45

00:01:56,000 --> 00:02:05,000

And there's a field on each side of us and a few trees and then a trailer house and then way up

there is a couple of houses.

46

00:02:05,000 --> 00:02:13,000

So we got near the trailer and then we were still talking and all of a sudden there was a big loud buzzing noise.

47

00:02:13,000 --> 00:02:15,000

The other day it was with me.

48

00:02:15,000 --> 00:02:16,000

She said, what's that?

49

00:02:16,000 --> 00:02:17,000

And I said, what is it?

50

00:02:17,000 --> 00:02:25,000

And we turned around and the direction where it was coming from and it was coming from the east part.

51

00:02:25,000 --> 00:02:30,000

And we seen what it was as a hexagon shape.

52

00:02:30,000 --> 00:02:34,000

And we said, we wonder what that is.

53

00:02:34,000 --> 00:02:38,000

And then she said, look!

54

00:02:38,000 --> 00:02:40,000

And I said, look!

55

00:02:40,000 --> 00:02:43,000

Two little red lights and she said, yes.

56

00:02:43,000 --> 00:02:44,000

Four of them.

57

00:02:44,000 --> 00:02:47,000

Two on the back of that thing and two on the front.

58

00:02:47,000 --> 00:02:52,000

And then while the buzzing was going on, two big, big, huge lights come on on the one side of it.

59

00:02:52,000 --> 00:02:53,000

Uh-huh.

60

00:02:53,000 --> 00:02:59,000

And then it went straight ahead and our light beams came straight ahead.

61

00:02:59,000 --> 00:03:02,000

The light beams were coming from these two big lights?

62

00:03:02,000 --> 00:03:10,000

Yeah, and then we were walking a little longer and a big, big, bright gold-ish color beam came straight down from the bottom of it.

63

00:03:10,000 --> 00:03:13,000

Okay, did that come down as far as the ground?

64

00:03:13,000 --> 00:03:14,000

Yes, it did.

65

00:03:14,000 --> 00:03:16,000

Did it illuminate the ground?

66

00:03:16,000 --> 00:03:18,000

I don't know.

67

00:03:18,000 --> 00:03:23,000

Okay, now was that beam like a shaft of light or was it a cone of light?

68

00:03:23,000 --> 00:03:30,000

Well, it was kind of like, you know, up in the sky and you're shining the flashlight down.

69

00:03:30,000 --> 00:03:33,000

It comes down a little and then it's bigger down at the end.

70

00:03:33,000 --> 00:03:34,000

Oh, okay.

71

00:03:34,000 --> 00:03:35,000

That's what it was like.

72

00:03:35,000 --> 00:03:37,000

Okay, was that quite bright?

73

00:03:37,000 --> 00:03:38,000

Yes, it was.

74

00:03:38,000 --> 00:03:42,000

Not very bright, but bright enough so I could see it.

75

00:03:42,000 --> 00:03:46,000

Okay, now how long did that shaft of light last?

76

00:03:46,000 --> 00:03:50,000

It stayed on for these three or four seconds and then it went off again.

77

00:03:50,000 --> 00:04:00,000

Then the light, little light started flashing for two minutes and then they flipped flashing and they were just regular like they were before.

78

00:04:00,000 --> 00:04:02,000

And then the big lights went out and it took off.

79

00:04:02,000 --> 00:04:05,000

Okay, now when it took off, which direction did it go?

80

00:04:05,000 --> 00:04:06,000

It went west.

81

00:04:06,000 --> 00:04:07,000

Okay, now what's-

82

00:04:07,000 --> 00:04:09,000

West, north.

83

00:04:09,000 --> 00:04:10,000

Northwest.

84

00:04:10,000 --> 00:04:11,000

Northwest, okay.

85

00:04:11,000 --> 00:04:19,000

Now, when you turned around, when you heard the sound and you turned around, was this object stationary in the sky or was it moving?

86

00:04:19,000 --> 00:04:20,000

It was moving.

87

00:04:20,000 --> 00:04:26,000

And then, you know, it started out buzzing down and that beam of light came down.

88

00:04:26,000 --> 00:04:28,000

It was goldish going.

89

00:04:28,000 --> 00:04:32,000

Okay, now when that beam of light came on, did the object come to a stop?

90

00:04:32,000 --> 00:04:33,000

Yes, it did.

91

00:04:33,000 --> 00:04:34,000

Okay.

92

00:04:34,000 --> 00:04:39,000

And then in sequence, all of these other lights eventually went off and then the thing took off.

93

00:04:39,000 --> 00:04:40,000

Yeah, it took off.

94

00:04:40,000 --> 00:04:42,000

It took off straight over our heads.

95

00:04:42,000 --> 00:04:50,000

We watched it go as it did and we hit under the trees because we didn't want to take any chances on anything going on.

96

00:04:50,000 --> 00:04:51,000

Okay, now when it-

97

00:04:51,000 --> 00:04:55,000

As soon as it got a little way past us, we ran like mad back to the church.

98

00:04:55,000 --> 00:04:56,000

Okay.

99

00:04:56,000 --> 00:05:03,000

Now, when it came over your head and you had a good look at it, what was the exact shape of the object itself?

100

00:05:03,000 --> 00:05:05,000

Okay, it took a pretty clean off.

101

00:05:05,000 --> 00:05:06,000

Right.

102

00:05:06,000 --> 00:05:13,000

And, okay, you put little lines straight across, you know, that's how I got John here.

103

00:05:13,000 --> 00:05:16,000

Put a little line on each corner of it.

104

00:05:16,000 --> 00:05:17,000

Right.

105

00:05:17,000 --> 00:05:26,000

And it looked just like that and then there was a little- it looked like it was clear and silver-colored and it was in the bottom of it.

106

00:05:26,000 --> 00:05:28,000

Okay.

107

00:05:29,000 --> 00:05:36,000

The head goes two big big lights and two little red lights, one connected on each of the big lights.

108

00:05:36,000 --> 00:05:42,000

Okay, now do you have any estimate of altitude when the object passed over you?

109

00:05:42,000 --> 00:05:48,000

Well, you know how high a helicopter is if I- but not way up there but you know-

110

00:05:48,000 --> 00:05:51,000

Oh, that would be nice.

111

00:05:51,000 --> 00:05:55,000

Yeah, well, that's the size of the tree top.

112

00:05:55,000 --> 00:05:57,000

Okay, fine.

113

00:05:57,000 --> 00:05:59,000

Nice to height.

114

00:05:59,000 --> 00:06:01,000

Now, how about estimating the size?

115

00:06:01,000 --> 00:06:03,000

Can you compare it with anything?

116

00:06:03,000 --> 00:06:06,000

Well, let's see.

117

00:06:06,000 --> 00:06:16,000

You've probably put two, three, four planes together, you know, putting me in a square circle and out a few more onto the pipe, I think, and they end up to at least eight of them.

118

00:06:16,000 --> 00:06:19,000

Okay, that would be your small type aircraft?

119

00:06:19,000 --> 00:06:20,000

Yeah.

120

00:06:20,000 --> 00:06:21,000

Okay.

121

00:06:21,000 --> 00:06:30,000

Now, when that shaft of light came down, how far away was it from you off of the roadway?

122

00:06:30,000 --> 00:06:32,000

Oh, let's see.

123

00:06:32,000 --> 00:06:42,000

Well, it looked like it was far away at the way, but you know, when we looked at it, we could see it real well, but I don't think it was too far away, though.

124

00:06:42,000 --> 00:06:45,000

Was that in a forested area? Was there fields?

125

00:06:45,000 --> 00:06:47,000

Well, yeah, I seen fields both.

126

00:06:47,000 --> 00:06:49,000

Uh-huh, okay.

127

00:06:49,000 --> 00:07:05,000

We've seen it well enough to see the description and the looks of it, and then just terrified us, and then asked when we started going back to the kitchen, and we screamed as we ran because we were

scared because we didn't know what it was.

128

00:07:05,000 --> 00:07:10,000

Okay, now, when that passed over you when it went overhead, could you hear any sound then?

129

00:07:10,000 --> 00:07:22,000

Well, you know, like you hear those gunshots and stuff, and you got a thing where that fire comes back?

130

00:07:22,000 --> 00:07:23,000

Yes.

131

00:07:23,000 --> 00:07:29,000

Well, it sounds like you're hitting a drama something, and that was what it sounded like when it went overhead.

132

00:07:29,000 --> 00:07:32,000

Okay.

133

00:07:32,000 --> 00:07:45,000

Did you notice anything out of the ordinary that happened to you during that period? Did you feel

any physical sensations or anything as this thing went overhead?

134

00:07:45,000 --> 00:07:55,000

Well, when it went overhead, I asked you, it started shaking. She wasn't cold because she was pretty warm, she wasn't. She started shaking. I did too, but that was all we'd done with shake.

135

00:07:55,000 --> 00:07:58,000

Do you feel that was just from fright?

136

00:07:58,000 --> 00:07:59,000

No, no.

137

00:07:59,000 --> 00:08:00,000

Okay.

138

00:08:00,000 --> 00:08:13,000

But, you know, when it started to go overhead, you know, we were standing still, and we did, well, you know, it felt like there was kind of an earache feeling.

139

00:08:13,000 --> 00:08:14,000

Uh-huh.

140

00:08:14,000 --> 00:08:19,000

And what I don't know if it was normal or not, but it bothered us.

141

00:08:19,000 --> 00:08:22,000

Okay, now, how were the sky conditions at the time?

142

00:08:22,000 --> 00:08:24,000

It was completely dark.

143

00:08:24,000 --> 00:08:25,000

Was it cloudy?

144

00:08:25,000 --> 00:08:26,000

Yes.

145

00:08:26,000 --> 00:08:31,000

Okay, now, when this thing moved away to the northwest, did you watch it until it disappeared in sight?

146

00:08:31,000 --> 00:08:32,000

Yes, we did.

147

00:08:32,000 --> 00:08:34,000

And it just kept going out of sight?

148

00:08:34,000 --> 00:08:43,000

Yes. The only things that we could see were two little red lights on the back, but there were four little red lights all together. You know, two on the back and two on the front, one on each side. That's my cut.

149

00:08:43,000 --> 00:08:46,000

Right. Okay.

150

00:08:46,000 --> 00:08:50,000

And you didn't see any openings in the bottom of this thing when it came over?

151

00:08:50,000 --> 00:08:57,000

Well, the only thing that we could see was that little round thing in the middle where the beam of light come down.

152

00:08:57,000 --> 00:08:58,000

I see.

153

00:08:58,000 --> 00:09:08,000

And that was all we could see. It looked sort of like a glass window. But we couldn't get back to see that much of it, but we could see a little round thing and then the big thing.

154

00:09:08,000 --> 00:09:10,000

Okay.

155

00:09:10,000 --> 00:09:12,000

You know, the complete shape of it.

156

00:09:12,000 --> 00:09:14,000

Right.

157

00:09:14,000 --> 00:09:16,000

She goes to Scattson Valley College.

158

00:09:16,000 --> 00:09:17,000

Uh-huh.

159

00:09:17,000 --> 00:09:29,000

And, you know, when we got back to the church we were talking about, we had two of her friends were in the church and we raced in and they raced out just in time to see the two little red lights on the back.

160

00:09:29,000 --> 00:09:32,000

And that was all they came to.

161

00:09:32,000 --> 00:09:35,000

I think she's 18 or 19.

162

00:09:35,000 --> 00:09:37,000

Okay.

163

00:09:37,000 --> 00:09:41,000

But she was right next to me when it happened.

164

00:09:41,000 --> 00:09:45,000

Okay. Is there anything else you can add to that that I haven't asked about?

165

00:09:45,000 --> 00:09:48,000

No.

166

00:09:48,000 --> 00:09:52,000

I can't think of anything right off hand except for that noise.

167

00:09:52,000 --> 00:09:58,000

Okay. Were there any animals in the area such as dogs or anything that were doing a lot of hauling?

168

00:09:58,000 --> 00:10:06,000

Well, there was a couple of dogs I heard howling when we were walking and then when we heard that biking sound we couldn't hear a dog.

169

00:10:06,000 --> 00:10:08,000

Okay.

170

00:10:08,000 --> 00:10:15,000

And there are some cows and the rest of them we need to chew because they're the horse stable.

171

00:10:15,000 --> 00:10:17,000

Okay.

172

00:10:17,000 --> 00:10:20,000

25 feet.

173

00:10:20,000 --> 00:10:26,000

Okay. If we can get someone in to interview you later, would that be possible?

174

00:10:26,000 --> 00:10:27,000

Pardon me?

175

00:10:27,000 --> 00:10:33,000

If we can get someone there to interview you later on, would that be possible?

176

00:10:33,000 --> 00:10:34,000

Yes, it would.

177

00:10:34,000 --> 00:10:37,000

Okay. Because we'd really like to get a sketch of what you saw.

178

00:10:37,000 --> 00:10:45,000

I had an idea to picture it when I got home because I remembered the description of what it looked like.

179

00:10:45,000 --> 00:10:47,000

Okay.

180

00:10:47,000 --> 00:10:52,000

If we can walk around and I can race out and get my piece that I have.
