

1

00:00:00,000 --> 00:00:07,000

We're trying to report of a one-day consider I suppose a UFO by two different private citizens.

2

00:00:07,000 --> 00:00:08,000

Okay.

3

00:00:08,000 --> 00:00:15,000

He called the juvenile, he had several guests with him at his residence.

4

00:00:15,000 --> 00:00:21,000

They spotted what they described as a flare somewhere across the river west of Calvary.

5

00:00:21,000 --> 00:00:26,000

They thought that possibility was, someone was in trouble and needed help.

6

00:00:26,000 --> 00:00:33,000

However, a second call came shortly afterwards from a subject who was just kind of in the

7

00:00:33,000 --> 00:00:40,000

capillar rock and was from a higher elevated place and they were both adults and spotted

8

00:00:40,000 --> 00:00:46,000

someone or something, they believed to be 32 miles, 30 to 40 miles west of the capillars

9

00:00:46,000 --> 00:00:48,000

above the mountain.

10

00:00:49,000 --> 00:00:56,000

He said that this object was about 15 to 20 seconds in the air.

11

00:00:56,000 --> 00:00:59,000

They were on a motorcycle, he and his wife.

12

00:00:59,000 --> 00:01:06,000

And the object, okay.

13

00:01:06,000 --> 00:01:14,000

Quite a while, I'll call back if they're not available or recall someone else.

14

00:01:14,000 --> 00:01:18,000

It's been 20 minutes, stand by.

15

00:01:18,000 --> 00:01:25,000

Okay, anyway, the incident, okay, 15 to 20 seconds in the air, trailing fire at birth with no debris,

16

00:01:25,000 --> 00:01:30,000

left a black trail in the air because it was just apparently not completely dark.

17

00:01:30,000 --> 00:01:36,000

It traveled parallel to the surface of the earth and he spotted it in the air.

18

00:01:36,000 --> 00:01:46,000

Okay.

19

00:01:46,000 --> 00:01:55,000

He thought it was 30 to 40 miles west of the capillars traveling in an orderly direction.

20

00:01:55,000 --> 00:01:56,000

Okay, beautiful.

21

00:01:56,000 --> 00:01:57,000

Okay.

22

00:01:57,000 --> 00:01:58,000

Thank you very much.

23

00:01:58,000 --> 00:01:59,000

Bye bye.

24

00:01:59,000 --> 00:02:01,000

We understand you saw something in the sky, didn't we?

25

00:02:01,000 --> 00:02:02,000

Yes, I did.

26

00:02:02,000 --> 00:02:04,000

I want to please get a description of that.

27

00:02:04,000 --> 00:02:05,000

Okay.

28

00:02:05,000 --> 00:02:17,000

There was a trail of fire running parallel to the earth's surface for approximately nearly

29

00:02:17,000 --> 00:02:19,000

10 seconds.

30

00:02:19,000 --> 00:02:26,000

And ahead of the trail of fire was an extremely bright light.

31

00:02:26,000 --> 00:02:34,000

It might have been a magnesium flare, brightness or extreme arc light.

32

00:02:34,000 --> 00:02:39,000

And then it just proofed out.

33

00:02:39,000 --> 00:02:44,000

When it did, I saw no flying debris or anything, you know, like it was an explosion.

34

00:02:44,000 --> 00:02:45,000

Yes.

35

00:02:45,000 --> 00:02:48,000

But the fire was just like it was all snuffed out.

36

00:02:48,000 --> 00:02:57,000

And this was just before dark and it was probably, I don't know, 20, 30 miles away at least.

37

00:02:57,000 --> 00:03:03,000

And it was just light above the horizon, just enough to where I could see a trail of smoke

38

00:03:03,000 --> 00:03:07,000

that I would judge at the very least a mile long.

39

00:03:07,000 --> 00:03:11,000

A very, very black smoke like oil smoke or something like this.

40

00:03:11,000 --> 00:03:12,000

Yes.

41

00:03:12,000 --> 00:03:14,000

Okay, which direction were you looking at this time?

42

00:03:14,000 --> 00:03:22,000

Well, I was looking almost due west from the south exit off of the freeway coming into

43

00:03:22,000 --> 00:03:23,000

Kasselrop.

44

00:03:23,000 --> 00:03:25,000

Okay, and which direction was the object moving?

45

00:03:25,000 --> 00:03:28,000

I would say west by north.

46

00:03:28,000 --> 00:03:29,000

Okay.

47

00:03:29,000 --> 00:03:32,000

Maybe a little bit more north than that.

48

00:03:32,000 --> 00:03:38,000

But you could definitely see the trail strung out from left to right a little bit.

49

00:03:38,000 --> 00:03:41,000

You know, it wasn't hidden right straight away from it.

50

00:03:41,000 --> 00:03:46,000

It was a definite trail that it looked like it could have been a mile long or even longer

51

00:03:46,000 --> 00:03:52,000

than that because the object I would say would be 25, 30 miles away, maybe 40 miles, I don't know.

52

00:03:52,000 --> 00:03:54,000

Yes, okay.

53

00:03:54,000 --> 00:03:59,000

But how many degrees above the horizon was that?

54

00:03:59,000 --> 00:04:13,000

Well, I would have, from where I was parked, I would have been looking at about, I would

55

00:04:13,000 --> 00:04:18,000

say about two o'clock.

56

00:04:18,000 --> 00:04:19,000

Okay.

57

00:04:19,000 --> 00:04:23,000

And you remember the exact time?

58

00:04:23,000 --> 00:04:25,000

Yes, eight minutes until 10.

59

00:04:25,000 --> 00:04:26,000

Okay.

60

00:04:26,000 --> 00:04:28,000

My wife saw it also.

61

00:04:28,000 --> 00:04:35,000

She noticed it first and was so dumbfounded by it that she neglected even nudge me, you

62

00:04:35,000 --> 00:04:38,000

know, at the fact that she was seeing something.

63

00:04:38,000 --> 00:04:39,000

And we were on motorcycle.

64

00:04:39,000 --> 00:04:41,000

She was watching this.

65

00:04:41,000 --> 00:04:46,000

And finally she came to her senses that she definitely was seeing something and she hollered

66

00:04:46,000 --> 00:04:49,000

at me and I looked and it was so out of the ordinary.

67

00:04:49,000 --> 00:04:53,000

I pulled off the side of the road and then we watched it.

68

00:04:53,000 --> 00:04:54,000

Oh.

69

00:04:54,000 --> 00:05:05,000

It didn't appear to have anything at all in the way of a vapor trail or anything like that.

70

00:05:05,000 --> 00:05:12,000

It was just a very black oil type of smoke, almost as if one of the jetters really turning

71

00:05:12,000 --> 00:05:15,000

on afterburner or something like that.

72

00:05:15,000 --> 00:05:18,000

And incidentally this thing was moving fast.

73

00:05:18,000 --> 00:05:19,000

Okay.

74

00:05:19,000 --> 00:05:24,000

And it was parallel to the Earth.

75

00:05:24,000 --> 00:05:29,000

Can you give me any estimate of the size of the bright light?

76

00:05:29,000 --> 00:05:32,000

Can you compare it with anything?

77

00:05:32,000 --> 00:05:45,000

Well, at that distance it seemed very huge about...

78

00:05:45,000 --> 00:05:53,000

If you were to hold your arm out at arm's length and look at your thumbnail, it would

79

00:05:53,000 --> 00:05:56,000

be the approximate size that you could see.

80

00:05:56,000 --> 00:05:58,000

Okay, that's big.

81

00:05:58,000 --> 00:05:59,000

Yes.

82

00:05:59,000 --> 00:06:01,000

Then your wife was with you?

83

00:06:01,000 --> 00:06:03,000

Yes, she was.

84

00:06:03,000 --> 00:06:09,000

Now, as soon as I got home and made the call to the Sheriff's Department to report this

85

00:06:09,000 --> 00:06:14,000

and my son had been out with some of his friends kind of playing around.

86

00:06:14,000 --> 00:06:17,000

When he came in I asked him if he had seen anything.

87

00:06:17,000 --> 00:06:24,000

And he did see something that it was just momentarily, you know, no length of time.

88

00:06:24,000 --> 00:06:27,000

He did see something that that was about all he could say.

89

00:06:27,000 --> 00:06:31,000

Okay, was this against a clear sky there?

90

00:06:31,000 --> 00:06:38,000

Well, looking into the west and the sun was a real bright red tonight, you know.

91

00:06:38,000 --> 00:06:48,000

And it just after the sun went down it left a real light band, you know, above the horizon.

92

00:06:48,000 --> 00:06:52,000

So it was real clear.

93

00:06:52,000 --> 00:06:54,000

Okay.

94

00:06:54,000 --> 00:06:55,000

Well, that's it.

95

00:06:55,000 --> 00:07:00,000

We sure appreciate you talking to us on this matter and we'd come up with any more information

96

00:07:00,000 --> 00:07:02,000

on this while we get back to you and let you know.

97

00:07:02,000 --> 00:07:08,000

I'd really like to know what you find out on it because this is definitely something out of the ordinary.

98

00:07:08,000 --> 00:07:12,000

Incidentally, years back, I'm from eastern Oregon, desert country.

99

00:07:12,000 --> 00:07:13,000

Yes.

100

00:07:13,000 --> 00:07:21,000

And I saw something similar to this in the way of this extremely bright light, but it was before dark

101

00:07:21,000 --> 00:07:26,000

and I did not see any kind of a vapor trail or smoke trail or anything like that.

102

00:07:26,000 --> 00:07:30,000

Although I did see movement that was almost identical to this.

103

00:07:30,000 --> 00:07:36,000

And then all of a sudden it was gone, but it moved extremely fast and it was maneuverable now.

104

00:07:36,000 --> 00:07:42,000

It would turn 90 degree in deals and my wife is a previous wife.

105

00:07:42,000 --> 00:07:46,000

She and I watched the thing for about 20 minutes at that time.

106

00:07:46,000 --> 00:07:51,000

And this very closely resembled it in the brightness of the light.

107

00:07:51,000 --> 00:07:55,000

You know, the one you saw tonight was definitely moving in a straight flight path.

108

00:07:55,000 --> 00:07:56,000

Yes.

109

00:07:56,000 --> 00:07:57,000

No deviation from that.

110

00:07:57,000 --> 00:08:06,000

If anything at all, it may have had a very slight arc like the real long trajectory would be drawn.

111

00:08:06,000 --> 00:08:07,000

Yes.

112

00:08:07,000 --> 00:08:08,000

If anything at all.

113

00:08:08,000 --> 00:08:21,000

But primarily in a straight line, the smoke did not curl around like it would have a lot of turbulence behind it.

114

00:08:21,000 --> 00:08:28,000

It gradually got larger like it was starting to dissipate.

115

00:08:28,000 --> 00:08:31,000

Okay, was the light itself just a circle around?

116

00:08:31,000 --> 00:08:32,000

Pardon?

117

00:08:32,000 --> 00:08:37,000

Was the light itself just a round light?

118

00:08:37,000 --> 00:08:41,000

I could see no real definite edges to the light.

119

00:08:41,000 --> 00:08:44,000

It was just an extreme bright glare type of thing.

120

00:08:44,000 --> 00:08:45,000

Right.

121

00:08:45,000 --> 00:08:49,000

Extreme brilliance.

122

00:08:49,000 --> 00:08:50,000

Okay.

123

00:08:50,000 --> 00:08:56,000

I would say that it was more white than bluish or anything like that.

124

00:08:56,000 --> 00:09:02,000

Just almost as if it were an arc flash.

125

00:09:02,000 --> 00:09:03,000

Yes.

126

00:09:03,000 --> 00:09:07,000

Very slight arc white.

127

00:09:07,000 --> 00:09:10,000

You know, I mean it was almost entirely white.

128

00:09:10,000 --> 00:09:11,000

Right.

129

00:09:11,000 --> 00:09:12,000

All right, sure.

130

00:09:12,000 --> 00:09:14,000

We thank you again.

131

00:09:14,000 --> 00:09:15,000

You bet.

132

00:09:15,000 --> 00:09:16,000

Thank you.

133

00:09:16,000 --> 00:09:17,000

Thank you.

134

00:09:17,000 --> 00:09:18,000

Thank you.

135

00:09:18,000 --> 00:09:19,000

Thank you.

136

00:09:19,000 --> 00:09:20,000

Thank you.

137

00:09:20,000 --> 00:09:21,000

Thank you.

138

00:09:21,000 --> 00:09:22,000

Thank you.

139

00:09:22,000 --> 00:09:23,000

Thank you.

140

00:09:23,000 --> 00:09:24,000

Thank you.

141

00:09:24,000 --> 00:09:25,000

Thank you.

142

00:09:25,000 --> 00:09:26,000

Thank you.

143

00:09:26,000 --> 00:09:27,000

Thank you.

144

00:09:27,000 --> 00:09:28,000

Thank you.

145

00:09:28,000 --> 00:09:29,000

Thank you.

146

00:09:29,000 --> 00:09:30,000

Thank you.

147

00:09:30,000 --> 00:09:31,000

Thank you.

148

00:09:31,000 --> 00:09:32,000

Thank you.

149

00:09:32,000 --> 00:09:33,000

Thank you.

150

00:09:33,000 --> 00:09:34,000

Thank you.

151

00:09:34,000 --> 00:09:35,000

Thank you.

152

00:09:35,000 --> 00:09:36,000

Thank you.

153

00:09:36,000 --> 00:09:37,000

Thank you.

154

00:09:37,000 --> 00:09:38,000

Thank you.

155

00:09:38,000 --> 00:09:39,000

Thank you.

156

00:09:39,000 --> 00:09:40,000

Thank you.

157

00:09:40,000 --> 00:09:41,000

Thank you.

158

00:09:41,000 --> 00:09:42,000

Thank you.

159

00:09:42,000 --> 00:09:43,000

Thank you.

160

00:09:43,000 --> 00:09:44,000

Thank you.

161

00:09:44,000 --> 00:09:45,000

Thank you.

162

00:09:45,000 --> 00:09:46,000

Thank you.
