

1

00:00:00,000 --> 00:00:04,000

This is Sheriff's Office, Mouser.

2

00:00:04,000 --> 00:00:05,000

Yes.

3

00:00:05,000 --> 00:00:10,000

I'm reporting this UFO for one of the city marshals in the county.

4

00:00:10,000 --> 00:00:16,000

He was spotted at Duke, going right down Duke, Oklahoma.

5

00:00:16,000 --> 00:00:17,000

Duke, okay.

6

00:00:17,000 --> 00:00:23,000

And I'll give you the description he gave me and any further information you need, just

7

00:00:23,000 --> 00:00:26,000

have the contact with him a yes later.

8

00:00:26,000 --> 00:00:27,000

Okay.

9

00:00:27,000 --> 00:00:31,000

And he called it in, to me, already at home.

10

00:00:31,000 --> 00:00:33,000

It was a good time, wasn't it?

11

00:00:33,000 --> 00:00:40,000

Yeah, I got tied up here, traffic in the jail, and I couldn't get to see any sooner.

12

00:00:40,000 --> 00:00:42,000

It was about a half hour ago.

13

00:00:42,000 --> 00:00:43,000

Okay.

14

00:00:43,000 --> 00:00:52,000

Okay, he said he started the object to park me 150 feet long, and it was about 250 feet

15

00:00:52,000 --> 00:00:53,000

off the ground.

16

00:00:53,000 --> 00:01:00,000

And he thought at first it was an airplane trying to land in a field out just out of

17

00:01:00,000 --> 00:01:03,000

the church of Duke, Oklahoma.

18

00:01:03,000 --> 00:01:09,000

And he noticed it wasn't making any noise, so he didn't know what it was, and he said

19

00:01:09,000 --> 00:01:11,000

it was moving about speed on average helicopters.

20

00:01:11,000 --> 00:01:14,000

He thought, maybe that's why it was, but it wasn't making any noise.

21

00:01:14,000 --> 00:01:17,000

There's no helicopter that big.

22

00:01:17,000 --> 00:01:18,000

All right.

23

00:01:18,000 --> 00:01:26,000

So, it's traveling northeast from Duke, and he watched it several minutes, and it traveled

24

00:01:26,000 --> 00:01:29,000

at the same speed, and he gradually faded from sight.

25

00:01:29,000 --> 00:01:38,000

He thought the last he saw it was possibly a little north of Victory, Oklahoma.

26

00:01:38,000 --> 00:01:39,000

Yes.

27

00:01:39,000 --> 00:01:41,000

Okay, so he gets man's name?

28

00:01:41,000 --> 00:01:47,000

Okay, his name is, and he's a Duke City Marshal, and I don't have his home address.

29

00:01:47,000 --> 00:01:48,000

It's just a small town.

30

00:01:48,000 --> 00:01:49,000

He's a City Marshal.

31

00:01:49,000 --> 00:01:50,000

Okay.

32

00:01:50,000 --> 00:01:51,000

I see a little more here.

33

00:01:51,000 --> 00:01:52,000

He had three lights.

34

00:01:52,000 --> 00:01:59,000

You can see a red one appeared to be on each end of the object, and he didn't, I guess

35

00:01:59,000 --> 00:02:01,000

he couldn't see a definite shape.

36

00:02:01,000 --> 00:02:09,000

It had been dark, but it appeared to be on either end of it, and a white light in the

37

00:02:09,000 --> 00:02:10,000

middle.

38

00:02:10,000 --> 00:02:11,000

Okay.

39

00:02:11,000 --> 00:02:17,000

And that's all I have, and I can say that if you want to call him, he's probably reaching

40

00:02:17,000 --> 00:02:18,000

his office or his home.

41

00:02:18,000 --> 00:02:20,000

Okay, what was your department again?

42

00:02:20,000 --> 00:02:21,000

This is the Altersshares Department.

43

00:02:21,000 --> 00:02:22,000

Altersshares, okay.

44

00:02:22,000 --> 00:02:23,000

We sure appreciate your cooperation.

45

00:02:23,000 --> 00:02:24,000

Yeah, thank you.

46

00:02:24,000 --> 00:02:25,000

Bye.

47

00:02:25,000 --> 00:02:29,000

It's the UFO Reporting Center in Washington.

48

00:02:29,000 --> 00:02:32,000

We understand you saw something in the sky tonight.

49

00:02:32,000 --> 00:02:33,000

All right.

50

00:02:33,000 --> 00:02:37,000

I wonder if we could get a description of that.

51

00:02:37,000 --> 00:02:38,000

Okay.

52

00:02:38,000 --> 00:02:43,000

Man, it's rocking my 150 feet long.

53

00:02:43,000 --> 00:02:49,000

There's a red light on each end, white up light in the middle.

54

00:02:49,000 --> 00:02:50,000

Uh-huh.

55

00:02:50,000 --> 00:02:59,000

And it was about all 150, 200 foot off the ground on the North Indian coast.

56

00:02:59,000 --> 00:03:02,000

About three quarters of a mile from it.

57

00:03:02,000 --> 00:03:03,000

Uh-huh.

58

00:03:03,000 --> 00:03:08,000

And then we moved to the North East.

59

00:03:08,000 --> 00:03:11,000

Oh, good thing.

60

00:03:11,000 --> 00:03:16,000

Alfald, not very faith, but he was moving away from us.

61

00:03:16,000 --> 00:03:19,000

So it's hard to say.

62

00:03:19,000 --> 00:03:22,000

Okay, now could you make that a definite object?

63

00:03:22,000 --> 00:03:27,000

No, I couldn't tell, you know, shape or nothing of it.

64

00:03:27,000 --> 00:03:28,000

Uh-huh.

65

00:03:28,000 --> 00:03:31,000

But it don't, it wasn't making no sound.

66

00:03:31,000 --> 00:03:32,000

I see.

67

00:03:32,000 --> 00:03:38,000

He was, oh, then a, oh, a quarter of a mile from it.

68

00:03:38,000 --> 00:03:41,000

And we thought it was an airplane.

69

00:03:41,000 --> 00:03:45,000

It's going to go down out in the field, or it looks like it burst.

70

00:03:45,000 --> 00:03:46,000

Yes.

71

00:03:46,000 --> 00:03:52,000

Okay, now did you determine the length of that by the position of the lights?

72

00:03:52,000 --> 00:03:53,000

Right.

73

00:03:53,000 --> 00:03:54,000

Okay.

74

00:03:55,000 --> 00:04:02,000

Did this move away from you just in a straight flight path, or was it maneuvering in the area?

75

00:04:02,000 --> 00:04:09,000

Well, it turned, but how much, I don't know, you know, when we think it did,

76

00:04:09,000 --> 00:04:14,000

the flag was going, you know, the entire plane going, laying it on me.

77

00:04:14,000 --> 00:04:16,000

There wasn't a landing field out here.

78

00:04:16,000 --> 00:04:17,000

Right.

79

00:04:17,000 --> 00:04:25,000

And it kind of veered off to the, from the north to the northeast.

80

00:04:25,000 --> 00:04:31,000

And when it turned, did the lights remain visible, all of the lights?

81

00:04:31,000 --> 00:04:32,000

Uh, yes.

82

00:04:32,000 --> 00:04:33,000

Okay.

83

00:04:33,000 --> 00:04:41,000

You could tell that, you know, different than the width of them, but you could see it,

84

00:04:41,000 --> 00:04:43,000

all three of them.

85

00:04:43,000 --> 00:04:50,000

Did this have any, any type of illumination around it at all, other than the lights that

86

00:04:50,000 --> 00:04:51,000

you could see?

87

00:04:51,000 --> 00:04:52,000

Ah, no.

88

00:04:52,000 --> 00:04:53,000

Okay.

89

00:04:53,000 --> 00:04:58,000

Were those lights steady, constant?

90

00:04:58,000 --> 00:05:01,000

Uh, yes, they were just, just steady lights.

91

00:05:01,000 --> 00:05:03,000

No flashing or blinking?

92

00:05:03,000 --> 00:05:04,000

No.

93

00:05:04,000 --> 00:05:05,000

Okay.

94

00:05:05,000 --> 00:05:09,000

And absolutely no sound?

95

00:05:09,000 --> 00:05:10,000

Right.

96

00:05:10,000 --> 00:05:11,000

Okay.

97

00:05:12,000 --> 00:05:14,000

How are the sky conditions there?

98

00:05:14,000 --> 00:05:18,000

Oh, it's clear, it's bright as the day out here.

99

00:05:18,000 --> 00:05:19,000

Uh-huh.

100

00:05:21,000 --> 00:05:23,000

How many witnesses to that?

101

00:05:23,000 --> 00:05:25,000

Just one other one.

102

00:05:25,000 --> 00:05:26,000

Okay.

103

00:05:29,000 --> 00:05:32,000

All right, sir, did you watch that object until it disappeared?
