

1

00:00:00,000 --> 00:00:02,000

Reporting, Sam.

2

00:00:02,000 --> 00:00:06,000

Yes, this is Chief of Police at Condon, Oregon.

3

00:00:06,000 --> 00:00:07,000

Yes.

4

00:00:07,000 --> 00:00:13,000

And I just had a young man come up to me and report a UFO.

5

00:00:13,000 --> 00:00:14,000

Okay.

6

00:00:14,000 --> 00:00:19,000

Took some information from him.

7

00:00:19,000 --> 00:00:24,000

He was out here north of Condon at the park.

8

00:00:24,000 --> 00:00:29,000

It's about two miles north.

9

00:00:29,000 --> 00:00:30,000

Yes.

10

00:00:30,000 --> 00:00:34,000

And he was looking north or being northwest.

11

00:00:34,000 --> 00:00:39,000

And over one of the farmhouses that sets out there, he said it appeared.

12

00:00:39,000 --> 00:00:44,000

And it had flashing lights that was red and clear.

13

00:00:44,000 --> 00:00:48,000

But some of the times they just stay on.

14

00:00:48,000 --> 00:00:53,000

This sighting occurred about 9.30 p.m. this afternoon.

15

00:00:53,000 --> 00:00:54,000

Okay.

16

00:00:54,000 --> 00:01:07,000

And a female companion with him was, he said this thing stayed in sight about 15 seconds.

17

00:01:07,000 --> 00:01:09,000

And he said that was at the most.

18

00:01:09,000 --> 00:01:19,000

He said it was flying, he said also there was an aircraft, airplane, flying, he said if you remember,

19

00:01:19,000 --> 00:01:23,000

right, it was flying west.

20

00:01:23,000 --> 00:01:31,000

And he said the flying object came underneath the aircraft.

21

00:01:31,000 --> 00:01:36,000

And then went way high and then came back down.

22

00:01:36,000 --> 00:01:40,000

And it's pretty bright around here tonight.

23

00:01:40,000 --> 00:01:44,000

He said there's a knoll that you can see out there.

24

00:01:44,000 --> 00:01:51,000

And he said the thing just went down over that knoll and disappeared heading towards the Columbia River.

25

00:01:51,000 --> 00:01:53,000

Well, okay, sir.

26

00:01:53,000 --> 00:01:54,000

Well, we sure appreciate this.

27

00:01:54,000 --> 00:02:00,000

We'll get in contact with the man and see if we can find out what he was observing.

28

00:02:00,000 --> 00:02:01,000

Okay.

29

00:02:01,000 --> 00:02:02,000

Good enough.

30

00:02:02,000 --> 00:02:05,000

We sure appreciate your cooperation, chief.

31

00:02:05,000 --> 00:02:06,000

You bet.

32

00:02:06,000 --> 00:02:07,000

Thank you very much.

33

00:02:07,000 --> 00:02:08,000

Thank you.

34

00:02:08,000 --> 00:02:10,000

I'm calling for the UFO reporting center in Washington.

35

00:02:10,000 --> 00:02:15,000

And we were advised by the chief of police, a con in that you had UFO sighting.

36

00:02:15,000 --> 00:02:18,000

We'd like to hear about it.

37

00:02:18,000 --> 00:02:20,000

Something you saw on August 3rd.

38

00:02:20,000 --> 00:02:21,000

Yeah.

39

00:02:21,000 --> 00:02:27,000

We were out north of town and we saw a red light and we didn't take too much about it.

40

00:02:27,000 --> 00:02:33,000

And it started jumping around really funny in the air going up and down around.

41

00:02:33,000 --> 00:02:36,000

It was really quick.

42

00:02:36,000 --> 00:02:41,000

And there was this airplane up there flying around and it was going pretty slow.

43

00:02:41,000 --> 00:02:46,000

And this thing, object, it kept flying towards me and stopping and going.

44

00:02:46,000 --> 00:02:56,000

And pretty soon it just got underneath and it just went right up to the airplane and went down and then just shot off.

45

00:02:56,000 --> 00:03:02,000

Oh, this thing seemed to be toying with the aircraft?

46

00:03:02,000 --> 00:03:03,000

No.

47

00:03:03,000 --> 00:03:11,000

It just kind of popped up to where the aircraft was and back down to where it was going across

48

00:03:11,000 --> 00:03:12,000

it.

49

00:03:12,000 --> 00:03:15,000

It was dying and it took off.

50

00:03:15,000 --> 00:03:16,000

Okay.

51

00:03:16,000 --> 00:03:19,000

Now did this come relatively close to the aircraft?

52

00:03:19,000 --> 00:03:20,000

Yeah.

53

00:03:20,000 --> 00:03:22,000

I would say very close.

54

00:03:22,000 --> 00:03:23,000

Okay.

55

00:03:23,000 --> 00:03:30,000

I know the aircraft probably had to see it.

56

00:03:30,000 --> 00:03:31,000

Okay.

57

00:03:31,000 --> 00:03:34,000

Now how long was that flying around that airplane?

58

00:03:34,000 --> 00:03:36,000

Do you have any idea?

59

00:03:36,000 --> 00:03:39,000

Probably about 15, 20 seconds.

60

00:03:39,000 --> 00:03:40,000

Okay.

61

00:03:40,000 --> 00:03:46,000

And at all times this thing just remained a bright or a red light?

62

00:03:46,000 --> 00:03:51,000

It was really sporadic when it was blank.

63

00:03:51,000 --> 00:03:57,000

And it kind of had yellowish and red.

64

00:03:57,000 --> 00:04:01,000

Okay, did it have any kind of shape to it?

65

00:04:01,000 --> 00:04:02,000

Uh-uh.

66

00:04:02,000 --> 00:04:04,000

We couldn't see it.

67

00:04:04,000 --> 00:04:05,000

Okay.

68

00:04:05,000 --> 00:04:08,000

But it was blinking or flashing?

69

00:04:08,000 --> 00:04:15,000

Well, it might blink twice red and then once, you know, that kind of yellowish color.

70

00:04:15,000 --> 00:04:16,000

Uh-uh.

71

00:04:16,000 --> 00:04:22,000

And then sometimes, you know, it wouldn't blink, but you know how you get to kind of tell when

72

00:04:22,000 --> 00:04:24,000

something's blinking and moving?

73

00:04:24,000 --> 00:04:25,000

Right.

74

00:04:25,000 --> 00:04:28,000

And then you can judge about how far it's going to go.

75

00:04:28,000 --> 00:04:33,000

But this thing, it would jump a long ways and then it'd stop.

76

00:04:33,000 --> 00:04:35,000

Then it'd go up and down.

77

00:04:35,000 --> 00:04:39,000

It's really weird.

78

00:04:39,000 --> 00:04:42,000

Now you say it could jump a long ways.

79

00:04:42,000 --> 00:04:48,000

Would it be like actually jumping across the sky or just moving across the sky?

80

00:04:48,000 --> 00:04:55,000

It was so quick when it moved really quick.

81

00:04:55,000 --> 00:05:04,000

I don't know how far away it was, but you can really tell when it'd go.

82

00:05:04,000 --> 00:05:08,000

It'd just shoot across and it'd stop.

83

00:05:08,000 --> 00:05:12,000

And I really could tell there was something wrong with it.

84

00:05:12,000 --> 00:05:17,000

It was just, when it was going along, it kind of just wouldn't really jump out to that plane

85

00:05:17,000 --> 00:05:22,000

and then went back down and then it just kind of shot off and then it stopped and just kind

86

00:05:22,000 --> 00:05:26,000

of went down on the other side of it.

87

00:05:26,000 --> 00:05:28,000

There's snow out here.

88

00:05:28,000 --> 00:05:30,000

And again, pretty slow.

89

00:05:30,000 --> 00:05:32,000

Okay.

90

00:05:32,000 --> 00:05:38,000

Okay, now when it would go shooting across the sky and stop, did that thing come to an

91

00:05:38,000 --> 00:05:40,000

abrupt stop?

92

00:05:40,000 --> 00:05:45,000

It wouldn't be moving because when it first started watching it was going on the clouds

93

00:05:45,000 --> 00:05:48,000

and you know, and the cloud wasn't moving.

94

00:05:48,000 --> 00:05:54,000

And you could tell what it was doing there.

95

00:05:54,000 --> 00:05:59,000

And then when it went down there, on the snow there, it wasn't going back or forth.

96

00:05:59,000 --> 00:06:05,000

And you just went straight down and then it looked like it was getting any further away.

97

00:06:05,000 --> 00:06:07,000

Okay.

98

00:06:07,000 --> 00:06:15,000

Now, comparing size, how large was that red light in comparison to the airplane?

99

00:06:15,000 --> 00:06:19,000

I'd probably say about five or six times.

100

00:06:19,000 --> 00:06:21,000

Smaller or larger?

101

00:06:21,000 --> 00:06:23,000

Larger.

102

00:06:23,000 --> 00:06:25,000

Okay.

103

00:06:25,000 --> 00:06:28,000

Now, you say that the thing moved up and down.

104

00:06:28,000 --> 00:06:34,000

Can you remember any other radical maneuvers or motions that this thing made?

105

00:06:34,000 --> 00:06:36,000

Backwards.

106

00:06:36,000 --> 00:06:38,000

It went backwards a few times.

107

00:06:38,000 --> 00:06:40,000

Uh-huh.

108

00:06:40,000 --> 00:06:43,000

Okay.

109

00:06:43,000 --> 00:06:47,000

Did you notice any change of color when this thing would increase speed or?

110

00:06:47,000 --> 00:06:49,000

Yeah, you could see the light.

111

00:06:49,000 --> 00:06:58,000

It was, it seemed like it wouldn't, the light had shined more and it was really going.

112

00:06:58,000 --> 00:06:59,000

Brighter?

113

00:06:59,000 --> 00:07:00,000

Yeah.

114

00:07:00,000 --> 00:07:05,000

And then there would be another change when this thing came to an abrupt start.

115

00:07:05,000 --> 00:07:10,000

And then it would go back kind of a blink and it would go out.

116

00:07:10,000 --> 00:07:18,000

And you know, the light would, it was funny because the light, when it would take off and get brighter,

117

00:07:18,000 --> 00:07:20,000

then it wouldn't blink as often.

118

00:07:20,000 --> 00:07:21,000

Uh-huh.

119

00:07:21,000 --> 00:07:24,000

Okay, would that be the red color at that time?

120

00:07:24,000 --> 00:07:25,000

Yeah.

121

00:07:25,000 --> 00:07:26,000

Okay.

122

00:07:26,000 --> 00:07:38,000

Did this, did the light come so close to the aircraft at any time that it would reflect its color onto the aircraft?

123

00:07:38,000 --> 00:07:40,000

No, I don't think so.

124

00:07:40,000 --> 00:07:41,000

Okay.

125

00:07:41,000 --> 00:07:46,000

Did that, do you remember whether that light approached the aircraft from the front at any time

126

00:07:46,000 --> 00:07:51,000

or put itself in a position where the pilot just couldn't help but see it?

127

00:07:51,000 --> 00:07:58,000

Well, I would say when it was first coming up on the aircraft, it would, you could have seen it.

128

00:07:58,000 --> 00:08:02,000

You know, when it was down below, it was underneath of it.

129

00:08:02,000 --> 00:08:08,000

And when it got to the aircraft, it just went up really close to it, then back down and then it

took off.

130

00:08:08,000 --> 00:08:09,000

Okay.

131

00:08:09,000 --> 00:08:14,000

Did this appear to be a private type aircraft, small plane?

132

00:08:14,000 --> 00:08:17,000

Yeah, it was a steady blue light.

133

00:08:17,000 --> 00:08:20,000

You know, how airplane was moving slow, or the car.

134

00:08:20,000 --> 00:08:21,000

Right.

135

00:08:23,000 --> 00:08:26,000

Okay, could you pick up any sound while that was going on?

136

00:08:26,000 --> 00:08:27,000

Uh-huh.

137

00:08:28,000 --> 00:08:29,000

Okay.

138

00:08:29,000 --> 00:08:32,000

But what time is the first spot that you remember?

139

00:08:33,000 --> 00:08:37,000

No, probably close to nine o'clock.

140

00:08:37,000 --> 00:08:38,000

Okay.

141

00:08:38,000 --> 00:08:42,000

Which direction were you looking while this was taking place?

142

00:08:42,000 --> 00:08:45,000

It's about northwest.

143

00:08:45,000 --> 00:08:46,000

Northwest, okay.

144

00:08:46,000 --> 00:08:51,000

And when this object finally took off, which direction did it go?

145

00:08:51,000 --> 00:08:52,000

East.

146

00:08:52,000 --> 00:08:53,000

Okay.

147

00:08:54,000 --> 00:08:57,000

And you watched it as it faded into the distance?

148

00:08:58,000 --> 00:09:04,000

Well, it just went over the sky a little ways and then just went down.

149

00:09:05,000 --> 00:09:08,000

Okay, did that disappear behind the hills?

150

00:09:09,000 --> 00:09:16,000

It just, it was up in the air pretty far and it just kind of went straight down behind the snow.

151

00:09:16,000 --> 00:09:17,000

Oh, okay.

152

00:09:18,000 --> 00:09:19,000

That was the last you saw of it?

153

00:09:19,000 --> 00:09:20,000

Uh-huh.

154

00:09:20,000 --> 00:09:21,000

Okay.

155

00:09:22,000 --> 00:09:24,000

How were the sky conditions that night?

156

00:09:24,000 --> 00:09:25,000

Clear.

157

00:09:25,000 --> 00:09:26,000

Okay.

158

00:09:26,000 --> 00:09:31,000

There was one cloud in the sky and the first cloud we didn't know, we just tell what it was doing.

159

00:09:31,000 --> 00:09:33,000

It started watching it.

160

00:09:33,000 --> 00:09:35,000

There was just one cloud?

161

00:09:35,000 --> 00:09:36,000

Yeah.

162

00:09:37,000 --> 00:09:43,000

It just, when we first saw it, we noticed it in the cloud.

163

00:09:44,000 --> 00:09:49,000

You know, and then we could see it jumping up and down and it started watching it.

164

00:09:49,000 --> 00:09:53,000

You know, it worked for a while and it would go backwards.

165

00:09:54,000 --> 00:09:57,000

That was before it approached the aircraft?

166

00:09:57,000 --> 00:09:58,000

Yeah.

167

00:09:58,000 --> 00:09:59,000

Okay.

168

00:09:59,000 --> 00:10:04,000

It was a weird thing that it probably just shot when I was watching it.

169

00:10:04,000 --> 00:10:11,000

Okay, now when it was jumping up and down, could you compare anything to that movement?

170

00:10:12,000 --> 00:10:18,000

Would this be a, have you ever seen an oscilloscope?

171

00:10:19,000 --> 00:10:20,000

What?

172

00:10:20,000 --> 00:10:21,000

An oscilloscope.

173

00:10:21,000 --> 00:10:22,000

Uh-huh.

174

00:10:22,000 --> 00:10:23,000

Okay.

175

00:10:23,000 --> 00:10:24,000

Okay.

176

00:10:29,000 --> 00:10:33,000

But sometimes you could definitely see it going backwards.

177

00:10:33,000 --> 00:10:34,000

Uh-huh.

178

00:10:34,000 --> 00:10:38,000

And then sometimes it had moved quite a ways.

179

00:10:38,000 --> 00:10:42,000

It's just like snapping the fingers.

180

00:10:42,000 --> 00:10:46,000

It's trying to just really take off.

181

00:10:46,000 --> 00:10:48,000

Just to streak across the sky.

182

00:10:48,000 --> 00:10:49,000

Yeah.

183

00:10:49,000 --> 00:10:54,000

And then it would stop, go backwards, all first.

184

00:10:54,000 --> 00:11:01,000

Okay, now when it was jumping up and down, when it was near that cloud, did it just jump up and down in that one area?

185

00:11:01,000 --> 00:11:05,000

Or was it jumping up and down as it moved across the sky?

186

00:11:06,000 --> 00:11:10,000

It would be jumping up and down and move backwards and shoot ahead all the way.

187

00:11:10,000 --> 00:11:11,000

Oh, I see, okay.

188

00:11:11,000 --> 00:11:16,000

And then when it got to that, underneath that airplane, you know, we could see it heading toward the airplane.

189

00:11:16,000 --> 00:11:22,000

And then when it got by airplane, it just really jumped up the airplane and then back down and took off.

190

00:11:22,000 --> 00:11:24,000

Uh-huh, okay.

191

00:11:25,000 --> 00:11:30,000

Did that light, was when you first saw it, it was in the cloud that you saw?

192

00:11:31,000 --> 00:11:36,000

It was just, you know, I just, I said there was an airplane up there.

193

00:11:36,000 --> 00:11:39,000

And then just happened to be watching it.

194

00:11:39,000 --> 00:11:42,000

And it started doing some backwards and up and down.

195

00:11:42,000 --> 00:11:43,000

Uh-huh.

196

00:11:44,000 --> 00:11:53,000

And then when it did that, when it went up to the airplane, that really got excited.

197

00:11:53,000 --> 00:11:55,000

Okay.

198

00:11:57,000 --> 00:12:00,000

Now, could I get the name of the party that was with you?

199

00:12:00,000 --> 00:12:01,000

The girl.

200

00:12:01,000 --> 00:12:02,000

Uh-huh.
