

1

00:00:00,000 --> 00:00:07,000

Yes, this is Colleagues from the LA County Sheriff's Department. Can you accept charges?

2

00:00:07,000 --> 00:00:08,000

Yes ma'am.

3

00:00:08,000 --> 00:00:09,000

Go ahead, sir.

4

00:00:09,000 --> 00:00:10,000

Good morning.

5

00:00:10,000 --> 00:00:11,000

Yes, sir.

6

00:00:11,000 --> 00:00:12,000

I'm here in LA County Sheriff's Department.

7

00:00:12,000 --> 00:00:13,000

Yes, sir.

8

00:00:13,000 --> 00:00:21,000

I've got an experience Sunday night on the lower California desert where I think I spotted

9

00:00:21,000 --> 00:00:22,000

a UFO.

10

00:00:22,000 --> 00:00:23,000

Okay, let's hear about it.

11

00:00:23,000 --> 00:00:28,000

Well, I've got to believe that there's a logical explanation and yet I can't find one.

12

00:00:28,000 --> 00:00:36,000

We were driving on the old Highway 66 just south of the new highway.

13

00:00:36,000 --> 00:00:37,000

Yes.

14

00:00:37,000 --> 00:00:46,000

14 miles east of Amboy and all of a sudden it, you know, not something that flashed on,

15

00:00:46,000 --> 00:00:54,000

but all of a sudden we were just conscious of a series of lights, yellowish cast to them

16

00:00:54,000 --> 00:01:02,000

that went up into the air from what appeared pretty close to ground level.

17

00:01:02,000 --> 00:01:03,000

Yes.

18

00:01:03,000 --> 00:01:10,000

Went up into the air, bending to the right and then back to the left and up at the top,

19

00:01:10,000 --> 00:01:15,000

like a point.

20

00:01:15,000 --> 00:01:20,000

Depth perception out on the desert at night. This is 20 minutes of night at night.

21

00:01:20,000 --> 00:01:24,000

And our depth perception is practically nothing.

22

00:01:24,000 --> 00:01:33,000

If it was something on the structure, the structure would have to have been within a half of a

23

00:01:33,000 --> 00:01:39,000

mile of us and probably 500 feet tall, three to 500 feet anyway.

24

00:01:39,000 --> 00:01:46,000

If what we saw, the lights were, put, there's say 20 or 30 miles, it would have to be on

25

00:01:46,000 --> 00:01:49,000

a 5000 foot amount.

26

00:01:49,000 --> 00:01:57,000

And the lights, we saw the lights for probably 30 to 40 seconds.

27

00:01:57,000 --> 00:02:05,000

Then the middle section faded slowly. They didn't just disappear, faded slowly.

28

00:02:05,000 --> 00:02:12,000

The bottom section faded out. And then the lights on up to the top of the point faded out

29

00:02:12,000 --> 00:02:16,000

and the point was the last one to fade out.

30

00:02:16,000 --> 00:02:30,000

And there was a full moon and as I continued to drive west, I looked out to the left where we thought we saw these things.

31

00:02:30,000 --> 00:02:35,000

I could see no structure out there and there isn't a mountain within 20 miles.

32

00:02:35,000 --> 00:02:38,000

Okay, did you have a chance to count those lights?

33

00:02:38,000 --> 00:02:43,000

No, I would guess that there would be around 20 to 25.

34

00:02:43,000 --> 00:02:45,000

Okay, they hold a straight line.

35

00:02:45,000 --> 00:02:47,000

And stationary.

36

00:02:47,000 --> 00:02:54,000

Absolutely stationary. That's what makes me think it's on the structure of some kind out there, although I didn't see any structure.

37

00:02:54,000 --> 00:02:56,000

Okay.

38

00:02:56,000 --> 00:03:02,000

They didn't go up, didn't go down, they didn't change in relationship to each other.

39

00:03:02,000 --> 00:03:04,000

Okay, what was the date of that again?

40

00:03:04,000 --> 00:03:16,000

It was Sunday night, which would be the 25th at 8.40.

41

00:03:16,000 --> 00:03:17,000

Okay.

42

00:03:17,000 --> 00:03:19,000

At 9 p.m.

43

00:03:19,000 --> 00:03:21,000

How were the sky conditions?

44

00:03:21,000 --> 00:03:28,000

Very clear. There were some scattered high clouds, but a full moon and extremely clear.

45

00:03:28,000 --> 00:03:31,000

Okay.

46

00:03:31,000 --> 00:03:33,000

Which direction were you looking again?

47

00:03:33,000 --> 00:03:38,000

We were looking almost directly west.

48

00:03:38,000 --> 00:03:44,000

Maybe 10 degrees south of directly west.

49

00:03:44,000 --> 00:03:48,000

The size of those lights, can you compare them with anything?

50

00:03:48,000 --> 00:03:54,000

Well, again, it's hard to say because I have no idea how far they were away from me.

51

00:03:54,000 --> 00:03:55,000

Okay.

52

00:03:55,000 --> 00:04:08,000

They could have, if say it was on a structure that was about a half mile away, they would have been probably 300 watt volts.

53

00:04:08,000 --> 00:04:09,000

Right.

54

00:04:09,000 --> 00:04:21,000

But of course, if it was a distance of several miles, they would have to have been quite big and quite powerful.

55

00:04:21,000 --> 00:04:22,000

Okay.

56

00:04:25,000 --> 00:04:27,000

And my wife also saw this.

57

00:04:27,000 --> 00:04:31,000

And you agreed that what you both saw then?

58

00:04:31,000 --> 00:04:34,000

Well, we didn't talk about it, a great deal.

59

00:04:34,000 --> 00:04:44,000

I purposely didn't because if what we did see is unexplained, whoever investigates it would want to talk to us separately.

60

00:04:44,000 --> 00:04:48,000

Okay. You're with Los Angeles County?

61

00:04:48,000 --> 00:04:50,000

Los Angeles County, sure.

62

00:04:50,000 --> 00:04:51,000

Okay.

63

00:04:51,000 --> 00:04:59,000

I'm sure we appreciate your reporting this and if we get any further information on this, we'll get back to you and let you know.

64

00:04:59,000 --> 00:05:06,000

Okay. It was a big enough phenomenon, whatever you want to call it.

65

00:05:06,000 --> 00:05:15,000

So somebody else in that area, probably out on Highway 66 itself, the new highway, must also have seen it.

66

00:05:15,000 --> 00:05:21,000

And again, of course, if it's a structure out there in the desert that I couldn't see or didn't see, as explained.

67

00:05:21,000 --> 00:05:28,000

Well, of course, if it had been a permanent structure out there, they'd be the most likely that these lights never would have went out.

68

00:05:28,000 --> 00:05:36,000

Well, that's the thing that gets me. They didn't turn out like you would a light bulb.

69

00:05:36,000 --> 00:05:37,000

Right.

70

00:05:37,000 --> 00:05:47,000

They went dim and took, oh, four to six seconds to disappear when they started to dim.

71

00:05:47,000 --> 00:05:48,000

Right.

72

00:05:48,000 --> 00:05:49,000

And they did it one at a time.

73

00:05:49,000 --> 00:05:56,000

Okay. Were they bright enough to illuminate an area around that section?

74

00:05:56,000 --> 00:06:00,000

I couldn't really say.

75

00:06:00,000 --> 00:06:10,000

There again, it was something up in the air, but appeared to go from, there was a mound in front of us.

76

00:06:10,000 --> 00:06:14,000

So we couldn't see at all the way to our desert floor level.

77

00:06:14,000 --> 00:06:15,000

Right.

78

00:06:15,000 --> 00:06:21,000

But it appeared to go from pretty close to the ground up and it is no telling how far away it was.

79

00:06:21,000 --> 00:06:27,000

There was nothing that you could see in between the lights.

80

00:06:27,000 --> 00:06:28,000

Yes.

81

00:06:28,000 --> 00:06:29,000

That's what you're driving.

82

00:06:29,000 --> 00:06:30,000

Right.

83

00:06:30,000 --> 00:06:37,000

Yeah. No, I could see no structure, no form of any kind between the lights.

84

00:06:37,000 --> 00:06:39,000

Okay. Good enough.

85

00:06:39,000 --> 00:06:42,000

All right, sir, we thank you again. We really appreciate your cooperation.

86

00:06:42,000 --> 00:06:43,000

Okay. Thank you.

87

00:06:43,000 --> 00:06:44,000

Right.

88

00:06:44,000 --> 00:06:45,000

Bye.
