

UFO FLEET SPOTTED

ROME, Today (AAP): A fleet of UFOs has been spotted over Chieti in Southern Italy.

Several dozen witnesses said the fleet arrived in neat formation from the south-west, heading for the Gran Sasso mountain. Some of the UFOs were highly luminous discs, emanating blueish rays.

In the autumn of 1977 even the police reported an enormous spacecraft, dotted with lights like a flying skyscraper in the same area.
