

# Alien voice warned of the Frisco earthquake

A GROUP of psychic researchers told *The Globe* about a major earthquake nine weeks before it rocked California last month — and they say this prediction came from an alien circling the Earth.

In November, the group, Search and Prove, claimed it had tape-recorded messages from an alien in the "astral plane" including warnings such as the January quake.

And right on cue, on January 24, an earthquake rocked northern California for more than 20 seconds, swaying tall buildings for hundreds of miles and injuring dozens.

The quake, recorded at 11 a.m., measured 5.5 on the Richter Scale, one of the strongest to hit the area since the Great Earthquake of 1906 leveled much of San Francisco.

The January tremor is not the first thing that has happened that has been told us by the being," said Jim Vogt, a member of the St. Paul, Minnesota, group.

"You can't blame us for not getting very excited about being proven correct, because we knew we would be.

"The information that we are getting is proven to be 100 percent accurate."

And he added: "Now there could be another earthquake."

Vogt said the alien, named Mora, had other forecasts

By CHRIS FORSYTH

for Earth for the next 20 years, including:

Old volcanos will suddenly return to life. "The Japanese volcano, Fuji, is very critical," he said.

There will not be a major nuclear war.

The earth will shift on its axis causing the lost city of Atlantis to rise from the sea.

Vogt, 31, claims Mora passed these predictions on to his group as "a kind of sign to show people that they have to start getting along with each other or suffer the consequences.

"Because all mankind is off the track, some of the things that are going to happen might well be more devastating," he added.

That is especially true for 1982, Vogt said, when the planets begin lining up in order.

"This is going to focus a whole bunch of psychic activity on Earth," he noted.

"None of this activity would harm the earth if the people were in harmony.

"But we're also told that things will get so bad that the military in all the different nations are going to have to step in to restore law

and order."

Vogt said members of the group met Mora last spring, when the alien first guided them around the astral plane.

"Mora speaks to us through a medium, one of our members, Jerry Gross," Vogt continued. "Mora has told us that what was happening on Earth was in danger of jeopardizing the universe.

"He told us that it is time that the hearts and minds of mankind should be opened.

"But he went on to say that it was not desirable that any disaster should befall the Earth."

Vogt also claims Mora told the group that the Earth's axis may be dramatically readjusted before the end of the century.

"The new location of the North Pole will be shifted to Siberia," Vogt noted.

"This will shift the world to the extent that Minnesota, for example, will be down at the latitude where Texas is now."

But Vogt added that Mora has assured them that any readjustments will be smoothed by the protective efforts of UFOs that are already massing around the earth.
