MON 3/31/80

Russian newspapers renewed their attacks on flying-saucer enthusiasts yesterday, insisting that no scientific evidence has confirmed purported sightings of interplanetary visitors or their spacecraft.

PRAVDA devoted nearly half a page to debunking U F O reports, including those that the Soviet Academy of Sciences publishes "special research volumes" presumably in secret—about U F Os. It accused the "boargeois Press" in the West of making sensations out of flying U F O "sightings."—A P.
