“ARE close encounters of the third kind just around the corner?”

This is the question being asked after two possible ‘UFO’ sightings were reported near Galashiels on Sunday.

Mr Stephen Fairclough, 16 Kilknowe Caravan Park, Wood Street, Galashiels told police how he had seen two objects flying in a northwesterly direction at around 6.20 a.m. on Sunday morning.

He was also said to have spotted a single object descending behind a hill near his home at 9.30 p.m. the same night.

So far, no other reports have been received by police.
