

UFO in Michigan Viewed Half-Hour

Gladstone, Mich. (UPI) — Police sighted an unidentified flying object near here early Wednesday. They said it had flashing red, green and blue lights, and a very bright white light.

The object, apparently moving at high speed, making sharp turns and abruptly ascending and descending over the Upper Peninsula community, was seen by officers responding to four UFO sighting reports from citizens. Officers said they observed it for more than a half-hour.

Two officers from the Escanaba Police Department also reported seeing the object. Officials at K.I. Sawyer Air Force Base near Marquette, informed of the sighting, said no aircraft were in or near the Gladstone area at the time.
