THERE was yet another close encounter in the skies over Grimsby and Cleethorpes today – a man reporting having seen a bright object “like a large pair of scissors.”

Mark Finning (21), of 200 Stanley Street, Grimsby, said the sighting had given him the shivers.

“I have never seen anything like it before. I never believed in such things until I saw this,” he told the Evening Telegraph.

Mr. Finning said he had fallen asleep downstairs last night but suddenly woke up at 4 am. “I don’t know what woke me because I usually sleep so heavily. I went straight to the window for some reason.”

The object appeared to be over Cleethorpes but he could see it very clearly.

“I watched it for a while and then at about 4.20 it just vanished. It disappeared in a matter of about three seconds,” he reported.

A few minutes later it was back again, and this time Mr. Finning watched it until about 5 am. He also woke his parents and they saw it too.

“It started rising in the sky as the daylight came up, and it just disappeared,” he added.

Mr. Finning’s sighting comes less than a week after a man said he spotted another strange object in the sky over the Humberston area.
