

Women in 'UFO' terror

TWO terrified women and a distraught taxi driver said yesterday that they had been buzzed by a shimmering silver UFO.

The three saw the brilliant shining object in separate incidents at North Tyneside.

The first encounter left 33-year-old Lilian Middleton frightened and in tears.

She spotted the UFO, about the size of a small car, as she drove along a quiet country road to pick up a stranded friend.

Hovering

Lillian, of Seaton Delaval, said: "It seemed to be hovering above me at roof height. I was near to hysterics. I could hardly bear to look at it."

Later she met a taxi driver who had also been buzzed as he drove along.

In North Shields Eileen Binlu, 20, ran from her Northam Road home in terror as the UFO hovered overhead.

Police reported all the sightings to the RAF.
