

KENT MESSENGER MAIDSTONE 24 DEC 80.

STARS' MAY BE UFOs

FARM worker John Slattery saw stars in the sky — and believes they were unidentified flying objects.

He was working in a hop garden at East Farleigh when he saw tiny stars shooting from what he at first thought was a weather balloon.

Half-an-hour later Mr Slattery, of Lower Road, East Farleigh, saw two large stars with more of the smaller stars drifting away from them.

He said: "I have seen weather balloons before, but never anything like this. I'm convinced they were UFOs."
