

# PRINCELY FILLIP:

AS if he did not have enough on his mind, I hear PRINCE PHILIP's interest in flying saucers is growing.

He has asked the House of Lords UFO Society to let him know in advance of their meetings in the hope that he might attend one.

Such a meeting is being held tonight, when astronomer SIR FRED HOYLE addresses their lordships.

A leading light is the EARL OF CLANCARTY, who says of the Duke's interest: "It has given us a marvellous fillip." Every one a winner.
