Space age convention

The first UFO sightings are being commemorated ~~June 24-28~~ at Ashford, Washington near Mt. Rainier. The geographical location of the famous Kenneth Arnold sighting of nine unknown craft circling the mountain, will be the site, now a land area purchased by the New Age Foundation, Inc. known as Cedar Park Ranch.

This is now being designated as a "historical site" to commemorate the pioneers of recent earth history and especially space pioneers of our time.

It was here that the term,

"Flying Saucers" was born from an interview and news release at Pendleton, Oregon as Arnold returned to his home at Meridian, Idaho from his Civil Air Patrol mission. At this location will convene the 20th Annual Space Age Convention for

the Northwest led by the New Age Foundation and supported by numerous like-minded groups. A (SPLASH) site has been dedicated on the grounds for friendly encounters with Space People, indicating earth man's willingness to understand and cooperate with intelligence and harmony in an inhabited universe. The abbreviated term, (SPLASH) stands for Spacecraft Protective Landing Area for Advancement of Science and Humanities.

The agenda at the 20th annual space age convention is: Since this event thirty-four years ago, millions of sightings have been recorded all over the earth.

June 24 — 11 a.m. Dedication of SPLASH site in commemoration of 34th anniversary of Kenneth Arnold sighting of nine craft, June 24/47.

June 25-26 — Nature walks, work

shops, and Mt. Rainier visitations.

June 27-28 — Speaker agenda and dedication of SPACECRAFT, EARTH. Appointment of its first Mayor, The Honorable Harold R. Price, Tacoma, Wa.

Also, speakers and seminars will be held on: Alternate forms of energy, old and new discoveries; the ancient and the new in space visitation and space lore; good nutrition vs. junk food as a major solution to criminal behavior; man's true destiny in the universe and the freedom to fulfill it, coming new atmospheric and space flight in electra-magnetic craft and gravity breakthrough for future "liftoff"; methods and modes of earth and space communication and channeling of messages; mystic secrets of Mt. Rainier and records repository from earlier culture; and abundance in the universe as a true way of life, man's true heritage.
