

Top Scientist Confirms . . . UFO Terrorizes and Burns Three in Car

By DENNIS NEELD and BOB PRATT

"The whole thing's burning up — oh, my God! It's coming closer! We're going to burn up . . . I know we are!"

"Lord help me — I'm burning up!"

A hypnotized Vickie Landrum was reliving her horrifying encounter with a blazing UFO on a deserted Texas road December 29 — a searing hell on earth that left Vickie, her 7-year-old grandson and a friend suffering the symptoms of radiation poisoning.

Incredibly, in the weeks following their terrifying 15-minute encounter with the huge, fire-belching UFO, all three developed severe burns and blisters, diarrhea, headaches, nausea and severe eye problems — and Vickie's friend, who was burned the worst of the three, spent almost four weeks in a hospital.

To get the complete, horrifying details — and verify the absolute authenticity of her story — The ENQUIRER had Vickie hypnotized by a university professor at her home in Dayton, Tex., in the presence of a top engineer at NASA, who emerged convinced that she's telling the truth.

"There's no doubt in my mind," the engineer declared afterward. "This was genuine! She was reliving the truth."

Under hypnosis, Vickie recalled driving after sunset on a desolate stretch of road about 20 miles northwest of Dayton.

Suddenly Vickie, 57, her grandson Colby and her friend Betty Cash, 52, noticed a glowing object in the sky.

"It's lighting up the whole sky, a long way up, and traveling fast," Vickie said, reliving the experience. "Sometimes we can't see it, the trees are in the way."

Several minutes later, the object suddenly appeared in front of them and hovered over the road.

Betty, who was driving at the time, brought the car to a screeching halt.

The massive, blue and diamond-shaped object was at treetop level, about 100 feet away, with huge red flames shooting from its bottom to the road below.

"We can't get through — it's blocking the road!" Vickie gasped under hypnosis. "It's bigger than a water tower. And it's making a sound like beeping. Long

beeps . . . beep, beep, beep." As she recalled the terrifying close encounter, Vickie clutched compulsively at the front of her blouse, screwing the material into her fist. Her features contorted with fear as she brushed sweat away from her face.

"Long red flames are coming out of the bottom, like a rocket!"

Even though it was just 40 degrees outside, the intense heat from the UFO made the automobile's interior sweltering hot.

Gripped with terror and unable to think clearly, Betty jumped out of the car and into the night air in an attempt to escape the heat, never taking her eyes off the mysterious craft.

"Betty — don't get out! Oh, my God, come back! It's hot, hot!"

"We'll burn up! My eyes — it's hurting my eyes!"

Startled by the UFO, little Colby went berserk. Scream-

heard a loud rushing sound, like air brakes on a truck, as more flames shot toward the road.

Each time the flames shot downward, the object moved up a bit, then settled lower.

"It's going to fall! No — it's lifting, thank God! There's fire at the bottom. It's so hot."

Finally, the object suddenly took off — rising into the air and then zipping away at an incredible speed.

Then came the long ride home. Vickie was convinced they should not tell a soul about anything that had happened.

"Don't tell nobody about it, Colby — they'll think we're crazy. Oh, Betty, they'll think we're crazy . . ."

Almost immediately after returning to Dayton less than an hour later, the three witnesses started to feel sick.

All suffered painful burns, and Vickie's optometrist, Dr. Steve Chandler, reported her eyes were "burned, swollen and extremely irritated."

In the weeks following the terrifying encounter, both the women lost huge amounts of hair.

The agonizing symptoms soon forced Betty to enter Parkway Hospital in Houston, where she remained for almost four weeks.

Hospital records confirm

Betty's mysterious illness — and report "she witnessed a very intense fire-like material" in the sky.

In addition, the hospital records show Betty suffered "bumps under her skin," "hair loss of the scalp" and a "very swollen" face.

"The doctors and nurses kept asking me if I was a burn victim," Betty recalled. "Skin was peeling off my face and arms and legs."

"I was blistered all over. My ears and eyes were so swollen my own family didn't recognize me."

Since that mind-boggling night, little Colby has suffered digestive problems.

"A radiologist who examined the medical records said they apparently were suffering from the symptoms of radiation poisoning," said John Schuessler, an aerospace engineer at NASA studying the case for VISIT, an independent UFO investigating organization.

Schuessler was present at the spine-tingling hypnosis session.

Dr. Leo Sprinkle, Ph.D., who conducted the session, said he's convinced the terrifying details of Vickie's ordeal are for real.

"She had a real experience and I believe the craft was under intelligent control," said Dr. Sprinkle, a professor of counseling services at the University of Wyoming, who has hypnotized scores of UFO eyewitnesses.

Several other witnesses living around Dayton also reported seeing a huge, bright, diamond-shaped flying object that night.

"I consider this a very important case providing physical evidence of the existence of UFOs," declared Schuessler.

"It is one of the most interesting and significant cases that I've ever investigated."
