

# Police cop a giant UFO

An eye-witness drawing of the huge airship.

TWO policemen told yesterday of the UFO they watched for more than 30 minutes.

A "huge airship with lighted compartments" was spotted near a housing estate in Dumfries, Scotland, by Pc Jim Smith after a labourer had reported seeing a strange object.

And ten minutes later, Sergeant Bill McDavid in another car saw the mystery machine. "It was below the clouds, much more vivid and clear than an aircraft," he said.

"There were three lights, then a

blank and then another two, all in line," added Pc Smith, 30, who was accompanied by Policewoman constable Pamela Brown.

They watched as the airship moved slowly above wooded hills near the village of Terregles.

Sergeant McDavid, 39, who was with Pc Kerr Henry, said: "It seemed to be divided into five or six compartments, like an illuminated airship. It seemed to be stationary and there was no sound from it."

Then suddenly it vanished.

Baffled ... Jim Smith
