UFO

here,

there...

PEKING (UPI) — Chinese officials believe that an unidentified flying object spotted over Tibet on July 24 may have been spotted a few hours later halfway around the world above San Diego, Calif.

"The identical observation of the UFO on the opposite sides of the earth on the same day may provide a clue for exploring the UFO puzzle," the official Chinese Xinhua news agency said in a dispatch from Washington.

The agency reported on Aug. 5 that a bright object surrounded by a ring of blue-white light was spotted over Tibet some 11 days earlier.

Another characteristic of the object was that its light was of variable brightness.

The Chinese agency quoted the UFO Education Center in Valley City, Calif., as reporting that an American technician witnessed a similar object the same night.

"It was round or slightly egg-shaped in the center, with well-defined Saturn-like rings," he was quoted as saying. "The ring closest to the craft was an intense blue-white.
