

REDS TO PROBE YORKSHIRE'S UFO MYSTERY

THE Yorkshire UFO mysteries have developed a Red connection.

The unexplained happenings in the tiny Pennine mill town of Todmorden have attracted the attention of Russian scientists.

The two mysterious encounters were reported exclusively in the Sunday Mirror.

The first concerned the death of Polish-born miner Zygmunt Adamski, found in Todmorden with strange burns caused by an unknown substance. He probably died of fright or shock.

Open mind

In the second, Po Alan Godfrey, underwent hypnosis and described being given a medical examination on board a UFO. Now the Sunday Mirror has received a request for information on the Todmorden happenings from the Institute of Clinical and Experimental Medicine in Novosibirsk, Siberia.

The London branch

By JOHN SHEARD

of Novosti, the Soviet information service, said yesterday: "Russian scientists are keeping an open mind about the —UFO phenomenon.

"There have been sightings of strange flying objects over Moscow, Kiev, Omsk, Odessa and other Russian cities.

The spokesman added: "So far there is no evidence that UFOs are manufactured by some alien race.

"There are many, many theories as to what could be causing these sightings."
